Introduction

The Community Assessment Survey for Older Adults (CASOA™), administered by National Research Center, Inc., provides a statistically valid survey of the strengths and needs of older adults as reported by older adults themselves in communities across America. Used in conjunction with the CASOA *Strategies and Resources Handbook* (provided under separate cover), this report is intended to enable local governments, community-based organizations, the private sector and other community members to understand more thoroughly and predict more accurately the services and resources required to serve an aging population. With this report, Denver Regional Council of Governments Area Agency on Aging (DRCOG) stakeholders can shape public policy, educate the public and assist communities and organizations in their efforts to sustain a high quality of life for older adults. The objectives of the CASOA are to:

- Identify community strengths in serving older adults
- Articulate the specific needs of older adults in the community
- Estimate contributions made by older adults to the community
- Determine the connection of older adults to the community

The results of this exploration will provide useful information for planning and resource development as well as strengthen advocacy efforts and stakeholder engagement. The ultimate goal of the assessment is to create empowered communities that support vibrant older adult populations.

The CASOA questionnaire contains many questions related to the life of older residents in the counties served by DRCOG (Adams, Arapahoe, Clear Creek, Douglas, Gilpin, and Jefferson Counties, as well as the City and County of Broomfield and the City and County of Denver). Survey participants were asked to rate their overall quality of life, as well as aspects of quality of life in Denver Metro Region. They also evaluated characteristics of the community and gave their perceptions of safety. The questionnaire was used to assess the individual needs of older residents and involvement by respondents in the civic and economic life of the Denver Metro Region. This report provides the results for the City of Aurora.

Study Methods

The CASOA survey and its administration are standardized to assure high quality survey methods and comparable results across communities. Participating households with residents 60 years or older were selected at random and the household member who responded was selected without bias. Multiple mailings gave each household more than one prompt to participate with a self-addressed and postage-paid envelope to return the survey. Results were statistically weighted to reflect the proper demographic composition of older adults in the entire community.

The survey was mailed on May 7, 2018 to a random selection of 10,400 older adult households in DRCOG's service area. Older adult households were contacted three times about participation in the survey. A total of 1,246 completed surveys was obtained, providing an overall response rate of 12% and a margin of error of plus or minus 3% around any given percent and two points around any given average rating for the entire sample. A total of 76 completed surveys was received for Aurora for a response rate of 9% and a margin of error of plus or minus 11% around any given percent and seven points around any given average rating for all Aurora respondents.

For additional methodological information, refer to *Appendix B: Survey Methodology*.

Figure 1: CASOA Methods and Goals

Assessment Objectives	Assessment Methods
• Identify community strengths and weaknesses • Articulate the specific needs of older adults in the community • Develop estimates and projections of resident need in the future	• Multi-contact mailed survey • Random sample of households of residents aged 60+ • Data statistically weighted to reflect population

Structure of CASOA Report

This report is based around six community dimensions (Figure 2):

- Overall Community Quality
- Community and Belonging
- Community Information
- Productive Activities
- Health and Wellness
- Community Design and Land Use

Each section discusses older adult ratings of the community, participation in activities and potential problems faced by older adults as related to each of the six dimensions. The final section of the report, Community Readiness, summarizes these dimensions as index scores and provides an overall picture of the City of Aurora as a livable community for older adults.

Figure 2: Community Dimensions Assessed through CASOA

Overall Community Quality	• Community as a place to live and retire • Recommend community to others • Residential stability
Community and Belonging	• Sense of community • Overall safety • Valuing older residents in community • Crime victimization and abuse
Community Information	• Availabilty of information about older adult resources • Financial or legal services
Productive Activities	• Civic engagement - volunteerism, voting, civic attentiveness • Social engagement - social and religious activities • Recreation - recreational activities, personal enrichment • Caregiving - providing care for children or adults • Economic contribution - the dollar value of activities
Health and Wellness	• Physical health - physical fitness, fitness opportunities, diet • Mental health - emotional well being, quality of life, confusion • Health care - health services, medications, oral and vision care • Independent living - activities of daily living, hospitalizations
Community Design and Land Use	• Housing variety and availability • Ease of travel by car, foot and bus • Access to daily needs • Overall quality of life

"Don't Know" Responses and Rounding

On many of the questions in the survey, respondents could provide an answer of "don't know." The proportion of respondents giving this reply is shown in the full set of responses included in *Appendix A: Complete Set of Survey Responses*. However, these responses have been removed from the analyses presented in the body of the report, unless otherwise indicated. In other words, the majority of the tables and graphs in the body of the report display the responses from respondents who had an opinion about a specific item.

For some questions, respondents were permitted to select multiple responses. When the total exceeds 100% in a table for a multiple response question, it is because some respondents are counted in multiple categories. When a table for a question that only permitted a single response does not total to exactly 100%, it is due to the customary practice of rounding percentages to the nearest whole number.

Benchmark Comparison Data

NRC has developed a database that collates responses to CASOA and related surveys administered in other communities, which allows the results from DRCOG to be compared against a set of national benchmarks. This benchmarking database includes responses from more than 35,000 older adults (age 55 and over) in over 175 communities across the nation. The demographics of NRC's database match the demographics in the nation, based on the U.S. Census estimates.

Ratings are compared when similar questions are included in NRC's database, and there are at least five other communities in which the question was asked. Where comparisons for ratings were available, DRCOG's results are generally discussed in the report as being "higher" than the benchmark, "lower" than the benchmark or "similar" to the benchmark. In instances where ratings are considerably higher or lower than the benchmark, these ratings have been further demarcated by the attribute of "much," (for example, "much higher" or "much lower"). Detailed benchmark information can be found in *Appendix C: Benchmark Comparisons*.

Key Findings

Not all older adults complain, nor does every community leave older adults raving about the quality of community life or the services available for active living and aging in place. Communities that assist older adults to remain or become active community participants provide the requisite opportunities for recreation, transportation, culture, education, communication, social connection, spiritual enrichment and health care.

Further, older adults, more than others, face difficulties with aspects of everyday life. For many older adults these difficulties vastly exceed the minor physical pains or small losses of function that characterize almost everyone's circumstances after a certain age. When individual problems are added together, a group picture emerges that provides a useful description of the entire community.

The results of this survey describe the City of Aurora as a livable community for older adults within six community dimensions of Overall Community Quality, Community and Belonging, Community Information, Productive Activities, Health and Wellness and Community Design and Land Use. The extent to which older adults experience difficulties and problems within these dimensions is also described.

Overall Community Quality

Overall Community Quality explores how older residents view the community overall, how connected they feel to the community and how well they can access information and services offered by DRCOG, as well as how likely residents are to recommend and remain in the community.

- Most of DRCOG's older residents gave high ratings to the community as a place to live.
- Over 8 in 10 older adults would recommend the City of Aurora to others.
- About half of respondents had lived in the community for more than 20 years and three-quarters planned to stay in the community throughout their retirement.
- When compared to other communities across the nation, City of Aurora older residents tended to rate aspects of Overall Community similarly.

Community and Belonging

A "community" is often greater than the sum of its parts, and having a sense of community entails not only a sense of membership and belonging, but also feelings of emotional and physical safety, trust in the other members of the community and a shared history.[1] Older residents rated several aspects of Community and Belonging, including their sense of community and overall feelings of safety, as well as the extent to which they felt accepted and valued by others.

- About two-thirds of respondents reported "excellent" or "good" overall feelings of safety and between 10% and 39% had experienced safety problems related to being a victim of crime, abuse, fraud or discrimination.
- About 5 in 10 older residents rated the sense of community as "excellent" or "good"; similar ratings were provided for the AAA's neighborliness and valuing of older residents.
- When compared to other communities in the U.S., older residents in the City of Aurora provided similar or lower ratings for aspects of Community and Belonging.

Community Information

The education of a large community of older adults is not simple, but when more residents are made aware of attractive, useful and well-designed programs, more residents will benefit from becoming participants.

- About 5 in 10 survey respondents reported being "somewhat" or "very" informed about services and activities available to older adults, which was similar to reports from other communities in the U.S.
- Just over half of older adults gave "excellent" or "good" ratings to the availability of information about older adult resources and financial or legal planning services.
- About two-thirds of respondents had problems knowing what services were available and 54% had concerns about their voice being heard in the community.
- Just over one-third reported having problems with finding meaningful volunteer work, a rate that was similar in the City of Aurora to other communities.

Productive Activities

Productive activities such as traditional and non-traditional forms of work and maintenance of social ties combine with health and personal characteristics to promote quality of life in later life and contribute to active aging.[2] Productive Activities examined the extent of older adults' engagement participation in social and leisure programs and their time spent attending or viewing civic meetings, volunteering or providing help to others.

- Almost 9 in 10 elders felt they had "excellent" or "good" opportunities to volunteer 40% participated in some kind of volunteer work, a volunteer rate similar to other communities in the U.S.
- About 2 in 10 respondents had used a senior center in the community, which was similar when compared to senior center use in other communities.
- About 5 in 10 seniors said that they had at least "minor" problems having interesting social events or activities to attend.
- The majority of older residents (79%) rated the recreation opportunities in the City of Aurora as "excellent" or "good"; participation in recreational and personal enrichment activities tended to be higher in the City of Aurora than in other communities.
- About 4 in 10 older residents in the City of Aurora said they were caregivers; respondents averaged between 3 and 12 hours per week providing care for children, adults and older adults.
- About one-quarter of older adults in the City of Aurora felt physically, emotionally or financially burdened by their caregiving.
- About two-thirds of respondents were fully retired and 4 in 10 respondents experienced at least minor problems with having enough money to meet daily expenses.
- The value of paid (part- and full-time work) and unpaid (volunteering, providing care) contributions by older adults in the City of Aurora totaled about $1.4 billion in a 12-month period.

Health and Wellness

Of all the attributes of aging, health poses the greatest risk and the biggest opportunity for communities to ensure the independence and contributions of their aging populations. Health and wellness, for the purposes of this study, included not only physical and mental health, but issues of independent living and health care.

- Overall, the older adults in the City of Aurora rated aspects of physical health higher than other communities in the U.S. including ratings of fitness opportunities and their own overall physical health.
- The proportions of older residents reporting problems with doing heavy or intense housework (62%) and maintaining their yards (43%) was similar in the City of Aurora to elsewhere in the country while staying physically fit (69%) was higher.
- About 5 in 10 older residents felt there was "excellent" or "good" availability of mental health care in the City of Aurora while over 8 in 10 rated their overall mental health/emotional wellbeing as "excellent" or "good."

- The most commonly cited mental health issues included feeling bored (48%) and dealing with the loss of someone close (48%), while the least cited issues included figuring out which medications to take and when (8%) and experiencing confusion or forgetfulness (25%); these mental health problems experienced by older adults tended to be similar to the problems experienced by older adults in other communities.
- Preventive health services were rated similar to the services provided by Aurora's peers.
- About half of older adults reported at least minor problems with having adequate information or dealing with public programs such as Social Security, Medicare and Medicaid.
- One-quarter of respondents reported spending time in a hospital and the same proportion had fallen and injured themselves in the 12 months prior to the survey. Falls and hospitalizations occurred at similar rates in the City of Aurora to other communities.
- At least 3 in 10 older adults reported at least minor problems with aspects of independent living, including 30% who reported having problems with performing regular activities, including walking, eating and preparing meals.

Community Design and Land Use

The movement in America towards designing more "livable" communities – those with mixed-use neighborhoods, higher-density development, increased connections, shared community spaces and more human-scale design – will become a necessity for communities to age successfully. Communities that have planned for older adults tend to emphasize access – a community design that facilitates movement and participation.

- Respondents rated the ease of getting to the places they usually have to visit, ease of car travel and ease of walking most positively with about 7 in 10 rating each as "excellent" or "good."
- Only about 1 in 10 respondents felt they had "excellent" or "good" availability of affordable quality housing and 36% thought there was a good variety of housing options.
- Some older adults experienced problems with having safe and affordable transportation available (25%) while others experienced problems with having housing to suit their needs (18%) or having enough food to eat (11%). Daily living problems tended to be similar in the City of Aurora when compared to other communities across the nation.
- Over three-quarters of older residents rated their overall quality of life as "excellent" or "good", the City of Aurora's quality of life was rated similar to other communities in the U.S.
C A S O A   S u r v e y   R e s u l t s

Overall Community Quality

The CASOA survey contained a number of questions related to the life of older residents in the community. This section of the report explores aspects of the overall quality of the community by examining how older residents view the community overall, how connected they feel to the community and how well they can access information and services offered by DRCOG. Survey participants rated the community as a place to live and to retire as well as the overall quality of services provided to older adults. As further testament to the quality of a community respondents indicated how likely they would be to not only recommend the community to other older adults but also how likely they would be to remain in the community throughout their retirement.

Most of the City of Aurora's older residents gave high ratings to the community as a place to live. Services offered to older adults were considered "excellent" or "good" by about half of older residents. Overall, 85% of older adults said they would recommend the community to others. Most residents had lived in the area more than 20 years and three-quarters of seniors planned to remain in the area throughout their retirement. Generally, residents were equally as likely to rate these aspects of the community as "excellent" or "good" as other older adults across the nation (see *Appendix C: Benchmark Comparisons* for details).

Figure 3: The City of Aurora as a Place for Older Residents

	2018
COMMUNITY QUALITY	
Community as a place to live	86%
Community as a place to retire	71%
Overall quality of services provided to adults age 60 and older	52%
LONGEVITY	
Recommend living in community to older adults	85%
Remain in community throughout retirement	76%
Lived in community for more than 20 years	51%

Percent rating positively (e.g. excellent or good, very or somewhat likely)
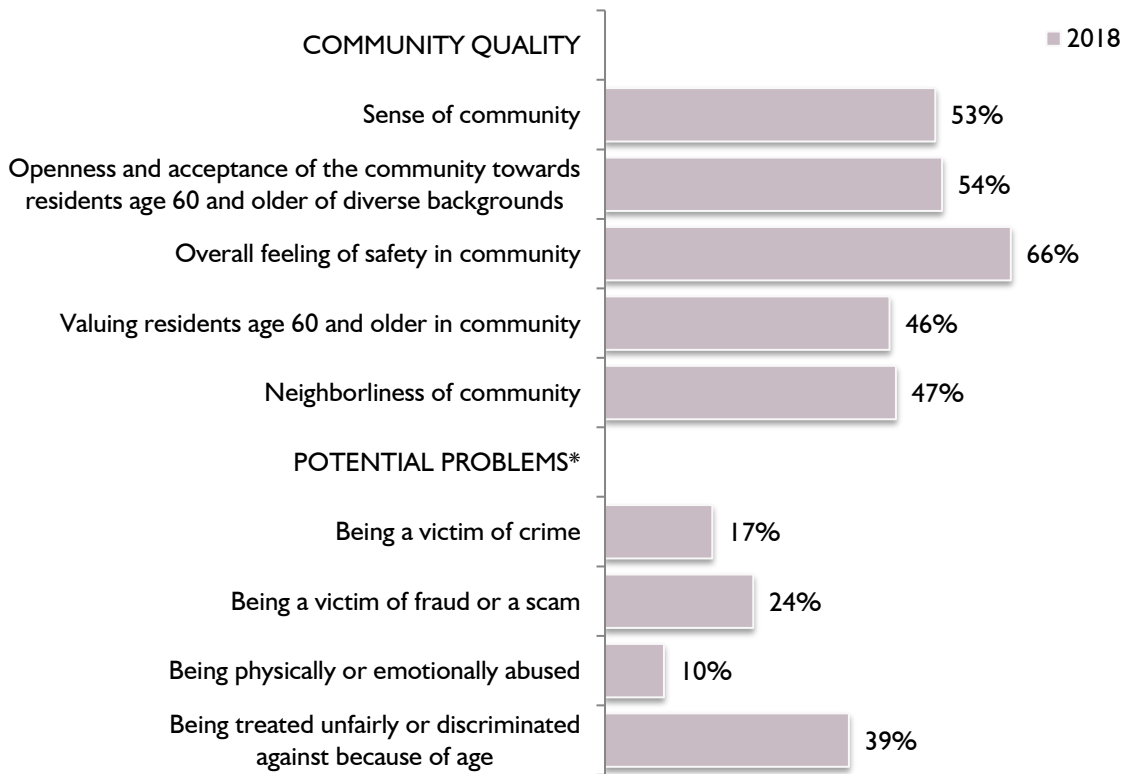

Community and Belonging

A "community" is often greater than the sum of its parts, and having a sense of community entails not only a sense of membership and belonging, but also feelings of emotional and physical safety, trust in the other members of the community and a shared history.[1] Older residents rated several aspects of Community and Belonging, including their sense of community and overall feelings of safety, as well as the extent to which they felt accepted and valued by others.

Overall, older residents rated Community and Belonging in the City of Aurora moderately. Just under half felt the community valued older residents and slightly more felt the community was open and accepting of diverse older residents. A moderate proportion of seniors reported problems with crime or abuse in the 12 months prior to the survey. When compared to other communities in the U.S., older residents in DRCOG's service area provided similar or lower ratings for aspects of Community and Belonging (see *Appendix C: Benchmark Comparisons* for details).

Figure 4: Older Adult Ratings of Community and Belonging in the City of Aurora

COMMUNITY QUALITY · 2018

Sense of community	53%
Openness and acceptance of the community towards residents age 60 and older of diverse backgrounds	54%
Overall feeling of safety in community	66%
Valuing residents age 60 and older in community	46%
Neighborliness of community	47%

POTENTIAL PROBLEMS*

Being a victim of crime	17%
Being a victim of fraud or a scam	24%
Being physically or emotionally abused	10%
Being treated unfairly or discriminated against because of age	39%

Percent rating positively (e.g. excellent or good, very or somewhat likely)
*Percent rating as at least a minor problem

Community Information

Sometimes residents of any age fail to take advantage of services offered by a community just because they are not aware of the opportunities. The education of a large community of older adults is not simple, but when more residents are made aware of attractive, useful and well-designed programs, increasing numbers of residents will benefit from becoming participants. In the City of Aurora, 54% of survey respondents reported being "somewhat" or "very" informed about services and activities available to older adults.

Older residents who may not know how to access services may have trouble finding ways to contribute to the community. In the City of Aurora, about two-thirds had problems knowing what services were available. The proportion of older adults who had problems in these areas was generally similar to other communities across the country (see *Appendix C: Benchmark Comparisons* for details).

Figure 5: Community Information in the City of Aurora

Percent rating positively (e.g. excellent or good, very or somewhat informed)
*Percent rating as at least a minor problem

Productive Activities

Productivity is the touchstone of a thriving old age. Productive activities such as traditional and non-traditional forms of work and maintenance of social ties combine with health and personal characteristics to promote quality in later life and contribute to active aging.[2] This section of the report examines the extent of older adults' engagement in the City of Aurora as determined by their participation in social and leisure programs and their time spent attending or viewing civic meetings, volunteering and/or providing help to others. The economic value of these contributions to the community is explored as well.

Civic Engagement

In communities where residents care about local politics and social conditions, where they feel engaged and effective, there is greater social, economic and cultural prosperity. Civic activity, whether volunteering, participating in religious or political groups or being active in community decision-making, not only provides benefit to communities but also serves seniors themselves, namely, civically engaged seniors are less likely to become injured or to die prematurely.[3]

In the City of Aurora, a majority of older residents rated the opportunities to volunteer favorably and 40% participated in some kind of volunteer work, a volunteer rate similar to other communities in the U.S.

Figure 6: Civic Engagement in the City of Aurora

Percent rating positively (e.g. excellent or good)
**Percent at least once, ever or always or usually
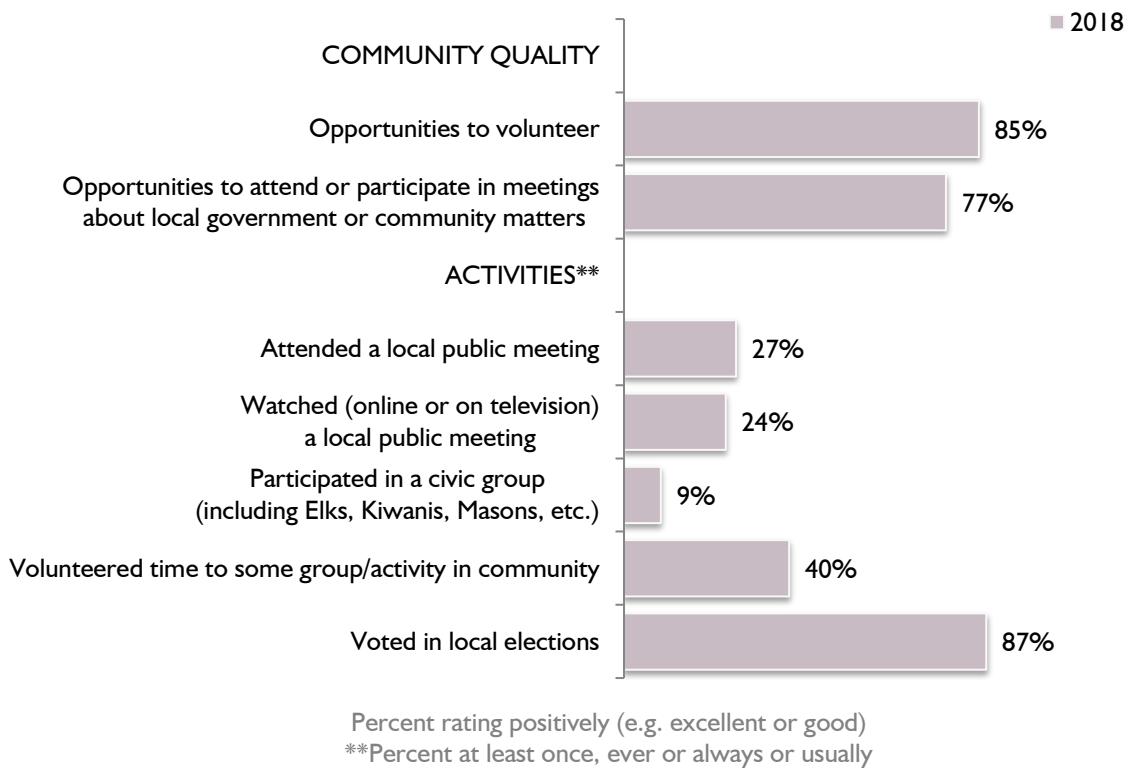

Social Engagement

Communities are the foundation for social life. Sociologist Eric Klinenberg describes communities as "the soil out of which social networks grow and develop or, alternatively, wither and devolve."[4] DRCOG has a great potential to strengthen the community by fostering increased social engagement of its older residents.

About 6 in 10 older residents rated opportunities to attend social activities as "excellent" or "good" and a higher proportion rated opportunities to attend religious or spiritual activities this way. About 5 in 10 seniors said that they had at least "minor" problems having interesting social events or activities to attend. About 6 in 10 older residents engaged in religious or spiritual activities while 3 in 10 participated in clubs. Use of a senior center (20% of respondents), which can often serve as a social hub for many seniors, was similar compared to senior center use in other communities (see *Appendix C: Benchmark Comparisons*).

Figure 7: Social Engagement in the City of Aurora

*Percent rating as at least a minor problem
**Percent at least once or ever

Recreation

Once work becomes a part-time endeavor or thing of the past, residents have the time for and require the health benefits from regular leisure activities, including the stimulation derived from personal enrichment. Ample opportunities for these activities make a community more attractive to its residents. Most older residents in the City of Aurora viewed both recreation opportunities and opportunities to enroll in skill-building or personal enrichment classes favorably.

Older residents were most likely have visited a neighborhood park and used a public library and least likely to have used a recreation center or participated in a recreation program or group activity. Forty-four percent of seniors said that they had at least "minor" problems with having interesting recreational or cultural activities to attend. Respondents rated aspects of recreation similar to or higher than other communities across the country (see *Appendix C: Benchmark Comparisons* for details).

Figure 8: Recreational and Personal Enrichment in the City of Aurora

Caregiving

More than 10 million people nationwide have disabling conditions that affect their ability to live independently[5] and almost 80% of these residents are seniors. Those who provide care to a loved one or friend with such a condition often feel a sense of contribution and personal worth despite the physical, emotional and financial burden such care can produce. While care is most often provided by family members and is unpaid, its value has been estimated at $350 billion annually.[6]

Overall, 42% older residents in the City of Aurora said they were providing care for others and 22% were the recipients of care. Survey participants rated the extent to which they experienced physical strain, emotional stress or financial hardship as a result of being a caregiver. Generally, about one-quarter felt burdened by their caregiving responsibilities, providing about 12 hours of care to other older adults each week on average.

Economic Contribution

Recent studies have estimated that 70-80% of those 45 and older plan to continue working in their "retirement" years for a number of reasons including financial stability, the enjoyment of work and the desire to try something new.[7] About 64% of older residents were still working full- or part-time. For those respondents who had not retired, the average age of expected retirement was 70 years old.

Regardless of residents' work status, 4 in 10 experienced at least "minor" problems with having enough money to meet daily expenses and 27% has some challenge affording their property taxes. Further, about 36% had problems with finding work in retirement and 21% had problems with building skills for paid or unpaid work. The proportions of older adults that had financial problems (paying daily expenses or property taxes) were similar in the City of Aurora to other communities (see *Appendix C: Benchmark Comparisons* for details).

Figure 10: Employment in the City of Aurora

Productive behavior is "any activity, paid or unpaid, that generates goods or services of economic value."[2] Productive activities include both paid and unpaid work of many kinds as well as services to friends, family or neighbors. Older adults provide significant contributions (paid and unpaid) to the communities in which they live. In addition to their paid work, older adults contributed to the City of Aurora's economy through volunteering, providing informal help to family and friends and caregiving. The value of these paid and unpaid contributions totaled nearly $1.4 billion in a 12-month period (see *Appendix B: Survey Methodology* for additional detail).

Figure 11: Economic Contribution of Older Adults in the City of Aurora

	Paid	Unpaid	
2018	$910,789,568	$503,667,594	$1,414,457,162

Health and Wellness

A growing senior population needs community supports to maintain the health and independence of its members. Health and wellness for the purposes of this study included not only physical and mental health, but issues of independent living and health care.

Physical Health

Across the City of Aurora, about 9 in 10 older residents felt they had good fitness opportunities (including exercise classes and paths or trails, etc.), while 52% felt they had good access to quality physical health care (see Figure 12). Most older residents rated their overall physical health as "excellent" or "good" with about many participating in healthy activities such as eating fruits and vegetables (33%) and exercising regularly (49%).

Respondents reported the extent to which they had experienced problems with various physical health-related issues in the 12 months prior to the survey. The most commonly cited problems included staying physically fit, physical health and doing heavy or intense housework. The proportions of older residents reporting physical health problems tended to be similar in the City of Aurora to elsewhere (see *Appendix C: Benchmark Comparisons*).

Mental Health

In addition to rating aspects of physical health, older residents provided insight into their mental health. About 5 in 10 older residents felt there was "excellent" or "good" availability of mental health care in the City of Aurora while close to 9 in 10 rated their overall mental health/emotional wellbeing as "excellent" or "good."

While few older adults reported poor emotional wellbeing, they still reported at least "minor" problems with some aspects of their mental health. The most commonly cited mental health issues included dealing with the loss of someone close or feeling bored, while the least cited issues included figuring out which medications to take and when and experiencing confusion or forgetfulness. The proportion of people experiencing these aspects of mental health in the City of Aurora tended to be similar to other communities across the nation (see *Appendix C: Benchmark Comparisons* for details).
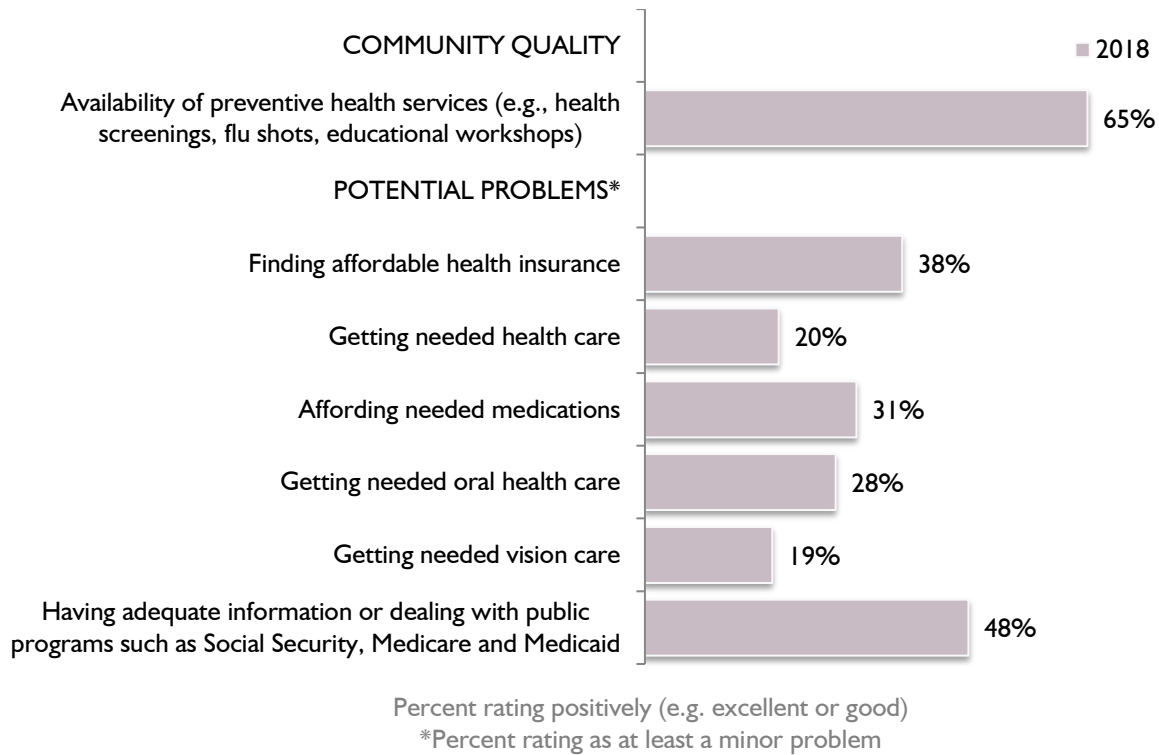

Figure 13: Mental Health in the City of Aurora

Percent rating positively (e.g. excellent or good)
*Percent rating as at least a minor problem
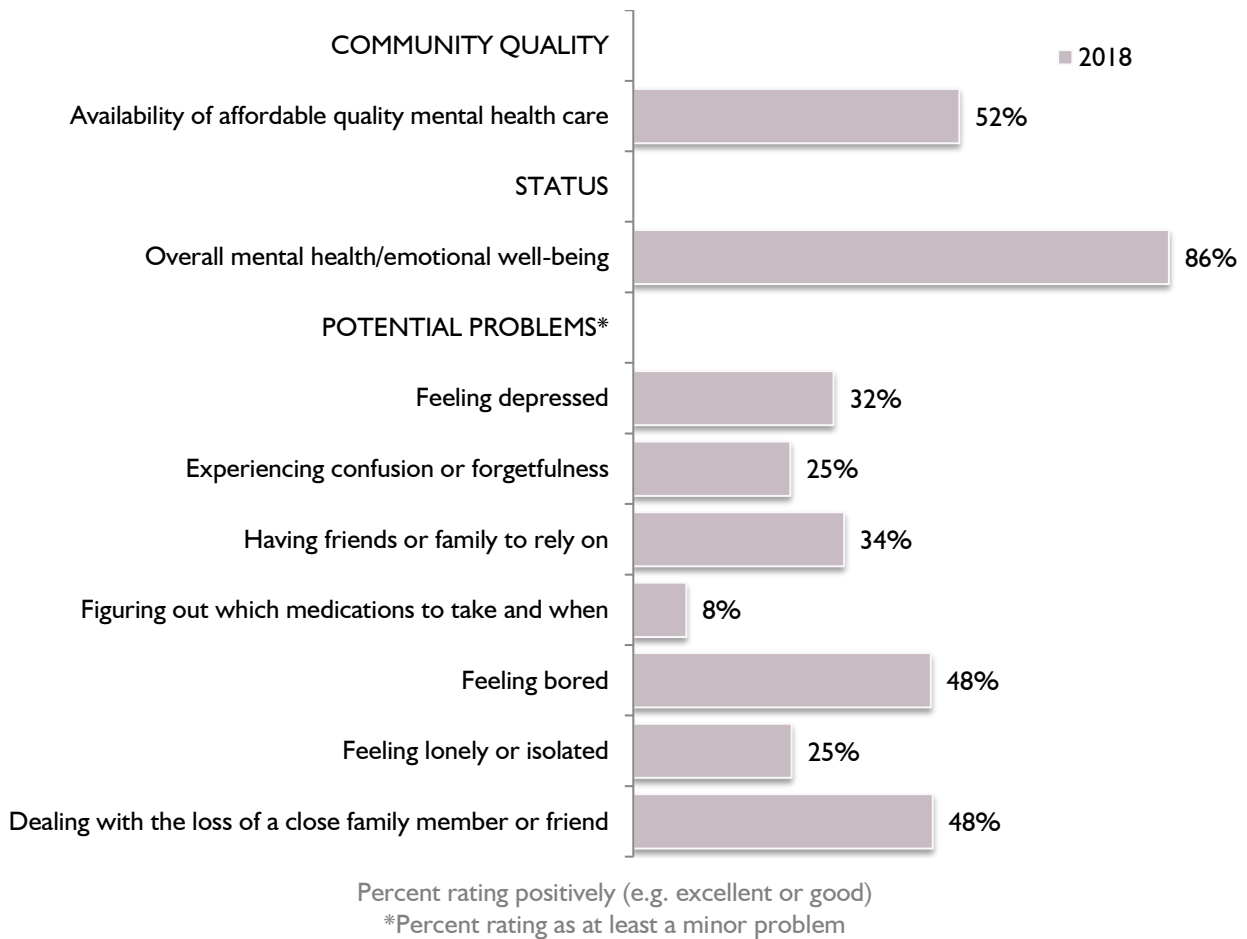

Health Care

About 65% of the City of Aurora's older residents rated the availability of preventive health services favorably. Compared to other communities across the nation, elders rated the availability of preventive health services in the City of Aurora similar to the availability of these services found elsewhere (see *Appendix C: Benchmark Comparisons* for details).

The most commonly cited health care issues included finding affordable health care and having adequate information or dealing with public programs such as Social Security, Medicare and Medicaid. About 3 in 10 City of Aurora older residents reported issues with getting needed care (i.e., health, oral and vision).

Figure 14: Health Care in the City of Aurora

Having adequate information or dealing with public programs such as Social Security, Medicare and Medicaid — 48%

Percent rating positively (e.g. excellent or good)
*Percent rating as at least a minor problem

Independent Living

For those unable to live independently (either temporarily or permanently), having care options available could mean the difference between remaining in or leaving the community. About half of the City of Aurora's older residents rated the availability of long-term care and daytime care options favorably. As for hospitalizations, one-quarter of respondents reported spending time in a hospital and had fallen and injured themselves in the 12 months prior to the survey.

Overall, about 3 in 10 older adults reported at least "minor" problems with aspects of independent living. Notably, 30% reported having problems with performing regular activities, including walking, eating and preparing meals. Aspects of independent living tended to be similar in the City of Aurora to peer communities (see *Appendix C: Benchmark Comparisons* for details).

Figure 15: Independent Living in the City of Aurora

Percent rating positively (e.g. excellent or good)
*Percent rating as at least a minor problem
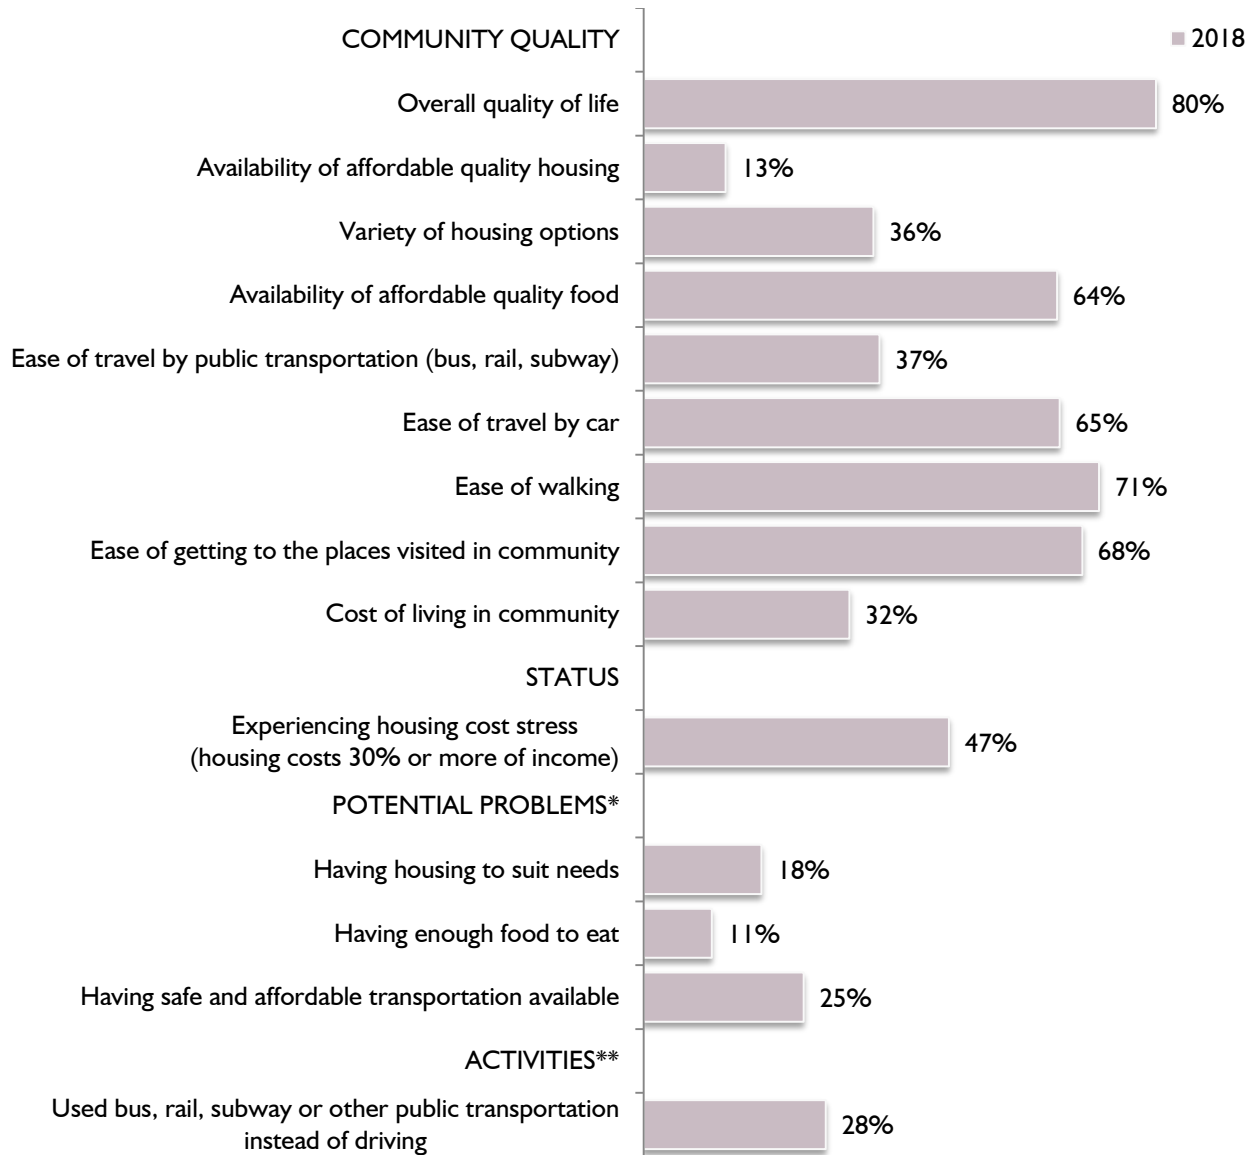

Community Design and Land Use

The movement in America towards designing more "livable" communities – those with mixed-use neighborhoods, higher-density development, increased connections, shared community spaces and more human-scale design – will become a necessity for communities to age successfully. Generally, communities that have planned for older adults tend to emphasize access and to facilitate movement and participation by locating services in or close to residences, providing convenient transportation alternatives and making walking routes attractive.

Ultimately, communities that have planned well by promoting mobility, independence and meaningful engagement of its older residents provide a high quality of life for their residents of all ages. In the City of Aurora, 8 in 10 older residents rated their overall quality of life as "excellent" or "good" (see Figure 16). The City of Aurora's elders' quality of life was rated similar to other communities in the U.S. (see *Appendix C: Benchmark Comparisons* for details).

Only 13% of older residents felt they had good access to affordable quality housing, while 64% had good access to affordable quality food; about 32% felt positively about the cost of living in the community. Generally, aspects of motorized transportation (ease of bus, car and public transportation) in the City of Aurora received ratings similar to communities across the U.S., while aspects of housing (affordable quality and variety) were less favorable (see *Appendix C: Benchmark Comparisons* for details). About 3 in 10 survey respondents reported having used bus, rail, subway or other public transportation instead of driving.

One-quarter or fewer of older adults experienced problems related to basic necessities of daily living including having safe and affordable transportation, having housing to suit their needs or having enough food to eat. Daily living problems tended to be similar in the City of Aurora when compared to other communities across the nation (see *Appendix C: Benchmark Comparisons* for details).

Figure 16: Community Design and Land Use in the City of Aurora

COMMUNITY QUALITY ■ 2018

- Overall quality of life — 80%
- Availability of affordable quality housing — 13%
- Variety of housing options — 36%
- Availability of affordable quality food — 64%
- Ease of travel by public transportation (bus, rail, subway) — 37%
- Ease of travel by car — 65%
- Ease of walking — 71%
- Ease of getting to the places visited in community — 68%
- Cost of living in community — 32%

STATUS

- Experiencing housing cost stress (housing costs 30% or more of income) — 47%

POTENTIAL PROBLEMS*

- Having housing to suit needs — 18%
- Having enough food to eat — 11%
- Having safe and affordable transportation available — 25%

ACTIVITIES**

- Used bus, rail, subway or other public transportation instead of driving — 28%

Percent rating positively (e.g. excellent or good)
*Percent rating as at least a minor problem
**Percent at least once or ever

Community Readiness

Communities that assist older adults to remain or become active community participants provide the requisite opportunities for recreation, transportation, culture, education, communication, social connection, spiritual enrichment and health care. It is not a package mix, so each community must identify what its older adults seek and what the community provides. The judgments of the residents for whom community planning takes place provide the elements of an equation that describes overall community quality in the City of Aurora (Figure 17).

The following section of this report summarizes how older residents view the City of Aurora as a community that creates a thriving environment for its older adults within the six community dimensions of Overall Community Quality, Community and Belonging, Community Information, Productive Activities, Health and Wellness and Community Design and Land Use.

Further, older adults, more than others, face difficulties with aspects of everyday life. For many older adults these difficulties vastly exceed the minor physical pains or small losses of function that characterize almost everyone's circumstances after a certain age. When individual problems are added together, a group picture emerges that provides a useful description of the entire community. Nationally, areas where older adults face the largest share of life's challenges include caregiving, health and mental health, in-home support, nutrition and food security and transportation. This study also explored specific problems or stressors encountered by older adults in DRCOG's service area, such as physical and emotional difficulties and injuries that have compromised their independence. Within the five community dimensions of Community and Belonging, Community Information, Productive Activities, Health and Wellness and Community Design and Land Use, the magnitude of these individual-level needs is presented (Figure 19), culminating in an exploration of high-risk populations (Figure 20).

Opportunities and Challenges

Survey respondents were asked to rate a number of aspects of the community which were converted to an average scale of 0 (the lowest rating, e.g., "poor") to 100 (the highest rating, e.g., "excellent") and then combined to provide one overall rating (index[1]) for each of the six dimensions of Community Readiness. (For more information on how the summary scores were calculated see *Appendix B: Survey Methodology*.)

Summary scores provide a broad picture of the perceived fit between what DRCOG offered to older adults in the City of Aurora and what older residents needed:

- Older residents felt their needs were best met in the areas of Overall Community Quality and Productive Activities
- Community Information and Community Design and Land Use were rated less favorably and received the lowest average ratings

Figure 17: City of Aurora Community Readiness Chart

63 — **Overall Community Quality**
Place to live and retire
Quality of services to older adults
Recommend and remain in community

53 — **Community and Belonging**
Sense of community
Openness and acceptance
Neighborliness and safety

45 — **Community Information**
Older adult resources
Legal or financial planning
Finding meaningful activities

65 — **Productive Activities**
Civic engagement needs
Social engagement needs
Recreation needs
Caregiver burden
Financial and legal needs

54 — **Health and Wellness**
Physical and mental health
Health care
Independent living

48 — **Community Design and Land Use**
Travel by bus, car and foot
Getting to places of daily activity
Variety and affordability of housing

Scale: 0=Lowest/most negative, 100=Highest/most positive

---

[1] These ratings are not to be understood like ratings from school tests. Because they are summaries of several questions that range from 0 as "poor," 33 as "fair," 66 as "good" and 100 as "excellent", a score of 58, as one example, should be interpreted as closer to "good" than "fair" (with the midpoint of the scale, 50, representing equidistance between "good" and "fair").
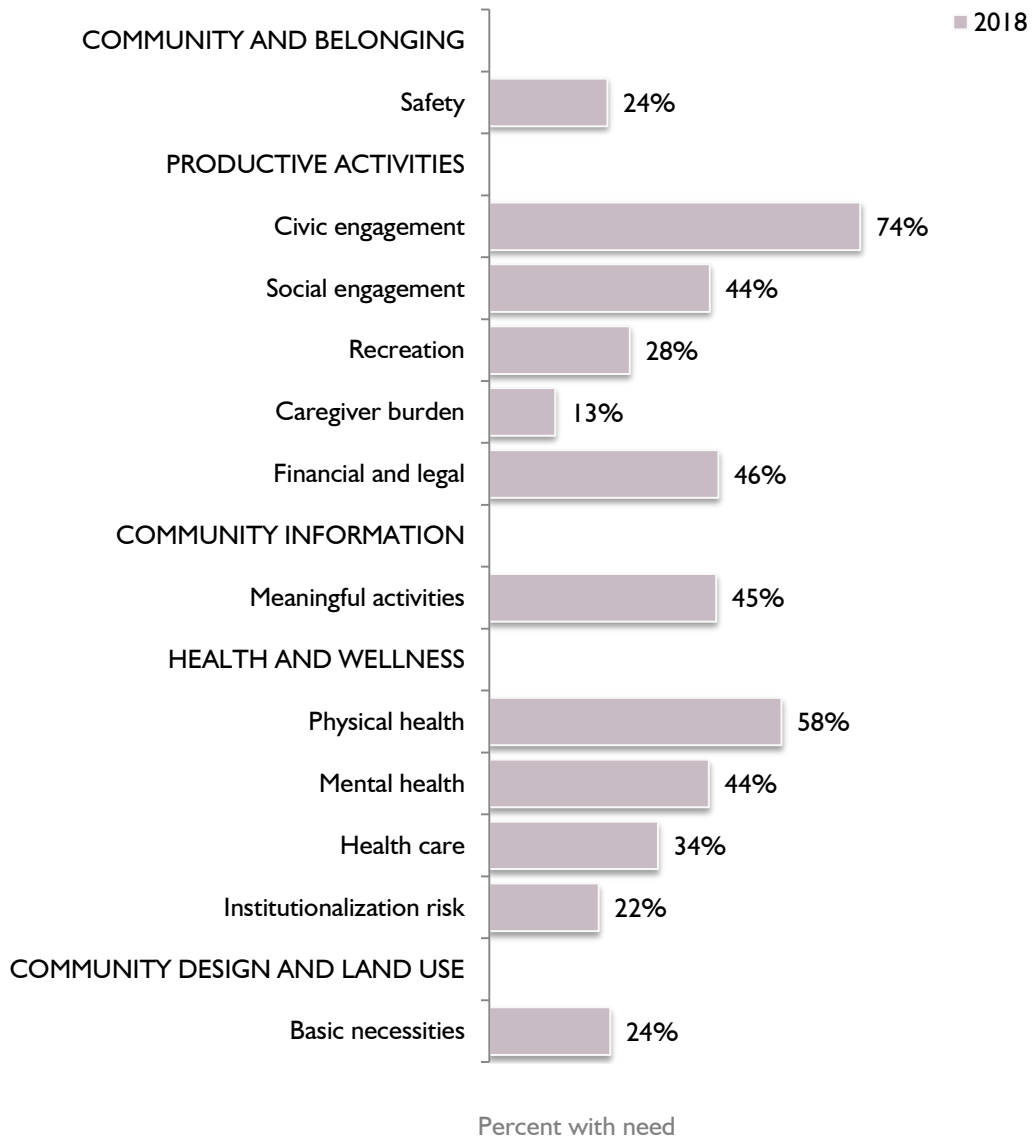

Older Resident Needs in the City of Aurora

Over 40 individual survey questions about specific problems faced by older community members, as well as participation levels and community engagement were summarized into 12 larger areas to provide a broad picture of older resident needs in the City of Aurora. (*Appendix B: Survey Methodology* provides detailed information on the criteria used to identify respondents as having a need in a specific area.) These 12 areas have been organized into the five community dimensions of Community and Belonging, Community Information, Productive Activities, Health and Wellness and Community Design and Land Use (no needs areas have been defined for the community dimension of Overall Community Quality).

Typically, it is understood that the self-reported needs of older adults represent a minimum level, a conservative estimate attenuated by respondents' strong desire to feel and appear self-reliant and further reduced by the silent voice of some older adults who, no matter how sensitive the attempt, are too frail to participate in any survey enterprise. Nonetheless, clear patterns of needs and strengths emerged from this assessment:

- Older residents had the largest needs in the areas of civic engagement and physical health
- Few reported needs in the areas of caregiver burden, institutionalization risk, safety and basic necessities

Figure 18: Older Adult Needs in the City of Aurora by Community Dimension by Year

COMMUNITY AND BELONGING

Safety — 24%

PRODUCTIVE ACTIVITIES

Civic engagement — 74%

Social engagement — 44%

Recreation — 28%

Caregiver burden — 13%

Financial and legal — 46%

COMMUNITY INFORMATION

Meaningful activities — 45%

HEALTH AND WELLNESS

Physical health — 58%

Mental health — 44%

Health care — 34%

Institutionalization risk — 22%

COMMUNITY DESIGN AND LAND USE

Basic necessities — 24%

Legend: 2018

Percent with need

While older residents reported the lowest prevalence of need in the area of caregiver burden, needs can be quite serious for those affected. Some needs, however rare, can have a particularly devastating impact on residents' quality of life (e.g., needing help transferring from bed to wheelchair or feeling unsafe), so it is important to consider both the prevalence of the need and its centrality to residents' sustained independence.

Figure 19: Older Resident Needs in the City of Aurora

	Percent with need	Number affected in 2018 (N=69,497)*
COMMUNITY AND BELONGING		
Safety	24%	16,374

Physical health	58%	40,577
Mental health	44%	30,496
Health care	34%	23,417
Institutionalization risk	22%	15,174
COMMUNITY DESIGN AND LAND USE		
Basic necessities	24%	16,770

Estimated, based on Colorado State Demography Office, Single Year of Age Data 1990-2050

Populations at High Risk

As people age, many learn to take better care of themselves, to plan for retirement and, generally, to move more deliberately. Aging builds wisdom but can sap resources — physical, emotional and financial. Even those blessed by good luck or those prescient enough to plan comprehensively for the best future may find themselves with unanticipated needs or with physical, emotional or financial strengths that could endure only with help. Some people age better than others and aging well requires certain strengths that are inherent and others that can be supported by assistance from the private sector and government. For older adults in the City of Aurora, although needs were spread across the board, residents reporting the largest percent of unresolved needs were more likely to be age 60 to 74, not white, Hispanic, report a middle income, rent their homes or live with others.

Figure 20: Needs of Older Population by Sociodemographic Characteristics,
Percent and Number affected in 2018 (N=69,497)*

	Community and Belonging		Productive Activities		Community Information		Health and Wellness		Community Design and Land Use

Responses to Custom Questions

In addition to the uniform questions on CASOA, DRCOG included its own unique questions on the survey to aid in planning, resource allocation and policy analysis. "Don't know" responses have been removed from the analysis for the following questions, when applicable.

Table 1: Question 2 Custom Items

Please rate each of the following characteristics as they relate to adults age 60 or older in your community	Percent rating as excellent or good
Availability of services at the senior center	63%
Quality of senior nutrition programs	38%
Accessibility of long term care options that are open and accepting toward people of diverse backgrounds	47%
Accessibility of daytime care options that are open and accepting toward people of diverse backgrounds	38%

Table 2: Question 4 Custom Items

In general, how informed or uninformed do you feel about the following?	Percent rating as very or somewhat informed
Long term care options (i.e. nursing homes, home care)	43%
Information on planning for the future	50%

Table 3: Question 6 Custom Items

Please rate each of the following characteristics as they relate to adults age 60 or older in your community	Percent rating as at least a minor problem
Having tooth or mouth problems	37%
Feeling overwhelmed and/or exhausted when caring for another person	27%

Table 4: Question 15

How frequently, if ever, do you do each of the following things on the Internet (using a computer, tablet, cell phone, etc.)?	Percent rating as at least monthly
Use email, texting or video to communicate	92%
Get the news or weather	90%
Research or study a topic of interest	75%
Find directions or look up a map	75%
If you have a question, use Internet to the find the answer	69%
Shop, search for products and services	62%
Banking online (paying bills, investing, etc.)	52%
Look up health and medical information	52%
Use social media (Facebook, Twitter, LinkedIn)	47%
Share opinions, post to a blog, review a product or service	35%
Find info on community resources and events	32%
Work from home	26%
Communicate with government (seek services, get a license, discuss a problem)	18%
Engage in civic activities (participate in a discussion about community and government issues; research information about an issue or a candidate)	16%
Attend an online class or training	13%
Sell goods and services online, advertise	7%

Table 5: Question 16

How comfortable, if at all, are you at each of the following?	Percent rating as very or somewhat comfortable
Using a computer laptop/desktop	93%
Using email	91%
Accessing the Internet	89%
Locating information online (bus schedules, weather, news, etc.)	84%
Using smartphone or tablet computer	82%
Using social networking sites (Facebook, Twitter, etc.)	75%

Table 6: Question D15

Are you a grandparent raising a grandchild?	Percent of respondents
Yes	13%
No	87%
Total	100%

Appendix A: Complete Set of Survey Responses

The following pages contain a complete set of responses to each question on the survey. The percent of respondents giving a particular response is shown followed by the number of respondents (denoted with "N="). When respondents had the option to select "don't know" on a question, two tables are presented. The first shows the frequency of responses excluding "don't know" and the second shows the frequency including "don't know."

Table 7: Question 1 (excluding "don't know")

Please circle the number that comes closest to your opinion for each of the following questions.	Excellent		Good		Fair		Poor		Total	
How do you rate your community as a place to live?	26%	N=19	60%	N=45	8%	N=6	6%	N=4	100%	N=75
How do you rate your community as a place to retire?	23%	N=15	48%	N=32	19%	N=13	9%	N=6	100%	N=66

Table 8: Question 1 (including "don't know")

Please circle the number that comes closest to your opinion for each of the following questions.	Excellent		Good		Fair		Poor		Don't know		Total	
How do you rate your community as a place to live?	26%	N=19	60%	N=45	8%	N=6	6%	N=4	0%	N=0	100%	N=75
How do you rate your community as a place to retire?	21%	N=15	45%	N=32	18%	N=13	9%	N=6	8%	N=5	100%	N=71

Table 9: Question 2 (excluding "don't know")

Please rate each of the following characteristics as they relate to adults age 60 or older in your community:	Excellent		Good		Fair		Poor		Total	
Opportunities to volunteer	39%	N=23	46%	N=27	11%	N=7	4%	N=2	100%	N=59
Employment opportunities	15%	N=7	26%	N=12	33%	N=16	26%	N=13	100%	N=48
Opportunities to enroll in skill-building or personal enrichment classes	30%	N=17	47%	N=26	12%	N=7	10%	N=6	100%	N=55
Recreation opportunities (including games, arts, and library services, etc.)	35%	N=23	43%	N=29	12%	N=8	9%	N=6	100%	N=66
Fitness opportunities (including exercise classes and paths or trails, etc.)	30%	N=21	56%	N=38	7%	N=4	7%	N=5	100%	N=68
Opportunities to attend social events or activities	24%	N=16	38%	N=25	32%	N=21	6%	N=4	100%	N=65
Opportunities to attend religious or spiritual activities	40%	N=26	52%	N=34	6%	N=4	2%	N=1	100%	N=65

Please rate each of the following characteristics as they relate to adults age 60 or older in your community:	Excellent		Good		Fair		Poor		Total	
Opportunities to attend or participate in meetings about local government or community matters	32%	N=20	45%	N=28	15%	N=9	8%	N=5	100%	N=62
Availability of affordable quality housing	8%	N=5	5%	N=3	34%	N=24	53%	N=37	100%	N=69

Please rate each of the following characteristics as they relate to adults age 60 or older in your community:	Excellent		Good		Fair		Poor		Don't know		Total	
Overall feeling of safety in your community	23%	N=18	41%	N=31	24%	N=18	10%	N=8	1%	N=1	100%	N=76
Valuing residents age 60 and older in your community	11%	N=8	25%	N=19	31%	N=23	11%	N=8	22%	N=16	100%	N=74
Neighborliness of your community	17%	N=13	29%	N=22	36%	N=27	16%	N=12	2%	N=2	100%	N=76
Cost of living in your community	5%	N=3	26%	N=19	34%	N=25	31%	N=22	5%	N=4	100%	N=72
Availability of services at the senior center	5%	N=4	31%	N=23	8%	N=6	13%	N=9	44%	N=32	100%	N=73
Quality of senior nutrition programs	2%	N=2	11%	N=9	10%	N=8	12%	N=9	64%	N=48	100%	N=75
Accessibility of long term care options that are open and accepting toward people of diverse backgrounds	3%	N=2	14%	N=11	13%	N=10	6%	N=5	63%	N=48	100%	N=76
Accessibility of daytime care options that are open and accepting toward people of diverse backgrounds	2%	N=2	9%	N=7	12%	N=9	7%	N=6	69%	N=52	100%	N=76

Table 11: Question 3 (excluding "don't know")

How would you rate the overall services provided to adults age 60 and older in your community?	Percent	Number
Excellent	13%	N=8
Good	39%	N=23
Fair	32%	N=19
Poor	15%	N=9
Total	100%	N=58

Table 12: Question 3 (including "don't know")

How would you rate the overall services provided to adults age 60 and older in your community?	Percent	Number
Excellent	10%	N=8
Good	31%	N=23
Fair	25%	N=19
Poor	12%	N=9
Don't know	22%	N=16
Total	100%	N=74

Table 13: Question 4

In general, how informed or uninformed do you feel about the following?	Very informed		Somewhat informed		Somewhat uninformed		Very uninformed		Total	
Services and activities available to adults age 60 and older in your community?	14%	N=11	40%	N=29	23%	N=17	23%	N=17	100%	N=74
Long term care options (i.e. nursing homes, home care)	3%	N=2	40%	N=30	29%	N=22	28%	N=20	100%	N=74
Information on planning for the future	13%	N=10	37%	N=27	23%	N=17	27%	N=20	100%	N=73

Table 14: Question 5 (excluding "don't know")

Please circle the number that comes closest to your opinion for each of the following questions.	Excellent		Good		Fair		Poor		Total	
How do you rate your overall physical health?	14%	N=11	59%	N=44	24%	N=18	2%	N=2	100%	N=74
How do you rate your overall mental health/emotional well-being?	29%	N=22	56%	N=42	11%	N=8	3%	N=3	100%	N=74
How do you rate your overall quality of life?	22%	N=16	58%	N=42	14%	N=10	6%	N=4	100%	N=73

Table 15: Question 5 (including "don't know")

Please circle the number that comes closest to your opinion for each of the following questions.	Excellent		Good		Fair		Poor		Don't know		Total	
How do you rate your overall physical health?	14%	N=11	59%	N=44	24%	N=18	2%	N=2	0%	N=0	100%	N=74
How do you rate your overall mental health/emotional well-being?	29%	N=22	56%	N=42	11%	N=8	3%	N=3	0%	N=0	100%	N=74
How do you rate your overall quality of life?	22%	N=16	58%	N=42	14%	N=10	6%	N=4	0%	N=0	100%	N=73

Table 16: Question 6 (excluding "don't know")

The following questions list a number of problems that older adults may or may not face. Thinking back over the last 12 months, how much of a problem, if at all, has each of the following been for you?	Not a problem		Minor problem		Moderate problem		Major problem		Total	
Having housing to suit your needs	82%	N=60	7%	N=5	6%	N=4	6%	N=4	100%	N=73
Your physical health	35%	N=26	41%	N=31	21%	N=15	3%	N=2	100%	N=74
Performing regular activities, including walking, eating and preparing meals	70%	N=51	19%	N=14	8%	N=6	2%	N=2	100%	N=73

The following questions list a number of problems that older adults may or may not face. Thinking back over the last 12 months, how much of a problem, if at all, has each of the following been for you?	Not a problem		Minor problem		Moderate problem		Major problem		Total	
Having enough food to eat	89%	N=66	4%	N=3	7%	N=5	0%	N=0	100%	N=74
Doing heavy or intense housework	38%	N=27	36%	N=26	15%	N=11	11%	N=8	100%	N=72
Having safe and affordable transportation available	75%	N=52	10%	N=7	6%	N=4	8%	N=6	100%	N=69
No longer being able to drive	80%	N=55	13%	N=9	4%	N=3	3%	N=2	100%	N=70
Feeling depressed	68%	N=50	21%	N=15	6%	N=5	5%	N=3	100%	N=74
Experiencing confusion or forgetfulness	75%	N=55	23%	N=17	1%	N=1	1%	N=1	100%	N=74
Maintaining your home	54%	N=40	32%	N=24	14%	N=10	0%	N=0	100%	N=74

Table 18: Question 7

Thinking back over the past 12 months, how many days did you spend in...	No days (zero)		One to two days		Three to five days		Six or more days		Total	
A hospital	75%	N=55	9%	N=7	10%	N=7	5%	N=4	100%	N=73
In a long-term care facility (including nursing home or in-patient rehabilitation)	92%	N=66	0%	N=0	0%	N=0	8%	N=6	100%	N=72

Table 19: Question 8 (excluding "don't know")

Thinking back over the past 12 months, how many times have you fallen and injured yourself? Was it…	Percent	Number
Never	76%	N=57
Once or twice	20%	N=15
3-5 times	4%	N=3
More than 5 times	0%	N=0
Total	100%	N=74

Table 20: Question 8 (including "don't know")

Thinking back over the past 12 months, how many times have you fallen and injured yourself? Was it…	Percent	Number
Never	76%	N=57
Once or twice	20%	N=15
3-5 times	4%	N=3
More than 5 times	0%	N=0
Don't know	0%	N=0
Total	100%	N=74

Table 21: Question 9 (excluding "don't know")

How likely or unlikely are you to recommend living in your community to adults age 60 and older?	Percent	Number
Very likely	55%	N=20
Somewhat likely	30%	N=11
Somewhat unlikely	11%	N=4
Very unlikely	4%	N=2
Total	100%	N=37

Table 22: Question 9 (including "don't know")

How likely or unlikely are you to recommend living in your community to adults age 60 and older?	Percent	Number
Very likely	47%	N=20
Somewhat likely	26%	N=11
Somewhat unlikely	10%	N=4
Very unlikely	4%	N=2
Don't know	14%	N=6
Total	100%	N=43

Table 23: Question 10 (excluding "don't know")

How likely or unlikely are you to remain in your community throughout your retirement?	Percent	Number
Very likely	66%	N=27
Somewhat likely	11%	N=4
Somewhat unlikely	9%	N=4
Very unlikely	14%	N=6
Total	100%	N=41

Table 24: Question 10 (including "don't know")

How likely or unlikely are you to remain in your community throughout your retirement?	Percent	Number
Very likely	64%	N=27
Somewhat likely	10%	N=4
Somewhat unlikely	9%	N=4
Very unlikely	14%	N=6
Don't know	2%	N=1
Total	100%	N=42

Table 25: Question 11

In the last 12 month, about how many times, if ever, have you participated in or done each of the following?	2 times a week or more		2-4 times a month		Once a month or less		Not at all		Total	
Used a senior center in your community	9%	N=6	4%	N=3	7%	N=5	80%	N=59	100%	N=74
Used a recreation center in your community	12%	N=9	9%	N=6	15%	N=11	64%	N=47	100%	N=74
Used a public library in your community	6%	N=5	21%	N=15	29%	N=20	44%	N=31	100%	N=71
Used bus, rail, subway or other public transportation instead of driving	2%	N=2	10%	N=7	16%	N=12	72%	N=53	100%	N=73
Visited a neighborhood park	21%	N=15	26%	N=19	22%	N=16	31%	N=23	100%	N=74
Attended a local public meeting	7%	N=5	2%	N=2	18%	N=13	73%	N=54	100%	N=74

Are you a grandparent raising a grandchild?	Percent	Number
Yes	13%	N=10
No	87%	N=65
Total	100%	N=75

Appendix B: Survey Methodology

Data Collection Methods

The Community Assessment Survey for Older Adults (CASOA)™, conducted by National Research Center, Inc., was developed to provide an accurate, affordable and easy way to assess and interpret the experience of older adults in the community. The CASOA™ survey instrument and its administration are standardized to assure high quality survey methods and comparable results across CASOA™ communities. The CASOA™ was customized for Denver Regional Council of Governments Area Agency on Aging (DRCOG) to reflect the correct local age definition of older adults and so that the mailing materials used official DRCOG graphics, contact information and signatures. DRCOG, in association with the Colorado Association of Area Agencies on Aging (C4A) and with funding from NextFifty Initiative, sponsored this research. Please contact Jayla Sanchez-Warren of Denver Regional Council of Governments Area Agency on Aging at 303-445-1000 if you have any questions about the survey.

Survey Development

The CASOA™ questionnaire contains many questions related to the life of older residents in the community. The instrument includes questions related to overall quality of life, characteristics of the community, perceptions of safety in the community and of 40 different needs common to older adults.

The questionnaire grew from a synthesis of a number of data collection processes including a national search of needs assessments conducted by communities across the United States, a review of the literature on aging and the conduct of numerous surveys and large scale needs assessments by NRC. A blue-ribbon panel of national experts contributed to the concept and content of CASOA™.

The items in the questionnaire were pilot tested on senior residents using a "think-aloud" method in which older adults were asked to complete the survey and describe their thought processes related to specific questions and question sets. The results of the pilot test were used to alter the questionnaire for better understanding by senior participants. The final questionnaire was tested in a set of diverse U.S. communities and modifications again were made as necessary. A copy of the survey materials can be found in *Appendix E: Survey Materials.*

Selecting Survey Recipients

One of the first steps taken to ensure survey results are representative of the target population is to use a source from which you select survey recipients that provides adequate to good "coverage" of the target population. This source is referred to as the "sampling frame" in survey research lingo.

The target population for this survey was residents in households age 60 years or older within DRCOG's service area. Since it is cost prohibitive to survey every person age 60 years or older in the City of Aurora, a random selection of records from the sampling frame was made. An example that may be familiar from a math or statistics class is the jar or bowl of marbles of various colors. If the jar has two-thirds red marbles and one-third blue marbles, a random selection of marbles from that jars should result in a similar proportion (although perhaps not identical) of red and blue marbles as in the original jar.

The sampling frame used for this survey was a list of households with a high likelihood of having a resident age 60 years or older within DRCOG's service area from Go-Dog Direct. These lists do not provide complete coverage of all members of the target population, but do provide a fairly complete coverage. The lists provided by Go-Dog Direct cannot be mapped directly to political boundaries such as municipalities or counties, but to United States Postal Service (USPS) boundaries such as zip codes or carrier routes. To ensure all eligible households are included, they randomly selected households from their entire list for the target population for all the zip codes that contain even a part of the study boundaries. They provided

a greater number of households than needed so that a process referred to as "geocoding" could be used to eliminate addresses from the list that were outside the study boundaries. Geocoding is a computerized process in which addresses are compared to electronically mapped boundaries and coded as inside or outside desired boundaries. All addresses determined to be outside the study boundaries were eliminated from the list. A stratified, systematic sampling method was used with the remaining addresses to create a mailing list of older adult households with a surveys being sent to each county within the agency's service area (see Figure 21, Table 49 and Table 50). Systematic sampling is a procedure whereby a complete list of all possible households is culled, selecting every Nth one, giving each eligible household a known probability of selection, until the appropriate number of households is selected.

Although the purchased list of known senior households contained names of the residents 60 years and older, no name was printed on the survey envelope; instead, the survey was addressed to "Resident." In order to select a random individual 60 years of age and older within the household, the cover letter requested that the questionnaire be given to the person 60 years of age and older who most recently celebrated their birthday (regardless of year of birth) to complete. The underlying assumption in this method is that day of birth has no relationship to the way people respond to surveys. This instruction was contained in the cover letter accompanying the questionnaire.

Figure 21: Location of Survey Recipients

CASOA Survey Recipients - City of Aurora
• Survey Recipients
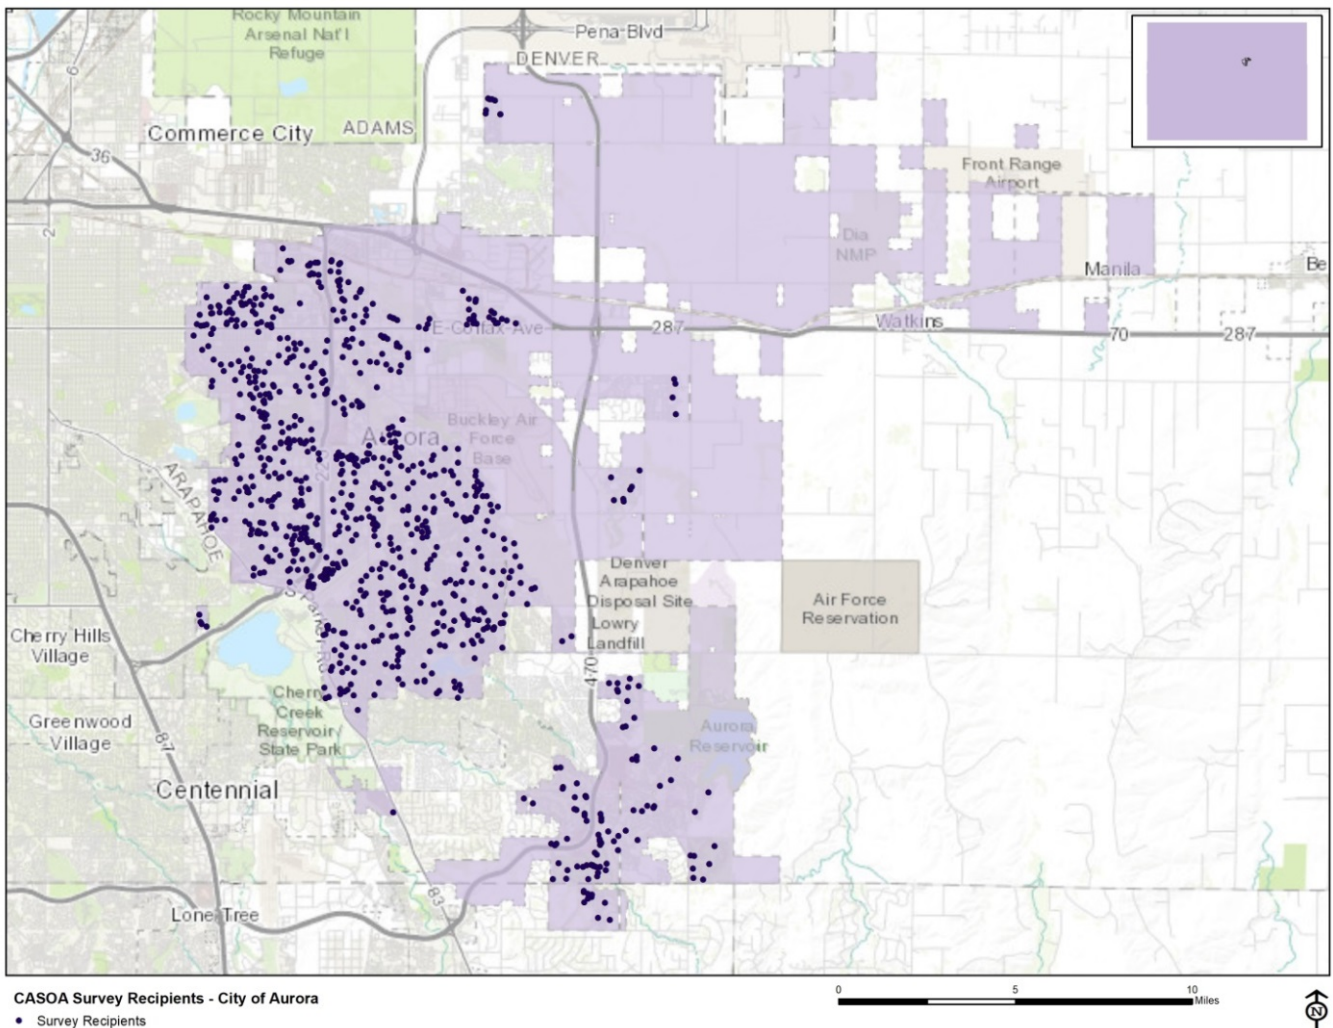

Survey Administration and Response

Each sampled household received three mailings, about one week apart, beginning May 7, 2018. The first mailing was a prenotification postcard announcing the upcoming survey. The next mailing contained a letter from the AAA director inviting the household to participate, a questionnaire and a postage-paid return envelope. The final mailing contained a reminder letter, another survey and a postage-paid return envelope. The second cover letter asked those who had not completed the survey to do so and those who had already done so to refrain from turning in another survey. The cover letter included URL, which allowed respondents to complete the survey online if they preferred. The survey was available in English and Spanish (online only). Completed surveys were collected over the following six weeks.

About 3% of the 10,400 surveys mailed were returned because the housing unit was vacant or the postal service was unable to deliver the survey as addressed. Of the remaining households that received the survey, 1,246 completed the survey, providing an overall response rate of 12%. Of the 1,246 completed surveys, 65 were completed online and zero were completed in Spanish. Additionally, responses were tracked by county and are displayed in the table below.

Table 49: Survey Response Rates

	Adams County	Arapahoe County	City and County of Broomfield	Clear Creek County	City and County of Denver	Douglas County	Gilpin County	Jefferson County	AAA Overall
Total sample used	1,525	1,665	1,200	1,200	1,200	1,210	1,200	1,200	10,400

Response rate: (I+P)/(I+P) + (R+NC+O) + (UH+UO)	11%	10%	14%	17%	12%	11%	16%	11%	12%

As Aurora's city boundaries traverse several counties in the DRCOG region, portions of the those counties' samples were allocated for the City (see Table 50). For Aurora, 2% of the 905 surveys mailed were returned because the housing unit was vacant or the postal service was unable to deliver the survey as addressed. Of the remaining households that received the survey, 76 completed the survey, providing an overall response rate of 9%. Of the 76 completed surveys, three were completed online and zero were completed in Spanish.

The response rates were calculated using AAPOR's response rate #2[2] for mailed surveys of unnamed persons.

---

Response rate: (I+P)/(I+P) + (R+NC+O) + (UH+UO)	1%	10%	30%	9%

Confidence Intervals

It is customary to describe the precision of estimates made from surveys by a "level of confidence" and accompanying "confidence interval" (or margin of error). A traditional level of confidence, and the one used here, is 95%. The 95% confidence interval can be any size and quantifies the sampling error or imprecision of the survey results because some residents' opinions are relied on to estimate all residents' opinions.[3]

The margin of error for the DRCOG survey report is no greater than plus or minus 3% around any given percent and two points around any given average rating reported for all respondents (1,246 completed surveys). The a margin of error for this survey report for Aurora is no greater than plus or minus 11% around any given percent and seven points around any given average rating for all respondents (76 completed surveys).

For subgroups of responses, the margin of error increases because the number of respondents for the subgroup is smaller. For subgroups of approximately 100 respondents, the margin of error is plus or minus 10 percentage points.

Survey Processing (Data Entry)

Upon receipt, completed surveys were assigned a unique identification number. Additionally, each survey was reviewed and "cleaned" as necessary. For example, a question may have asked a respondent to pick two items out of a list of five, but the respondent checked three; in this case, NRC would use protocols to randomly choose two of the three selected items for inclusion in the dataset.

All surveys then were entered twice into an electronic dataset; any discrepancies were resolved in comparison to the original survey form. Range checks as well as other forms of quality control were also performed.

NRC used Qualtrics, a web-based survey and analytics platform, to collect the online survey data. Use of an online system means all collected data are entered into the dataset when the respondents submit the surveys. Skip patterns are programmed into system so respondents are automatically "skipped" to the

---

[3] A 95% confidence interval indicates that for every 100 random samples of this many residents, 95 of the confidence intervals created will include the "true" population response. This theory is applied in practice to mean that the "true" perspective of the target population lies within the confidence interval created for a single survey. For example, if 75% of residents rate a service as "excellent" or "good," then the 4% margin of error (for the 95% confidence interval) indicates that the range of likely responses for the entire community is between 71% and 79%. This source of uncertainty is called sampling error. In addition to sampling error, other sources of error may affect any survey, including the non-response of residents with opinions different from survey responders. Though standardized on CASOA, on other surveys, differences in question wording, order, translation and data entry, as examples, can lead to somewhat varying results.

appropriate question based on the individual responses being given. Online programming also allows for more rigid control of the data format, making extensive data cleaning unnecessary.

A series of quality control checks were also performed in order to ensure the integrity of the web data. Steps may include and not be limited to reviewing the data for clusters of repeat IP addresses and time stamps (indicating duplicate responses) and removing empty submissions (questionnaires submitted with no questions answered).

Survey Data Weighting

The primary objective of weighting survey data is to make the survey sample reflective of the larger population of the study area. This is done by: 1) reviewing the sample demographics and comparing them to the population norms from the most recent Census or other sources and 2) comparing the responses to different questions for demographic subgroups. The demographic characteristics that are least similar to the Census and yield the most different results are the best candidates for data weighting. Several different weighting "schemes" are tested to ensure the best fit for the data. The characteristics used for weighting were tenure, housing unit, race, ethnicity, sex and age. No adjustments were made for design effects. The results of the weighting scheme are presented in the following table.

Table 51: Weighting Scheme

	Population norm*	Unweighted	Weighted
Housing**			
Own	77%	89%	78%
Rent	23%	11%	22%
Attached	30%	37%	31%
Detached	70%	63%	69%
Race and ethnicity**			
White	79%	89%	81%
Not white	21%	11%	19%
Hispanic	9%	3%	9%
Not Hispanic	91%	97%	91%
Sex and Age			
Female	56%	61%	56%
Male	44%	39%	44%
60 to 64 years	34%	24%	34%
65 to 74 years	40%	45%	38%
75 or over	26%	31%	28%
Female 60 to 64	18%	16%	18%
Female 65 to 74	22%	25%	21%
Female 75+	16%	20%	18%
Male 60 to 64 years	16%	8%	16%
Male 65 to 74 years	18%	20%	17%
Male 75+	10%	11%	10%

Survey Data Analysis and Reporting

The survey dataset was analyzed using the Statistical Package for the Social Sciences (SPSS). For the most part, the percentages presented in the reports represent the "percent positive." The percent positive is the combination of the top two most positive response options (i.e., "excellent" and "good," "very safe" and "somewhat safe," "essential" and "very important," etc.), or, in the case of resident behaviors/participation, the percent positive represents the proportion of respondents indicating "yes" or participating in an activity at least once a month. On many of the questions in the survey respondents may answer "don't know." The proportion of respondents giving this reply is shown in the full set of responses included in *Appendix B: Complete Set of Survey Frequencies*. However, these responses have been removed from the analyses presented in the reports. In other words, the tables and graphs display the responses from respondents who had an opinion about a specific item.

A variety of analyses were presented in the body of the report. The following sections summarize how these analyses were conducted or scores calculated.

Estimates of the Contribution of Older Adults to the Economy

The calculations of the economic contributions of older adults in DRCOG's service area were rough estimates using data from the U.S. Department of Labor Bureau of Labor Statistics (Metropolitan and Nonmetropolitan Area Occupational Employment and Wage Estimates).

Table 52: Contribution of Older Adults to the Economy

	Percent of older adults	Number of older adults[1]	Average number of hours*	Average hourly rate**	Annual total
Providing care to older adult(s)	27%	18,429	11.7	$12.26	$126,272,863
Providing care to adult(s)	9%	6,433	3.4	$12.26	$11,613,559
Providing care to child(ren)	15%	10,607	9.6	$13.43	$59,619,308
Providing help to family and friends	76%	52,765	4.3	$14.10	$157,813,628
Volunteering	40%	27,513	5.7	$19.71	$148,348,236
Subtotal unpaid					**$503,667,594**
Working part time	10%	7,091	15.0	$27.60	$152,652,407
Working full time	24%	16,508	32.0	$27.60	$758,137,162
Subtotal paid	**27%**	**18,429**	**11.7**	**$12.26**	**$910,789,568**
Total contribution	**9%**	**6,433**	**3.4**	**$12.26**	**$1,414,457,162**

[1] *Based on Colorado State Demography Office, Single Year of Age Data 1990-2050.*

* Respondents were asked to select a range of hours. The average number of hours was calculated from the mid-point of the response scale. For example, a response of "1 to 3 hours" equated to 2 hours and a response of "never" was assumed to be zero hours. In cases where the respondent chose a response that indicated "11 or more hours" or "20 or more hours", the number of hours was calculated as 125% of 11 and 125% of 20 (i.e., 13.75 and 25 respectively). Working full time was assumed to be 32 hours per week and working part time was assumed to be 15 hours per week.

**The economic value of an hour worked was assumed to be the same as the average hourly wage as calculated by the Bureau of Labor statistics for similar types of work in the Denver-Aurora-Lakewood, CO MSA. Providing care for older adults and adults was assumed to be the equivalent of "Personal and Home Care Aides." Providing care for children was assumed to be the equivalent of "Child Care Workers." Providing help to family and friends was assumed to be the equivalent of "Personal Care and Service Occupations." Volunteering was assumed to be the equivalent of "Office Clerks, General." Working full time and part time was assumed to be the equivalent of "All Occupations."

The proportion of older adults who work was estimated by examining the responses to question D7 from the survey ("What is your employment status?"). Those working full-time were assumed to work 32 hours per week and those working part-time were assumed to work 15 hours per week. The proportion of survey respondents was multiplied by the number of adults 60 and over in the community to ascertain the number of employed older adults. To determine the average paid wage, information from the Bureau of

Labor Statistics for the Denver-Aurora-Lakewood, CO MSA was examined. Working full-time and part-time was assumed to be the equivalent of "All Occupations" (occupation code 00-0000).

The proportion of older adults doing volunteer work and providing help to friends and neighbors was determined by looking at the responses to question 12 ("During a typical week, how many hours, if any, do you spend doing the following?"), items f ("providing help to family and friends") and g ("volunteering your time to some group/activity"). Those responding "1 to 3 hours" were assumed to spend two hours, "4 to 5 hours" were assumed to spend 4.5 hours, those responding "6 to 10 hours" were assumed to spend eight hours, and those responding "11 or more hours" were assumed to spend 13.75 hours (125% of 11). To determine the average hourly wage, "providing help to family and friends" was assumed to be the equivalent of "Personal Care and Service Workers, All Other" (occupation code 39-9099) and volunteering was assumed to be the equivalent of "Office Clerks, General" (occupation code 43-9061).

The proportion of older adults providing care to family and friends was determined by examining the responses to question 12. Those responding "1 to 3 hours" were assumed to spend two hours, "4 to 5 hours" were assumed to spend 4.5 hours, those responding "6 to 10 hours" were assumed to spend eight hours, and those responding "11 to 19 hours" were assumed to spend 15 hours and those responding "20 or more hours" were assumed to spend 25 hours (125% of 20). To determine the average hourly wage, "providing care for older adults and adults" (items a and b) were assumed to be the equivalent of "Personal and Home Care Aides" (occupation code 39-9021) and "providing care for children" (item c) was assumed to be the equivalent of "Child Care Workers" (occupation code 39-9011).

Community Summary Scores

The community score presented in the body of the report represents the average of the questions included in the index. Although the evaluative or frequency questions were made on 4- or 5- point scales with 1 representing the best rating, the scales had different labels (e.g., "excellent," "not a problem," "very likely"). To calculate these average scores, the questions used in the index were converted to a common scale where 0 is the worst possible rating and 100 is the best possible rating. If everyone reported "excellent," then the result would be 100 on the 0-100 scale. If the average rating for quality of life was right in the middle of the scale (half way between "good" and "fair"), then the result would be 50. The new scale can be thought of like the thermometer used to represent total giving to United Way. The higher the thermometer reading, the closer to the goal of 100 – in this case, the most positive response possible. The table below shows the individual questions comprising each summary score.

Index	Individual Variables Used in Index
Quality of Community	How do you rate your community as a place to live?
	How do you rate your community as a place to retire?
	How would you rate the overall services provided to older adults in your community?
	Recommend living in your community to older adults
	Remain in your community throughout your retirement
Community and Belonging	Sense of community
	Openness and acceptance of the community towards older residents of diverse backgrounds
	Overall feeling of safety in your community
	Valuing older residents in your community
	Neighborliness of your community
Community Information	Availability of information about resources for older adults
	Availability of financial and legal planning services
	In general, how informed or uninformed do you feel about services and activities available to older adults in your community?
Opportunities for Productive	Opportunities to volunteer

Index	Individual Variables Used in Index
Activities	Employment opportunities
	Opportunities to enroll in skill-building or personal enrichment classes
	Recreation opportunities (including games, arts and library services, etc.)
	Opportunities to attend social events or activities
	Opportunities to attend religious or spiritual activities
	Opportunities to attend or participate in meetings about local government or community matters
Health and Wellness Opportunities	Fitness opportunities (including exercise classes and paths or trails, etc.)
	Availability of long-term care options
	Availability of daytime care options for older adults
	Availability of affordable quality physical health care
	Availability of affordable quality mental health care
	Availability of preventive health services (e.g., health screenings, flu shots, educational workshops)
Community Design and Land Use	Availability of affordable quality housing
	Variety of housing options
	Availability of affordable quality food
	Ease of travel by public transportation in your community
	Ease of car travel in your community
	Ease of walking in your community
	Ease of getting to the places you usually have to visit
	Cost of living in your community

Needs Summary Scores

The needs summary scores (indices) are based on the response patterns of older adults in the community. The table below contains each question included in the index and the required response to that question. So, for example, if a respondent indicated that her overall physical health (q5a) was "fair," she would be counted as having a physical health issue along with other respondents who may have noted that they had a moderate or major problem with falling or maintaining a healthy diet, etc. Respondents with many physical health problems are counted only once in this category so that the total percent shown in the report graph represents the percent of older adults with at least one physical problem.

Index	Individual Variables Used in Index	Required Rating
Safety	Must have at least one of the following:	
	- Being a victim of crime	Moderate or major problem
	- Being a victim of fraud or a scam	Moderate or major problem
	- Being physically or emotionally abused	Moderate or major problem
	- Being treated unfairly or discriminated against because of your age	Moderate or major problem
Civic engagement	Must	
	- Vote in local elections	Never or rarely
	Or	
	- Participating in a civic group (including Elks, Kiwanis, Masons, etc.) and Volunteering your time to some group/activity in your community	Never (no hours)
	Or	

Index	Individual Variables Used in Index	Required Rating
	- Attended local public meeting and Watched (online or on television) a local public meeting	Not at all
Social engagement	Must have:	
	- Having interesting social events or activities to attend	Moderate or major problem
	Or all of the following:	
	- Used a senior center in your community	Not at all
	- Participating in a club (including book, dance, game and other social)	Never (no hours)
	- Participating in religious or spiritual activities with others	Never (no hours)
Recreation	Must have q6(b)c:	
	- Having interesting recreational or cultural activities to attend	Moderate or major problem
	Or all of the following:	
	- Used a recreation center in your community	Not at all
	- Used a public library in your community	Not at all
	- Visited a neighborhood park	Not at all
	- Participating in a recreation program or group activity	Never (no hours)
Caregiver burden	Must have:	
	- Feeling physically burdened by providing care for another person	Moderate or major problem
	- Feeling emotionally burdened by providing care for another person	Moderate or major problem
	- Feeling financially burdened by providing care for another person	Moderate or major problem
Financial and legal	Must have at least one of the following:	
	- [Ratio] How much do you anticipate your household's total income before taxes will be for the current year? (Please include in your total income money from all sources for all persons living in your household.) / How many people, including yourself, live in your household?	Income was at or below the income limits set by HUD for Section 8 programs
	- Having enough money to meet daily expenses	Moderate or major problem
	- Having enough money to pay your property taxes	Moderate or major problem
	- Dealing with legal issues	Moderate or major problem
	- Finding work in retirement	Moderate or major problem
	- Building skills for paid or unpaid work	Moderate or major problem
	- Dealing with financial planning issues	Moderate or major problem
Meaningful activities	Must have at least one of the following:	
	- Finding productive or meaningful activities to do	Moderate or major problem
	- Feeling like your voice is heard in the community	Moderate or major problem
	- Finding meaningful volunteer work	Moderate or major problem
	- Not knowing what services are available to older adults in your community	Moderate or major problem
Physical health	Must have at least one of the following:	
	- How do you rate your overall physical health?	Fair or poor
	- Your physical health	Moderate or major problem
	- Doing heavy or intense housework	Moderate or major problem
	- Maintaining your home	Moderate or major problem
	- Maintaining your yard	Moderate or major problem
	- Staying physically fit	Moderate or major problem

Index	Individual Variables Used in Index	Required Rating
	- Maintaining a healthy diet	Moderate or major problem
	- Eat at least 5 portions of fruits and vegetables a day	Never or rarely
	- Participate in moderate or vigorous physical activity	Never or rarely
Mental health	Must have at least one of the following:	
	- How do you rate your overall mental health/emotional wellbeing?	Fair or poor
	- Feeling depressed	Moderate or major problem
	- Experiencing confusion or forgetfulness	Moderate or major problem
	- Having friends or family you can rely on	Moderate or major problem
	- Figuring out which medications to take and when	Moderate or major problem
	- Feeling bored	Moderate or major problem
	- Feeling lonely or isolated	Moderate or major problem
	- Dealing with the loss of a close family member or friend	Moderate or major problem
Health care	Must have at least one of the following:	
	- Finding affordable health insurance	Moderate or major problem
	- Getting the health care you need	Moderate or major problem
	- Affording the medications you need	Moderate or major problem
	- Getting the oral health care you need	Moderate or major problem
	- Getting the vision care you need	Moderate or major problem
	- Having adequate information or dealing with public programs such as Social Security, Medicare and Medicaid	Moderate or major problem
Institutionalization risk	Must have at least one of the following:	
	- Performing regular activities, including walking, eating and preparing meals	Moderate or major problem
	- No longer being able to drive	Moderate or major problem
	- Falling or injuring yourself in your home	Moderate or major problem
	- A hospital	Spent 3 or more days in past 12 months
	- In a long-term care facility (including nursing home or in-patient rehabilitation)	Spent 3 or more days in past 12 months
	- Thinking back over the past 12 months, how many times have you fallen and injured yourself? Was it…	Fell 3 or more times in past 12 months
	- Receive assistance from someone almost every day	Sometimes, usually or always
Basic necessities	Must have at least one of the following:	
	- How do you rate your overall quality of life?	Fair or poor
	- Having housing to suit your needs	Moderate or major problem
	- Having enough food to eat	Moderate or major problem
	- Having safe and affordable transportation available	Moderate or major problem

Appendix C: Benchmark Comparisons

NRC has developed a database that collates responses to CASOA and related surveys administered in other communities, which allows the results from the City of Aurora to be compared against a set of national benchmarks. This benchmarking database includes responses from more than 35,000 older adults (age 55 and over) in 175+ communities across the nation. The demographics of NRC's database match the demographics in the nation, based on the U.S. Census 2010 estimates.

Interpreting the Results

Ratings are compared when similar questions are included in NRC's database and there are at least five communities in which the question was asked. Where comparisons are available, three numbers are provided in the table. The first column is the City of Aurora's proportion of the population responding in a particular way (e.g., percent "likely" to recommend living in the community). The second column is the rank assigned to this rating among communities where a similar question was asked. The third column is the number of communities that asked a similar question. The fourth column shows the comparison of the City of Aurora's rating (column one) to the benchmark.

Where comparisons for ratings were available, the City of Aurora's results were generally noted as being "higher" than the benchmark, "lower" than the benchmark or "similar" to the benchmark. In instances where ratings are considerably higher or lower than the benchmark, these ratings have been further demarcated by the attribute of "much," (for example, "much higher" or "much lower"). These labels come from a statistical comparison of the City of Aurora's rating to the benchmark where a rating is considered "similar" if it is within than the margin of error; "higher" or "lower" if the difference between your community's rating and the benchmark is greater the margin of error; and "much higher" or "much lower" if the difference between your community's rating and the benchmark is more than twice the margin of error.

Table 53: Community as a Place for Older Residents Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Community as an excellent or good place to live	86%	227	393	Similar
Community as an excellent or good place to retire	71%	198	391	Similar
Excellent or good overall services provided to older adults	52%	32	69	Similar

Table 54: Recommendation of Community to Others Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Likely to recommend living to older adults	85%	176	315	Similar

Table 55: Remaining in Community Throughout Retirement Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Likely to remain throughout retirement	76%	52	69	Similar

Table 56: Older Adult Community and Belonging Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Excellent or good sense of community	53%	303	392	Lower
Excellent or good openness and acceptance of the community towards older residents of diverse backgrounds	54%	272	376	Similar
Excellent or good overall feeling of safety	66%	158	202	Lower
Excellent or good valuing of older residents	46%	56	68	Similar
Excellent or good neighborliness	47%	177	199	Lower

Table 57: Safety Problems Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Problems with being a victim of crime	17%	11	69	Similar
Problems with being a victim of fraud or a scam	24%	9	68	Similar
Problems with being physically or emotionally abused	10%	13	68	Similar
Problems with being treated unfairly or discriminated against because of age	39%	3	61	Higher

Table 58: Awareness of Older Adult Services and Activities Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Informed about services and activities available to older adults	54%	45	69	Similar

Table 59: Availability of Information About Older Adult Resource Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Excellent or good availability of information about resources for older adults	56%	6	69	Higher
Excellent or good availability of financial and legal planning services	53%	7	68	Higher

Table 60: Meaningful Activities Needs Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Problems with finding productive or meaningful activities to do	46%	2	68	Higher
Problems with feeling like your voice is heard in the community	54%	47	69	Similar
Problems with finding meaningful volunteer work	38%	16	69	Similar
Problems with not knowing what services are available to older adults in your community	64%	22	69	Similar

Table 61: Civic Engagement Opportunities Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Excellent or good opportunities to volunteer	85%	65	307	Similar
Excellent or good opportunities to attend or participate in meetings about local government or community matters	77%	10	69	Higher

Table 62: Participation in Civic Activities Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Attended a local public meeting at least once in past 12 months	27%	226	391	Similar
Watched (online or on television) a least once in past 12 months	24%	230	322	Lower
Participating in a civic group (including Elks, Kiwanis, Masons, etc.) for one hour or more per week	9%	46	69	Similar
Volunteering your time to some group/activity for one hour or more per week	40%	26	69	Similar
Voted in the last local election	87%	162	390	Similar

Table 63: Social Engagement Opportunities Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Excellent or good opportunities to attend social events or activities	62%	164	303	Similar
Excellent or good opportunities to attend religious or spiritual activities	92%	21	267	Higher

Table 64: Participation in Social Activities Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Used a senior center at least once in past 12 months	20%	25	69	Similar
Participating in a club (including book, dance, game and other social) for one hour or more per week	29%	42	69	Similar
Communicating/ visiting with friends and/or family for one hour or more per week	96%	25	199	Much higher
Participating in religious or spiritual activities with others for one hour or more per week	63%	210	266	Lower
Providing help to friends or relatives for one hour or more per week	76%	126	194	Similar

Table 65: Social Engagement Problems Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Problems with having interesting social events or activities to attend	46%	36	69	Similar

Table 66: Recreational and Personal Enrichment Opportunities Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Excellent or good opportunities to enroll in skill-building or personal enrichment classes	77%	1	69	Much higher
Excellent or good recreation opportunities (including games, arts and library services, etc.)	79%	93	389	Higher

Table 67: Participation in Recreational and Personal Enrichment Activities Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Used a recreation center at least once in past 12 months	36%	280	341	Similar
Used a public library at least once in past 12 months	56%	264	350	Similar
Visited a neighborhood park at least once in past 12 months	69%	268	389	Similar
Participating in a recreation program or group activity for one hour or more per week	36%	42	69	Similar

Table 68: Recreational Problems Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Problems with having interesting recreational or cultural activities to attend	44%	35	69	Similar

Table 69: Caregiver Burden Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Problems with feeling physically burdened by providing care for another person	27%	18	61	Similar
Problems with feeling emotionally burdened by providing care for another person	27%	31	61	Similar
Problems with feeling financially burdened by providing care for another person	21%	27	61	Similar

Table 70: Employment Opportunities Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Excellent or good employment opportunities	41%	108	376	Similar

Table 71: Financial and Legal Problems of Older Residents Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Problems with having enough money to meet daily expenses	40%	19	69	Similar
Problems with having enough money to pay your property taxes	27%	16	69	Similar
Problems with dealing with legal issues	36%	10	68	Similar
Problems with finding work in retirement	36%	16	69	Similar
Problems with building skills for paid or unpaid work	21%	56	69	Similar
Problems with dealing with financial planning issues	49%	4	68	Higher

Table 72: Physical Health Opportunities Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Excellent or good fitness opportunities (including exercise classes and paths or trails, etc.)	86%	35	201	Higher
Excellent or good availability of affordable quality physical health care	52%	222	347	Similar

Table 73: Overall Physical Health of Older Residents Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Excellent or good overall physical health	74%	41	202	Higher

Table 74: Participation in Healthy Activities Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Always or usually eats at least 5 portions of fruits and vegetables a day	33%	165	192	Lower
Always or usually participates in moderate or vigorous physical activity	49%	87	193	Similar

Table 75: Physical Health Problems of Older Residents Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Problems with your physical health	65%	9	69	Similar
Problems with problems with Doing heavy or intense housework	62%	15	68	Similar
Problems with maintaining your home	46%	14	69	Similar
Problems with maintaining your yard	43%	36	69	Similar
Problems with staying physically fit	69%	2	69	Higher
Problems with maintaining a healthy diet	50%	16	69	Similar

Excellent or good availability of affordable quality mental health care	52%	49	185	Higher

Table 77: Emotional Wellbeing of Older Residents Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Excellent or good overall mental health/emotional well being	86%	38	69	Similar

Table 78: Mental Health Problems of Older Residents Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Problems with feeling depressed	32%	56	68	Similar
Problems with experiencing confusion or forgetfulness	25%	59	68	Similar
Problems with having friends or family you can rely on	34%	19	69	Similar
Problems with figuring out which medications to take and when	8%	39	61	Similar
Problems with feeling bored	48%	11	68	Similar
Problems with feeling lonely or isolated	25%	61	68	Similar
Problems with dealing with the loss of a close family member or friend	48%	2	69	Higher

Table 79: Availability of Preventative Health Care Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Excellent or good availability of preventive health services (e.g., health screenings, flu shots, educational workshops)	65%	125	285	Similar

Table 80: Health Care Problems of Older Residents Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Problems with finding affordable health insurance	38%	45	69	Similar
Problems with getting the health care you need	20%	67	69	Lower
Problems with affording the medications you need	31%	32	68	Similar
Problems with getting the oral health care you need	28%	31	67	Similar
Problems with getting the vision care you need	19%	56	61	Similar
Problems with having adequate information or dealing with public programs such as Social Security, Medicare and Medicaid	48%	17	69	Similar

Table 81: Care Options for Older Residents Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Excellent or good availability of long-term care options	47%	8	62	Higher
Excellent or good availability of daytime care options for older adults	47%	3	61	Much higher

Table 82: Falls, Hospitalizations and Institutionalizations of Older Residents Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Spent at least 1 day in a hospital in past 12 months	25%	21	68	Similar
Spent at least 1 day in a nursing home or in-patient rehabilitation facility	8%	3	68	Similar
Had at least 1 fall in the past 12 months	24%	66	68	Similar

Table 83: Independent Living Problems of Older Residents Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Problems with performing regular activities, including walking, eating and preparing meals	30%	39	69	Similar
Problems with no longer being able to drive	20%	5	69	Similar
Problems with falling or injuring yourself in your home	28%	21	68	Similar

Table 84: Aspects of Design and Land Use Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Excellent or good availability of affordable quality housing	13%	358	383	Much lower
Excellent or good variety of housing options	36%	239	309	Lower
Excellent or good availability of affordable quality food	64%	184	311	Similar
Excellent or good ease of bus, rail, subway or other public transit	37%	105	200	Similar
Excellent or good ease of car travel	65%	198	377	Similar
Excellent or good ease of walking	71%	136	374	Similar
Excellent or good ease of getting to the places usually visited	68%	142	202	Similar
Excellent or good cost of living	32%	129	194	Similar

Table 85: Public Transportation Use by Older Residents Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Used bus, rail, subway or other public transportation instead of driving at least once	28%	48	177	Similar

Table 86: Basic Needs Problems of Older Residents Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Problems with having housing to suit your needs	18%	40	68	Similar
Problems with having enough food to eat	11%	33	68	Similar
Problems with having safe and affordable transportation available	25%	37	69	Similar

Table 87: Overall Quality of Life of Older Residents Benchmarks

	Aurora percent	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark
Excellent or good overall quality of life	80%	43	69	Similar

Appendix E: Survey Materials

Dear Resident,

It won't take much of your time to make a big difference!

Your household has been randomly selected to participate in a survey about your community. Your survey will arrive in a few days.

Thank you for helping us with this important study!

Sincerely,

Jayla Sanchez-Warren
Director/Directora

Estimado Residente,

¡No le tomará mucho de su tiempo para marcar una gran diferencia!

Su hogar ha sido elegido al azar para participar en una encuesta sobre su comunidad. Su encuesta le llegará dentro de pocos días.

¡Gracias por ayudarnos con este importante estudio!

Atentamente,

Jayla Sanchez-Warren
Director/Directora

May 2018

Dear Resident:

The Denver Regional Council of Governments, in association with the Colorado Association of Area Agencies on Aging (C4A) and with funding from NextFifty Initiative, is conducting a survey to learn about the current and future needs of older adults living in Adams, Arapahoe, Clear Creek, Douglas, Gilpin, and Jefferson Counties, as well as the City and County of Broomfield and the City and County of Denver.

El Consejo Regional de Denver de la Agencia de Área de Gobiernos Locales sobre el Envejecimiento está llevando a cabo una encuesta en su comunidad para enterarse de sus necesidades actuales y futuras. Usted ha sido elegido al azar para participar en la encuesta. Si usted prefiere completar la encuesta en Español, puede hacerlo en el sitio de red escrito abajo. Por favor escriba el vínculo exactamente como aparece. ¡Gracias por participar!

Please take a few minutes to complete the enclosed survey. Your participation in this survey is very important – especially since your household is one of only a small number of households being surveyed. Your feedback will help us to better understand and plan for the needs of older adults in our community.
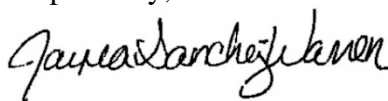

A few things to remember:
- **Your responses are completely anonymous.**
- In order to hear from a diverse group of older residents, the **adult 60 years or older** in your household who most recently had a birthday should complete this survey.
- **Please return the survey by mail in the enclosed postage-paid envelope, or you can complete the survey online at:**

If you have any questions or need assistance with this survey, please call Mindy Patton at 303-480-6723.

Thank you for your time and participation.

Respectfully,

Jayla Sanchez-Warren
Director, Area Agency on Aging

We make life better!

> **Please complete this questionnaire if you are the adult (age 60 or older) in the household who most recently had a birthday. The adult's year of birth does not matter. Please circle the response that most closely represents your opinion for each question. Your responses are anonymous and will be reported in group form only.**

1. Please circle the number that comes closest to your opinion for each of the following questions:

	Excellent	Good	Fair	Poor	Don't know
How do you rate your community as a place to live?	1	2	3	4	5
How do you rate your community as a place to retire?	1	2	3	4	5

2. Please rate each of the following characteristics <u>as they relate to adults age 60 or older in your community:</u>

	Excellent	Good	Fair	Poor	Don't know
Opportunities to volunteer	1	2	3	4	5
Employment opportunities	1	2	3	4	5
Opportunities to enroll in skill-building or personal enrichment classes	1	2	3	4	5
Recreation opportunities (including games, arts, and library services, etc.)	1	2	3	4	5
Fitness opportunities (including exercise classes and paths or trails, etc.)	1	2	3	4	5
Opportunities to attend social events or activities	1	2	3	4	5
Opportunities to attend religious or spiritual activities	1	2	3	4	5
Opportunities to attend or participate in meetings about local government or community matters	1	2	3	4	5
Availability of affordable quality housing	1	2	3	4	5
Variety of housing options	1	2	3	4	5
Availability of long-term care options	1	2	3	4	5
Availability of daytime care options for older adults	1	2	3	4	5
Availability of information about resources for older adults	1	2	3	4	5
Availability of financial or legal planning services	1	2	3	4	5
Availability of affordable quality physical health care	1	2	3	4	5
Availability of affordable quality mental health care	1	2	3	4	5
Availability of preventive health services (e.g., health screenings, flu shots, educational workshops)	1	2	3	4	5
Availability of affordable quality food	1	2	3	4	5
Sense of community	1	2	3	4	5
Openness and acceptance of the community towards older residents of diverse backgrounds	1	2	3	4	5
Ease of travel by public transportation in your community	1	2	3	4	5
Ease of travel by car in your community	1	2	3	4	5
Ease of walking in your community	1	2	3	4	5
Ease of getting to the places you usually have to visit	1	2	3	4	5
Overall feeling of safety in your community	1	2	3	4	5
Valuing older residents in your community	1	2	3	4	5
Neighborliness of your community	1	2	3	4	5
Cost of living in your community	1	2	3	4	5
Availability of services at the senior center	1	2	3	4	5
Quality of senior nutrition programs	1	2	3	4	5
Accessibility of long term care options that are open and accepting toward people of diverse backgrounds	1	2	3	4	5
Accessibility of daytime care options that are open and accepting toward people of diverse backgrounds	1	2	3	4	5

3. How would you rate the overall services provided to adults age 60 or older in your community?

❑ Excellent
❑ Good
❑ Fair
❑ Poor
❑ Don't know

4. In general, how informed or uninformed do you feel about the following?

	Very informed	Somewhat informed	Somewhat uninformed	Very uninformed
Services and activities available to older adults in your community	1	2	3	4
Long term care options (i.e. nursing homes, home care)	1	2	3	4
Information on planning for the future	1	2	3	4

5. Please circle the number that comes closest to your opinion for each of the following questions:

	Excellent	Good	Fair	Poor	Don't know
How do you rate your overall physical health?	1	2	3	4	5
How do you rate your overall mental health/emotional well being?	1	2	3	4	5
How do you rate your overall quality of life?	1	2	3	4	5

6a. The following questions list a number of problems that older adults may or may not face. Thinking back over the last 12 months, how much of a problem, if at all, has each of the following been for you?

	Not a problem	Minor problem	Moderate problem	Major problem	Don't know
Having housing to suit your needs	1	2	3	4	5
Your physical health	1	2	3	4	5
Performing regular activities, including walking, eating and preparing meals	1	2	3	4	5
Having enough food to eat	1	2	3	4	5
Doing heavy or intense housework	1	2	3	4	5
Having safe and affordable transportation available	1	2	3	4	5
No longer being able to drive	1	2	3	4	5
Feeling depressed	1	2	3	4	5
Experiencing confusion or forgetfulness	1	2	3	4	5
Maintaining your home	1	2	3	4	5
Maintaining your yard	1	2	3	4	5
Finding productive or meaningful activities to do	1	2	3	4	5
Having friends or family you can rely on	1	2	3	4	5
Falling or injuring yourself in your home	1	2	3	4	5
Finding affordable health insurance	1	2	3	4	5
Getting the health care you need	1	2	3	4	5
Affording the medications you need	1	2	3	4	5
Figuring out which medications to take and when	1	2	3	4	5
Getting the oral health care you need	1	2	3	4	5
Having tooth or mouth problems	1	2	3	4	5
Getting the vision care you need	1	2	3	4	5
Having enough money to meet daily expenses	1	2	3	4	5
Having enough money to pay your property taxes	1	2	3	4	5
Staying physically fit	1	2	3	4	5
Maintaining a healthy diet	1	2	3	4	5
Having interesting recreational or cultural activities to attend	1	2	3	4	5
Having interesting social events or activities to attend	1	2	3	4	5
Feeling bored	1	2	3	4	5
Feeling like your voice is heard in the community	1	2	3	4	5
Finding meaningful volunteer work	1	2	3	4	5
Feeling physically burdened by providing care for another person	1	2	3	4	5
Feeling emotionally burdened by providing care for another person	1	2	3	4	5
Feeling financially burdened by providing care for another person	1	2	3	4	5

6b. The following questions list a number of other problems that older adults may or may not face. Thinking back over the last 12 months, how much of a problem, if at all, has each of the following been for you?

	Not a problem	Minor problem	Moderate problem	Major problem	Don't know
Feeling overwhelmed and/or exhausted when caring for another person.	1	2	3	4	5
Dealing with legal issues	1	2	3	4	5
Having adequate information or dealing with public programs such as Social Security, Medicare and Medicaid	1	2	3	4	5
Finding work in retirement	1	2	3	4	5
Building skills for paid or unpaid work	1	2	3	4	5
Not knowing what services are available to older adults in your community	1	2	3	4	5
Feeling lonely or isolated	1	2	3	4	5
Dealing with the loss of a close family member or friend	1	2	3	4	5
Being a victim of crime	1	2	3	4	5
Being a victim of fraud or a scam	1	2	3	4	5
Being physically or emotionally abused	1	2	3	4	5
Dealing with financial planning issues	1	2	3	4	5
Being treated unfairly or discriminated against because of your age	1	2	3	4	5

7. Thinking back over the past 12 months, how many days did you spend…

As a patient in a hospital?......... _____ number of days

In a long-term care facility (including nursing home or in-patient rehabilitation)?...... _____ number of days
