Vision #1: Members only

Members-only	Mainly govt partners
Sub-committees	Continue to develop framework datasets
Sharing	With consortium members only
Funding	Grassroots-based, mainly our time, not \$
Flagship Product	Framework data layers via secure FTP
Web-based	Regional data catalog that can be utilized (like DRCOGs)
Community	Available to public through catalog or each partner's website
Compact	Agreement to share with 'official' consortium members

Vision #2: Shared services

Members-only (with subscriptions)	Paid partnerships
Staffing to develop data	Hire staff to develop standardized datasets
Sharing	Some data free, most data has a fee \$
Funding	Typically project-based; as needed (i.e., DRCOG land use model project)
Flagship Product	DVD or FTP with standardized data for subscribers
Web-based	Information about data and subscriptions online
Community	Available to public through paid subscription
Compact	Agreement to share with 'official' consortium members

Vision #3: Open access

Data and apps	Open access
Staffing to develop	Share what you are already sharing - but with the DRDC
Sharing	Open data access
Funding	Share cost via multi-agency business partnership
Flagship Product	Open data catalog (OCG-compliant services), RSS/GeoRSS feeds, and APIs for programmers to consume data services
Web-based	Share new app ideas, contact data providers with questions, host a code challenge with prizes \$, etc.
Community	Available to public and entrepreneurs, public/private partnerships

How excited are you about Vision #1: Members only?

3% 1. Love it

37% 2. Like it

17% 3. On the fence

43% 4. Not my kind of vision

How excited are you about Vision #2: Shared services?

13% 1. Love it

48% 2. Like it

25% 3. On the fence

15% 4. Not my kind of vision

How excited are you about Vision #3: Open access?
