

Finance and Budget Committee

Meeting date: November 5, 2025

Agenda Item #: 2 – C

Resolution authorizing the Executive Director to negotiate and execute a contract with the City of Brighton to expand local capacity for implementing building decarbonization, energy efficiency, and sustainable business initiatives in an amount not to exceed \$900,000 with a term ending September 30, 2029.

Agenda item type: Consent agenda

Summary

The City of Brighton's Jurisdictional Subaward will expand local capacity for implementing building decarbonization, energy efficiency, and sustainable business initiatives and increasing staffing capacity.

Background

In October 2024, DRCOG received a \$199.7 million Climate Pollution Reduction Grant from the U.S. Environmental Protection Agency to develop and implement a regional Building Decarbonization Program. A \$39 million component of this program, the Building Policy Collaborative (BPC), supports jurisdictions across the region in adopting and implementing above-code energy policies including performance standards, equipment standards, permitting reforms, and related initiatives.

As part of the Building Policy Collaborative, DRCOG is distributing \$34.8 million in formula-based subawards to eligible jurisdictions through round one of a two-round process. The City of Brighton is requesting their full allotted formula to build internal capacity to develop and implement policies and codes, integrate sustainability into city operations and development processes, and engage the community and regional partners in advancing building decarbonization.

DRCOG staff evaluated the proposal based on adopted criteria, including project eligibility, budget alignment, feasibility, anticipated impact, and monitoring and reporting. The proposal received favorable review and is recommended for funding. This subaward will be fully funded through the Climate Pollution Reduction Grant and will advance DRCOG's regional goals to reduce climate pollution from the building sector.
