# ADVISORY COMMITTEE ON AGING MEETING SUMMARY February 19, 2016

#### **Members Present**

Bob Davis Broomfield County
Bob Lanky Jefferson County
Donna Mullins Jefferson County

Houston "Tex" Elam At Large
Mary Ellen Makosky Gilpin County

Maureen Spiegleman Denver Office on Aging

Muriel Arvay Denver County

Vivian Stovall

Dawn Perez

Karie Erickson

Cary Johnson

Cathy Noon

Douglas Bowen

At Large

Adams County

Douglas County

Jefferson County

Arapahoe County

Arapahoe County

Amanda Gregg City and County of Denver

**Guests Present** 

Roseanne Dorn Broomfield County
Bonnie Ashton Adams County
Michele Bowen Arapahoe County

Debbi MacLeod The Colorado Talking Book Library
Gary Sobol GZ Sobol Parkinson's Network

Barbara Jaynes Positively-Funded

## **Others Present**

Jayla Sanchez-Warren, Shannon Gimbel, AJ Diamontopoulos, Amy Pulley, Mindy Patton, Jill Eelkema, Matthew Helfant

### **Call to Order and Introductions**

Bob Davis called the meeting to order @ 12:10 p.m.

## **Public Comment**

Vivian Stovall

- RTD now has a citizen advisory committee
  - There are 5 positions open
  - Applications go out the end of March
  - Includes everything that has to do with RTD
  - Interested please put in an application

## Approval of the October 16, 2015 meeting summaries.

Doug Bowen made a motion to accept the summaries. Tex Elam seconded, summaries were accepted.

#### **Presentations**

## Debbi MacLeod - The Talking Book Library

- The Talking Book Library is a qualified location
- Free service
- Books delivered through the mail postage paid
- The library provides the equipment, books, magazines, brail books and magazines and large print books
- Books are in English and Spanish and 128 other languages
- It is a federal and state partnership, can transfer membership from state to state
- Books are downloadable to a tablet or phone
- Call to action spread the word regarding this service
- Also available at recreation centers and other places to allow people to attend book clubs and increase socialization

### Gary Sobol - GZ Sobol Parkinson's Network

- Gary provided us with his background and explained what Parkinson's is and its effects
  - Colorado and Wyoming have some of the largest populations with disease approximate age of onset is 50
  - Parkinson's effects more men than women
- Explained MS and its effects
  - Some symptoms of MS are the same as Parkinson's
  - MS effects younger people
- Gary researched and created an exercise class
  - He now has 75 classes across the U.S. with 1,000 plus participants
  - Gary provides free classes for caregivers and people affected his organization is a non profit
  - He uses the exercises that help with the affected area
- He will begin a 2 year research with Anschutz Medical Center

#### Matthew Helfant – DRCOG Transportation Planning and Operations

 Matthew provided a PowerPoint presentation (see attached handout) – DRCOG Coordinated Transit Plan

#### Presentation comments:

- Vivian Stovall asked how Senate Bill 11 would impact the transit plan if passed by the House. Matthew stated that DRCOG is opposing the bill along with their lobbyists.
- Cathy Noon said she would like to see when rapid transit lines open the areas don't lose local bus routes. She stated that Light Rail is about economic development not transportation. She also said that Access-a-Ride should be separate from buses and it is costly for short trips.
- Doug Bowen talked about the same issues in Arapahoe County this generated a
  discussion regarding SRC and transportation through them. Doug said everything is
  flowing to downtown and not north and south. In Arapahoe County haveing to go
  downtown to catch north and south routes. He would also like to see something done
  about enforcing the snow shoveling ordinance.
- Matthew informed Amanda Gregg about the federal plan for Human Service and Transportation and applying for 5310 money. The City and County of Denver is looking beyond RTD for transportation solutions.
- Vivian Stovall stated most programs are for medical appointments and would like to use transportation services for other trips such as grocery store, hair appointments and social activities.
- Matthew hoped to address these issues with better coordinated services.
- Bob Davis said Broomfield wished RTD could be more flexible with fixed routes to accommodate the cluster of small homes nearby. He said it was a long walk from the bus stop to the homes for someone with mobility issues. Bob told the group they have trouble with timing as well. Call-a-Ride is limited early in the morning and midafternoon because they are carrying school children which helps them justify the routes but leaves others out. He would like to see partnerships created to get funding and clout to serve people better. He would like to look at Douglas County since they have a successful program.
- Karie Erickson said there is no RTD service in Douglas County. There is a small stretch in Parker and Highlands Ranch that RTD covers. If not in those areas there is no access to Access-a-Ride or Call-a-Ride. Agreed they need to focus beyond RTD. She commented that life is more than getting to doctor appointments so when funding is only for this it's not right. It is just as important to get their hair done, go to the movies and visit a loved one in a nursing home. She would like to see providers out there filling in the gaps for more quality of life transportation.
- Maureen Spiegleman stated that aging in place demands transportation for socialization.
   SRC has a volunteer program that brings in volunteers from the Inner University
   Fraternity Council. They are given a stipend and are paid for gas.
- Bob Davis said that this program has been going on for 2 or 3 months and the problem is when the students are out on vacation the service ends. They are trying to improve the service.
- Tex Elam said that some of the best services are local services where he lives and does not want to see them eliminated.

## <u>Director's Report</u> – Jayla Sanchez-Warren

- Next month the ACA meeting will be a workshop, it will be from 9 p.m. to 3 p.m. on March 18<sup>th</sup>.
  - We will have our committee 20 year celebrations

- Kelly will help facilitate to develop priorities
- The ACA meeting has been for us to distribute and give information to the committee but Jayla would like to see if there is something else the committee would like to do.

## Washington DC trip

- Jennifer Schaufele DRCOG Executive Director, Jackie Millet Board Chair, Mickey Farrell DRCOG Lobbyist and Jayla went to Washington DC
- Goal was to talk about the Reauthorization Act, specifically the funding formula and the "Hold Harmless" provision of the formula.
- The current formula penalizes seniors living in fast aging states.
- This year Congressman Polis was able to get us a very valuable piece of information, a Congressional Review. This provided us black and white proof from a credible office that Congress respects.
- DRCOG took that information and created a map (see handout). The map shows 2/3 of the country seniors are impacted negatively by the current "Hold Harmless" funding provision.
- Jennifer and Jackie took the map to the National COG Association and were able to talk to other COG Directors and policy directors of the National AARP. AARP would like the public to know they support the Older Americans Act (OAA) and want it passed but do not want to address formula or "Hold Harmless" provision. When shown the map people were surprised.
- Met with the staff of the Minority Education and Workforce committee.
- Met with N4A. . N4A does not want to get involved with the formula because there are winners and losers. Jayla explained to them no action meant they were already picking winners and losers and that 2/3rds of the country's seniors were losers..
- Colorado is losing 15% of their funding. DRCOG is now calculating how much each state is losing and developing a new map that will show these new numbers.
- Jennifer is reaching out to the other COG directors and Jayla is talking to the AAA
   Directors across the country to rally them to advocate for the change.
- We need the bill to pass. There is a House version being worked on right now to ask for increased funding for all states in OAA and a date specific for the "Hold Harmless" provision to be phased out. Not a lot of hope that the bill will be introduced this year. If not it gives us more time to get organized.
- Colorado bill introduced to build support for the Reauthorization Act. A joint memorial
  expressing the position has been drafted asking committee to call their legislator and ask
  for the support of the bill.

There was further discussion about amendments being attached to the bill, which Jayla said had been removed.

Maureen Spiegleman asked what 3 points she could present when talking to legislators. 1) Urge them to sign the memorial 2) Sign on as co-sponsors 3) Remind them that all seven members of the Colorado U.S. House Delegation supported the effort.

## **Compliance and Finance Report** – Jayla Sanchez-Warren for Sharon Day

#### SUA Audit

- Coordinating with providers to address remaining items on the SUA audit report.
   Finalizing the response to the report for submission to the SUA next week. 10-day compliance items have been fully addressed.
- Will be working with Lyman Hamblin to review DRCOG's provider assessment tool to ensure that it is up-to-date and complete.

## Contract budgets

- Providers received a mid-year contract analysis in late January. They received information related to the level of spend, funding match, service units and unduplicated client count through six months ended December 31. Working with providers to ensure that funds will be spent by the fiscal year end.
- Providers are currently working on their budget proposals for FY16-17. The due date is March 1. Budget submissions for Visually Impaired grants are due April 1.

#### Other

- Will be submitting a recommendation soon related to reallocation of funds from terminated contract (Arapahoe Douglas Mental Health Network)
- Mandatory contractor training held at DRCOG on January 28.
- Providers currently conducting consumer satisfaction surveys at the directive of the State during the month of February. Purpose is to better measure outcomes related to AAA services.

## **<u>CCT and Case Management Report</u>** – Amy Pulley

#### Case Management

- 2 new Case Managers start on March 16<sup>th</sup>, 1 Spanish speaker
- Continuing to grow the Latino population
- On track for the spending budget

#### CCT

- Everything going well
- No housing so it is hard to place people when there is no place to go
- RTC Subcommittees are going well
- Will have Medicaid training to get everyone on the same page so everyone knows what their roles are to improve efficiency
- The housing subcommittee, HUD, DOLA, Denver Housing Authority and Brothers Redevelopment are coming up with some really great ideas
  - Even if there is no housing trying to work closely together to figure out how to communicate if a unit becomes available and someone can't use it, then letting others know
  - Messaging to landlords to get them to take Section 8 Housing. Letting them know that if someone has a disability it is no more complicated than renting to someone without a disability. Trying to speak to their hearts since they are not getting as much money for rent, to give out of kindness

## **Ombudsman Program – Shannon Gimbel**

- Shannon spoke previously about issues with unlicensed homes and people who are marketing hospitals now the issue has been kicked over to the Colorado Coalition for Elder Rights and Abuse.
  - Shannon will be on a panel at their quarterly meeting to discuss these issues and what to look for
- House Bill 78 being is being brought up by the Colorado Assisted Living to require continuing education for assisted living administrators.
  - Not a good bill, fought to change last year and will probably fight about it next year.
  - The Colorado Counselor Assisted Living Advisory Committee is rewriting the regulations, a big part of the rewrite is administrator training.
  - Colorado Assisted Living is a membership organization, their reason for backing the bill is primarily to generate revenue. Administrators would have to be members to get the continuing education. If not a member they would have to pay membership fee.

## Community Resources Report - Jill Eelkema

- Jill passed out Semi Annual Reporting Tool (SART) report (attached). Dates on handout are incorrect the report is for January of 2016.
  - 872 contacts
    - Doubled from previous month
    - ° These are calls that come into DRCOG and do not include emails or follow-up research to help people find resources.
    - Went up because we now have 3 volunteers who are doing a good job of documenting calls.
  - 20% of calls are for people under the age of 60
  - 396 disability calls
  - 596 referrals to OAA programs
  - 17 where Options Counselors went to see in person

#### **Business Development Coordinator Report – AJ Diamontopoulos**

- Working on data analysis and that is going well
- Working on Grant for CMS.
  - Will see if community based interventions have any effect on clinical outcomes.
  - It is a 5 year grant and will build a relationship with healthcare partners and community based partners.
  - There are requirements for food insecurity, housing insecurity and quality, interpersonal violence including domestic violence and transportation.
  - We are working on building a consortium
- Looking at partnerships for "no wrong Door" opportunity for the pilot program with HCPF

# **Chair Report** – Bob Davis

No Chair report.

# **Information Sharing**

None

# <u>Adjournment</u>

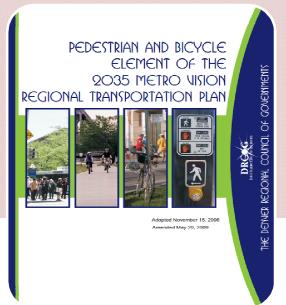

Meeting was adjourned 3:21 p.m.

# 2040 MVRTP – 3 Unique Components

Freight & Goods Movement

Bicycle/Pedestrian Component

Coordinated Transit Plan

# Introduction – Purpose

- ◆ Transit component of MVRTP
  - ◆ Fixed route, rapid transit, human service
  - Integrate directly in MVRTP document
- ◆ Federally-required "coordinated plan"
  - Specific content requirements
  - Used to verify eligibility of projects funded through FTA
     5310 program

# Major Topics

- ◆ Public & stakeholder input
- ◆ Existing services & funding
- Demographics & forecasted growth
- ◆ Needs assessment
- ◆ Strategies to address needs

# Public & Stakeholder Input

# ◆ Stakeholders:

- DRMAC (Denver Regional Mobility and Access Council)
  - Member organizations
- ◆ RTD, CDOT
- Other transit providers
- General public, advocacy groups

# ◆ Notable outreach:

- DRCOG-DRMAC transit forum
- CDOT Transit Plan & open house
- Regional and County-based surveys

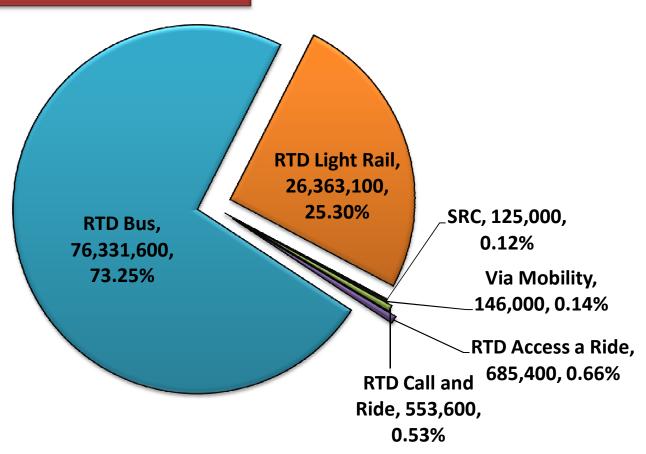

# **Existing Services Profile**

- ◆ Fixed route & rapid transit: RTD, others
- ◆ Human service transportation:
  - ◆ Seniors' Resource Center
  - Via Mobility Services
  - Many others
- ◆ Other service providers: taxis, Gilpin Connect, volunteer drivers, Uber/Lyft, friends & family

# 2014 Boardings

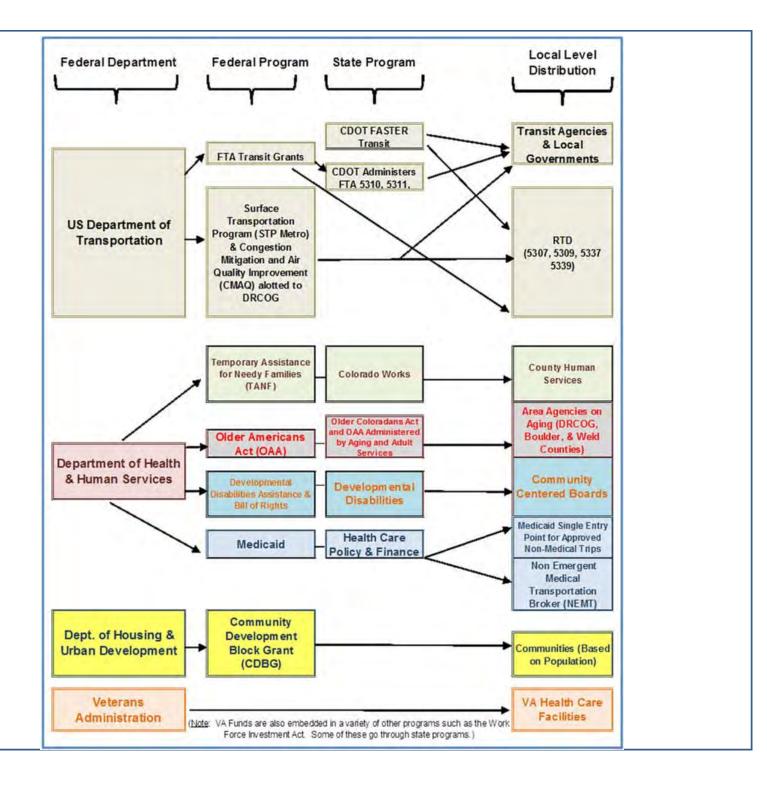

**Total Estimate: 105 million+ annual boardings** 

# Funding Profile

- ◆ Service type (fixed route, human service)
- ◆ Source (federal, state, local/other)
- ◆ Blending & leveraging

# Notable Funding Sources

- FTA grant programs
  - ◆ 5307 (urban) Capital, job access & reverse commute
  - ◆ 5309 New Starts/Small Starts
  - ◆ 5310 Older adults & individuals with disabilities
  - ◆ 5311 (rural) Capital, operating
  - ◆ 5339 Bus and bus facilities
- CDOT FASTER Transit (statewide & local pools)
- ◆ RTD sales and use tax
  - ◆ \$0.06 base system
  - ◆ \$0.04 FasTracks
- ◆ Farebox revenue, other local \$\$
- ◆ DRCOG-controlled federal grants (e.g. CMAQ)

# Demographics & Forecasted Growth

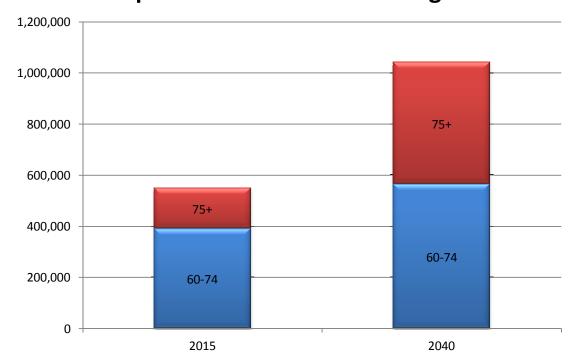

- ◆ Forecast populations (2040):
  - Individuals with disabilities
  - Older adults & youth
  - Low income/minority
  - Refugee/limited English
  - Overlap between populations
  - ◆ Zero vehicle households

60+ population will be 1 in 4 by 2040

# Growth of Older Adults

# Projected Growth of 60 & 75+ Populations in the DRCOG Region

200% increase for 75+ population

# Needs Assessment

# ◆ Several sources:

- Public & stakeholder forums
- Provider & public surveys
- Local Coordinating Council needs assessments

# ◆ Major mobility needs:

- Ongoing capital and operating dollars
- More cross-jurisdictional trips & trip coordination
- Reduce service gaps (geographic, time of day)
- Improve transit accessibility

# Strategies to Address Needs

# Coordinate Services

- Fund high-value projects, spend funding efficiently
- Leverage multiple funding sources
- Coordinate trips across boundaries
- Implement technology to improve coordination
- Integrate volunteer driver programs

# Remove Barriers

- Infrastructure (sidewalks, bus stops)
- ◆ First and last mile connections to/from transit
- ◆ Travel training, information & assistance
- Service areas, availability

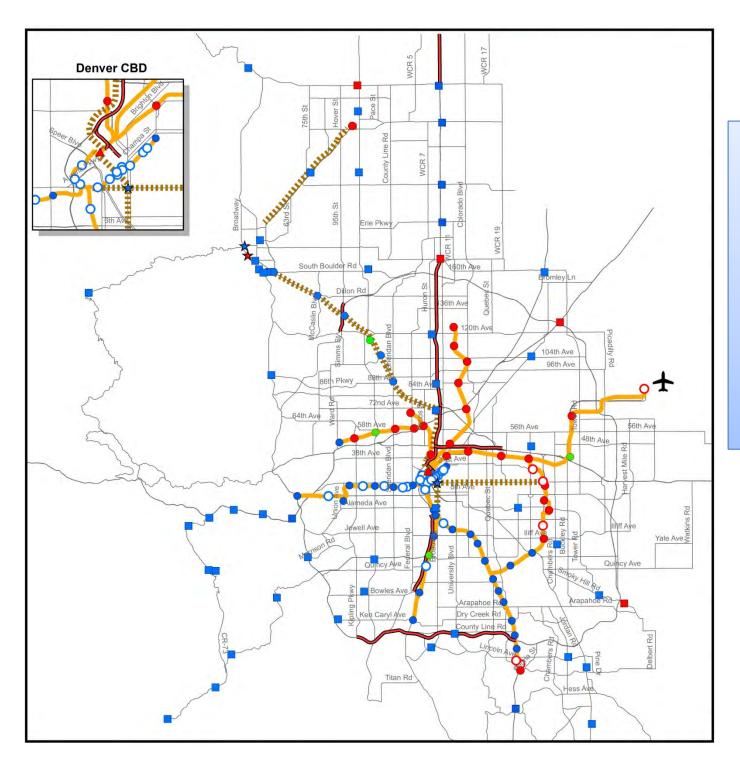

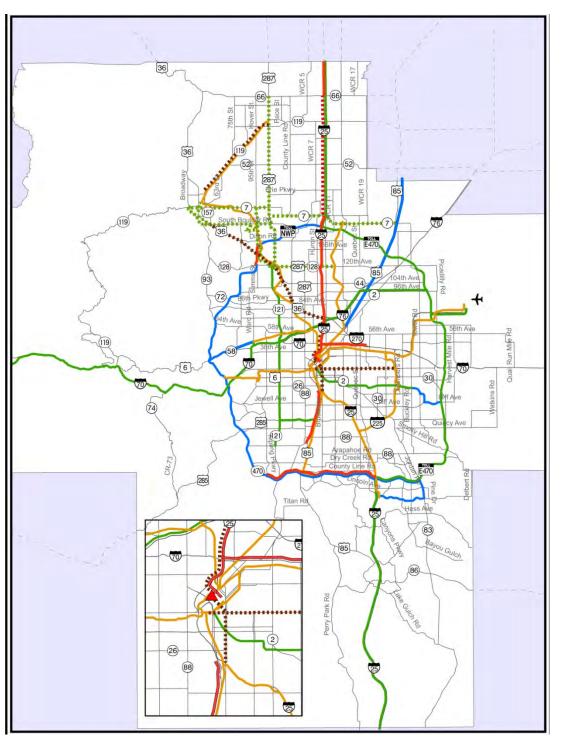

# Relationship to MVRTP

- Fiscally constrained transit system
  - Base system expansion & maintenance
  - Human service transportation
  - Rapid transit system (FasTracks, BRT)
- ◆ Metro Vision Rapid Transit System
  - Fiscally constrained rapid transit, FasTracks (Tier 1)
  - Potential regional & intercity corridors (Tier 2)
  - Conceptual preservation corridors (Tier 3)
- Other underfunded transit needs

MVRTP
Fiscally
Constrained
Rapid
Transit
System

# Metro Vision Rapid Transit System

(Fiscally Constrained and Vision)

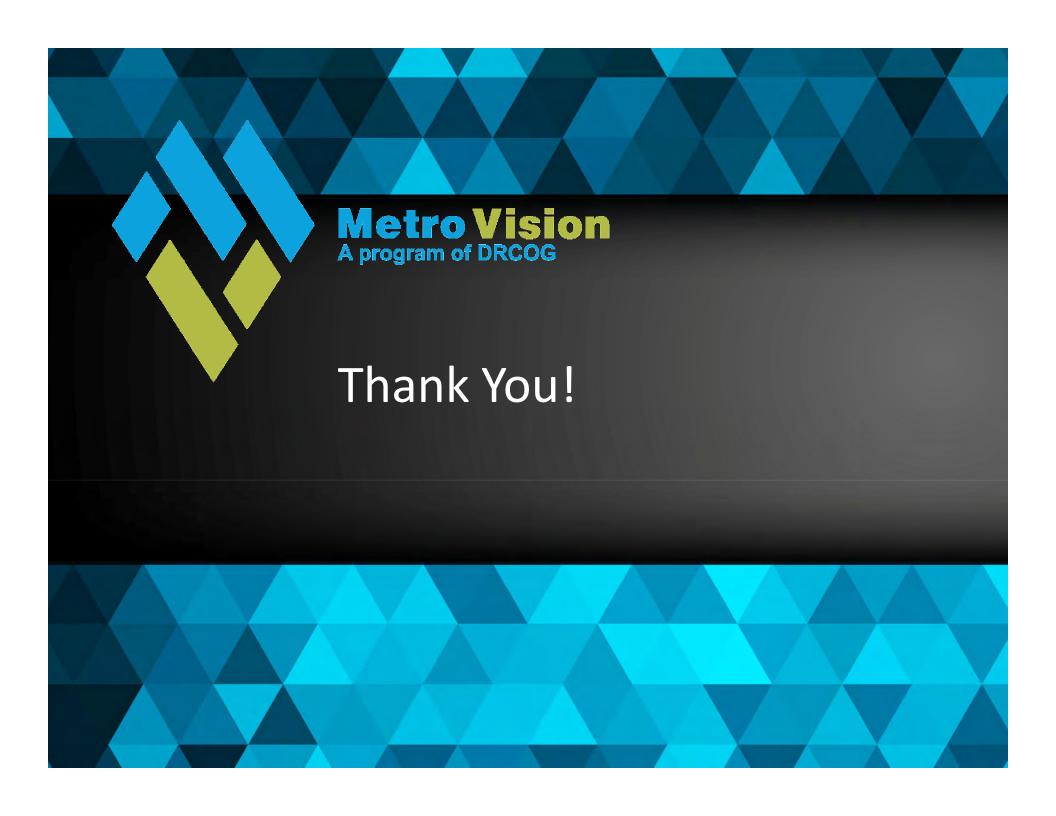

# **Desired Input**

- ◆ Topics to add, modify, or delete
- ◆ Transit issues & concerns you've heard
- ◆ Other questions/comments

# **Transportation Advisory Committee Input**

- ◆ Topics they were interested in:
  - ◆ Health care transportation
  - ♦ Veterans
  - **◆** Affordability

# States most harmed by the Older American Act's "hold harmless" provision.

Removing "hold harmless" would allow dollars to flow to places where seniors are living today.

# Legend

## HARMED

Alabama Arizona California Colorado Florida Georgia Indiana Kentucky Louisiana Maine Maryland Michigan Minnesota Nevada New Mexico North Carolina Oregon Puerto Rico South Carolina Tennessee Texas Utah Virginia Washington

Wisconsin

## **NEUTRAL**

Alaska
Delaware
District of Columbia
Hawaii
Idaho
Montana
New Hampshire
North Dakota
Rhode Island
South Dakota
Vermont
Wyoming
Guam
Northern Marianas
Virain Islands

## **FAVORED**

If your state is being penalized as mine is, let's work together to make certain older Americans are treated fairly throughout the country.

Jayla

to make
Americans
dairly
he country.

Jayla

For more information, please contact the Denver Regional Council of Governments

ADRC Consumer Information	<u> </u>	1											
Instructions: Please enter information about individual consumers your ADRC served													
during this reporting period. Consumers are individuals 60 years of age and older or 18 years of age and older with a disability who require long-term care services due to a													
chronic condition and who the ADRC provided information to regarding long-term care services. This information may be provided to the individual, a family member, caregiver,													
or any professional calling on behalf of the individual. To be counted as a ADRC consumer, identifying information should have been collected to verify the individual met													
the above criteria. To calculate your Total Consumers, you should consider consumers													
you have provided at least one service to during this reporting period. Please note that not all contacts turn into consumers and one consumer may have contacted you several													
times in the reporting period. Therefore, your number of Total Consumers is likely to be smaller than the number of Total Contacts.
