- DRCOG updates
 - Steve Cook updated the ICG on the schedule for the upcoming 2040 and 2045 MVRTP.
- NFRMPO updates
 - Becky Karasko discussed the NFRMPO's upcoming amendment schedule, including North I-25 segments 5&6. If the schedules work out, DRCOG and NFRMPO will attempt to bring both amendments to AQCC together in the winter/spring of 2018.
 - NFRMPO and DRCOG both established that we will use 2020, 2030, and 2040 as our staging years, beginning with the next amendment cycle.
- RAQC updates
 - Amanda Brimmer gave an update the 2017 ozone season. At the time, it appeared that the region may meet the current budget in the 2017 ozone season. However, Amanda asked whether Tim Russ or Abby Fulton understood the current process for a redesignation to a 'Serious' non-attainment area or if a 179B exemption may be possible. Neither Tim nor Abby had a concrete response at this time, but they suggested they will follow up as soon as any news became available.
