Board of Directors

Meeting date: May 20, 2026

Agenda Item #: 15

DRCOG Signal Timing Briefs

Agenda item type: Informational item

Summary
Recently published DRCOG Signal Timing Briefs.

Background
As a benefit of DRCOG membership, DRCOG's Regional Transportation Operations and Technology Program has collaborated with staff at partner jurisdictions to implement the traffic signal timing coordination plan for the following corridor:

- **Tower Road** – Implemented revised signal timing/coordination plans for 28 traffic signals operated by City of Commerce City, City and County of Denver, City of Aurora and the Colorado Department of Transportation.

By decreasing delays at the traffic signals along this corridor, the new coordination plans improve travel time and reduce daily fuel consumption and vehicle emissions, benefitting the residents of the region.

Action by others
None

Previous discussion/action
