

## Board Work Session

Meeting date: June 3, 2026

Agenda Item #: 4

### Front Range Passenger Rail Update

Agenda item type: Discussion

#### Summary

Front Range Passenger Rail District staff will provide a briefing on planning and development of the Colorado Connector front range passenger rail project.

#### Background

Staff from the Front Range Passenger Rail District (The District) will provide an update on the Colorado Connector project, a transportation investment connecting the communities and economic centers of the front range through a modern intercity passenger rail system. This update will include a review of the scope and timeline for the initial phase of the Joint Service partnership with RTD and the State that leverages existing funding sources as well as the later phases of the full build out that would require new funding from a potential ballot question. The District will also provide additional detail about the Local Return program and its benefits for participating municipalities.

#### Action by others

None.

#### Previous discussion/action

[October 15, 2025](#) – Board of Directors.

#### Recommendation

None.

#### Attachment

Front Range Passenger Rail District presentation
