

## Board of Directors

Meeting date: July 17,

2024 Agenda Item #: 13

### Northwest Rail Peak Service Study Project Update

Agenda item type: Informational briefing

#### Summary

Regional Transportation District staff will provide a project update for the Northwest Rail Peak Service Study. This includes updates on finalizing the peak service feasibility study, details on identified infrastructure requirements (new stations and track improvements), accessibility compliance, and an overview on community and stakeholder engagement actions.

#### Background

The study continues to define the Base Configuration that would provide Peak Service by coordinating with existing railway operators, evaluating operational requirements, and identifying costs and funding needs. The service delivery area is a 35-mile segment from the existing B Line Westminster Station to a future Longmont Station.

#### Action by others

None

#### Previous discussion/action

[June 20, 2023](#) – Regional Transportation Committee

#### Recommendation

None

#### Attachment

Staff presentation
