

# Appendix B: Peer metropolitan statistical area comparison of the Denver region

The Denver Regional Council of Governments is often used as a benchmark for other rapidly growing regions. For the Comprehensive Economic Development Strategy, DRCOG staff has chosen to use several similarly sized and rapidly growing markets as peers for comparison, including:

- Salt Lake City, Utah.
- Austin-Round Rock-Georgetown, Texas.
- Seattle-Tacoma-Bellevue, Washington.
- Minneapolis-St. Paul-Bloomington, Minnesota-Wisconsin.
- Portland-Vancouver-Hillsboro, Oregon-Washington.

The Denver region incorporates both the Denver-Aurora-Lakewood metropolitan statistical area as well as the Boulder metropolitan statistical area. Both are included in the peer comparison charts that follow.
