

Project Sponsor	Project Title	Project Overview	Recommended Award
Transportation Solutions	Developer TDM and Tenant Engagement	New developments in Cherry Creek will result in additional 15,000 workers to the area. Due to reduced parking requirements, project sponsors propose offering an area-wide TDM program to help workers use alternatives to driving alone.	\$181,940
Northeast Transportation Connections	Northeast Denver Mobility Hub Study	This research project proposes to evaluate strategies for providing equitable, multimodal solutions at the 61 st and Pena and 40 th and Airport RTD station. In addition to studying the Pena Boulevard corridor to identify strategies to reduce SOV trips, sponsors will also look into long-term funding options to support mobility.	\$157,301
Commuting Solutions	Community-Based Strategies to Support TDM Implementation in Broomfield	To support a new development in the northwest region, sponsors propose developing a site-specific, linguistically and culturally relevant education campaign highlighting non-solo driving options to residents in a new complex next to US 36 and Broomfield RTD stations.	\$66,310
Boulder Chamber Boulder Transportation Connections	SB-161 Residential EcoPass Promotion and Support (SB-161 REPS)	Project sponsors propose launching an education and outreach project to promote neighborhood EcoPass among residents of qualifying residential developments. The program will support requirements outlined in Senate Bill 25-161, Transit Reform.	\$103,487
Denver Regional Mobility Access Council	Multimodal Travel Training	The Multimodal Travel Training initiative is a multimodal travel training program with a curriculum designed to make transit and other modes more accessible for older adults, youth and underserved communities, thereby increasing	\$309,309

		ridership to reduce vehicle miles traveled alone.	
Community Cycles	Increasing Bicycle Commuting in Boulder Through Individualized Marketing	By focusing on new and existing bicycle infrastructure in Boulder County, project sponsors will highlight the US 36 multi-use path and will champion use of new bicycle infrastructure under construction on Highway 119 from Longmont to Boulder.	\$93,815
Downtown Denver Partnership	Let's Go! Downtown Denver Outreach Campaign	Through this grant, project sponsors will develop a media campaign to promote and encourage multimodal commute in downtown Denver to support workers currently commuting and those returning to a physical office.	\$122,221
Recommendation total			\$1,034,383
Available funding			\$1,095,000
