

AGENDA
BOARD OF DIRECTORS
WEDNESDAY, December 15, 2021
6:30 p.m. – 8:10 p.m.
VIDEO/WEB CONFERENCE
Denver, CO

1. 6:30 Call to Order
2. Roll Call and Introduction of New Members and Alternates
3. Move to Approve Agenda
4. 6:40 Report of the Chair
 - Report on Performance and Engagement Committee
 - Report on Finance and Budget Committee
5. 6:45 Report of the Executive Director
6. 6:50 Public Comment

Up to 45 minutes is allocated now for public comment and each speaker will be limited to 3 minutes. If there are additional requests from the public to address the Board, time will be allocated at the end of the meeting to complete public comment. The chair requests that there be no public comment on issues for which a prior public hearing has been held before this Board. Consent and action items will begin immediately after the last speaker.

TIMES LISTED WITH EACH AGENDA ITEM ARE APPROXIMATE. IT IS REQUESTED THAT ALL CELL PHONES BE SILENCED DURING THE BOARD OF DIRECTORS MEETING. THANK YOU!

Persons in need of auxiliary aids or services, such as interpretation services or assisted listening devices, are asked to contact DRCOG at least 48 hours in advance of the meeting by calling (303) 480-6701.

We make life better!

CONSENT AGENDA

7. 7:00 Move to Approve Consent Agenda
 - i. Minutes of November 17, 2021
(Attachment A)
 - ii. FY 2022-2025 Transportation Improvement Program (TIP) Amendments
(Attachment B)

ACTION ITEMS

8. 7:05 Select representatives to serve on the RTC, STAC, E-470, and the ACA
(Attachment C) Douglas W. Rex, Executive Director
9. 7:20 Discussion of the Front Range Passenger Rail District Board nomination and appointment process
(Attachment D) Jacob Riger, Manager, Transportation Planning and Operations

INFORMATIONAL BRIEFING

10. 7:35 Draft FY2022-2027 TIP Policy and Call for Projects applications
(Attachment E) Todd Cottrell, Senior Transportation Planner, Transportation Planning and Operations
11. 8:00 Committee Reports

The Chair requests these reports be brief, reflect decisions made and information germane to the business of DRCOG

 - A. Report from State Transportation Advisory Committee – Ashley Stolzmann
 - B. Report from Metro Mayors Caucus – Bud Starker
 - C. Report from Metro Area County Commissioners – Jeff Baker
 - D. Report from Advisory Committee on Aging – Jayla Sanchez-Warren
 - E. Report from Regional Air Quality Council – Doug Rex
 - F. Report from E-470 Authority – John Diak
 - G. Report from CDOT – Rebecca White
 - H. Report on FasTracks – Bill Van Meter

INFORMATIONAL ITEMS

12. Transportation Improvement Program (TIP) administrative modifications
(Attachment F) Todd Cottrell, Senior Transportation Planner, Transportation Planning and Operations
13. Advanced Mobility Partnership (AMP) annual update
(Attachment G) Emily Lindsey, Transportation Technology Strategist, Transportation Planning and Operations

ADMINISTRATIVE ITEMS

14. Next Meeting – January 19, 2022
15. Other Matters by Members
16. 8:10 Adjourn

CALENDAR OF FUTURE MEETINGS

December 2021

1	Board Work Session	Cancelled
1	Performance and Engagement Committee	4:00 p.m.
14	Regional Transportation Committee	8:30 a.m.
15	Finance and Budget Committee	5:45 p.m.
15	Board of Directors	6:30 p.m.
17	Advisory Committee on Aging	Noon – 3 p.m.
27	Transportation Advisory Committee	1:30 p.m.

January 2022

5	Board Work Session	4:00 p.m.
5	Performance and Engagement Committee	5:30 p.m.*
18	Regional Transportation Committee	8:30 a.m.
19	Finance and Budget Committee	5:30 p.m.
19	Board of Directors	6:30 p.m.
21	Advisory Committee on Aging	Noon – 3 p.m.
24	Transportation Advisory Committee	1:30 p.m.

February 2022

2	Board Work Session	4:00 p.m.
2	Performance and Engagement Committee	5:30 p.m.*
15	Regional Transportation Committee	8:30 a.m.
16	Finance and Budget Committee	5:40 p.m.
16	Board of Directors	6:30 p.m.
18	Advisory Committee on Aging	Noon – 3 p.m.
21	Transportation Advisory Committee	1:30 p.m.

*Start time for this meeting is approximate. The meeting begins at the end of the preceding Board Work Session

SUMMARY
BOARD OF DIRECTORS
WEDNESDAY, November 17, 2021

Members/Alternates Present

Ashley Stolzmann, Chair	City of Louisville
Steve O'Dorisio	Adams County
Jeff Baker	Arapahoe County
Alison Coombs	City of Aurora
Larry Vittum	Town of Bennet
Aaron Brockett	City of Boulder
Matt Jones (Alternate)	Boulder County
William Lindstedt	City and County of Broomfield
Deborah Mulvey	City of Castle Pines
Tim Dietz (Alternate)	Town of Castle Rock
Tammy Mauer	City of Centennial
Randy Weil	City of Cherry Hills Village
Craig Hurst (Alternate)	City of Commerce City
Nicholas Williams	City and County of Denver
Kevin Flynn	City and County of Denver
George Teal	Douglas County
Steve Conklin	City of Edgewater
Linda Montoya	City of Federal Heights
Josie Cockrell	Town of Foxfield
Lynette Kelsey	Town of Georgetown
Jamie Jeffery (Alternate)	Gilpin County
Jim Dale	City of Golden
Dave Kerber (Alternate)	City of Greenwood Village
Tracy Kraft-Tharp	Jefferson County
Stephanie Walton	City of Lafayette
Wynne Shaw	City of Lone Tree
Joan Peck	City of Longmont
Colleen Whitlow	Town of Mead
Julie Duran Mullica	City of Northglenn
John Diak	Town of Parker
Sally Daigle	City of Sheridan
Neal Shah	Town of Superior
Jessica Sandgren	City of Thornton
Sarah Nurmela	City of Westminster
Bud Starker	City of Wheat Ridge
Rebecca White	Colorado Department of Transportation
Sally Chafee	Governor's Representative
Bill Van Meter	Regional Transportation District

Others Present: Douglas W. Rex, Executive Director, Melinda Stevens, Executive Assistant, DRCOG; Bryan Weimer, Arapahoe County; Janet Lundquist, Chris Chovan, Adams County; Mac Callison, Aurora; Cindy Copeland, Boulder County; Sarah Grant, Broomfield; Brent Soderlin, Commerce City; Art Griffith, Lauren Pulver, Douglas County; Kent Moorman, Thornton; Debra Baskett, Westminster; Danny Herrmann, Jan Rowe,

CDOT; Chris Rork, Citizen; and DRCOG staff.

Chair Ashley Stolzmann called the meeting to order at 6:30 p.m. with a quorum present.

The Chair noted new members and alternates: Sally Chafee, Colorado Department of Transportation, representing Governor Polis. There was a new member designated on November 15 for the City of Westminster: Sarah Nurmela, Council Member. DRCOG was not notified of this designation prior to the Board meeting, so there was a discussion and vote on allowing Director Nurmela to participate at this evening's meeting.

Director Dale **moved** to allow Sarah Nurmela to participate in the November 17 Board of Directors meeting. The motion was **seconded** and **passed** unanimously.

Move to approve agenda

Director Jeffery **moved** to approve the agenda. The motion was **seconded** and **passed** unanimously.

Report of the Chair

Chair Stolzmann had nothing to report.

- Director Conklin reported the Performance and Engagement Committee met on November 3 and entered into an Executive Session to discuss Executive Director Doug Rex's performance and evaluation. Overall, it was a very positive review and Director Conklin thanked ED Rex for all of his hard work. The committee also received an informational briefing:
 - A discussion on returning to in-person meetings. Staff compiled a return to in-person meetings proposal for review by members. Members had suggested edits for staff to change on this document before it is submitted to the entire DRCOG board.
- Director Shaw reported the Finance and Budget Committee and Regional Response, Inc. (RRI) met prior to the Board meeting and the committees were briefed on the six-month RRI 2021 audit and the DRCOG six-month 2021 audit, due to the change in fiscal year. Additionally, the Finance and Budget Committee approved three resolutions authorizing the executive director to:
 - accept execute an amendment to the contract with Enterprise Rent-A-Car Company of Pittsburgh, extending the contract termination date to June 30, 2022, with no other changes to the existing contract.
 - negotiate and execute a contract with The Sanborn Map Company, Inc. (Sanborn) in an amount not to exceed \$730,000 and Nearmap in an amount not to exceed \$450,000 for 2022 and 2023 aerial imagery and related products and services and to collect payment from all participating parties for the products and services purchased.
 - amend the existing Complete Streets Toolkit consultant contract in a total authorization amount not to exceed \$160,000 to conduct initial implementation activities associated with DRCOG's Regional Complete Streets Toolkit.

Report of the Executive Director

- ED Rex asked directors to please take time to review two of the informational items listed on the agenda in full:
 - Preview of 2021 state legislative session
 - Denver Region Data Brief, “The COVID-19 pandemic’s effect on construction”
- DRCOG’s Annual Awards Celebration: the event will be taking place on April 27, 2022 at Empower Field. Award nominations are now open and can be submitted until January 7, 2022.
- DOLA Affordable Housing Grants: The Department of Local Affairs is accepting applications on several new affordable housing grant programs. If any community is interested in that program, the next round of “letters of intent” are due on December 6.

Public Comment

There was no public comment.

Move to approve consent agenda

Director Coombs **moved** to approve the consent agenda. The motion was **seconded** and **passed** unanimously.

Items on the consent agenda included:

- Summary of the October 20, 2021 meeting

Select representative to the Nominating Committee

Executive Director Rex presented this item to the directors. The Nominating Committee consists of member representatives from the Performance & Engagement Committee, the Finance & Budget Committee, the Board, a member selected by the Board Chair, the Immediate Past Chair of the Board, and a Board member representing the City and County of Denver. At the January meeting each year, the Nominating Committee shall present to the Board nominations for Executive Committee members to be elected at the February meeting.

Director Starker **moved** to select Sally Daigle and Julie Duran Mullica of the Board of Directors to the Nominating Committee. The motion was **seconded** and **passed** unanimously.

Discussion on the FY 2022-2025 Transportation Improvement Program (TIP) Amendment

Todd Cottrell provided an overview of the amendment to the directors. This is a reconsideration of a proposed TIP amendment that came before the Board on September 15, 2021. The Town of Castle Rock expressed concerns about the location of the mobility hub and the Board postponed action on approving this amendment. The Board asked staff from the various partners to meet and develop a recommendation for further consideration by the Board. Staff met on October 14 to discuss how to move

forward. CDOT proposed a process to work with Castle Rock and other stakeholders to finalize a mobility hub area plan.

Both the Transportation Advisory Committee and the Regional Transportation Committee previously recommended the project. The proposed amendment to the FY 2022-2025 Transportation Improvement Program has been found to conform with the State Implementation Plan for Air Quality:

- **2020-100 - Region 1 Mobility Hub Pool**
 - Add one new pool project and increase cost by \$300,000 in Legislative-Transit funds. This project was previously considered by the Board but action was delayed pending further coordination between CDOT and the Town of Castle Rock.

Director Peck **moved** to adopt the attached amendment to the 2022-2025 Transportation Improvement Program (TIP). The motion was **seconded** and **passed** with 34 in favor and one abstention from Director Teal.

Discussion of draft DRCOG Board comments on the revised proposed greenhouse gas (GHG) transportation planning rulemaking

Ron Papsdorf provided an update regarding the rulemaking to the board. Based on the Board's November 3 discussion, staff developed a set of [draft comments on the revised proposed GHG Rule](#), which the directors discussed in detail. The draft comments take into account feedback from the Board and restate some of the previous comments that were not addressed in the revised Rule and new comments triggered by new concepts in the revised proposal. CDOT extended the public comment period until noon on November 18, 2021, and the Transportation Commission is now scheduled to consider the revised proposed rule at its December 16 meeting.

Director O'Dorisio **moved** to approve the DRCOG Board comments, as written, to the Transportation Commission on the revised proposed greenhouse gas reduction transportation planning requirements and direct the Chair to send the comment letter on the Board's behalf. The motion was **seconded** and **passed** unanimously.

Committee Reports

State Transportation Advisory Committee – Chair Stolzmann reported that the committee met and received a presentation on the 2023 Draft Budget. They also discussed the 10-year plan update with fiscal constraints. The committee received an update on the Greenhouse Gas Rulemaking and discussed the MMOF.

Metro Mayors Caucus – Director Starker stated there was no report.

Metro Area County Commissioners – Director Baker stated that there was no report because the MACC was preparing for their Fall Retreat on December 3.

Advisory Committee on Aging – There was no report.

Regional Air Quality Council – Doug Rex stated that RAQC met on November 5 and had a discussion on the Draft 2022 Budget Work Program, which will be voted on at the December meeting. They received a presentation on the results of this year's public awareness campaign: Simple Steps, Better Air. The council received a presentation on

the 2020 Annual Congestion Report and had a conversation about wildfire smoke and the impacts on air quality.

E-470 Authority – Director Diak reported that the Board unanimously approved a three-year Toll Rate Policy, which decreases toll rates starting January 1 of 2022.

Report from CDOT – Director White stated that the passage of the Infrastructure Bill was a huge accomplishment for transportation funding.

Report on FasTracks – Director Van Meter provided an update on the Northwest Rail Line Peak Service Study. RTD received technical proposals from consultant teams to support RTD and the local jurisdictions in this study. In October, the RTD Board of Directors granted the GM/CEO the authority to negotiate and execute all documents and funding transfers necessary for the design, construction, and maintenance of the new facility at 1st & Main in Longmont.

Next meeting – **December 15, 2021**

Meeting Date	Agenda Category	Agenda Item #
December 15, 2021	Consent Agenda	7-ii

SUBJECT

FY 2022-2025 Transportation Improvement Program (TIP) Amendments.

PROPOSED ACTION/RECOMMENDATIONS

DRCOG staff recommends approval of the proposed amendments because they comply with the current TIP amendment procedures, as contained within the Board-adopted [2020-2023 TIP Policy](#).

ACTION BY OTHERS

[November 15, 2021](#) TAC recommended approval
[December 14, 2021](#) RTC will make a recommendation

SUMMARY

DRCOG's transportation planning process allows for Board-approved amendments to the current Transportation Improvement Program (TIP) on an as-needed basis. Typically, these amendments involve the addition or deletion of projects, or adjustments to existing projects and do not impact funding for other projects in the TIP.

The TIP projects to be amended are shown below and listed in Attachment 1. The proposed amendments to the [FY 2022-2025 Transportation Improvement Program](#) have been found to conform with the State Implementation Plan for Air Quality.

TIP Amendments

- **2016-003** **Central 70**
Increase funding.
- **2020-048** **HOP Transit Service Expansion**
Revise project scope from service expansion to bus purchases.

PREVIOUS DISCUSSIONS/ACTIONS

DENVER REGIONAL COUNCIL OF GOVERNMENTS

STATE OF COLORADO

BOARD OF DIRECTORS

RESOLUTION NO. __, 2021

A RESOLUTION AMENDING THE 2022-2025 TRANSPORTATION IMPROVEMENT PROGRAM

WHEREAS, the Denver Regional Council of Governments, as the Metropolitan Planning Organization, is responsible for carrying out and maintaining the continuing comprehensive transportation planning process designed to prepare and adopt regional transportation plans and programs; and

WHEREAS, the urban transportation planning process in the Denver region is carried out through cooperative agreement between the Denver Regional Council of Governments, the Regional Transportation District, and the Colorado Department of Transportation; and

WHEREAS, a Transportation Improvement Program containing highway and transit improvements expected to be carried out in the period 2022-2025 was adopted by the Board of Directors on April 21, 2021; and

WHEREAS, it is necessary to amend the 2022-2025 Transportation Improvement Program; and

WHEREAS, the Regional Transportation Committee has recommended approval of the amendments.

NOW, THEREFORE, BE IT RESOLVED that the Denver Regional Council of Governments hereby amends the 2022-2025 Transportation Improvement Program.

BE IT FURTHER RESOLVED that the Denver Regional Council of Governments hereby determines that these amendments to the 2022-2025 Transportation Improvement Program conform to the State Implementation Plan for Air Quality.

RESOLVED, PASSED AND ADOPTED this ____ day of _____, 2021 at Denver, Colorado.

Ashley Stolzmann, Chair
Board of Directors
Denver Regional Council of Governments

Meeting Date	Agenda Category	Agenda Item #
December 15, 2021	Action	8

SUBJECT

This item is related to selecting representatives to serve as a member or alternate on the Regional Transportation Committee, the State Transportation Advisory Committee, the E-470 Board of Directors, and the Advisory Committee on Aging.

PROPOSED ACTION/RECOMMENDATIONS

Select representatives to serve on the Regional Transportation Committee, the State Transportation Advisory Committee, the E-470 Board of Directors, and the Advisory Committee on Aging.

ACTION BY OTHERS

N/A

SUMMARY

Interest was solicited for directors to serve as DRCOG's representatives on the Regional Transportation Committee (RTC), the State Transportation Advisory Committee (STAC), E-470 Board of Directors and the Advisory Committee on Aging (ACA).

DRCOG has five seats on the RTC. Three seats are reserved for the DRCOG Board Chair, Vice Chair, and the executive director. Two at-large representatives are needed as well as several alternates to serve in the event a member cannot attend a meeting. Directors Wynne Shaw and Joan Peck currently serve as DRCOG's at-large members.

DRCOG also has standing membership on both the STAC and E-470 Authority Board. Each year, members are solicited to serve on behalf of DRCOG for these important regional assignments. Two DRCOG members will be chosen to serve on either committee, one as the member and the other as the alternate. Chair Ashley Stolzmann and Director Tammy Maurer currently serve as the member and alternate respectively on the State Transportation Advisory Committee. Director John Diak is currently the member on the E-470 Board of Directors and Director Jessica Sandgren is the alternate.

Lastly, DRCOG's Advisory Committee on Aging has openings for Board members to serve on this critical committee serving older adults throughout the region.

Directors were asked to submit interest in serving on any of the above committees by Tuesday, December 7, 2021.

PREVIOUS DISCUSSIONS/ACTIONS

ADDITIONAL INFORMATION

If you need additional information, please contact Douglas W. Rex, Executive Director, at 303-480-6701 or drex@drcog.org; or Melinda Stevens, Executive Assistant at 303-480-6701 or mstevens@drcog.org.

ACA Candidates

Wynne Shaw

Wynne was elected to serve the City of Lone Tree as a Council Member in 2016 and was re-elected in 2020. She serves DRCOG as a member of the Board and of the Executive Committee chairing the Finance and Budget committee. She represents DRCOG as a member of the RTC (Regional Transportation Committee) and the Advisory Committee on Aging. Wynne represents the City of Lone Tree as Vice Chair of the Douglas County Subregional Transportation Forum and on the Executive Board for the Douglas County Housing Partnership. She serves as an alternate on the CML Policy Committee, and on E-470 where Lone Tree is a non-voting member. Wynne is a proud Colorado resident of over 40 years and her professional background is in Financial Services.

Steve Conklin

Steve Conklin has served on City Council in Edgewater for nearly eight years, first appointed to an unexpired term and then elected twice. He served as Mayor Pro Tem (2017-2021) and previously volunteered on the Planning and Zoning Commission. He has been Edgewater's representative to DRCOG for nearly six years and has served as Board secretary and treasurer. Steve is self-employed, providing Executive Director services to professional associations. He is president of the non-profit Broadcast Pioneers of Colorado, preserving the history of radio and TV in Colorado.

RTC Candidates

Wynne Shaw

Wynne was elected to serve the City of Lone Tree as a Council Member in 2016 and was re-elected in 2020. She serves DRCOG as a member of the Board and of the Executive Committee chairing the Finance and Budget committee. She represents DRCOG as a member of the RTC (Regional Transportation Committee) and the Advisory Committee on Aging. Wynne represents the City of Lone Tree as Vice Chair of the Douglas County Subregional Transportation Forum and on the Executive Board for the Douglas County Housing Partnership. She serves as an alternate on the CML Policy Committee, and on E-470 where Lone Tree is a non-voting member. Wynne is a proud Colorado resident of over 40 years and her professional background is in Financial Services.

Claire Levy

I am a Boulder County Commissioner, serving my first term. As Boulder County's delegate to DRCOG I also represent Boulder County on the Northwest Mayors and Commissioner Committee. Before being elected county commissioner, I served in the state legislature and served on the Transportation and Energy Committee in the House. I served on the Planning

Board for the city of Boulder before running for public office. Those previous experiences, together with my current service in office provide background for serving on this committee.

STAC Candidates

Tammy Mauer

I am interested in serving on the State Transportation Advisory Committee (STAC) in 2022. Chair Ashley Stolzmann has served as Member and I have enjoyed serving with her in the Alternate position. She has done a remarkable job but I am uncertain if she will request to remain in that position. If she does not request to remain in the Member position, I would like to serve as the Member on this board.

Serving on this board, I have been able to have a better understanding of current and future CDOT programs and projects. I have a good working knowledge of how the Committee functions as well as I enjoy working with them to achieve their goals.

I retired from CDOT as a transportation engineer and have experience with most transportation related aspects. I currently serve on the Reimagine RTD board and on the National League of Cities, Transportation Infrastructure & Services Committee.

Deborah Mulvey

I am in my third year as a Castle Pines City Council Member, and look forward to continuing in that role with the blessing of voters in 2023. In that role, and my prior role on Planning Commission, I have been intimately involved with the subregional transportation issues affecting our residents and South Metro residents. Geographically, our City sits between S85 and I25, along one of the connector routes between the two, and is bisected further on the north/south axis by the Quebec/Monarch/Lagae alternative route to I25. Demographically, our residents typically commute to work, going south and north, near and far. A majority of the residents in our rapidly growing City require a transportation network to reach the Springs, Denver, Boulder, Greeley, and closer, Littleton, DTC and the airport (our population will double in 15 years). Consequently, our residents and our South Metro neighbors have a tremendous stake in the outcome of regional rail and future transportation decisions, including a desire to see it to fruition in the nearest possible future with the least possible cost. Finally, our city looks to make positive and multimodal changes to and between 2 interchanges on I25 in the near future (one of which is entering NEPA with considerable non-state/fed funding in place). Our City straddles the highway and we look to ensure that those who will populate our and all South Metro attainable housing and all South Metro seniors can reach all areas of the City, and all rail options.

I have enjoyed serving on Performance and Engagement Committee in the past, and now also on the Finance and Budget Committee. More so however, I have enjoyed serving as an alternate on the Regional Transportation Committee and consistently attending the Southwest

Chief/Front Range Passenger Rail Commission meetings for over a year. As a regular user of rail transportation now and for years on the east coast, and a person who has been involved in railroad cases, I have specialized knowledge of rail scheduling and safety concerns. These issues range from grade crossings, elevation and wildlife issues affecting routes, rail speeds affecting population and rail traffic safety, scheduling for maximum commuter, short route, and traveler usage, and usage and maintenance concerns encountered when sharing freight lines. These concerns will be present all along the FRPR line throughout the DRCOG region, and my knowledge of both rural, semi-rural and urban interaction with populations will be a benefit to the Commission.

I have grown to have a keen interest in the future of our rail, multimodal, and road options, to serve our greater Denver community wisely into the future.

Nicholas Williams

Nicholas Williams is a Deputy Manager/Chief of Staff for the Denver Department of Transportation and Infrastructure (DOTI). In this role, he oversees the department's policy, legislative and external relations activities as well as leads internal engagement and leadership for DOTI's nearly 1,200 employees. Prior to joining DOTI in 2018, Nicholas worked for the Houston, TX regional Council of Governments (Houston-Galveston Area Council) for nine years in a variety of transportation roles including air quality, multimodal planning and administration. Nicholas also served as a Field Director for a member of the U.S. House of Representatives. Nicholas received an undergraduate degree from the University of Texas at Austin and a Juris Doctorate from South Texas College of Law.

REGIONAL TRANSPORTATION COMMITTEE

Type: Standing Committee

Authority: Memorandum of Agreement between DRCOG, the Colorado Department of Transportation, and the Regional Transportation District, dated July 10, 2001.
Modified by the three agencies, June 17, 2008
Revised September 21, 2016

MEMBERSHIP

Sixteen members as follows:

Denver Regional Council of Governments - Board chair and vice chair, and two designees from the Board, and the Executive Director.

Colorado Department of Transportation - Three metro area Transportation Commissioners and the Executive Director.

Regional Transportation District - Three Board members and the General Manager.

Other Members - Three members appointed by the Committee chair upon unanimous recommendation of the Executive Directors of DRCOG, CDOT and the General Manager of RTD. The DRCOG Executive Director will consult with the Committee chair prior to the three agency executives forming a recommendation.

USE OF ALTERNATES

It is the clear goal of the Committee to minimize use of alternates. However, recognizing that there will be times when it is inevitable that members cannot attend, alternates will be allowed on the following basis:

- Each agency shall designate annually, in writing to the chair, standing alternates (board members/commissioners and staff).
- No more than two staff (members or designated alternates) from each agency can vote on any given issue.
- The appropriate level of staff that can be designated as alternates are:
 - DRCOG: Division Directors
 - CDOT: Regional Transportation Directors or equivalent or above
 - RTD: Senior Managers of planning and development or above
- No alternates are permitted for the Other Members.
- No proxies are permitted.
- The new Immediate Past Chair of DRCOG shall serve as an alternate until the DRCOG Board acts to designate new alternates after the February Board elections.

RESPONSIBILITIES

Through the Regional Transportation Committee, DRCOG, as the Metropolitan Planning Organization (MPO), administers the urban transportation planning process for the region in accordance with *The Prospectus - Transportation Planning in the Denver Region* and applicable federal regulations. Accordingly, the responsibilities of the Regional Transportation Committee shall include:

- Overall direction of current work activities established by the Unified Planning Work Program.
- Review and approval of items to be submitted to the DRCOG Board of Directors, as the MPO policy body, for adoption.
- Approval of plans, programs, documents and annual endorsements related to surface transportation as outlined in the Memorandum of Agreement. Should the DRCOG Board approve a policy action that differs from the Regional Transportation Committee's recommendation, the action shall be referred back to the Committee for reconsideration.

QUORUM

Twelve members, or designated alternates.

VOTING

Twelve votes are required to carry any action.

OTHER

DRCOG representatives will attend a briefing with the DRCOG Executive Director immediately prior to the regularly scheduled RTC meeting.

ADVISORY COMMITTEE ON AGING (ACA)

Type: Standing Committee

Authority: Older American's Act of 1965, as amended, and the Contract between DRCOG and the Colorado Department of Human Services, State Unit on Aging dated February 8, 1974 and revised March 15, 2006.

MEMBERSHIP

Membership shall include individuals eligible to participate in the program, minority and low-income adults, older individuals, residents of geographically isolated areas, and at least three members of the DRCOG Board who shall be appointed by the DRCOG Chair. Interested DRCOG Board alternates also may be considered for appointment to the ACA in addition to the minimum Committee membership of three Board members.

Membership on the Committee or changes to membership requires a written request to, and confirmation by, the DRCOG Chair. Membership shall be assessed annually and a member's attendance at ACA meetings will be considered.

It is the goal of the DRCOG Board that (1) at least one-half of the members should be age 60 and older, and (2) include at least one individual from each of the counties served by the Area Agency on Aging (AAA), and (3) include five community partner representatives from areas including but not limited to: transportation, lifelong communities, foundations, financial institutions, aging, disability, LGBT (lesbian, gay, bisexual, transgender), elder rights, and developmental disability.

Members representing each of the counties served by the AAA shall be recommended for appointment by their respective county council/commission on aging through their respective governing body (board of county commissioners or mayor, as appropriate) and confirmed by the DRCOG Chair. Representation shall proportionately reflect the 60+ population within each county and shall be according to the graph below.

60+ Residents	Number of Representatives
0 – 50,000	2
50,001 – 100,000	3
100,001 and over	4

County population shall be determined using DRCOG's demographic estimates. There will be a maximum of four representatives per county.

CONFLICT OF INTEREST

Members are expected to be aware of any potential real or perceived conflicts of interest and make them known to the DRCOG AAA Division Director immediately. Members shall

abstain from any discussion of, or voting on, any funding issue in which a conflict of interest exists or may arise.

Committee members that are board members of an agency that submit requests for funding are prohibited from taking part in evaluating such requests.

OFFICERS

The ACA elects officers from among the members annually in May. The term of the office for chair and vice chair is one year, from July 1 through June 30. An individual may serve two consecutive years in the same office but only with an affirmative vote of the Committee.

In the absence of the chair, the vice chair assumes the role of the chair.

RESPONSIBILITIES

- Represent the needs of persons age 60 and older, with special emphasis on the needs of those persons in greatest social and/or economic need.
- Advocate for the enhancement and well being of the region's current and future older adult populations.
- Assist DRCOG staff in assessing the strengths and needs of older adults and their caregivers.
- Assist DRCOG staff in developing and updating the AAA 4–Year Plan; make recommendations concerning the same to the DRCOG Board.
- Assist DRCOG staff in developing policies, procedures, and priorities for planning and funding activities; make recommendations concerning the same to the DRCOG Board.
- Assist DRCOG staff in assessing funding proposals to serve the 60 and older population pursuant to the Older Americans Act and Older Coloradans Act; make recommendations concerning the same to the DRCOG Board.
- Actively become and remain educated on the issues concerning the aging and their caregivers.
- Serve as an ambassador to the community and to the County Councils on Aging by communicating the purposes, responsibilities and functions of the AAA.

QUORUM

A quorum shall consist of one-third of the members present at a regularly scheduled ACA meeting or at a special meeting called by the Committee chair.

MEETINGS

The ACA meets monthly and shall be open to the public. Summary minutes shall be taken at Committee meetings and shall be available to the public upon request for review.

The ACA, in consultation with the AAA Division Director, may cancel regular monthly meetings or call for special meetings.

It is the responsibility of the AAA Division Director to develop the monthly agenda. The committee chair may request the AAA Division Director develop the agenda in consultation with the chair.

SUBCOMMITTEES

- The ACA, in consultation with DRCOG staff, shall determine the need for subcommittees.
- Duties of subcommittees include making recommendations to the ACA regarding matters pertaining to their specific interest.
- Any ACA member may serve on any of the subcommittees but shall include, whenever possible, at least one member from each county represented.
- Voting is limited to one vote per county.
- Each subcommittee shall appoint a chair and the meeting schedule for the subcommittee shall be determined by the chair and other members in consultation with DRCOG staff.
- All subcommittee activities shall be reported by the subcommittee chair or their designee at the next regular ACA meeting.
- It is the responsibility of the AAA Division Director or designee to develop the monthly agenda. The subcommittee chair may request the agenda be developed in consultation with the subcommittee chair.

SUBJECT

Nomination and appointment process for DRCOG's representatives to the Front Range Passenger Rail District Board

PROPOSED ACTION/RECOMMENDATIONS

Authorize the DRCOG Nominating Committee to recommend candidates for DRCOG's representatives on the Front Range Passenger Rail District Board and authorize staff to work with the Nominating Committee to develop an application for the candidate solicitation process.

ACTION BY OTHERS

N/A

SUMMARY

DRCOG has been a member of the Southwest Chief & Front Range Passenger Rail Commission ([Rail Commission](#)) since its inception in 2017. Senate Bill 21-238 ([SB-238](#)) will replace the Rail Commission with a Front Range Passenger Rail District in 2022. The new District has been created for the purpose of "planning, designing, developing, financing, constructing, operating, and maintaining a passenger rail system..." along Colorado's Front Range.

The new District, whose boundary stretches from Wyoming to New Mexico along the I-25 corridor, will have a 24 member board of directors (17 voting members) comprised of:

- 6 directors appointed by the Governor and confirmed by the state Senate, including one director who is a resident of a city or county with an unfinished FasTracks rail service project.
- 10 directors appointed by metropolitan and rural transportation planning organizations, including DRCOG, and confirmed by the Senate
- 1 director appointed by the executive director of CDOT
- 3 non-voting directors appointed (one each) by BNSF, Union Pacific, and Amtrak
- 1 non-voting director appointed by RTD
- 1 non-voting director appointed by the I-70 Mountain Corridor Coalition
- 2 non-voting directors appointed (one each) by the Governors of Wyoming and New Mexico

DRCOG will appoint four directors and appointments are due by March 1, 2022. The new District will convene its first meeting no later than May 15, 2022. SB-238 specifies

the following requirements and guidelines for DRCOG's appointment of district directors:

- Appointees must be a current or former member of the DRCOG Board of Directors representing a member local government of the DRCOG MPO area (which excludes Gilpin County, Clear Creek County, and any municipality east of Kiowa Creek in Adams and Arapahoe counties).
- When making the appointment, only members of the DRCOG Board who represent a member local government that is wholly or partly included within the District boundary may vote on the appointment (which also excludes Gilpin County, Clear Creek County, and any municipality east of Kiowa Creek in Adams and Arapahoe counties).
- Terms are four years, except that two of the initial appointments will be for two years.
- Finally, as noted, appointments are due by March 1, 2022 and subject to Senate confirmation.

DRCOG staff gathered initial input from the Performance and Engagement (P&E) Committee at its August meeting. The P&E Committee believed the now-current Nominating Committee (starting in November 2021) should be utilized to begin the appointment process and ultimately make appointment recommendations to the full DRCOG Board for its consideration.

Staff believes it will be important to develop an application of screening questions to assess candidates. In addition to specific eligibility criteria to comply with SB-238, questions may focus on the candidate's background in transportation issues, interest in passenger rail generally, and interest in Front Range Rail specifically from a regional perspective representing DRCOG on the new District Board.

Accordingly, staff is now requesting the Board's consideration on the following proposed actions:

- Authorize the Nominating Committee to lead the process to identify and recommend DRCOG's Front Range Passenger Rail District Board candidates for DRCOG Board approval.
- Authorize staff to work with the Nominating Committee to develop an application for the candidate solicitation process.

SUBJECT

Discussion of the draft TIP Policy and Call for Projects applications to be used for the upcoming calls covering FY2022-2027.

PROPOSED ACTION/RECOMMENDATIONS

N/A

ACTION BY OTHERS

N/A

SUMMARY

In early 2021, DRCOG staff began working to develop a TIP Policy document and associated project application covering the programming of projects for FY2024-2027 with the Transportation Advisory Committee (TAC). Three factors led staff to consider adjustments to the “normal” TIP process: 1) new Multimodal and Mitigation Options Funds (MMOF) under SB21-260, 2) state greenhouse gas (GHG) emissions reduction rulemaking, and 3) the total current and future anticipated funding available under the Infrastructure Investment and Jobs Act (IIJA).

This briefing will address the TIP Policy and project solicitation process and applications. Final recommendations will come to the Board for consideration at its January meeting.

TIP Policy Document

The TIP Policy is used to guide and instruct how the TIP process takes place. Using the adopted FY 2020-2023 TIP Policy as a template, edits have been suggested in track-changes (see Attachment 1), not including document wordsmithing (i.e., phrase adjustment, sentence structure, year changes/removals, etc.). These proposed edits have been informed by discussions with stakeholders and TAC that occurred since April. During the meeting, staff will provide a high-level overview of the suggested edits.

High-level changes from the current [2020-2023 TIP Policy](#) include:

- Capital project eligibility
- Set-aside programs
- Replaced “focus areas” with “2050 RTP project and program investment priorities”
- Regional Share:
 - Updated funding request range between \$100,000 and \$20 Million, with a 20% minimum match
 - Project and program eligibility
 - Parallel track applications (STBG and AQ/MM)
- Subregional Share:
 - Forum funding targets calculations updated with current data
 - Project and program eligibility
 - Parallel track applications (STBG and AQ/MM)

- Approval needed for additional calls for projects
- Revised to remove references to any specific TIP
 - The new document is now proposed to be called the “Policies for TIP Program Development”, and will be a standalone document that can be used for any future call, without the need to adopt a new document in its place. The opportunity for revision will still be provided before any call for projects.

TIP Applications

DRCOG staff proposes using a two-track TIP project solicitation process. The purpose of having two applications is to 1) better organize and utilize the funding types available to DRCOG within the years the funding is available and to help project sponsors meet the 50% matching requirement of the MMOF funds, and 2) allow the upcoming 2050 RTP amendment process and the TIP process to continue in parallel paths without interference from one another, by not allowing certain project types to be eligible during the first two TIP calls in 2022. The two applications include:

- The *Air Quality and Multimodal (AQ/MM) Track* for projects eligible for state Multimodal and Mitigations Options Fund (MMOF) and federal Congestion Mitigation Air Quality (CMAQ), Transportation Alternatives (TA), and Carbon Reduction Program (CRP) funding. Major project types not allowed to be submitted for this track includes roadway capacity, roadway reconstruction, and bridge projects.
- The *STBG Track* for projects eligible for federal Surface Transportation Block Grant (STBG) funding.

Staff has developed draft applications for each track (Attachments 2 and 3). Both applications are structurally the same, but depending on which call is being held for which years, one or both “tracks” (and therefore applications) may be used, and applicants will use the application that best suits the project type being submitted.

Major changes from the [FY2020-2023 TIP application](#) that apply to both tracks include:

- replacing the previous High-Medium-Low scoring with a zero-to-five-point scale,
- replacing the previous TIP Focus Areas with the 2050 MVRTP Priorities,
- adding a new project readiness section, and
- general edits and restructuring of questions.

DRAFT TIP Policy and Application

DRCOG Board of Directors
December 15, 2021

Todd Cottrell

HIGHER-LEVEL DOCUMENT EDITS

Overall: Track changes exclude wordsmithing, funding year changes, etc.

- TIP years removed; meant to be a document used for all future calls (no need to re-adopt, just amend). Easier on staff; will seek input for adjustments before each TIP cycle

Chapter 1 (introduction): The TIP schedule updated and generalized

HIGHER-LEVEL DOCUMENT EDITS

Chapter 2 (roles/requirements):

- Agency roles – funding source cleaned up; meets new federal bill
- Capital project eligibility
 - Any project phase: 2020-29 staging period projects
 - Project Development: 2030-39 staging period projects
- Technology projects – clean up and expand language related to regional operations plan and systems engineering analysis
- Freight – add language related to economy, reliability, emissions

HIGHER-LEVEL DOCUMENT EDITS

Chapter 3 (initial programming):

- Funding Assessment – Clean up language regarding funding sources
- Set-Aside Programs – Set-asides updated based on previous discussions
- Other Commitments – Removed Central 70 and FasTracks commitments

HIGHER-LEVEL DOCUMENT EDITS

Chapter 4 (calls for projects):

- Replaced focus areas with 2050 MVRTP project and program investment priorities as previously discussed
- Financial Requirements – clarify MMOF match language
- Regional Share:
 - Updated intent – link to regional Metro Vision objectives and outcomes
 - Funding: 20% minimum match
 - Project/program eligibility requirements
 - Notes parallel track applications (STBG and AQ/MM)

HIGHER-LEVEL DOCUMENT EDITS

Chapter 4 (calls for projects) continued:

- Subregional Share:
 - Funding targets updated with current data
 - Project/program eligibility requirements (similar style table as regional; similar open eligibility)
 - Forums: no voting via email/polling (must be during a meeting)
 - Notes parallel track applications (STBG and AQ/MM)
 - Application submittal process; to DRCOG first

HIGHER-LEVEL DOCUMENT EDITS

Chapter 5 (TIP Development):

- Amendments and Modifications – refine and clarify criteria and triggers for TIP amendments and modifications
- Funding Increase – DRCOG Board approval for a new call for projects

Appendix A (RTD and CDOT Selection Processes):

- Updated RTD process to refer to Mid-Term Financial Plan
- Updated CDOT process to refer to 10-Year Plan and other minor program changes

TIP APPLICATIONS

TWO APPLICATIONS

- STBG: uses STBG funds for eligible projects; 20% match requirement
- Air Quality and Multimodal: uses MMOF, CMAQ, TA, CRP for eligible projects; 20% local match for federal funds
 - Example: 50% MMOF, 40% CMAQ/TA/CRP, 10% match (CMAQ/TA/CRP/local match is used to match MMOF and local funds used to match the CMAQ/TA/CRP)
- Key differences: AQ/MM app excludes capacity, reconstruction, bridge projects (those that do not improve congestion, AQ)

BASIC APPLICATION STRUCTURE

Section A: Regional Impact of Proposed Project

Section B: MVRTP Priorities (formerly Focus Areas)

- Safety, Active Transportation, Air Quality, Multimodal Mobility, Freight, and Regional Transit

Section C: Project Leveraging

Section D: Project Readiness (NEW)

SECTION A: REGIONAL IMPACT OF PROPOSED PROJECT

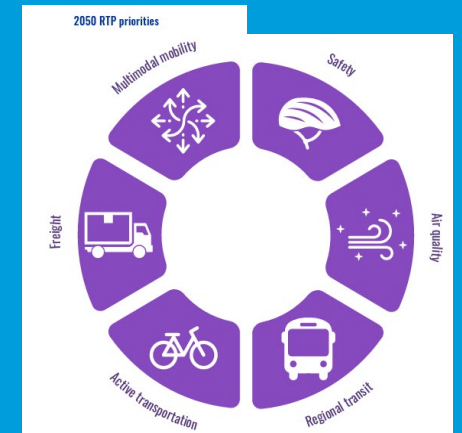

- Proposed section weight: **30%**
- Similar to previous “Regional Significance” section
- Focus includes:
 - Importance of project,
 - Solving a regional problem,
 - Impact on disproportionately impacted and environmental justice populations,
 - Progress toward the Metro Vision outcomes (access/connectivity)
- Response (for some): Narrative, with quantitative information; use checkboxes and data tables to provide required additional context

SECTION B: MVRTP PRIORITIES

- Proposed section weight: **50%**
- How the project addresses each of the six MVRTP priority investment areas
- Response (for all): Narrative, with quantitative information; use checkboxes and data tables to provide required additional context

SECTION C: PROJECT LEVERAGING

- Proposed section weight: **10%**
- Projects will be scored on the percent of outside funding toward the total project cost

STBG Track

Score	% non-Regional Share funds
5	60% and above
4	50-59.9%
3	40-49.9%
2	30-39.9%
1	20.1-29.9%
0	20%

AQ/MM Track

Score	% non-Regional Share funds
5	60% and above
4	50-59.9%
3	40-49.9%
2	20-39.9%
1	10.1-19.9%
0	10%

SECTION D: PROJECT READINESS

- Proposed section weight: **10%**
- Screens projects on common pitfalls; items that should **ALWAYS** be reviewed before submitting
- Questions: identification and mitigation of potential roadblocks, status of ROW, availability of matching funds, and public engagement to date
- Questions can be answered through both checkboxes and narrative descriptions to gather the full context of project development

PROPOSED SCORING METHODOLOGY

- Each question scored on a **scale of 0 to 5** relative to other projects received
- Checkboxes and data tables help provide context and guide the narrative answer
 - Complete and incorporate the data in the narrative responses to be considered for full points when directed
 - **Scores derived from the narrative (Sections A and B)**

OTHER THINGS TO REMEMBER

- Data app being developed to assist sponsors with project data
- Key phase milestones with dates will be needed (and should already be known)
- Cost estimate (YOE) is required to be provided
- Project Readiness (to improve score): Licensed engineer required to review and provide name on app on the project impacts and mitigation to date on utilities, RR, ROW, environmental, etc.
- Think and plan ahead to avoid cost overruns, project delays, schedule issues, etc.
 - In other words, funding/time spent now will help you later

I. INTRODUCTION

~~The 2024-2027~~The DRCOG Transportation Improvement Program-(TIP) ~~will~~ specifically programs the federally-funded transportation improvements and management actions to be completed by the Colorado Department of Transportation (CDOT), the Regional Transportation District (RTD), local governments, and other project sponsors over a four-year period.

Metro Vision serves as a comprehensive guide for future development of the region with respect to growth and development, transportation, and the environment. One component of *Metro Vision* is the Metro Vision Regional Transportation Plan (2050 Metro Vision Regional Transportation Plan (2050 MVRTP)). It presents the vision for a multimodal transportation system that is needed to respond to future growth, as well as to influence how the growth occurs. It specifies strategies, policies, and major capital improvements that advance the objectives of *Metro Vision*. The Fiscally Constrained ~~2050~~-MVRTP defines the specific transportation elements and services that can be provided through~~out~~ the year~~s~~ identified in the adopted MVRTP-2050 based on reasonably expected revenues.

As required by federal and state law, the TIP must be fiscally constrained to funds expected to be available. All projects selected to receive federal and state surface transportation funds, and all regionally significant projects regardless of funding type, must be identified in the TIP.

The ~~2024-2027~~ TIP ~~will~~ specifically identifies ~~and~~ programs ~~and~~ projects for federal and state funding based on the adopted MVRTP. It takes the multimodal transportation vision of the adopted MVRTP and begins to implement it through projects funded in the adopted TIP FY-2024-2027. ~~This~~The TIP ~~is programmed~~cycle introduces using a new a dual model selection process for all funds allocated ~~through by~~ DRCOG ~~a dual model selection process~~FY. This process splits available funding into two shares - regional and subregional. The regional process is conducted similar to previous dual model DRCOG allocations, while the subregional process proportionally targets funding for planning purposes to each county and all the eligible applicants within, to recommend projects that meet the regional vision of DRCOG and the needs of each individual subregion. ~~Because this is viewed as a pilot process~~FY, ~~DRCOG has committed the testing of the dual model process for the next two FY TIP cycles~~. Due to changing federal, state, and local laws and regulations, including shifts in regional priorities~~Just like every TIP Policy,~~ this document can be amended by the Board at any time, ~~during this TIP cycle, and the process will be evaluated before the document is updated for the next TIP cycle~~FY.

The TIP is prepared and adopted by the Denver Regional Council of Governments (DRCOG), the region's Metropolitan Planning Organization (MPO), in cooperation with CDOT and RTD. This document establishes policies and direction for developing the TIP and selecting projects to be included.

A. AUTHORITY OF THE MPO

Federal law charges MPOs with the responsibility for developing and approving the TIP. DRCOG directly selects projects with federal and state funding, and reviews CDOT- and RTD-submitted projects for consistency with regional plans.

B. GEOGRAPHIC AREA OF THE TIP

The TIP is prepared for the area shown in Figure 1. Projects must be located within the MPO boundaries (the blue outline) for all funding types except MMOF, though projects within eastern Adams and Arapahoe

Counties are eligible for Congestion Mitigation/Air Quality (CMAQ) funding only. Note the MPO boundary is different than the DRCOG boundary.

C. TIME PERIOD OF THE TIP

Each TIP developed ~~The four years of the FY 2024-2027 TIP~~ contains four years of committed and programmed projects. TIP projects may also contain prior and future funding for years before and after the identified TIP ~~FY 2024 and after FY 2027~~. Prior and future funding is not fiscally constrained, and typically is used to financially align CDOT and RTD planning products, in addition to DRCOG-selected TIP projects that were selected outside of this TIP.

D. TIP DEVELOPMENT SCHEDULE

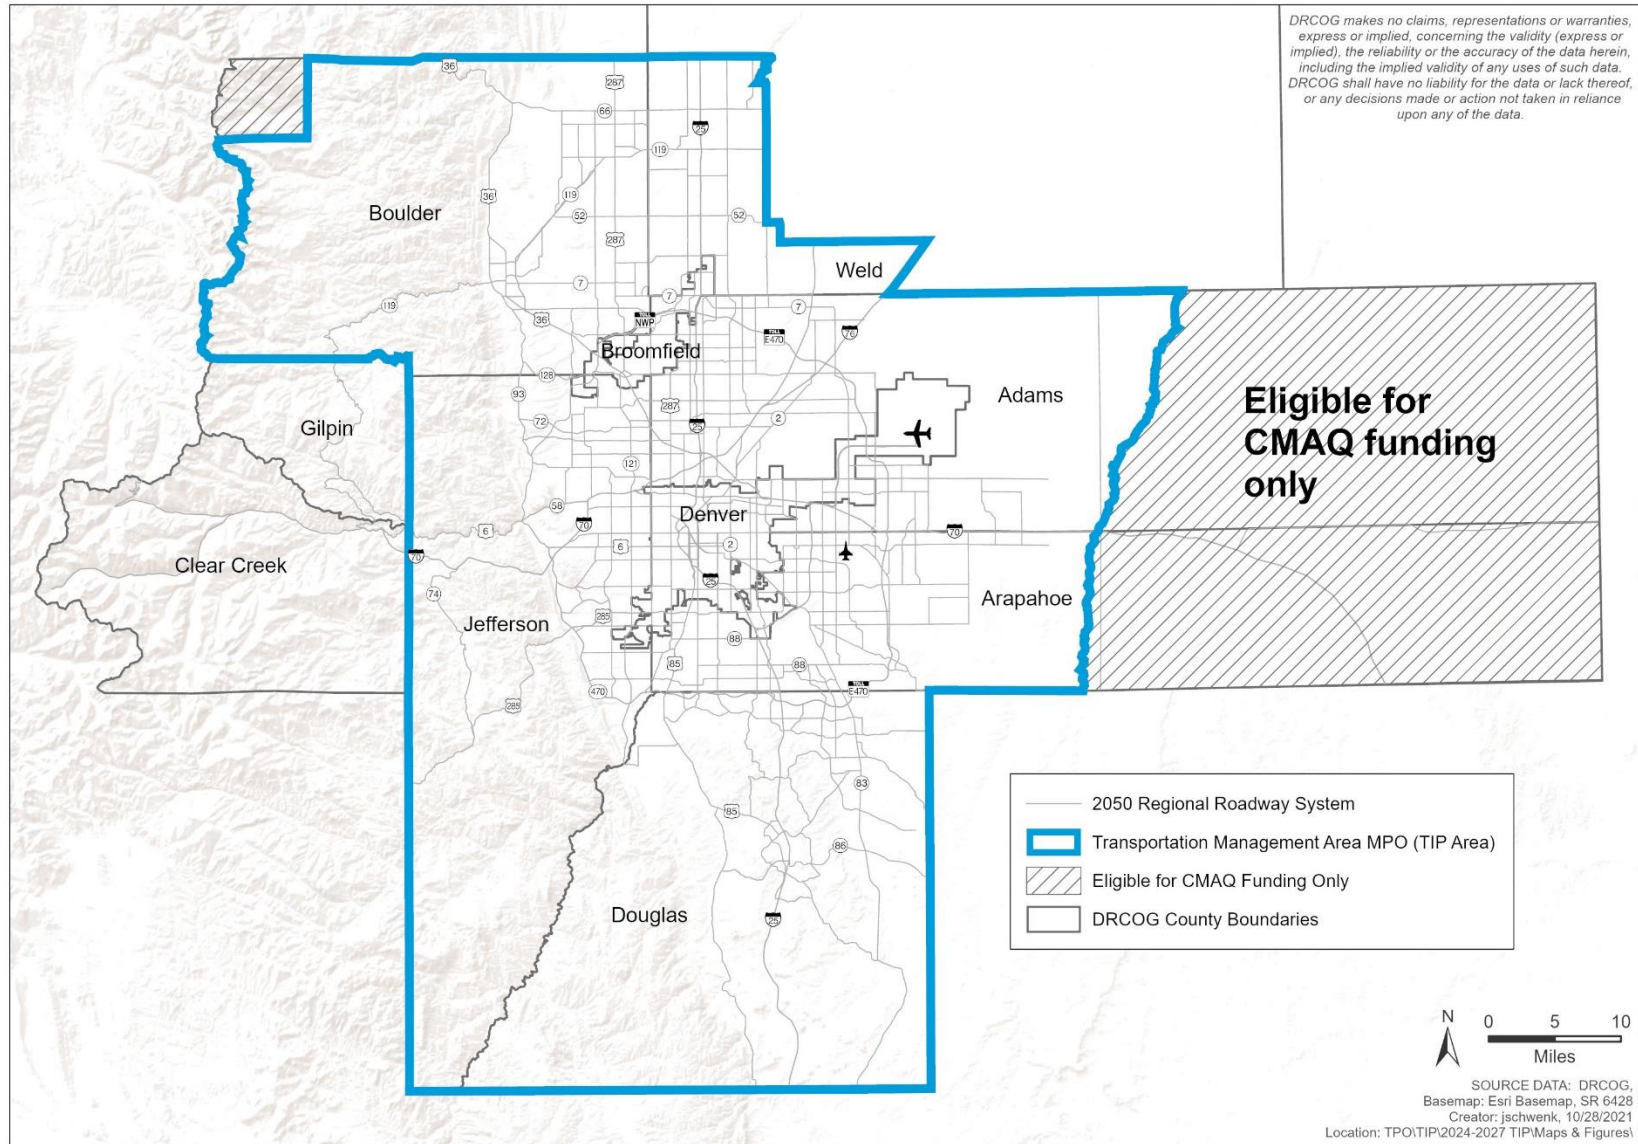

Table 1 shows the ~~process and tentative~~ typical schedule for developing ~~a the 2024-2027~~ TIP. A more detailed schedule, along with DRCOG funding request application forms and instructions, will be distributed with the solicitation for funding requests.

Table 1. Transportation Improvement Program Development Schedule

TIP Process Element	End Date <u>Month</u>
TIP Policy Development <u>Revisions</u>	July 2018 <u>TBD</u> <u>Month 1-6</u>
Solicitation for DRCOG Regional Share Funding Requests, Initial Evaluation, and Draft Project Listing	August 2018 – January 2019 <u>Month 7-11</u> <u>TBD</u>
Required TIP Trainings	August 2018 <u>TBD</u> <u>Month 7</u>
Solicitation for DRCOG Subregional Share Funding Requests, Initial Evaluation, and Draft Project Listing	February 2019 – June 2019 <u>TBD</u> <u>Month 13-17</u>

Figure 1. Geographic Area of Transportation Improvement Program

Geographic Area of Transportation Improvement Program

II. AGENCY ROLES AND REQUIREMENTS

This section identifies the funding programmed by DRCOG, CDOT, and RTD, the steps taken to integrate the three processes, and common requirements for all TIP projects, regardless of funding source.

A. AGENCY ROLES

Each of the three regional transportation planning partners—**DRCOG, CDOT, and RTD**—select projects for the funds over which it has authority. These three selection processes are conducted separately until they are integrated into a draft TIP by DRCOG staff. See Section V.A for additional details. All project sponsors are strongly encouraged to discuss their potential project with relevant agencies before their funding requests are submitted.

DRCOG selects projects to receive Federal-Aid Highway and state funding from the following ~~four~~five programs. Please see Appendix B for examples of projects by funding source. DRCOG is also the Designated Recipient for FTA 5310 large urban funds, though this is conducted outside of the TIP call for projects process.

- Surface Transportation Block Grant Program (STBG)
- Transportation Alternatives (TA)
- Congestion Mitigation/Air Quality (CMAQ)
- Carbon Reduction Program (CRP)
- State Multimodal Transportation and Mitigation Options Fund (MМОF)

CDOT selects projects for inclusion into the TIP using a variety of federal, state, and local revenues. Though not an exclusive list, the programmatic categories listed below are typically used to fund CDOT projects and local projects via pass-through funds. These programs and responsibilities for selecting projects typically evolve with each new federal transportation act.

- | | |
|---|--|
| <ul style="list-style-type: none">• ADA (Americans with Disabilities Act)• Bonds/Loans• Bridge (on-system, off-system, discretionary)• Congestion Relief Program (regional CDOT priorities to reduce congestion on the state highway system)• FASTER (Funding Advancements for Surface Transportation and Economic Recovery Act of 2009) Projects: Bridge, Safety, and Transit (state revenues for eligible projects)• National Highway Freight Program (NHFP)• FTA Section 5310 (<u>Enhanced Mobility of Seniors and Individuals with Disabilities – Small urban transit capital projects for elderly & disabled services</u>)• FTA Section 5311 (<u>Formula Grants for Rural Areas – transit planning, operating, and capital</u>)• FTA Section 5339 (<u>Grants for Buses and Bus Facilities Program - transit capital projects improvements</u>) | <ul style="list-style-type: none">• Intelligent Transportation Systems• Permanent Water Quality Facilities (PWQF)• RAMP (Responsible Acceleration of Maintenance and Partnerships)• RPP (Regional Priorities Program) (strategic regional priorities)• Safe Routes to School• Safety Projects• Surface Treatment (repaving projects)• SB18-001• SB09-228• <u>SB17-267</u>• <u>SB21-260</u>• TIFIA (Transportation Infrastructure Finance and Innovations Act)• Transportation Alternatives (CDOT allocation)• Transportation Commission Contingency• Other projects using federal discretionary funds |
|---|--|

RTD selects projects using a variety of federal funds and RTD revenues to fund regional transit system construction, operations, and maintenance. The projects follow their [Strategic Business Plan \(SBP\)](#) [Mid-Term Financial Plan](#) [for the base transit system and their Annual Program Evaluation \(APE\) for the FasTracks Program](#). Projects are listed in the TIP under the following categories:

- FTA Section 5307 (transit capital, operations, capital maintenance, studies)
- FTA Section 5309 (transit [New Starts](#) [Capital Investment Grants \(CIG\)](#))
- ~~FTA Section 5310 (transit capital for elderly & disabled services)~~
- FTA Section 5337 (transit State of Good Repair)
- FTA Section 5339 (transit capital improvements)
- FasTracks
- Other projects using federal discretionary funds

B. REQUIREMENTS AND COMMITMENTS FOR ALL TIP PROJECTS

This section outlines any specific or special requirements necessary for a project to be placed within the TIP, regardless of selection agency (DRCOG, CDOT, or RTD) or funding source.

1. Eligible Applicants

Eligible applicants for DRCOG-selected projects are listed in Section IV.A. CDOT and RTD establish applicant eligibility for the programs for which they select projects.

2. Project Eligibility

All projects to be granted funds through the TIP must:

- be consistent with Metro Vision and the MVRTP,
- abide by federal, state, and local laws,
- be consistent with locally-adopted plans, and
- have required matching funds (if any) available or reasonably expected to be available.

The types of projects eligible for specific funding sources ~~have been~~ [are](#) established in the [current federal transportation legislation](#) [FAST \(Fixing America's Surface Transportation\) Act](#) and state statute. Some are further defined by each selection agency. DRCOG project eligibility is defined within each Call for Projects section and further detailed in Appendix B.

3. Air Quality Commitments

The TIP must implement any submitted State Implementation Plan (SIP) Transportation Control Measures (TCMs), which are detailed in the air quality conformity finding. No TCMs are [currently](#) included within the [adopted 2050](#) MVRTP. [The TIP must also comply with any outcomes of Colorado House Bill 19-1261 \(greenhouse gas pollution reduction roadmap\) and Colorado Senate Bill 21-260 \(pollution reduction planning framework\).](#)

4. Capacity Capital Project Eligibility

[Capital projects](#) must be identified [in particular air quality staging periods](#) in the [2050-adopted](#) Fiscally Constrained RTP [\(Table 3-1\)](#) of the [2050-current](#) MVRTP [\(April 2021\)](#) [as to be](#) eligible for Regional [and Subregional Share](#) funding. [Please see](#) Appendix C of this document [lists the current eligible and ineligible projects and elements](#). [Please see Chapter IV, Sections B and C for how the currently eligible capital projects](#)

fit into the Regional and Subregional Calls for Projects. Capital projects and eligible activities extend to the following:

- Roadway capacity capital projects (e.g., widening lane mile changes of one mile or greater or new interchanges),
- Bus Rapid Transit (BRT) capital projects involving either a fixed guideway or a bus lane one mile or greater in length, and
- Rail rapid transit projects which add a new rail station or build a new section of line connecting to a station.

This section only deals with capital projects. Roadway operational projects less than one mile in length and bus (service and operational) projects (e.g., stops, signage, Transit Signal Priority, rolling stock, queue-jump lanes, and similar project types) less than one mile in length are eligible regardless of their inclusion into the adopted MVRTP.

~~Bus Rapid Transit capacity projects involving either a fixed guideway or a bus lane one mile or greater in length must also be identified in the 2050 Fiscally Constrained RTP (Figure 6.2 and Appendix 4) of the 2050 MVRTP (April 2021). Note: bus transit service and operational projects (e.g., stops, signage, Transit Signal Priority, rolling stock, queue-jump lanes, and similar project types) less than one mile in length are eligible.~~

~~Rail rapid transit projects which add a new rail station or build a new section of line connecting to a station must be included in the 2050 Fiscally Constrained RTP (Figure 6.2 and Appendix 4) of the 2050 MVRTP.~~

5. Eligibility Requirements of Transportation Technology Projects

All transportation technology projects ~~funded~~ selected by DRCOG to receive federal funding ~~with federal aid Highway funding~~ shall clearly help achieve the goals and objectives in an adopted DRCOG regional operations plan and must follow specific guidance outlined in the call for projects eligibility criteria. Such projects must also be based on a systems engineering analysis [23 CFR § 940.11 (a)]. A specific process for design, implementation, and operations & maintenance must be accounted for by the applicant pursuing TIP funds. The first step is the identification of portions of the DRCOG regional ITS architecture being implemented. Early coordination with DRCOG staff regarding the architecture is recommended.

6. Freight

In the DRCOG selection process, freight facility projects, freight-related pollutant reduction projects, roadway projects, and studies may benefit freight movement or freight facilities. For example, projects selected for the Fiscally Constrained 2050 MVRTP were evaluated based on several criteria, including such as improving total and/or truck travel time reliability, reducing emissions, and improving the region's competitive position ~~proximity to intermodal facilities and severity of traffic congestion~~, each of which is important to freight movement. Projects benefiting freight movement will be discussed in the interagency review of projects (See Section V.A).

7. Commitment to Implement Project

Since the TIP is dependent on a satisfactory air quality conformity finding, inclusion of a project in the TIP shall constitute a commitment to complete the project in a manner consistent with the years of funding identified in the TIP.

Any additional funding necessary to complete the project scope *beyond* the already identified DRCOG allocation in the TIP must be borne by the project sponsor. If any anticipated matching funds become unavailable, the project sponsor must find other non-DRCOG funds to replace them. If project costs increase on CDOT- and RTD-selected projects, CDOT or RTD may provide additional federal, state, or local funds equal

to the increase. If project costs increase on the scope elements defined within DRCOG-selected projects, sponsors must make up any shortfalls with non-DRCOG-allocated funds.

All project components (within each funded TIP phase) contained within Environmental Impact Statements (EISs)/Records of Decision (RODs), Environmental Assessments (EAs)/Findings of No Significant Impact (FONSIs), or other National Environmental Policy Act (NEPA) decision documents must be funded as part of the project.

8. Public Involvement

Public involvement is expected at all stages of project development and the responsibility for seeking it lies with the project sponsor. For projects seeking DRCOG-selected funding, early public input is key as the sponsoring agency is preparing its funding request submittal in either the regional or subregional project selection process. The DRCOG committee review process through the Transportation Advisory Committee (TAC) and Regional Transportation Committee (RTC), and a public hearing at the regional level, provide opportunities for public comment prior to DRCOG Board action on adoption of the TIP amendments. The TIP public involvement process also serves as the public involvement process for RTD's program of projects using FTA Section 5307 funding, and the public hearing is noticed accordingly.

9. Advance Construction

For projects selected for TIP funding, a sponsor wishing to accelerate the completion of a project with non-federal funds may do so through a procedure allowed by the FHWA referred to as advance construction.

Through advance construction, a project sponsor can independently raise upfront capital for a project and preserve eligibility for future federal funding for that project. At a later point, federal funds can be obligated for reimbursement of the federal share to the sponsor. This technique allows projects that are eligible for federal aid to be implemented when the need arises, rather than when obligation authority for the federal share has been identified. The project sponsor may access capital from a variety of sources, including its own funds and private capital in the form of anticipation notes, commercial paper, and bank loans.

If any sponsor wishes to advance construct a project in the TIP, it must seek CDOT and FHWA permission to do so.

III. DRCOG INITIAL PROGRAMMING

This section outlines the DRCOG TIP process that takes place before the Regional and Subregional Share calls are issued.

A. OVERVIEW, FUNDING ASSESSMENT, AND INITIAL PROGRAMMING

1. Dual Model Overview

The dual project selection model has two TIP project selection elements—regional and subregional. In the Regional Share, funding goes towards projects that have a regional benefit and implement elements of the MV RTP.

Within the Subregional Share, funds are proportionately targeted for planning purposes to predefined geographic units (counties) for project prioritization and recommendations to the DRCOG Board. Each county subregion can add criteria specific to their subregional application accounting for local values. Additional details are provided in Section IV.

2. Funding Assessment

DRCOG staff will estimate how much funding will be available, by funding source, for ~~the~~ federal fiscal years ~~2024, 2025, 2026, and 2027~~ the TIP is programming, in consideration of control totals provided by CDOT and other sources. The total four-year program funding must include the federal share of all carryover projects, set-aside programs, and other funding commitments as outlined below, in addition to any new funding requests (as outlined in Section IV). Depending on the timelines and structure of certain funding types, DRCOG reserves the authority to program some FY24-27 funding before the Regional and Subregional Shares Calls for Projects of a TIP opens for the FY24-27 TIP open.

DRCOG, through its calls for projects, funds projects with:

- Surface Transportation Block Grant Program (STBG) (formerly STP Metro). This federal funding type is the most flexible and can be used for a variety of transportation projects and programs, including roadways, bridges, ~~bicycle and pedestrian~~ active transportation infrastructure, and transit.
- STBG set-aside for Transportation Alternatives (TA). Federal TA funds are primarily for ~~bicycle and pedestrian~~ active transportation infrastructure.
- Congestion Mitigation/Air Quality (CMAQ) funds. Federal CMAQ funds are for projects and programs that provide an air quality benefit by reducing emissions and congestion. Major project type exceptions include roadway capacity and reconstruction projects.
- Carbon Reduction Program (CRP) funds. Federal CRP funds are for projects that support a reduction in transportation reductions. Major project type exceptions include roadway capacity and reconstruction projects.
- State Multimodal ~~Transportation and~~ Mitigation ~~Transportation~~ Options Funds (MMOF). State MMOF funds are to be used for transit, TDM programs, multimodal mobility projects enabled with new technology, studies, modeling tools, and projects that decrease VMT or increase multimodal travel, and bicycle/pedestrian active transportation projects.

~~The Regional Share~~ Both Calls for Projects ~~is are~~ conducted without the applicant defining a specific funding type, though they may indicate a wish to utilize state MMOF solely within their successful application. After ~~the Regional Share~~ all projects have been initially recommended for inclusion into the draft TIP document, staff will assign the appropriate funding type to each project. Once allocated, the remaining amounts within

each funding type will be determined and DRCOG will inform each subregion of the targeted amount by funding type for their subregion.

3. Carryover Projects

DRCOG staff will continue to fund all approved projects from the previous ~~2020-2023 and/or 2022-2025~~ TIP that were delayed or were selected from a TIP wait list and receive permission from the DRCOG Board of Directors to proceed. No new ~~FY 2024-2027~~ TIP funding will be used. Instead, funding for the ~~delayed~~ projects continuing into a TIP will be carried over from the previous TIP.

4. Set-Aside Programs

DRCOG will continue with the practice of taking funds “off-the-top” to fund regional programs. The ~~2024-2027~~ TIP reflects the intent to fund the following set-aside programs in the amounts shown in Table 2, totaling ~~\$49,400,000~~ \$63,360,000 in DRCOG-allocated funds over the four years of the TIP.

Table 2. ~~2024-2027~~ TIP Set-Aside Programs

<u>Set-Aside Programs</u>	<u>4-Year DRCOG-allocated Funding Allocations for the 2024-2027 TIP</u>
<u>TDM Services</u>	<p>\$15,440,000</p> <ul style="list-style-type: none"> • \$9,600,000 for the DRCOG Way to Go program • \$3,840,000 for 8 regional TMAs partnership @ \$120,000/year • \$2,000,000 for TDM non-infrastructure projects
<u>Regional Transportation Operations & Technology</u>	<p>\$20,000,000</p> <ul style="list-style-type: none"> • \$15,000,000 (approximately) for call(s) for projects • \$5,000,000 (approximately) for DRCOG staff expenses to develop traffic signal plans
<u>Air Quality Improvements</u>	<p>\$7,920,000</p> <p>Regional Air Quality Council (RAQC) will receive:</p> <ul style="list-style-type: none"> • \$2,775,000 for ozone outreach and education • \$1,000,000 for localized community-based marketing • \$3,425,000 for other focused outreach and air quality improvement programs • \$720,000 for ozone modeling
<u>Human Service Transportation</u>	<p>\$8,000,000</p> <ul style="list-style-type: none"> • \$8,000,000 to improve service and mobility options for vulnerable populations by funding underfunded/underserved trips and rolling stock expansion.
<u>Community Mobility Planning & Innovation</u>	<p>\$12,000,000</p> <ul style="list-style-type: none"> • \$2,000,000 for Transportation Corridor Planning • \$5,000,000 for Regional Planning Studies • \$5,000,000 for Innovative Mobility

Set-Aside Programs	4-Year DRCOG-allocated Funding Allocations for the 2024-2027 TIP
TDM Services	\$15,440,000 <ul style="list-style-type: none"> • \$9,600,000 for the DRCOG Way to Go program • \$3,840,000 for 8 regional TMAs partnership @ \$120,000/year • \$2,000,000 for TDM non-infrastructure projects
Regional Transportation Operations & Technology (traffic signals and ITS)	\$20,000,000 <ul style="list-style-type: none"> • \$4,000,000 for DRCOG program support to develop traffic signal plans • \$16,000,000 for capital investments (call for projects)
Air Quality Improvements	\$7,920,000 <p>Regional Air Quality Council (RAQC) will receive:</p> <ul style="list-style-type: none"> • \$2,775,000 for ozone outreach and education • \$1,000,000 for localized community-based marketing • \$3,425,000 for other focused outreach and air quality improvement programs • \$720,000 for ozone modeling
Human Service Transportation	\$8,000,000 <ul style="list-style-type: none"> • \$8,000,000 to improve service and mobility options for vulnerable populations by funding underfunded/underserved trips and rolling stock expansion.
Community Mobility Planning and Innovation	\$12,000,000 <ul style="list-style-type: none"> • \$3,000,000 for Transportation Corridor Planning • \$5,000,000 for Community Mobility Planning • \$4,000,000 for Innovative Mobility

Each set-aside program, apart from the Air Quality Improvements, will independently develop its own eligibility requirements and criteria, including minimum project funding requests, along with a scoring system to recommend projects to the DRCOG Board for inclusion into the TIP at appropriate times, typically every two years. All set-aside programs will be managed and Calls for Projects conducted by DRCOG, apart from the Air Quality Improvements Set-Aside, which will be managed by the RAQC.

5. Other Commitments

~~As a part of all previous TIP actions, No current commitments were made by the DRCOG Board to fund projects “off the top”, outside of the Set-Asides and Calls for Projects against FY funding. This TIP Policy intends to fund two previous commitments:~~

~~Completion of the FasTracks “Second Commitment in Principle” allocation set by the DRCOG Board in 2008. The total to be allocated will be \$2,860,000 federal from a mixture of STBG and CMAQ funding. The funding for this commitment comes from the previous TIP, and will not use any new sources of funding. A remaining \$25,000,000 in federal funds towards the Central 70 project over fiscal years 2020-2023. For the 2016-2021 TIP, the DRCOG Board made a \$50,000,000 commitment in principle towards this project, split over two DRCOG TIP cycles. The \$25,000,000 will be funded from the Regional Share allocation, pending a reaffirmation by CDOT for the funds.~~

6. Dual Model Funding Allocation

After new funding is allocated to the set-aside programs and other commitments (if any), the remaining funds are designated for new projects from the requests in the regional share and subregional share processes.

~~For this TIP,~~ 20% of the remaining funds will be allocated to the Regional Share process and 80% to the Subregional Share. Details regarding these calls are outlined in the next section.

IV. DRCOG CALLS FOR PROJECTS

DRCOG evaluates and selects projects through two calls for projects - one for the Regional Share and another for the Subregional Share. This dual model approach provides the desired flexibility for member governments to apply local values to the TIP process and still maintain DRCOG's strong commitment to implementing a TIP process consistent with Metro Vision and the [adopted 2050 Metro Vision Regional Transportation Plan MVRTP](#).

A. REQUIREMENTS FOR ALL DRCOG-SELECTED TIP PROJECTS

1. Eligible Project Activities and Locations

All projects submitted through DRCOG, regardless of which call for projects, must be eligible for one of the funding types that DRCOG allocates (see Appendix B) and located in and/or provide benefits to the MPO geographical area (see Figure 1). Project eligibility is specific for each of the calls for projects (Regional and Subregional). Detailed information on each respective call is listed further on in this section.

2. Projects Requiring Concurrence by CDOT or RTD

If any eligible applicant wishes to apply for any project on a state highway or within state right-of-way, they must have the written concurrence of CDOT before the application deadline. Funding requests in need of RTD involvement (for either capital projects, service operations, or to access RTD property) must have the written concurrence of RTD. Applicants are strongly encouraged to contact CDOT or RTD early in the application process.

3. Projects Requiring an Intergovernmental Agreement (IGA) with CDOT or RTD

For any projects requiring the sponsor to contract with CDOT or RTD to receive DRCOG-allocated funds, submittal of the application is an agreement by the sponsor to use the applicable IGA without revision. It is expected that a sponsor, after receiving notification from DRCOG their project is funded, will begin the IGA process immediately.

4. Eligible Applicants

Eligible applicants for projects to be selected by DRCOG, in either the Regional or Subregional Share, include:

- county and municipal governments,
- regional agencies; specifically, RTD, the Regional Air Quality Council (RAQC), DRCOG, and transportation management organizations/areas (TMO/A's) (non-infrastructure projects only), and
- the State of Colorado offices and agencies, including the Department of Transportation (CDOT), public colleges, and universities.

5. ~~TIP Focus Areas~~ TIP Connection and Implementation of the ~~2050~~adopted MVRTP

The ~~2050~~adopted MVRTP includes project and program investment priorities. These investment priorities will guide the FY 2024-2027 TIP development. This TIP identifies three focus areas to guide investments. The intent of the focus areas is to support implementation of the policies and programs established in Metro Vision and the MVRTP. The following ~~2050 MVRTP priorities~~focus areas are part of the Regional and Subregional Share evaluation criteria and will ~~guide assist~~ project applicants in investment decisions. Applicants are not required to propose projects that meet the TIP Focus Areas as they are not a project eligibility component.

- Safety

- Increase the safety for all users of the transportation system
- Drawn from RTP priorities, Vision Zero, federal performance measures
- Example project types: Any type, assuming safety is improved.
- Active Transportation
 - Expand and enhance active transportation travel options
 - Drawn from RTP priorities, Active Transportation Plan, Metro Vision objectives
 - Example project types: Bike/Ped, TDM, first/last mile; projects can be stand alone or elements of a larger project
- Air Quality
 - Improve air quality and reduce greenhouse gas emissions
 - Drawn from RTP, federal performance measures, Metro Vision objectives
 - Example project types: Any type, assuming the element is justified, except standalone reconstruction and a bridge rehab/replace
- Multimodal Mobility
 - Provide improved travel options for all modes
 - Drawn from RTP priorities, federal performance measures, Metro Vision objectives
 - Example project types: Any type
- Freight
 - Maintain efficient movement of goods within and beyond the region
 - Drawn from RTP priorities, Freight Plan, federal performance measures, Metro Vision objectives
 - Example project types: Any type. Projects can be location-based (improvements at a location) or projects designed to improve freight mobility
- Regional Transit
 - Expand and improve the region's transit network
 - Drawn from RTP priorities, Coordinated Transit Plan, Regional Bus Rapid Transit Feasibility Study
 - Example project types: BRT, new/enhanced bus service, mobility hub, stop enhancements

IMPROVE MOBILITY INFRASTRUCTURE AND SERVICES FOR VULNERABLE POPULATIONS (including improved transportation access to health services)

Mobility is a key component of helping vulnerable populations (such as older adults, minority, low-income, individuals with disabilities, and veterans) maintain their independence and quality of life. With the region's rapidly aging population, transportation is also a key component to helping older adults age in place. Improving mobility infrastructure and services for vulnerable populations may be attained through funding transit service and other physical infrastructure that improve or expand access to regional services and/or facilities. Projects/programs may include, but are not limited to:

- sidewalk improvements that assist in fulfilling a community's ADA transition plan,
- new or expanded transit services, including call-n-Ride,
- technology facilitated improvements, such as shared mobility services, and
- street design elements to optimize human performance (e.g., pedestrian improvements at intersections, curb radius, signage, devices for lane assignment, etc.).

~~INCREASE RELIABILITY OF EXISTING MULTIMODAL TRANSPORTATION NETWORK~~

Having a consistently reliable multimodal transportation system is essential to the individual user experience and regional mobility. Reliability may be addressed through:

- capacity improvements to any of the region's travel modes,
- the elimination of gaps in the system, and
- operational improvements, such as traffic signal timing, bottleneck improvements, grade separations, transit service, and transportation demand management (TDM) strategies.

~~IMPROVE TRANSPORTATION SAFETY AND SECURITY~~

Safety for all users of the multimodal transportation system—and working toward reducing serious injuries and eliminating fatalities—is of paramount priority to every transportation stakeholder in the region. There are approximately 220 reported traffic crashes per day in the region, resulting in about 70 injuries per day and four traffic fatalities per week (more than 200 annually).

Transportation security supports resiliency and addresses potential vulnerabilities and risks, from terrorism to technology (such as hacking) and natural hazards. Projects/programs may include, but are not limited to:

- roadway geometric upgrades, including the improvement of design and operations of intersections,
- improved interactions between pedestrian/bicycle modes with vehicular traffic (e.g., exclusive bike lanes, pedestrian/bicycle grade separations and crossings, improve line of sight, traffic calming improvements, etc.), and
- Intelligent Transportation Systems applications.

6. Financial Requirements

Sponsors must commit a **minimum of 20% match** from non-federal financial resources for STBG, CMAQ, ~~CRP,~~ and TA funding requests submitted for consideration, ~~and a minimum of 50% match is required for the state MMOF funds.~~

The State MMOF program requires a 50% non-MMOF match. MMOF will be matched with CMAQ or TA funds plus the required 20% match on those funds. Based on CDOT Transportation Commission action, local match requirements for the MMOF funding program may be reduced for certain jurisdictions and will be reviewed at the beginning of each TIP Call for Projects cycle.

Additionally, sponsors must request a **minimum of \$100,000 in DRCOG allocated funds** to be a candidate for DRCOG selection. All submitted requests must be reflected in year of expenditure dollars using a ~~reasonable~~3% inflation factor.

Subregions may place additional restrictions on the amount of local match and the federal/state funding request. Please see the following two subsections for additional details.

7. Commitment to Implement a Project

Inclusion of a project in the TIP shall constitute a commitment by the sponsor to complete their project in a timely manner. A sponsor's submittal of a funding request for DRCOG selection shall constitute a commitment to complete each project phase as described in the application form if the project is selected for funding. The ~~submitted~~ adopted application TIP scope ~~becomes a permanent part of the TIP project scope and~~ at a minimum must be implemented.

Sponsors with funding requests selected for inclusion in the TIP shall work with CDOT or RTD to ensure that all federal and state requirements are followed, and the project follows the project phases programmed in the TIP.

8. Next Meaningful Phase

Most of the regionally significant roadway and transit projects in the adopted Fiscally Constrained ~~2050~~ MVRTP are quite costly. To allow more flexibility in funding consideration in the Regional Share TIP process, applicants can submit implementation funding requests for only the "next meaningful phase" of such projects. The "next meaningful phase" should be jointly established by the sponsor, CDOT or RTD, and DRCOG staff in advance of the submittal. The functional implication of a "meaningful phase" is that a completed phase creates something usable. If additional funding is allocated to an existing project for new or revised project scope elements, the new scope element(s) will be added to the existing TIP project with funding years and project phases adjusted accordingly.

9. Required Training

At the initiation of the Regional Share TIP Call for Projects, DRCOG, CDOT, and RTD staff shall jointly conduct ~~two~~ mandatory training workshops (a mixture of in-person and virtual, as warranted) to cover and explain the submittal process, eligibility and evaluation, construction and development requirements for construction projects, sponsor responsibilities, and basic requirements for implementing federal projects for both the regional and subregional processes. Applicants are only required to attend one of the ~~two~~ trainings. Each training will cover the same material and include the two calls for projects, so if applicants are not anticipating submitting a Regional Share application, but are for the Subregional Share, they are required to attend one of the trainings.

During the training, CDOT, RTD, and DRCOG staff will be available to assist jurisdictions in preparing funding request applications, as needed. As an outcome of this required training, those in attendance will become "certified" to submit TIP applications for either call. Only those applications prepared by eligible sponsors in attendance at one of the mandatory trainings will be considered as "eligible" submittals.

10. DRCOG-Selected Project Phase Initiation Delays

DRCOG has a project tracking program that tracks the initiation of a project phase. A delay occurs when a project phase, as identified during project submittal and contained within the TIP project description, has not been initiated in the identified year. For example, a project that has only one year of DRCOG-selected funding receives a delay if the project did not go to ad (construction projects), did not hold its kick-off meeting (studies), or didn't conduct similar project initiation activities (other types of projects) by the end of the federal fiscal year for which it was programmed. For projects that have more than one year of DRCOG-selected funding, each phase (year) will be reviewed to see if the objectives defined for that phase have been initiated.

DRCOG defines the initiation of a project phase in the following manner as of September 30 for the year with DRCOG-selected funding in the TIP that is being analyzed:

- Design: IGA executed with CDOT AND if consultant – consultant contract executed and Notice To Proceed (NTP) issued; if no consultant – design scoping meeting held with CDOT project staff

- Environmental: IGA executed with CDOT AND if consultant – consultant contract executed and NTP issued; if no consultant – environmental scoping meeting held with CDOT project staff
- ROW: IGA executed with CDOT AND ROW plans turned into CDOT for initial review
- Construction: project publicly advertised
- Study: IGA executed (with CDOT or RTD) AND kick-off meeting has been held
- Bus Service: IGA executed with RTD AND service has begun
- Equipment Purchase (Procurement): IGA executed AND RFP/RFQ/RFB (bids) issued
- Other: IGA executed AND at least one invoice submitted to CDOT/RTD for work completed

On October 1 (beginning of the next fiscal year), DRCOG will review the project phase status with CDOT and RTD to determine if a delay has occurred. If a delay is encountered (project phase being analyzed has not been initiated by September 30), DRCOG, along with CDOT or RTD, will discuss the project and the reasons for its delay with the sponsor. The result will be an action plan enforceable by CDOT/RTD, which will be reported to the DRCOG committees and Board. For a sponsor that has a phase of any of its projects delayed, the sponsor must report the implementation status on all its DRCOG-selected projects.

Sponsors will be requested to appear before the TAC, RTC, and DRCOG Board to explain the reasons for the delay(s) and receive TAC and RTC recommendation, and ultimately DRCOG Board approval to continue. Any conditions established by the DRCOG Board in approving the delay become policy.

On the following July 1, nine months after the project phase(s) was initially delayed, DRCOG staff will review the project status with CDOT or RTD to determine if the phase is still delayed. If it's determined the project sponsor, as identified in the adopted TIP, is the cause of the continued delay (phase not being initiated by July 1), the project's un-reimbursed DRCOG-selected funding for the delayed phase will be returned to DRCOG for reprogramming (federal funding reimbursement requests by the sponsor will not be allowed after July 1).

If it's determined that another agency or an outside factor beyond the control of the project sponsor not reasonably anticipated is the cause of the delay (phase not being initiated by July 1), the future course of action and penalty will be at the discretion of the Board of Directors.

Board action may include, but is not limited to:

- Establishing a deadline for initiating the phase.
- Cancel the phase or project funding and return to DRCOG for reprogramming.
- Reprogram the project funding to future years to allow other programmed projects to advance.

B. REGIONAL SHARE CALL FOR PROJECTS

1. Regional Share Intent

~~The intent is to select a limited number of regional, high-priority projects, programs, or studies that play a crucial role in shaping and sustaining the future of individuals, cities, and counties in the DRCOG region consistent with DRCOG's Metro Vision Plan and 2040 Regional Transportation Plan. Regional project selection should directly be guided by the established TIP Focus Areas (which supports the implementation of the policies and programs established in Metro Vision and the MVRTP) and should connect communities, greatly improve mobility and access, and provide a high return on investment to the region.~~

Regional Share projects and programs serve to achieve the regional outcomes and objectives of Metro Vision and the regionally-funded project and program investment priorities set by the adopted Metro Vision Regional Transportation Plan.

2. Funding Availability

Once all set-aside programs and commitments are allocated, the remaining funds are designated to new projects from the requests in the regional and subregional share process. Of the available funds, the Regional Share will be comprised of 20%. ~~The remaining \$25,000,000 federal funds allocation to the Central 70 project over fiscal years 2020-2023 will be taken off the top of the determined Regional Share funding level, pending a reaffirmation by CDOT for the funds. The remaining amount (after the Central 70 allocation) will be available for the call for projects.~~ Exact funding levels will be available before the Regional Share Call for Projects opens. Funds that remain unallocated from the Regional Share Call for Projects will be added to the total Subregional Share allocation.

For the Regional Share Call for Projects, ~~no single requests~~ for DRCOG-allocated funding may be less than \$100,000 or exceed \$20,000,000. In addition, ~~the all~~ Regional Share project requests made require a minimum 20% match. If state MMOF funds are utilized requiring a 50% match, efforts will be taken to combine federal and state funding sources to reduce the necessary match to a minimum of 20%. Per CDOT action, some local agencies may require less than a 50% match. for STBG, CMAQ and TA funds. for DRCOG federal or state funding may not exceed 50% of the total project cost submitted. ~~Of the minimum 50% match for the three federal sources of funding (STBG, CMAQ, and TA), 20% must be from non-federal sources to meet federal requirements.~~

3. Eligibility Requirements

Programs funded through DRCOG's Regional Share shall address mobility issues to a level that can definitively illustrate a "magnitude of benefits" fitting of a regional program. Participation within the proposed program, along with the anticipated services and benefits, must be available within the entire DRCOG TIP planning area (the MPO area). Proposed initiatives and other efforts which cover the entire region will also be eligible. Regional programs will focus on optimizing the multimodal transportation system by increasing mobility and access, and/or programmatic efforts to ensure that people of all ages, incomes, and abilities are connected to their communities and the larger region.

Projects funded through DRCOG's Regional Share shall include eligible transportation improvements that implement the elements of the ~~2050~~ adopted MVRTP as specified in Table 3 below.

Table 3. Project Categories Eligible for Regional Share Funding

Eligible Networks 2040 MVRTP <i>Specific project attributes such as start and end points, alignment, service levels, and number of lanes are subject to revision through future environmental studies.</i>	Eligible Projects Reference Maps/Table <i>As adopted in RTP at time of TIP Call for Projects in 2018</i>
Regional Rapid Transit <i>(rail and BRT/busway guideway corridors)</i>	Figure 2
Bicycle and Pedestrian Projects	Projects 1) from an adopted local plan or, 2) on or in proximity of a regional corridor or key multi-use trail identified on Figure 3
Freeways and Major Regional Arterials (MRAs) on the Regional Roadway System <i>(NOT ELIGIBLE: stand-alone roadway reconstruction and any projects on tollways (E-470, NW Parkway, Jefferson Parkway))</i>	Figure 4 : Eligible Roadway Capacity projects identified in blue. Figure 5 : Eligible Roadway Operational project locations identified in red (freeways) and gold major regional arterials).
Regional Managed Lanes System	Figure 6
Rail Freight System <i>(new railroad grade separations at existing grade crossings that improve operations on the designated Regional Roadway System)</i>	Figure 7
Studies	Any study for a project that is DRCOG eligible (including multimodal studies per MMOF)
Multimodal Projects <i>(includes projects as defined in SB18-001 Multimodal Transportation Options Fund)</i>	Fixed route or on-demand transit (capital and operating costs eligible) TDM programs Multimodal mobility projects enabled by new technology
For fiscally constrained roadway and rapid transit capacity project details, see Appendix 4 of the 2040 MVRTP.	

2050-MVRTP Eligible Categories	Eligible Projects/Programs <u>for the Regional Share</u> As adopted in Table 3.1 of the 2050 MVRTP at the time of TIP Call for Projects in 2021	
	Any Project Phase	Pre-Construction Activities
Multimodal Capital (Projects & Programs DRCOG Administered Funds only)	<ul style="list-style-type: none">Listed projects in the 2020-2029 staging period	<ul style="list-style-type: none">Listed projects in the 2030-2039 staging period
Regional BRT Projects	<ul style="list-style-type: none">Listed projects in the 2020-2029 staging period	<ul style="list-style-type: none">Listed projects in the 2030-2039 staging period
Corridor Transit Planning (Projects & Programs)	<ul style="list-style-type: none">Listed projects in the 2020-2029 staging periodRegional mobility hubsAny other regional strategic transit improvement*	<ul style="list-style-type: none">Listed projects in the 2030-2039 staging period
Arterial Safety /Regional Vision Zero (Projects & Programs)	<ul style="list-style-type: none">Listed projects in the 2020-2039 staging periodAny other safety project located on the Taking Action on Regional Vision Zero Plan High Injury Network (arterial or higher classification)*	<ul style="list-style-type: none">Listed projects in the 2030-2039 staging period
Active Transportation (Projects & Programs)	<ul style="list-style-type: none">Listed projects in the 2020-2039 staging periodAny other active transportation project that closes a gap or extends a facility on the regional active transportation corridors	<ul style="list-style-type: none">Listed projects in the 2030-2039 staging period
Freight (Projects & Programs)	<ul style="list-style-type: none">Listed projects in the 2020-2039 staging periodAny other project located on the Tier 1 or Tier 2 Regional Highway Freight Vision Network that primarily improves freight movement or access to a Regional Freight Focus Area*	<ul style="list-style-type: none">Listed projects in the 2030-2039 staging period
Studies	<ul style="list-style-type: none">Study limits must include the entire MPO boundary at a minimum <u>and</u> specifically addresses one of the following categories listed above.	
* Must not be an air quality Regionally Significant Project as defined in the 2050 RTP.		

For projects that require an Environmental Assessment (EA) or an Environmental Impact Statement (EIS), the EA or Draft EIS Disclosure Document must be signed or be reasonably expected to be signed by the relevant federal agency within ~~FY 2024-2027~~ the TIP years being programmed. TIP funding for a study ~~in this TIP cycle~~ does not constitute a commitment to expedite funding for implementation in a coming TIP cycle. Funding for implementation will be based on relevant evaluation criteria in that (future) TIP process.

4. Regional Share Criteria

The Regional Share criteria to be used in the evaluation of projects is contained within Appendix D.

5. Application Form

DRCOG staff will make TIP application materials and instructions publically available to all those who wish to apply. ~~For this TIP cycle, the~~ The Regional Share will utilize a parallel track application process to keep the overall match at a minimum of 20%.

- The “STBG” track will utilize an application that will solicit and select projects eligible for STBG funds.
- The “Air Quality and Multimodal” track will utilize an application that will solicit and select projects eligible for MMOF, CMAQ, CRP, and TA funds. Federal, state, and local funding types may be combined to reduce the overall required match to 10% so long as a 20% match is provided for CMAQ, CRP, and TA funds.

6. Required Training

Training shall be required for any eligible sponsor who wishes to submit an application in the Regional Share Call for Projects. See Section IV.A for additional details.

7. Call for Projects and Application Submittals

The Regional Share Call for Projects will be announced by DRCOG and ~~will~~ be open for 8 weeks. Regional Share project applications from individual sponsors will be due to DRCOG and must be submitted on behalf of and in concurrence of the subregional forums, and CDOT and RTD, as warranted. Each subregion will be permitted a maximum of three submittals. Two submittals will be allowed from RTD, and two from CDOT ~~(reaffirmation of Central 70 counts as one of CDOT’s project submittals).~~

Any agency contemplating applying and have data questions/needs related to the completion of the application, must contact DRCOG staff **at least three weeks prior to the application deadline.** The information that is required by the sponsors to complete applications is noted within the application. All applications must be complete when submitted to DRCOG as candidates for selection. Incomplete applications will NOT be accepted.

Applications from eligible sponsors must be prepared by those that have been certified as attended the required training. The application must be affirmed by either the applicant’s City or County Manager, Chief Elected Official (Mayor or County Commission Chair) for local governments, or agency director or equivalent for other applicants.

8. DRCOG Review/Scoring of Applications

After receiving the applications, DRCOG will review ~~project the~~ submittals for eligibility. DRCOG will also consult and share applications with CDOT, RTD, and any other regional agencies as appropriate.

After applications are reviewed for eligibility, DRCOG will make a comprehensive evaluation of all applications submitted, before turning the applications over to the project review panel.

9. Project Review Panel Consideration and Recommendation

After all projects have been evaluated by DRCOG, a project review panel will discuss and prioritize projects for a funding recommendation to the DRCOG Board. The project review panel will consist of one technical/non-DRCOG director from each of the eight subregions, one CDOT representative, one RTD representative, and up to five regional subject matter experts. As part of the panel decision-making process, project sponsors may be asked to make brief presentations to the panel to further assist in project recommendations.

Once project recommendations are made by the panel, its recommendation will be forwarded to TAC, RTC, and the Board (the MPO planning process) to incorporate the draft Regional Share projects into the draft TIP.

10. DRCOG Board Draft Project Considerations

The action taken by the Board will be to recommend Regional Share projects into the draft TIP. Further action will be necessary, after the Subregional Share Call for Projects, to finalize the project recommendations into an adopted TIP. After the Board makes a recommendation, DRCOG staff will begin to evaluate the draft project list and assign the appropriate funding types.

C. SUBREGIONAL SHARE CALL FOR PROJECTS

1. Subregional Share Purpose

The purpose of the Subregional Share is to allow for further collaboration and local values of each geographic region to be part of the project recommendation process, while keeping the overall principles of Metro Vision and the 2050-adopted MVRTP. The geographic-units for the Subregional Share are county boundaries and all the incorporated units of governments within.

2. Funding Availability

As previously mentioned, once all programs and commitments are allocated, the remaining funds are designated to new projects from the requests in the Regional and Subregional Share process. Of the available funds, the Subregional Share will be comprised of 80%.

The 80% allocated to the Subregional Share is further proportionately targeted for planning purposes to each county. The breakdown targeted to each county is configured by the average of three factors as compared to the regional total. The three factors are *population* (source: 2016-2020 DOLA), *employment* (source: 2016-2019 DOLA), and *vehicle miles traveled* (VMT) (source: estimated-year-2020 base year from the 2017-2020 model run for the 2050 MVRTP). The average for each county is:

Table 4. Funding Target Percentage

County	Avg. of Factors
Adams	<u>15.17%</u> <u>15.442%</u>
Arapahoe	<u>19.37%</u> <u>18.610%</u>
Boulder	<u>9.70%</u> <u>9.9288%</u>
Broomfield	<u>2.33%</u> <u>2.441%</u>
Denver	<u>24.29%</u> <u>24.2237%</u>
Douglas	<u>10.04%</u> <u>10.376%</u>
Jefferson	<u>16.44%</u> <u>16.5047%</u>
SW Weld	<u>2.66%</u> <u>2.5049%</u>

For the Subregional Share Call for Projects, sponsors must commit **a minimum of 20% match** from non-federal financial resources for STBG, CMAQ, CRP, and TA funding requests submitted for consideration through their subregion. The MMOF funding requests program requires a 50% match from non-MMOF funds. MMOF will be matched with CMAQ, CRP, or TA funds plus the required 20% match on those funds. Per CDOT action, some local agencies may require less than a 50% match. Additionally, sponsors must request **a minimum of \$100,000 in federal/state funds** for any request submitted to be a candidate for DRCOG selection.

Each subregion may increase the local match and the federal/state funding request if they wish. Funding targeted to any one specific county forum can be proposed for projects outside of its boundaries, to further foster regional or subregional collaboration, as long as the project also provides benefits to DRCOG. Exact funding levels will be available before the Subregional Share Call for Projects opens.

3. County Forums

The sub-geographic unit being used for this call is counties and includes all the incorporated areas within. Each county shall use the established ~~a~~ forums by inviting all DRCOG-member local governments who are partially or entirely within its boundaries to participate. DRCOG, RTD, and CDOT shall also be invited. Each forum may invite other agencies and stakeholder to participate if they wish. Each forum member may select one voting member and alternate to participate.

All standing meetings identified by a subregion (forums or subcommittees) must be open to the public and contain time in their agenda to receive public comment. DRCOG, the meetings host agency, and the host agency's county shall post agenda materials for all standing meetings on its website and/or other appropriate locations as determined by the public meeting guidelines for the host agency.

Each forum will establish their governance structure, membership and representatives, other entities invited to attend, and quorum rules. Voting shall be established by the forum and be given to all forum members, except for CDOT and RTD. Voting rights for regional agencies and other stakeholders will be defined by each subregion. While informal discussion may take place through alternative means, such as email or online polling, official votes must be cast at a meeting (in-person or virtual) that is publicly advertised, open to the public, and contains time on the agenda to receive public comment. Forums are not specifically required to adopt an agreement outlining these items.

DRCOG encourages all forums to coordinate with CDOT, RTD, DRCOG, and other county forums in project development and for funding partnerships.

4. Eligibility Requirements

All projects, programs, and studies submitted for the Subregional Share Call for Projects must be eligible as outlined in ~~under~~ Table 5 below. ~~one of the DRCOG-allocated funding types (see Appendix B for details).~~ Projects submitted for the Regional Share that were not recommended for funding meeting eligibility under the ~~DRCOG-allocated funding types~~ Subregional Share are eligible to be submitted for subregional share consideration. A new application will be required to resubmit the Regional Share application into the Subregional Share.

Notable federal or DRCOG requirements include:

- ~~Any project located on a roadway must be on the DRCOG Regional Roadway System, which contains roadways that have a classification of a principal arterial or higher.~~
- ~~Any roadway capacity~~ capital, Bus Rapid Transit, or Rail (Fixed Guideway) Rapid Transit projects submitted must be in the Fiscally Constrained 2050 MVRTP. Additional details can be found in Section II.B.
- ~~For projects that require an Environmental Assessment (EA) or an Environmental Impact Statement (EIS), the EA or Draft EIS Disclosure Document must be signed, or be reasonably expected to be signed by the relevant federal agency within FY 2024-2027.~~
- ~~TIP funding for a study in the Subregional Share process does not constitute a DRCOG commitment to expedite funding for implementation in a coming TIP cycle, unless decided upon by the individual subregion.~~
- ~~Others as defined in Section II.B and IV.A.~~

Table 5. Project Categories Eligible for Subregional Share Funding

2050 MVRTP Eligible Categories	Eligible Projects/Programs for the Subregional Share As adopted in Table 3.1 of the 2050 MVRTP at the time of TIP Call for Projects in 2021	
	Any Project Phase	Pre-Construction Activities
Multimodal Capital (Projects & Programs DRCOG Administered Funds only)	<ul style="list-style-type: none"> Listed projects in the 2020-2029 staging period 	<ul style="list-style-type: none"> Listed projects in the 2030-2039 staging period
Regional BRT Projects	<ul style="list-style-type: none"> Listed projects in the 2020-2029 staging period 	<ul style="list-style-type: none"> Listed projects in the 2030-2039 staging period
Corridor Transit Planning (Projects & Programs)	<ul style="list-style-type: none"> Listed projects in the 2020-2029 staging period Regional mobility hubs Any other regional strategic transit improvement* 	<ul style="list-style-type: none"> Listed projects in the 2030-2039 staging period
Arterial Safety/ Regional Vision Zero (Projects & Programs)	<ul style="list-style-type: none"> Listed projects in the 2020-2039 staging period Any other safety project 	<ul style="list-style-type: none"> Listed projects in the 2030-2039 staging period
Active Transportation (Projects & Programs)	<ul style="list-style-type: none"> Listed projects in the 2020-2039 staging period Any other active transportation project* 	<ul style="list-style-type: none"> Listed projects in the 2030-2039 staging period
Freight (Projects & Programs)	<ul style="list-style-type: none"> Listed projects in the 2020-2039 staging period Any other project improving freight movements* 	<ul style="list-style-type: none"> Listed projects in the 2030-2039 staging period
Studies	<ul style="list-style-type: none"> No eligibility limitations Funding of a study does not constitute a DRCOG commitment to expedite funding for implementation in a coming TIP cycle, unless decided upon by the individual subregion 	
Other	<ul style="list-style-type: none"> Other project categories not listed, as long as they're eligible under one of the funding types.* Projects on roadways must be on the DRCOG Regional Roadway System, which contains roadways that have a classification of a principal arterial or higher. For projects that require an Environmental Assessment (EA) or an Environmental Impact Statement (EIS), the EA or Draft EIS Disclosure Document must be signed or be reasonably expected to be signed by the relevant federal agency within FY 2024-2027 <u>the TIP years being programmed.</u> 	

* Must not be an air quality [Regionally Significant Project](#) as defined in the 2050 RTP.

5. Subregional Share Criteria

Each subregional forum has two options for consideration in the development of its project evaluation criteria:

Option 1: Subregions must use the Regional Share criteria as is, including the scoring and weighting method, for their subregional process as contained within Appendix D.

OR

Option 2: Subregions must use the Regional Share criteria for the subregional process, but with an alternative scoring/weighting system and/or supplemental criteria to reflect local subregional values as agreed to by the subregional forum. Any forum who selects Option 2, must submit their criteria to DRCOG staff for review.

6. Application Form

DRCOG staff shall make TIP application materials and instructions available publicly to all those who wish to apply. Each subregional forum will receive the applications in advance of the Call for Projects so they can adjust their application(s) as outlined above if they choose.

Before the call is issued within each subregion (only if option 2 is selected from above), each forum must present its project selection criteria and application packet to the DRCOG Board to ensure a fair and competitive process for all stakeholders and project sponsors.

Similar to the Regional Share, the Subregional Share will utilize a parallel track application process to keep the overall match at a minimum of 20%.

- The “STBG” track will utilize an application that will solicit and select projects eligible for STBG funds.
- The “Air Quality and Multimodal” track will utilize an application that will solicit and select projects eligible for MMOF, CMAQ, CRP, and TA funds. Federal and state funding types may be combined to reduce the overall required match to 20%.

7. Required Training

Training shall be required for any eligible sponsor who wishes to submit an application in the Subregional Share Call for Projects. The training will take place soon after the Regional Share Call for Projects is issued. See Section IV.A for additional details.

8. Call for Projects and Application Submittals

The Subregional Share Call for Projects will be announced by DRCOG and will be open for 8 weeks. Subregional Share project applications from individual eligible sponsors must be submitted to DRCOG first. DRCOG staff will review for eligibility, post the applications, develop the scoring sheets, and then return the eligible applications to each appropriate through their subregional forum. While there is no limit on the number of applications any one sponsor can submit for funding to a subregion, each subregion can restrict to a manageable number. If any subregions request to have DRCOG staff assist with application review and scoring, the following table outlines the maximum number of applications from each subregion that DRCOG will aid on prior to subregions formally submitting their project recommendations.

Table 56. Maximum Applications DRCOG will Assist in Scoring

County	Max. Number
Adams	20
Arapahoe	20
Boulder	15
Broomfield	10

Denver	20
Douglas	15
Jefferson	20
SW Weld	10

Any agency contemplating applying and having data questions or requests to complete the application must contact DRCOG staff **at least three weeks prior to the application deadline**. The information required by the sponsors to complete applications is noted within the application.

Applications from eligible sponsors must be prepared by individuals certified as having attended one of the required training opportunities. The application must be affirmed by either the applicant's City or County Manager, Chief Elected Official (Mayor or County Commission Chair) for local governments, or agency director or equivalent for other applicants.

9. Application Review

DRCOG will review project submittals from each subregion for eligibility, post to the website, and develop the scoring sheets. DRCOG will also consult and share application information with CDOT, RTD, and any other regional agencies as appropriate. After applications are reviewed for eligibility, each subregion will make a comprehensive evaluation of all eligible applications.

10. Application Evaluations and Project Selection

After each subregion has reviewed and evaluated submitted and eligible applications, they will rank order their submittals. Each subregional forum will identify their recommended projects for funding up to their funding target. The remaining rank-ordered submittals will become the subregions wait list should additional revenues become available during the TIP timeframe.

Once project recommendations are made by each subregion, each set of forum recommendations will be forwarded to DRCOG staff and compiled together for TAC, RTC, and Board (the MPO planning process) recommendation to incorporate the draft Subregional Share projects into the draft TIP. Each forum will have time allotted at a preceding Board meeting to present their portfolio of project recommendations.

11. DRCOG Board Draft Project Considerations

The action taken by the Board will be to recommend Subregional Share projects into the draft TIP. Further action will be necessary to finalize both sets of project recommendations (Regional and Subregional Share) into an adopted TIP.

After the Board makes a recommendation, DRCOG staff will begin to evaluate the draft project list and assign potential funding types.

V. TIP DEVELOPMENT, ADOPTION, AND REVISIONS

This section describes the processes for developing the draft TIP, adoption, and how amendments to the adopted TIP happen.

A. TIP DEVELOPMENT

1. Peer and Interagency Discussion

Applicants are encouraged to discuss potential funding requests with CDOT and/or RTD as appropriate as early as possible. As a minimum, this discussion should take place for any submittal for which CDOT or RTD concurrence is required (see Section IV.A). Sponsors may also benefit from discussing other potential submittals that do not need their concurrence to better understand the implications of federal and state requirements on a specific submittal.

After the completion of both the Regional and Subregional Share Calls for Projects, staff from DRCOG, CDOT, and RTD will discuss preliminary recommendations, as well as requests not selected. The objective of this discussion is to look for conflicts, synergies, and opportunities among projects. Each agency may consider feedback to revise selection decisions or adjust implementation scheduling.

2. Wait List

Projects not funded for the Regional Share and each Subregional Forum will be incorporated into the TIP via a wait list. Wait list projects may be funded in the event additional funding becomes available during the TIP time period. Wait lists are maintained as part of an adopted TIP and also posted on the DRCOG TIP website.

3. Draft TIP Preparation

After the Board has made preliminary funding recommendations on regional and subregional share projects, DRCOG staff will prepare a draft TIP. The draft program will be referred to the TAC and RTC for recommendations, and made available for public comment at a public hearing by the DRCOG Board of Directors.

The draft TIP will include:

- all DRCOG-selected, RTD, and CDOT federally-funded projects,
- all CDOT state-funded projects, and
- any regionally significant transportation projects, regardless of funding source.

The draft TIP will demonstrate adequate resources are available for program implementation. It will indicate public and private resources that are reasonably expected to be available to carry out the program. The document will also include all other federally required elements.

The Clean Air Act requires that DRCOG find that the TIP conforms to the State Implementation Plan for Air Quality. The finding must be based on the most recent forecasts of emissions determined from the latest population, employment, travel, and congestion estimates by DRCOG. DRCOG staff will prepare the technical documentation supporting a conformity finding coinciding with preparation of the draft TIP. The conformity document will list regionally significant non-federally funded projects anticipated to be implemented within

the TIP time horizon. After the Governor approves the TIP, FHWA/EPA make a conformity determination approval that allows the TIP to be incorporated in the STIP. The approval letter is the start of the clock for the four-year expiration date of the TIP.

B. ADOPTION

1. Public Involvement and Hearings

A public hearing to consider the draft TIP and the air quality conformity finding will be held at the Board meeting one month prior to anticipated Board action in adopting a new TIP or making major amendments to an existing TIP. Other public outreach opportunities may also take place as warranted to collect input on the process and proposed projects to be funded.

2. Appeals

Applicants can appeal the draft Regional Share and/or Subregional Share list of recommended projects to be included within the draft TIP. Time will be set aside within the TAC meeting agenda when each share's draft recommendation is to be considered. Applicants may also make an appeal during the public hearing of the draft TIP, or during any public comment opportunity in which the recommended projects is being discussed. Applicants are strongly encouraged to work with their subregions first before considering an appeal.

3. TIP Adoption

Adoption of the TIP by the Board of Directors shall be upon recommendation of the RTC, following consideration by the TAC.

Once the TIP is approved by DRCOG, and air quality conformity is demonstrated, federal law requires the TIP also be approved by the Governor and incorporated directly, without modification, into the STIP by CDOT.

C. TIP REVISIONS

The TIP is subject to revision, either by an administrative modification by staff, or through TIP amendments (commonly referred to as Policy Amendments) adopted by the DRCOG Board of Directors. Revisions reflect project changes that may affect the TIP's programming. Listed below are two levels of revisions that can be made to the TIP.

DRCOG staff will process any TIP revision by:

- requesting TIP revisions at the end of every month, typically the 4th Monday of the month,
- entering and processing the requested draft revisions into the TIP project database (TRIPS) and appropriate committee agenda materials,
- posting the revisions on the DRCOG website, and
- emailing a summary to the TIP notification list.

If a sponsor submits a TIP revision and DRCOG staff denies it, the sponsor may appeal DRCOG staff's decision to the Board of Directors. To do so, the sponsor shall have its DRCOG Board representative transmit a letter to the DRCOG Board Chair and DRCOG's Executive Director requesting its appeal be put on a future Board agenda. The letter shall identify the specifics of the appeal and the sponsor's justification.

1. TIP (Policy) Amendments

TIP amendments are required for the following actions:

- Adding a new project or changing an existing project that would affect the air quality conformity finding,

- Changing a regionally significant project:
 - delete or significantly change a feature (for example, change the project termini)
 - delete or defer it from the four years of the TIP,
- Changing a project to be inconsistent with Metro Vision or the adopted MV RTP,
- Adding or deleting Net funding changes for any project or individual pool project by more than \$5 million over the four years of the TIP,
- Changes as deemed by the DRCOG Transportation Planning and Operations Director and/or Executive Director.

TIP amendments will be processed as soon as possible after they are received, considering committee schedules. TIP amendments will be recommended by the TAC and RTC for DRCOG Board consideration and action. Public input (in person, writing, email, etc.) will be accepted per the adopted DRCOG Public Involvement Plan, and during the public comment period of any of the committee or Board meetings considering the amendments.

TIP amendments requiring a new conformity finding may only be processed once a year as necessary, but only concurrent with the a MV RTP amendment process. These major amendments are subject to formal public hearings by the DRCOG Board prior to TAC and RTC recommendation and Board adoption.

2. Administrative Modifications

Administrative modifications include all revisions other than those listed under TIP Amendments and will be processed as they are received by DRCOG staff, typically monthly. Administrative modifications do not require committee review or approval. However, administrative modifications are presented to the Board as informational items.

As stated in Section IV.A.7, there is an expectation that DRCOG-selected projects will be implemented, at a minimum, with the scope defined in the funding request application (and in the adopted TIP). Sometimes sponsors desire to remove-change scope elements within the same budget. If this is the case, projects selected in the Regional Share must have confirmation by a majority of ~~from~~ the Regional Share project review panel to remove-change scope elements. If the project was recommended from the Subregional Share process through a subregional forum, the forum must agree-confirm by a vote to the scope change. If the project review panel or subregional forum agrees to the scope changes, DRCOG staff will process the request as an administrative modification. If scope changes are deemed significant by the DRCOG TPO or Executive Director (i.e., the new proposed scope is vastly different than the approved scope), DRCOG reserves the right to reject the scope change all together or bring the scope change through the TIP amendment process (see above).

In circumstances when the revisions are to add items to the scope within the current project budget (i.e., when project costs were less than expected), or if the request to add scope is a meaningful addition to the project and the cost is modest (in comparison to the overall budget), DRCOG staff will concur with the request and may (if necessary) process the request as an administrative modification. In either instance, if the proposed revisions affect air quality conformity, they will be treated as TIP amendments.

3. Project Cancellations

In the event a TIP project is cancelled by the project sponsor or project savings are realized and funding is returned to DRCOG for reprogramming, the funding will return to where it was originally funded (Regional Share, Subregional Share forum, or set-aside).

D. CHANGES IN FUNDING ALLOCATIONS

Under federal law and state statute, actual allocations are determined annually with no guaranteed amount. ~~The 2024-2027~~^A TIP is ~~being~~ prepared under the best estimate of available funds to CDOT, DRCOG, and RTD. As funds change, it may be necessary to add, advance, or postpone projects through TIP revisions.

1. Funding Increase

If revenues increase, the additional revenues will be allocated to projects as follows:

- First, existing funds will be advanced for projects already awarded funds in the TIP, as applicable. In some circumstances, funds may be flexed between types to advance projects.
- After options for advancing currently funded projects have been exhausted, new projects will be selected from the established wait lists with remaining monies in the following way:
 - All new revenues will be split according to the established funding split; 20% to the Regional Share and 80% to the Subregional Share processes. Subregional funds will be further broken down and targeted according the established breakdown in Section IV.C.
- A new Call for Projects may be necessary to select new projects if the wait list projects are exhausted or if the amount of new funding greatly exceeds the wait list funding requests. DRCOG Board approval will be required to issue a new call beyond the Regional and Subregional calls outlined in this document.

2. Funding Decrease

If revenues decrease, some TIP projects will need to be deferred to maintain fiscal constraint. The method to obtain deferrals is as follows:

Step 1 - Voluntary Deferrals

DRCOG staff will first query project sponsors to discern if they will voluntarily defer one or more of their current TIP projects. Any project deferred will NOT be subject to involuntary deferral at a later date.

Step 2 - Involuntary Deferrals

If voluntary deferrals are insufficient, involuntary deferrals will be necessary.

- A. DRCOG staff will FIRST create lists of relevant projects that will be EXEMPT from involuntary deferral according to the following:
 - Previously granted project immunity
 - Project readiness (projects, regardless of sponsor, that are or will be ready for ad in the next 3 months, as jointly determined by CDOT/RTD and the sponsor)
- B. DRCOG staff will query the Regional Share project review panel and each subregional forum to submit to DRCOG projects that either were the lowest scored or have the lowest priority to be deferred. Any project deferral, either voluntary or involuntary, will not be counted as a project delay.

APPENDIX A

RTD and CDOT Selection Processes

This section describes the processes that RTD and CDOT undertake to include projects into the TIP.

A. RTD PROCESS

All projects submitted by RTD for inclusion into the TIP first must be included in RTD's adopted [Strategic Business Plan \(SBP\)](#) [Mid-Term Financial Plan \(MTFP\)](#). The fiscally constrained [SBP-MTFP](#) documents RTD's six-year capital and operating plan. It is updated and adopted each year by the RTD Board of Directors. ~~The one exception to this process is the FasTracks projects, which are reported in the FasTracks SB-208 plan as described below.~~

1. RTD Solicits [SBP-MTFP](#) Projects

RTD solicits projects both internally and from local governments. The project form requires a detailed project description and project justification as well as the respective capital and or operating and maintenance costs per year of the [SBP-MTFP](#) cycle.

INTERNAL PROJECTS—In January of each year, RTD solicits [SBP-MTFP](#) projects from each division. Project applications are submitted to the Finance department for review of completeness. The majority of internally submitted projects are projects necessary to keep the existing transit system in a state of good repair and are not regionally significant from a TIP standpoint.

~~**LOCAL GOVERNMENTS**—Often, local governments will request small-scale projects for RTD consideration. Furthermore, when financial conditions allow, RTD will solicit SBP project applications from local governments through the Local Government Meetings. Project applications are reviewed by the Planning and Capital Programs departments.~~

~~**FASTRACKS PROJECTS**—Since the FasTracks plan was approved by the voters in the RTD District in 2004 and since prior to the election the DRCOG Board approved the FasTracks SB-208 plan, RTD will automatically submit all FasTracks corridor projects for inclusion in the TIP. However, because of the FasTracks commitments made to the voters and pursuant to the DRCOG SB-208 approval, FasTracks capital projects will not be included in the regular RTD SBP process and they will not be subject to SBP evaluation. Rather, all FasTracks projects are budgeted and tracked separately by RTD and will be reported annually to DRCOG.~~

2. Regionally Significant Projects are Identified

RTD staff will compile a list of all submitted projects. Using the criteria noted below, the project list is reviewed to determine which projects can be classified as Regionally Significant Projects or as being required to be in the TIP.

- Does the project enhance or advance the goals of FasTracks?
- Is the project required to be put into the TIP? (This would include projects that rely on grant funding.)
- Does the project serve more than one facility or corridor?
- Does the project serve several jurisdictions or a large geographic area?

- Will the project have a positive impact on regional travel patterns?

Upon completion of the ~~SBP~~MTFP process, those projects identified as Regionally Significant will then be submitted to DRCOG for inclusion in the TIP. ~~As noted above, because of the regionally significant nature of FasTracks, all FasTracks corridors will be submitted for inclusion into the TIP, but will not be subject to the regular SBP review process.~~ Projects that are not considered to be regionally significant will be considered in RTD's internal ~~SBP~~MTFP process.

3. Projects Subjected to Screening Criteria

RTD staff compiles all regionally significant projects into two lists: one for capital projects and one for operating projects. Items in the lists are grouped according to the category of the project, such as park-n-Rides, Information Technology, Vehicle Purchases, etc. The projects are then scored based on the following screening criteria by RTD's Senior Leadership:

- Does the project conform to RTD's mission statement?
- Safety Benefit
- Provision of Reliable Service
- Provision of Accessible Service
- Provision of Cost-Effective Service
- Meets Future Needs
- Operational Benefit
- Business Unit Benefit
- Risk of No-Action

4. Subject Projects to Fiscal Constraints/Develop Cash Flow

RTD's Finance Division subjects the remaining project list to a cash flow analysis. Since cash flow will vary from year-to-year depending on availability of federal funds, grants, outstanding capital and operating commitments, and debt, available project funds may vary considerably by year. Typically, additional cuts or project adjustments must be made to satisfy the cash flow requirements. Lower rated projects are deleted while others may be reduced in scope or deferred in order for them to be carried forward into the final ~~SBP~~MTFP.

5. Title VI Review

After the cash flow analysis has been completed, the project list is then reviewed by RTD's ~~Disadvantaged Business Enterprise (DBE) officer~~Manager of Transit Equity. The ~~DBE officer~~manager evaluates the project list for environmental justice considerations. The primary focus is to ensure projects are distributed in a manner that provides benefit to all segments of the RTD district population, including low-income and minority neighborhoods.

6. Board Review and Adoption

Following final review by RTD's senior staff, financial review and ~~DBE~~Title VI review, the complete ~~SBP~~MTFP is presented first to the RTD Finance Committee for review and then to ~~RTD's Local Governments group.~~ ~~Following completion of the Local Governments group review, the SBP is presented to the full RTD Board for review and adoption.~~

B. CDOT PROCESS

1. Basic Underlying Premises

Projects that are currently funded in the TIP ~~and/or CDOT's 10-year Plan~~, along with ones that are part of a NEPA decision document commitment, will have a top priority ~~for funding and will continue to be funded~~.

CDOT ~~Region 1 and 4~~ will provide documentation to DRCOG, as requested, describing the factors considered, assumptions used, and underlying rationale for projects selected for inclusion for the TIP document ~~(adoption or amendment)~~. This documentation will be submitted to DRCOG when projects are submitted for inclusion in the TIP.

2. Detail by Funding Program

REGIONAL PRIORITY PROGRAM—CDOT uses a qualitative assessment to determine RPP funding priorities. The assessment is based on several factors, including but not limited to the priorities discussed at the county hearings, availability of funding, project readiness (design, environmental and right of way clearances), pertinent Transportation Commission policies, ~~coordination with the CDOT 10-year plan~~, and geographic equity. CDOT Regions have a need for a small, unprogrammed pool of RPP funds to address unplanned needs that require relatively small funding investments. Therefore, CDOT also may choose to reserve a small pool of RPP funds to address these needs. For every RPP project selected, CDOT will also consider how well the project supports the ~~elements of Metro Vision~~ ~~adopted~~ MVRTP. The CDOT region will prepare documentation describing the factors used for RPP projects selected for inclusion in the TIP.

BRIDGE—The selection of projects eligible for bridge pool funding is performance-based. Other factors that affect bridge project selection include public safety, engineering judgment, and other funding sources available to repair/replace selected bridge, project readiness, and funding limits.

SAFETY—CDOT ~~TSM&O~~ Traffic & Safety Branch selects hazard elimination safety projects based on a variety of factors including cost/benefit ratios, recent public safety concerns, engineering judgment, and funding limits. The projects constitute the Colorado Integrated Safety Plan. The ~~TSM&O~~ Traffic & Safety Branch also selects projects for the Federal Rail-Highway Safety Improvement Program. This grant program covers at least 90% of the costs of signing and pavement markings, active warning devices, illumination, crossing surfaces, grade separations (new and reconstruction), sight distance improvements, geometric improvements to the roadway approaches, and closing and/or consolidating crossings. Projects are selected based on accident history, traffic counts and engineering judgment.

CDOT Regions are also provided safety funds for hot spot and traffic signal programs.

SURFACE TREATMENT— The selection of projects for surface treatment funding is based on a performance management system known as the Drivability Life. CDOT regions work to select project locations and appropriate treatments as identified by the statewide system. Projects considered for selection will be based upon management system recommendations, traffic volumes, severe pavement conditions, preventative maintenance that delays or eliminates further major investments in the near future, public safety, and funding limitations/~~efficiencies~~.

FASTER BRIDGE PROJECTS—This program is comprised of bridge replacement projects for bridges statewide that are considered to be structurally deficient and have a sufficiency rating below 50. Factors that affect bridge project selection include public safety, engineering judgment, project readiness, and funding limits. The

funding for this program comes from the fees generated through the FASTER legislation and is directed by the Bridge Enterprise.

FASTER SAFETY PROJECTS—The Transportation Commission adopted guidelines for the selection of FASTER Safety projects based on the FASTER legislation. The guiding principles for selection of these projects include a focus on safety, preservation of the system and optimizing system efficiency, and enhancing multi-modal and intermodal mobility. Projects selected must address a safety need.

FASTER TRANSIT PROJECTS—The FASTER legislation required a portion of the state and local FASTER revenues totaling \$15 million/year be set aside for transit projects. The Transportation Commission adopted guidelines for the selection of projects using ~~the~~ \$5 million/-year designated for local transit grants. The evaluation criteria are: criticality, financial capacity, financial need, project impacts, and readiness. Project calls and recommendations are conducted by the Division of Transit and Rail (DTR). DRCOG and the CDOT regions may jointly review and recommend ~~these~~ eligible projects as part of DTR's calls for projects process.

TRANSIT PROGRAM—CDOT administers Federal Transit Administration (FTA grants awards) through ~~its Division of Transit and Rail~~ DTR. ~~The program is expansive in what it can support.~~ There are multiple programs covering a variety of eligible project types and subrecipients in both rural and small-urbanized areas. RTD and DRCOG administer their respective FTA funds in the large-urbanized areas.

AMERICANS WITH DISABILITIES ACT (ADA) COMPLIANCE—CDOT is pursuing an aggressive strategy of upgrading curb ramps through regular program delivery as well as committing dedicated funding toward curb ramp upgrading to achieve ADA compliance.

BRIDGE OFF-SYSTEM (BRO)—CDOT administers the Bridge Off-System local agency bridge program. This program provides bridge inspection and inventory services to cities and counties, as well as, grants for bridge replacement or bridge rehabilitation projects. CDOT maintains a select list of local agency bridges to determine eligibility for bridge replacement and major rehabilitation grants. The grants are authorized by the Special Highway Committee.

INTELLIGENT TRANSPORTATION SYSTEMS (ITS)—CDOT uses advanced technology and information systems to manage and maintain safe and free-flowing state highways and to inform motorists in Colorado about traffic and roadway conditions. Travel information is provided to the public by a variety of methods including:

- The COTrip.org website and app displaying Closed Circuit Television (CCTV) images, speed maps and travel times, weather conditions, construction information, alerts (including Amber Alerts), and more
- 511 Interactive Voice Response (IVR) system providing up-to-date road and weather conditions, construction, special events, travel times, and transfers to bordering states and other transportation providers
- Automated email and text messages using GovDelivery as third-party provider
- CDOT App: official CDOT endorsed Smartphone application developed through a public-private partnership
- Variable Message Signs (VMS) providing travel messages including: closures, alternative routes, road condition information, special events, and real-time trip travel time information

PERMANENT WATER QUALITY FACILITIES (PWQF)—CDOT's Permanent Water Quality Facilities Program is both federally and state mandated as part of CDOT's Municipal Separate Storm Sewer System (MS4) permit, which requires CDOT to control pollutants from entering the storm sewer system and state waterways. As part of the MS4 permit CDOT must implement the New Development and Redevelopment (NDRD) program that requires CDOT install PWQF Best Management Practices (BMPs) to treat CDOT's MS4 area. The PWQF program is funded by reductions in Surface Treatment, which contributes 75% of the funding and the Regional Priorities Program, which contributes 25%.

TRANSPORTATION ALTERNATIVES (TA)—~~The TA program was established under Section 1122 of MAP-21 and continued as a set-aside under Section 1109 of the FAST Act.~~ The TA program set-aside provides funding for bicycle, pedestrian, historic, scenic, and environmental mitigation transportation projects. The program replaces the funding from pre-MAP-21 programs including Transportation Enhancements, Scenic Byways, Safe Routes to School, and Recreational Trails by wrapping some elements of those programs into a single funding source. CDOT receive 50% of the funding allocated to the state, with the remaining split among the MPO's.

REGION DESIGN PROGRAM (RDP)—Funds from the Transportation Commission Contingency Reserve Fund were used to establish this new program. This pool of preconstruction funds will allow achievement of selected significant preconstruction milestones in order to advance future projects.

SAFE ROUTES TO SCHOOL (SRTS)— Since 2005, Congress has passed several transportation bills that have impacted SRTS. Currently the program does not have dedicated federal funding, but it's eligible for federal funding from other programs. Additionally, in 2015, CDOT's Transportation Commission resolved to commit \$2.5 million annually for the program (\$2 million to infrastructure projects that are within 2 miles of a school and \$0.5 million for non-infrastructure projects). This program enables and encourages children to walk and bicycle to school. Eligible applicants include any political subdivision of the state (school district, city, county, state entity). Nonprofits may also apply by partnering with a state subdivision as the administrator. Funds are awarded through a statewide competitive process for projects impacting students in K-8 grades. Projects are selected by a 9-member appointed panel consisting of bicyclists, pedestrians, educators, parents, law enforcement, MPO, and TPR representatives.

NATIONAL HIGHWAY FREIGHT PROGRAM (NHFP)— Projects submitted for consideration must be related to commercial vehicle safety, mobility, or truck parking. A multi-objective decision analysis tool with peer review will evaluate all submitted projects. Input related the direct impact of freight movement provided by Colorado Freight Advisory Council is also considered. Other considerations include project readiness, additional funding sources, and programmatic balance.

APPENDIX B

Eligible Projects by Funding Source

The funding categories established by [the FAST Act](#) [federal transportation legislation](#) and the types of projects eligible for funding within each category, provided they are consistent with the RTP, are summarized below.

1. Congestion Mitigation/Air Quality (CMAQ)

All CMAQ projects must have a transportation focus and reduce congestion and improve air quality. The following are example projects, methods, strategies, and transportation system management actions that are eligible:

- Those likely to contribute to the attainment of a national ambient air quality standard
- Those described in section 108(f) of the Clean Air Act (except clauses (xii) and (xvi))
- Those included in an approved State Implementation Plan for air quality
- Traffic signal coordination
- Intelligent transportation systems
- Vehicle to infrastructure communication equipment
- Arranged ridesharing
- Trip reduction programs
- Travel demand management
- Vehicle inspection and maintenance programs
- Variable work hours programs
- Bicycle and pedestrian travel projects
- Rapid and bus transit improvements (new/expanded/capital service)
- HOV/HOT lanes
- Traffic flow improvements
- Extreme low-temperature cold start programs
- Alternative fuels infrastructure and vehicles
- Diesel engine retrofits
- Truck stop electrification
- Idle reduction projects
- Intermodal freight facilities that reduce truck VMT or overall pollutant emissions (examples include: transportation-focused rolling stock, ground infrastructure, rail, etc.)
- Studies as necessary to plan and implement the above

Detailed guidance is available at: <https://www.fhwa.dot.gov/fastact/factsheets/cmaqfs.pdf>

2. Surface Transportation Block Grant (STBG) Program

The following types of projects are eligible:

- Construction/reconstruction, rehabilitation, resurfacing, restoration, preservation, and operational improvements of the existing system (located on the DRCOG Regional Roadway System; roadway classification of principal arterial and higher)
- Capital costs for transit projects
- Vehicle to infrastructure communication equipment
- Carpool projects
- Fringe and corridor parking facilities and program
- Highway and transit safety infrastructure improvements and programs
- Highway and transit research programs
- Capital and operating costs for traffic monitoring, management, and control
- Transportation alternatives activities
- Transportation control measures listed in the Clean Air Act

- Wetland mitigation associated with project construction
- Transportation system management actions
- Studies as necessary to plan and implement the above

Detailed guidance is available at: <https://www.fhwa.dot.gov/fastact/factsheets/stbgfs.pdf>

3. Transportation Alternatives (TA)

The following types of projects are eligible:

- Construction, planning, and design of on-road and off-road trail facilities and related infrastructure
- Conversion and use of abandoned railroad corridors for trails
- Turnouts, overlooks, and viewing areas
- Community improvement activities (outdoor advertising, historic transportation facilities, vegetation management practices, archaeological activities)
- Environmental mitigation activity (stormwater management, vehicle-caused wildlife mortality)
- Recreational trails program
- Safe routes to school program

Detailed guidance is available at: <https://www.fhwa.dot.gov/fastact/factsheets/surfrtransfundaltfs.pdf>

4. Carbon Reduction Program (CRP).

Details to be provided at a future date.

4.5. SB-1 State Multimodal Transportation and Mitigation Options Funds (MMOF)

The following types of projects are eligible:

- Capital or operating costs for fixed route and on-demand transit
- Transportation Demand Management programs
- Multimodal mobility projects enabled by new technology
- Multimodal transportation studies
- Modeling tools
- GHG mitigation projects that decrease VMT or increase multimodal travel
- Bicycle or pedestrian projects

APPENDIX C

Eligible 2050 MVRTP Projects

The following projects from the currently-adopted DRCOG 2050 MVRTP are eligible to be submitted ~~in the 2024-2027 TIP~~. If a project is listed as “Preconstruction Activities Only” it is not eligible to submit for construction, but all other phases are eligible. Note that this table only includes the major projects listed in the 2050 MVRTP, other projects may be eligible as long as they are not regionally significant in regard to air quality. Projects or project segments already funded with DRCOG funds in previous TIPs have been removed.

County	Project Name/ Corridor	Project Location/Limits	Project Description	Project Cost (000s)
DRCOG-funded Multimodal Capital Projects (Project must be listed to be eligible for TIP funding)				
All Project Phases Eligible				
Adams	88 th Ave.	I-76 northbound ramps to SH-2	Widen from 2 to 4 lanes	\$21,500
Adams	104 th Ave.	Colorado Blvd. to McKay Rd.	Widen from 2 to 4 lanes	\$8,100
Adams	120 th Ave.	US-85 to E-470	Widen to 4 lanes	\$24,000
Adams	SH-7	164 th Ave. to Dahlia St.	Widen from 2 to 4 lanes	\$24,000
Arapahoe	Gun Club Rd.	Quincy to Aurora Pkwy.	Widen from 2 to 6 lanes	\$15,000
Arapahoe	I-225/Yosemite	DTC Blvd. to I-25 on-ramp	Interchange and ramp reconstruction	\$60,000
Broomfield	US-287/120 th Ave.	Midway Blvd. to Lowell Blvd.	Improve circulation, safety, active transportation access, business access, congestion and transit operations	\$15,000
Denver	I-25	Broadway	Interchange capacity	\$50,000
Douglas	I-25	Lincoln Ave.	Interchange capacity	\$49,400
Douglas	I-25	Happy Canyon Rd.	Interchange reconstruction	\$30,000
Douglas	I-25	Crystal Valley Pkwy.	New interchange and south frontage road	\$80,000
Jefferson	US-6	Heritage Rd.	New interchange	\$30,000
Preconstruction Activities Only				
Arapahoe	Gun Club Rd.	SH-30 to 6 th Ave.	Widen from 2 to 4/6 lanes, includes stream crossing upgrade at Coal Creek	\$32,000
Arapahoe	SH-30	Airport Blvd. to Quincy Ave.	Widen from 2 to 6 lanes	\$175,000
Boulder	SH-66	US-287/Main St. to E. County Line Rd. (WCR-1)	Capacity, operations and bicycle/pedestrian	\$15,000
Denver	Peña Blvd.	I-70 to 64 th Ave.	Add 1 managed lane in each direction	\$139,000
Denver	Peña Blvd.	64 th Ave. to E-470	Add 1 managed lane in each direction	\$124,000
Douglas	Lincoln Ave.	Oswego to Keystone	Widen 4 to 6 lanes	\$24,000
Jefferson	Indiana (SH-72)	W. 80 th Ave. to W. 86 th Pkwy.	Widen to 4 lanes	\$39,000

County	Project Name/ Corridor	Project Location/Limits	Project Description	Project Cost (000s)
Jefferson	SH-93	SH-58 to SH-170	Widen to 4 lanes and safety/transit improvements	\$200,000
CDOT-funded Multimodal Capital Projects (Project must be listed to be eligible for TIP inclusion)				
All Project Phases Eligible				
Adams	US-85	120 th Ave.	New interchange	\$100,000
Adams	US-85	104 th Ave.	New interchange	\$100,000
Denver	I-25	Santa Fe Dr. (US-85) to Alameda Ave.	Interchange capacity	\$30,000
Jefferson	US-6	Wadsworth Blvd.	Interchange capacity	\$80,000
Jefferson	US-285	Shaffers Crossing to Kings Valley Dr.	Widen from 3 to 4 lanes (add 1 southbound lane)	\$60,000
Jefferson	US-285	Kings Valley Dr.	New interchange	\$15,000
Jefferson	US-285	Kings Valley Dr. to Richmond Hill Rd.	Widen from 3 to 4 lanes (add 1 southbound lane)	\$25,000
Weld	I-25 North (Segment 5)	SH-66 to WCR-38 (DRCOG boundary)	Add 1 toll/managed lane each direction	\$175,000
Preconstruction Activities Only				
Adams	I-270	I-25/US-36 to I-70	New managed lanes	\$500,000
Adams	I-270	I-25/US-36 and I-70	New freeway "direct connects" at each end of I-270	\$300,000
Arapahoe	I-25	Bellevue	Interchange reconstruction and pedestrian connections	\$112,000
Arapahoe/ Douglas	SH-83 (Parker Rd.)	SH-86 to E. Mississippi Ave.	Corridor planning/investment for multimodal mobility, operations and safety	\$150,000
Boulder	SH-66	Lyons to Main St. (US-287)	Widen from 2 to 4 lanes (Hover St. to Main St.) and operational/safety improvements from Lyons to Longmont in alignment with PEL	\$10,000
Broomfield	I-25 North	E-470 to SH-7	Managed lanes, SH-7 interchange reconstruction and SH-7 mobility hub	\$200,000
Broomfield /Weld	I-25 North (Segment 4)	SH-7 to SH-66	Managed lanes, SH-119 mobility hub (Firestone-Longmont Mobility Hub), ITS, bicycle and pedestrian trail connections	\$150,000
Jefferson	C-470	Wadsworth to I-70	New managed lanes	\$410,000
Jefferson	C-470	US-285/Morrison/Quincy	Interchange complex reconstruction	\$150,000
Jefferson	US-285	Pine Valley Rd. (County Rd. 126)/Mt. Evans Blvd.	New interchange	\$40,000
Jefferson	US-285	Parker Ave.	New interchange	\$25,000

County	Project Name/ Corridor	Project Location/Limits	Project Description	Project Cost (000s)
Regional Bus Rapid Transit Projects				
(Project must be listed to be eligible for TIP funding)				
All Project Phases Eligible				
Adams/ Arapahoe/ Denver	Colfax Ave. BRT	Osage to I-225	Bus rapid transit service (dedicated lanes) and supporting safety/multimodal improvements	\$250,000
Denver	Colorado Blvd. BRT	RTD University of Colorado A Line to I-25	Bus rapid transit service and supporting safety/multimodal improvements	\$35,000
TBD	New bus maintenance facility	TBD (RTD northern area)	Construction of a new bus maintenance facility in RTD's northern service area	\$50,000
Preconstruction Activities Only				
Adams/ Denver	Federal Blvd. BRT	120 th to Santa Fe/Dartmouth	Bus rapid transit service and supporting safety/multimodal improvements	\$94,000
Arapahoe/ Denver	Speer/ Leetsdale/ Parker BRT	Colfax to I-225	Bus rapid transit service and supporting safety/multimodal improvements	\$95,000
Arapahoe/ Denver/ Jefferson	Alameda BRT	Wadsworth to RTD R Line	Bus rapid transit service and supporting safety/multimodal improvements	\$61,000
Boulder	SH-119 BRT	Downtown Boulder to downtown Longmont	Bus rapid transit service and supporting safety/multimodal corridor improvements	\$250,000
Boulder/ Weld	SH-119 BRT Extension	Downtown Longmont to I-25/SH-119 mobility hub	Bus rapid transit service and supporting safety/multimodal improvements	\$100,000
Corridor Transit Planning Projects				
(Other projects are eligible for TIP funding as long as they're not regionally significant for air quality)				
All Project Phases Eligible				
Jefferson	Golden/Mines autonomous circulator	Downtown Golden, School of Mines, RTD W Line	Autonomous circulator	\$3,500
Preconstruction Activities Only				
Adams/ Boulder/ Broomfield	SH-7	Boulder to Brighton	Multimodal corridor improvements	\$100,000
Boulder/ Broomfield	US-287	US-36 to Larimer County Line	Safety, operational and multimodal improvements	\$200,000
Douglas	Castle Pines transit mobility corridor	Castle Pines to RidgeGate RTD Station	Transit corridor	\$20,000
Arterial safety/Regional Vision Zero Projects				
(Other projects are eligible for TIP funding as long as they're not regionally significant for air quality)				
All Project Phases Eligible				

County	Project Name/ Corridor	Project Location/Limits	Project Description	Project Cost (000s)
Adams	Federal Blvd. multimodal improvements	52 nd Ave. to 120 th Ave.	Bicycle/pedestrian/transit improvements; turn lanes; bus/business access lanes	\$50,000
Arapahoe/ Denver	US-285 congestion mitigation improvements	Knox Ct./Lowell Blvd. (west) to Havana (east)	Speed and reliability corridor and Vision Zero improvements	\$88,200
Boulder	US-36	Boulder to Lyons	Corridor safety improvements	\$20,000
Boulder	US-36/28 th St. and SH-93/ Broadway	US-36/28 th St. and SH-93/Broadway	Corridor safety improvements	\$15,200
Denver	Chambers Rd.	E. 56 th Ave. to E. 40 th Ave.	Vision Zero corridor improvements	\$16,713
Denver	W. Mississippi Ave.	S. Federal Blvd. to S. Broadway	Vision Zero and pedestrian improvements	\$18,600
Denver/ Jefferson	Sheridan safety improvements	52 nd to Hampden	Vision Zero corridor improvements	\$17,100
Jefferson	Colfax safety improvements	Wadsworth to Sheridan	Multimodal arterial safety	\$12,000
Weld	US-85 operational and safety improvements	WCR-2 to WCR-10	Safety and operational improvements	\$6,100
Preconstruction Activities Only				
Boulder	SH-42	Louisville and Lafayette	Safety and operational improvements	\$50,000
Boulder	US-36/28 th St. and SH-93/ Broadway	US-36/28 th St. and SH-93/Broadway	Corridor safety improvements	\$15,200
Active Transportation Projects (Other projects are eligible for TIP funding as long as they're not regionally significant for air quality)				
All Project Phases Eligible				
Adams	Smith Rd. bicycle/ pedestrian facilities	Peoria St. to Powhaton Rd.	New shared-use path	\$4,000
Boulder	McCaslin Regional Trail	Rock Creek Pkwy. to SH-128	Regional trail	\$3,000
Boulder	RTD Rail Trail	Boulder to Erie	Regional trail	\$6,000
Boulder	St. Vrain Greenway	Longmont to Lyons	Regional trail	\$4,000
Preconstruction Activities Only				
Denver	S. Platte River Trail	(not specified)	Complete missing links and upgrade trail section	\$50,000
Freight Projects (Other projects are eligible for TIP funding as long as they're not regionally significant for air quality)				
All Project Phases Eligible				
Adams	Peoria St. Bridge	Sand Creek	Bridge reconstruction	\$19,000

County	Project Name/ Corridor	Project Location/Limits	Project Description	Project Cost (000s)
Arapahoe	Alameda Pkwy. Bridge over I- 225	Between Potomac St. and Abilene St.	Bridge reconstruction	\$20,000
Jefferson	Ward Rd./BNSF	I-70 frontage road north and Ridge Rd.	Multimodal grade separation	\$60,000

APPENDIX D

TIP~~Regional Share~~ Applications

Applications to be placed in Appendix D once policy is approved

Transportation Improvement Program (TIP) Regional Share Project Application Form – AQ/MM Covering Federal Fiscal Years XXXX-XXXX

APPLICATION OVERVIEW

The **Air Quality & Multimodal (AQ/MM) Regional Share Call for Projects** will open on XXXX, with applications due no later than 3 p.m. on XXXX. Submit applications online at [Dropbox link](#).

- To be eligible to submit an application, at least one person from your agency must have attended one of the two mandatory TIP training workshops (add dates here; anticipated for February 2022).
- If required, CDOT and/or RTD concurrence must be provided with the application submittal. The CDOT/RTD concurrence request is due to CDOT/RTD no later than XXXX, with CDOT/RTD providing a response no later than XXXX.
- Each Subregional Forum may submit up to three applications from eligible project sponsors. Both CDOT and RTD may submit up to two applications.
- Data to help the sponsor fill out the application, can be found [here \(to be updated\)](#).
- Requests for additional data or calculations from DRCOG staff should be submitted to tcottrell@drcog.org no later than XXXX.
- The application must be affirmed by either the applicant's City or County Manager, Chief Elected Official (Mayor or County Commission Chair) for local governments, or agency director or equivalent for other applicants.
- Submittal instructions:
 1. Submit a **single** PDF document containing 1) this application form, 2) the CDOT-supplied cost estimate form ([located here](#)), 3) one location map or graphic, 4) any required documentation (i.e., FHWA calculators) 5) CDOT/RTD concurrence response (if applicable), and 6) project support letters. Please **DO NOT** attach additional cover pages, embed graphics in the application, or otherwise change the format of the application form.
 2. OPTIONAL: Submit **one additional** PDF document containing any supplemental materials, if applicable.
- Further details on project eligibility, evaluation criteria, and the selection process are defined in the *Policies for TIP Program Development*, which can be found online [here \(to be updated\)](#).

EVALUATION PROCESS

DRCOG staff will review submitted applications for eligibility and provide an initial score to a Project Review Panel. The panel will review and rank eligible applications that request funding. Sponsors may be invited to make presentations to the Project Review Panel to assist in the final recommendation to the TAC, RTC, and DRCOG Board.

APPLICATION FORMAT

The AQ/MM Regional Share application contains two parts: *project information* and *evaluation questions*.

Project Information

Applicants enter **foundational** information for the *project/program/study* (hereafter referred to as *project*), including a problem statement, project description, and concurrence documentation from CDOT and/or RTD, if applicable. This section is not scored.

Evaluation Questions

This part includes four sections (A-D) for the **applicant to provide qualitative and quantitative responses** to use for scoring projects. The checkboxes and data entry fields should guide the applicant's responses. They are not directly scored but provide context as reviewers consider the full response to each question. Applicants may access an online mapping tool [here](#) to assist them in gathering data for several of the quantitative fields. Datasets are also available for download from DRCOG's website [here](#).

Scoring Methodology: Each section will be scored on a scale of 0 to 5, relative to other applications received. All questions will be factored into the final score, with any questions left blank receiving 0 points. The four sections are weighted and scored as follows:

Section A. Regional Impact of Proposed Projects 30%

Projects will be evaluated on the degree to which they address a significant regional problem or benefit people throughout the Denver region. Relevant quantitative data should be included within narrative responses.

5	The project benefits will substantially address a major regional problem and benefit people and businesses in multiple subregions.
4	The project benefits will significantly address a major regional problem primarily benefiting people and businesses in one subregion.
3	The project benefits will either moderately address a major regional problem or significantly address a moderate -level regional problem.
2	The project benefits will moderately address a moderate -level regional problem.
1	The project benefits will address a minor regional problem.
0	The project does not address a regional problem.

Section B. Metro Vision Regional Transportation Plan Priorities50%

The TIP's investments should implement the 2050 Metro Vision Regional Transportation Plan (2050 MVRTP) regional project and program investment priorities, which contribute to addressing the Board-adopted Metro Vision objectives and the federal performance-based planning framework required by the Federal Highway Administration and Federal Transit Administration as outlined in current federal transportation legislation and regulations. Therefore, projects will be evaluated on the degree to which they address the six priorities identified in the 2050 MVRTP: safety, active transportation, air quality, multimodal mobility, freight, and regional transit. It is anticipated that projects may not be able to address all six priorities, but it's in the applicant's interest to address as many priority areas as possible. Relevant quantitative data should be included within narrative responses. The table below demonstrates how each priority area will be scored.

5	The project provides demonstrable substantial benefits in the 2050 MVRTP priority area and is determined to be in the top fifth of applications based on the magnitude of benefits in that priority area.
4	The project provides demonstrable significant benefits in the 2050 MVRTP priority area.
3	The project provides demonstrable moderate benefits in the 2050 MVRTP priority area and is determined to be in the middle fifth of applications based on the magnitude of benefits in that priority area.
2	The project provides demonstrable modest benefits in the 2050 MVRTP priority area.
1	The project provides demonstrable slight benefits in the 2050 MVRTP priority area and is determined to be in the bottom fifth of applications based on the magnitude of benefits in that priority area.
0	The project does not provide demonstrable benefits in the 2050 MVRTP priority area.

Section C. Project Leveraging (“overmatch”) 10%

Scores are assigned based on the percent of other funding sources (non-Regional Share funds).

Score	% non-Regional Share funds
5	60% and above
4	50-59.9%
3	40-49.9%
2	20-39.9%
1	10.1-19.9%
0	10%

Section D. Project Readiness 10%

Be sure to answer ALL questions. While “Yes” answers will generally reflect greater readiness, opportunities are given to provide additional details to assist reviewers in fully evaluating the readiness of your project.

5	Substantial readiness is demonstrated and all known obstacles that are likely to result in project delays have been mitigated.
4	Significant readiness is demonstrated and several known obstacles that are likely to result in project delays have been mitigated.
3	Moderate readiness is demonstrated and some known obstacles that are likely to result in project delays have been mitigated.
2	Slight readiness is demonstrated and some known obstacles that are likely to result in project delays have been mitigated.
1	Few mitigation or readiness activities have been demonstrated.
0	No mitigation or readiness activities have been demonstrated.

Project Information

1. Project Title			
2. Project Location <i>Provide a map, as appropriate (see Page 1)</i>		Start point: End point: OR Geographic Area:	
3. Project Sponsor <i>(entity that will be financially responsible for the project)</i>			
4. Project Contact Person:			
Name		Title	
Phone		Email	
5. Required CDOT and/or RTD Concurrence: Does this project touch CDOT Right-of-Way, involve a CDOT roadway, access RTD property, or request RTD involvement to operate service?		<input type="checkbox"/> Yes <input type="checkbox"/> No <i>If yes, provide applicable concurrence documentation</i>	
6. What planning document(s) identifies this project?	<input type="checkbox"/> DRCOG 2050 Metro Vision Regional Transportation Plan (2050 MVRTP) Provide MVRTP staging period, if applicable capital project:		
	<input type="checkbox"/> Local/Regional plan:	Planning Document Title: Adopting agency (local agency Council, CDOT, RTD, etc.): Provide date of adoption by council/board/commission, if applicable:	
	Please describe public review/engagement to date:		
	Other pertinent details:		
	<i>Provide link to document/s and referenced page number if possible, or provide documentation in the supplement</i>		
7. Identify the project's key phases and the anticipated schedule of phase milestones. (phases and dates should correspond with the Funding Breakdown table below)			
Phases to be included:	Major phase milestones:	Anticipated completion date (based on xxx approval date): (MM/YYYY)	
<u>FOR ALL PHASES</u>	Intergovernmental Agreement (IGA) executed (with CDOT/ RTD; assumed process is 4-9 months)		
<input type="checkbox"/> Design	Design contract Notice to Proceed (NTP) issued (if using a consultant):		
	Design scoping meeting held with CDOT (if no consultant):		
<input type="checkbox"/> Environmental	Environmental contract Notice to Proceed (NTP) issued (if using a consultant):		
	Design scoping meeting held with CDOT (if no consultant):		
<input type="checkbox"/> Right-of-Way	Initial set of ROW plans submitted to CDOT:		

	ROW acquisition completed: Estimated number of parcels to acquire:	
<input type="checkbox"/> Construction	FIR (Field Inspection Review):	
	FOR (Final Office Review):	
	Required clearances:	
	Project publicly advertised:	
<input type="checkbox"/> Study	Kick-off meeting held after consultant NTP (or internal if no consultant):	
<input type="checkbox"/> Bus Service	Service begins:	
<input type="checkbox"/> Equipment Purchase (Procurement)	RFP/RFQ/RFB (bids) issued:	
<input type="checkbox"/> Other:	First invoice submitted to CDOT/RTD:	

8. **Problem Statement:** What specific regional problem/issue will the transportation project address?

9. Identify the project's **key elements**. A single project may have multiple project elements.

|--|---|

¹For any project with transit elements, the sponsor must coordinate with RTD to ensure RTD agrees to the scope and cost. Be sure to include RTD's concurrence in your application submittal.

10. Define the **scope** and **specific elements** of the project (including any elements checked in #9 above). *Note that the merits and benefits of the project are addressed later. Please keep the response to this question tailored to details of the scope only and no more than five sentences.*

11. What is the current status of the proposed scope as defined in Question 10 above? *Note that overall project readiness is addressed in more detail in Section D below.*

12. Would a smaller DRCOG-allocation than requested be acceptable, while maintaining the original intent of the project?

☐ Yes ☐ No

*If yes, smaller meaningful limits, size, service level, phases, or scopes, along with the cost, **MUST** be defined.*

Smaller DRCOG funding request:

Outline the differences between the scope outlined above and the reduced scope:

Project Financial Information and Funding Request (all funding amounts in \$1,000s)

Total Project Cost		\$
Total amount of Regional Share Funding Request <i>(No greater than \$20 million and not to exceed 90% of the total project cost)</i> <input type="checkbox"/> Check box if requesting only state MMOF funds (requires minimum 50% local funds) ¹	\$	% of total project cost

Notes:	<ol style="list-style-type: none"> 1. Program years are October 1 through September 30 (e.g., FY 2024 is October 1, 2023 through September 30, 2024). The proposed funding plan is not guaranteed if the project is selected for funding. While DRCOG will do everything it can to accommodate the applicants' request, final funding will be assigned at DRCOG's discretion within fiscal constraint. Funding amounts must be provided in year of expenditure dollars using an 3% inflation factor. 2. Only enter funding in this line if CDOT and/or RTD specifically give permission via concurrence letters or other written source. 			

Evaluation Questions

A. Regional Impact of Proposed Project

WEIGHT

30%

Provide **qualitative and quantitative** responses to the following questions on the regional impact of the proposed project. Be sure to provide all required information for each question. Quantitative data from DRCOG is available [here](#).

1. Why is this project regionally important? Relevant quantitative data in your response is required.
2. How will the proposed project address the specific transportation problem described in the **Problem Statement** (as submitted in Project Information, #8)? Relevant quantitative data in your response is required.
3. Does the proposed project benefit multiple municipalities and/or subregions? If yes, which ones and how? Also describe any funding partnerships (other subregions, regional agencies, municipalities, private, etc.) established in association with this project.
4. Describe how the project will improve access and mobility for each of the applicable disproportionately impacted and environmental justice population groups identified in the table below. Completing the below table and referencing relevant quantitative data in your response is required.

	Disproportionately Impacted and EJ Population Groups	Population within ½ mile
Use 2015-2019 American Community Survey Data	a. Individuals of color	0
	b. Low-Income households	0
	c. Individuals with limited English proficiency	0
	d. Adults age 65 and over	0
	e. Children age 5-17	0
	f. Individuals with a disability	0
	g. Households without a motor vehicle	0
	h. Households that are housing cost-burdened	0

For Lines a. – g. use definitions in the [DRCOG Title VI Implementation Plan](#). For Line h., as defined in C.R.S. 24-38.5-302(3)(b)(I): “‘cost-burdened’ means a household that spends more than thirty percent of its income on housing.”

Describe, including the required quantitative analysis:

5. How will this project move the region toward achieving the shared [regional transportation outcomes](#) established in [Metro Vision](#)?

6. Describe how the project will improve access to and/or connectivity between DRCOG-defined urban centers, multimodal corridors, mixed-use areas, Transit Oriented Development (transit near high-density development), or locally defined priority growth areas.

- Is there a DRCOG designated urban center within ½ mile of the project limits?
☐ Yes ☐ No If yes, please provide the name:
- Does the project connect two or more urban centers?
☐ Yes ☐ No If yes, please provide the names:
- Is there a transit stop or station within ½ mile of the project limits?
☐ Yes ☐ No
- Is the project in a locally-defined priority growth and development area?
☐ Yes ☐ No
 If yes, provide a link to the relevant planning document:
 If yes, provide how the area is defined in the relevant planning document:
- Is the project in an area with zoning that supports compact, mixed-use development patterns and a variety of housing options?
☐ Yes ☐ No If yes, please provide the zoning district designation(s):

Provide households and employment data	2020	2050
Households within ½ mile	0	0
Jobs within ½ mile	0	0
Household density (per acre) within ½ mile	0	0
Job density (per acre) within ½ mile	0	0

Describe, including the required quantitative analysis:

7. Describe how this project will improve **access** and **connections** to key employment centers or regional destinations, including health services; commerce, educational, cultural, and recreational opportunities; or other important community resources. In your answer, define the key destination(s) and clearly explain how the project improves **access** and/or **connectivity**.

B. MVRTP Priorities

WEIGHT

50%

- **Qualitative and quantitative** responses are **REQUIRED** for the following items on how the proposed project contributes to the project and program investment priorities in the adopted 2050 Metro Vision Regional Transportation Plan. To be considered for full points, you must fully answer all parts of the question, including incorporating quantitative data into your answer. (see scoring section for details)
- Checkboxes and data tables help to provide context and guide responses, but do not account for the full range of potential improvements and are not directly scored, but are required to be completed.
- Not all proposed projects will necessarily be able to answer all questions, however it is in the applicant's interest to address as many priority areas as possible.

Safety

Increase the safety for all users of the transportation system.

(drawn from [2050 MVRTP priorities](#), [Taking Action on Regional Vision Zero](#), [CDOT Strategic Transportation Safety Plan](#), & [federal safety performance measures](#))

Examples of Project Elements: bike/pedestrian crossing improvements, vehicle crash countermeasures, traffic calming, etc.

How does this project implement safety improvements (roadway, active transportation facility, etc.), particularly improvements in line with the recommendations in [Taking Action on Regional Vision Zero](#)?

- Does this project address a location on the [High-Injury Network or Critical Corridors](#)?
☐ Yes ☐ No
- Does this project implement a safety countermeasure listed in the [countermeasure glossary](#)?
☐ Yes ☐ No

Provide the current number of crashes involving motor vehicles, bicyclists, and pedestrians
(using the 2015-2019 period)

Fatal crashes	0
Serious Injury crashes	0
Other Injury crashes	0
Property Damage Only crashes	0

Sponsor must use industry accepted crash reduction factors (CRF) or accident modification factor (AMF) practices (e.g., *NCHRP Project 17-25*, *NCHRP Report 617*, or *DiExSys methodology*).

Estimated reduction in crashes applicable to the project scope
(per the five-year period used above)

Fatal crashes reduced	0
Serious Injury crashes reduced	0
Other Injury crashes reduced	0
Property Damage Only crashes reduced	0

Provide the methodology below:

Describe, include quantitative information, including any items referenced above, in your response:

Active

Transportation

Expand and enhance active transportation travel options.

(drawn from [2050 MVRTP priorities](#); [Denver Regional Active Transportation Plan](#); & [Metro Vision objectives 10 & 13](#))

Examples of Project Elements: shared use paths, sidewalks, regional trails, grade separations, etc.

How does this project help expand the active transportation network, close gaps, improve comfort, and/or improve connections to key destinations, particularly improvements in line with the recommendations in the [Denver Regional Active Transportation Plan](#)?

- Does this project close a gap or extend a facility on a [Regional Active Transportation Corridor](#)?
☐ Yes ☐ No
- Does this project improve pedestrian accessibility and connectivity in a [pedestrian focus area](#)?
☐ Yes ☐ No
- Does this project improve active transportation choices in a [short trip opportunity zone](#)?
☐ Yes ☐ No
- Does this project include a high-comfort bikeway (like a sidepath, shared-use path, separated bike lane, bicycle boulevard)?
☐ Yes ☐ No If yes, please describe:

Bicycle Use		
1. Current Weekday Bicyclists:	0	
Bicycle Use Calculations	Year of Opening	2050 Weekday Estimate
2. Enter estimated additional weekday one-way bicycle trips on the facility after project is completed.	0	0
3. Enter number of the bicycle trips (in #2 above) that will be diverting from a different bicycling route. (Example: {#2 X 50%} or other percent, if justified on line 10 below)	0	0
4. = Initial number of new bicycle trips from project (#2 – #3)	0	0
5. Enter number of the new trips produced (from #5 above) that are replacing an SOV trip. (Example: {#4 X 30%} or other percent, if justified on line 10 below)	0	0
6. = Number of SOV trips reduced per day (#4 - #5)	0	0
7. Enter the value of {#6 x 2 miles} . (= the VMT reduced per day) (Values other than 2 miles must be justified by sponsor on line 10 below)	0	0
8. = Number of pounds GHG emissions reduced (#7 x 0.95 lbs.)	0	0
9. If values would be distinctly greater for weekends, describe the magnitude of difference:		
10. If different values other than the suggested are used, please explain here:		
Pedestrian Use		
1. Current Weekday Pedestrians (including users of non-pedaled devices such as scooters and wheelchairs):	0	
Pedestrian Use Calculations	Year of Opening	2050 Weekday Estimate
2. Enter estimated additional weekday pedestrian one-way trips on the facility after project is completed	0	0
3. Enter number of the new pedestrian trips (in #2 above) that will be diverting from a different walking route (Example: {#2 X 50%} or other percent, if justified on line 10 below)	0	0
4. = Number of new trips from project (#2 – #3)	0	0
5. Enter number of the new trips produced (from #5 above) that are replacing an SOV trip. (Example: {#4 X 30%} or other percent, if justified on line 10 below)	0	0
6. = Number of SOV trips reduced per day (#4 - #5)	0	0
7. Enter the value of {#6 x .4 miles} . (= the VMT reduced per day) (Values other than .4 miles must be justified by sponsor on line 10 below)	0	0
8. = Number of pounds GHG emissions reduced (#7 x 0.95 lbs.)	0	0
9. If values would be distinctly greater for weekends, describe the magnitude of difference:		
10. If different values other than the suggested are used, please explain here:		
Describe, include quantitative information, including any items referenced above, in your response:		

Air Quality	Improve air quality and reduce greenhouse gas emissions. (drawn from 2050 MVRTP priorities ; state greenhouse gas rulemaking; federal congestion & emissions reduction performance measures ; Metro Vision objectives 2, 3, & 6a) Examples of Project Elements: active transportation, transit, or TDM elements; vehicle operational improvements; electric vehicle supportive infrastructure; etc.										
<p>How does this project help reduce congestion and air pollutants, including but not limited to, carbon monoxide, ground-level ozone precursors, particulate matter, and greenhouse gas emissions?</p> <ul style="list-style-type: none"> Does this project reduce congestion? <input type="checkbox"/> Yes <input type="checkbox"/> No Does this project reduce vehicle miles traveled (VMT)? <input type="checkbox"/> Yes <input type="checkbox"/> No Does this project reduce single-occupant vehicle (SOV) travel? <input type="checkbox"/> Yes <input type="checkbox"/> No <table border="1" data-bbox="110 598 1523 667"> <thead> <tr> <th>Emissions Reduced (kg/day)</th> <th>CO</th> <th>NOx</th> <th>VOC</th> <th>PM 10</th> </tr> </thead> <tbody> <tr> <td></td> <td>0</td> <td>0</td> <td>0</td> <td>0</td> </tr> </tbody> </table> <p>Use FHWA CMAQ Calculators to determine emissions reduced. Please attach a screenshot of the calculator showing the inputs and outputs as part of your submittal packet. Note: for project types not covered by the FHWA Calculators, such as education and outreach, please note your methodology in your narrative below.</p>		Emissions Reduced (kg/day)	CO	NOx	VOC	PM 10		0	0	0	0
Emissions Reduced (kg/day)	CO	NOx	VOC	PM 10							
	0	0	0	0							
<p>Describe, include quantitative information, including any items referenced above, in your response:</p>											
Multimodal Mobility	Provide improved travel options for all modes. (drawn from 2050 MVRTP priorities ; federal travel time reliability, infrastructure condition, & transit asset management performance measures ; & Metro Vision objective 4) Examples of Project Elements: combinations of improvements that support options for a broad range of users, such as complete streets improvements, or a bicycle/pedestrian access to transit, etc.										
<p>How does this project help increase mobility choices for people, goods, and/or services?</p> <ul style="list-style-type: none"> What modes will project improvements directly address? <input type="checkbox"/> Walking <input type="checkbox"/> Bicycling <input type="checkbox"/> Transit <input type="checkbox"/> Roadway Operations <input type="checkbox"/> Other: List the elements of this project which will address the above modes (i.e., sidewalk, shared use path, bus stop improvements, signal interconnection, etc.): Will the completed project be a complete street as described in the Regional Complete Streets Toolkit? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, describe how it implements the Toolkit's strategies in your response. Does this project improve travel time reliability? <input type="checkbox"/> Yes <input type="checkbox"/> No Does this project improve asset management of active transportation facilities and/or transit vehicle fleets? <input type="checkbox"/> Yes <input type="checkbox"/> No Does this project implement resilient infrastructure that helps the region mitigate natural and/or human-made hazards? <input type="checkbox"/> Yes <input type="checkbox"/> No <p>Describe, include quantitative information, including any items referenced above, in your response:</p>											

Freight	Maintain efficient movement of goods within and beyond the region. (drawn from 2050 MVRTP priorities ; Regional Multimodal Freight Plan ; Colorado Freight Plan , federal freight reliability performance measure ; Metro Vision objective 14) Examples of Project Elements: roadway operational improvements, etc.
<p>How does this project improve the efficient movement of goods, specifically improvements identified in the Regional Multimodal Freight Plan?</p> <ul style="list-style-type: none"> Is this project located in a Freight Focus Area? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, please provide the name: Is the project located on the Tier 1 or Tier 2 Regional Highway Freight Vision Network? <input type="checkbox"/> Yes <input type="checkbox"/> No If this project is located in a Freight Focus Area does it address the relevant Needs and Issues identified in the Plan (see text located within each Focus Area)? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, please describe in your response. Check any items from the Inventory of Current Needs which this project will address: <input type="checkbox"/> Truck Crash Location <input type="checkbox"/> Rail Crossing Safety <input type="checkbox"/> Truck Delay <input type="checkbox"/> Truck Reliability Please provide the location(s) being addressed: Does this project include any innovative or non-traditional freight supportive elements (i.e., curb management strategies, cargo bike supportive infrastructure, etc.)? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, please describe: <p>Describe, include quantitative information, including any items referenced above, in your response:</p>	
Regional Transit	Expand and improve the region's transit network. (drawn from 2050 MVRTP priorities , Coordinated Transit Plan , RTD's Regional Bus Rapid Transit Feasibility Study) Examples of Project Elements: transit lanes, station improvements, new/expanded service, etc. <u>Note:</u> For any project with transit elements, the sponsor must coordinate with RTD to ensure RTD agrees to the scope and cost. Be sure to include RTD's concurrence in your application submittal.
<p>How does this project improve connections to or expand the region's transit system, as outlined in the 2050 Metro Vision Regional Transportation Plan?</p> <ul style="list-style-type: none"> Does this project implement a portion of the regional bus rapid transit (BRT) network? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, which specific corridor will this project focus on? Does this project involve a regional transit planning corridor? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, which specific corridor will this project focus on? Does this project implement a mobility hub as defined in the 2050 MVRTP? <input type="checkbox"/> Yes <input type="checkbox"/> No Does this project improve connections between transit and other modes? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, please describe in your response. Is this project adding new or expanded transit service? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, who will operate the service? Does this project add and/or improve transit service to or within a DRCOG-defined urban center? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, provide the name of the urban center: <p>Describe, include quantitative information, including any items referenced above, in your response:</p>	

C. Project Leveraging		WEIGHT	10%
What percent of outside funding sources (non-Regional Share funding) does this project have?	%	60%+ outside funding sources 5 pts 50-59.9% 4 pts 40-49.9% 3 pts 20-39.9% 2 pts 10.1-19.9% 1 pt 10%..... 0 pts	
D. Project Readiness		WEIGHT	10%
<i>Provide responses to the following items to demonstrate the readiness of the project. DRCOG is prioritizing those projects that have a higher likelihood to move forward in a timely manner and are less likely to experience a delay.</i>			
Section 1. Avoiding Pitfalls and Roadblocks			
<p>a. Has a licensed engineer (CDOT, consultant, local agency, etc.) reviewed the impact the proposed project will have on utilities, railroads, ROW, historic and environmental resources, etc. and have those impacts and pitfalls been mitigated as much as possible within the project submittal?</p> <p><input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A (for projects which do not require engineering services)</p> <p>If yes, please type in the engineer's name below which certifies their review and that impacts have been evaluated and mitigated as much as possible before your application is submitted:</p> <p>Please describe the anticipated specific pitfalls/roadblocks and the mitigation activities taken to date:</p>			
<p>b. Is this application for a single project phase only (i.e., design, environmental, ROW acquisition, construction only, study, bus service, equipment purchase, etc.)?</p> <p><input type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If yes, are the other prerequisite phases complete? <input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A</p> <p>If this project is for construction, please note the NEPA status:</p>			
<p>c. Has all required ROW been identified? <input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A</p> <p>Has all required ROW already been acquired and cleared by CDOT? <input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A</p>			
<p>d. Based on the current status provided in Project Information, question 11, do you foresee any reason why your IGA will not be executed by Oct 1 of your first year of funding, so you can begin your project on time?</p> <p><input type="checkbox"/> Yes <input type="checkbox"/> No</p>			
<p>e. Have other stakeholders in your project been identified and involved in project development?</p> <p><input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A</p> <p>If yes, who are the stakeholders?</p>			
<p>Please provide any additional details on any of the items in Section 1, if applicable.</p>			

Section 2. Local Match

- a. Is all the local match identified in your application currently available, and if a partnering agency is also committing match, do you have a commitment letter?

☐ Yes ☐ No

Please describe:

- b. Is all funding for this project currently identified in the sponsor agency's Capital Improvement Plan (CIP)?

☐ Yes ☐ No

Please describe:

Section 3. Public Support

- a. Has the proposed project previously been through a public review process (public comment period, public hearing, etc.)?

☐ Yes ☐ No

- b. Has the public had access to translated project materials in relevant languages for the local community?

☐ Yes ☐ No

Please describe:

- c. Have any adjacent property owners to the proposed project been contacted and provided with the initial project concept?

☐ Yes ☐ No ☐ N/A

Please provide any additional details on the items in Section 3, if applicable.

Transportation Improvement Program (TIP) Regional Share Project Application Form – STBG Covering Federal Fiscal Years XXXX-XXXX

APPLICATION OVERVIEW

The **Surface Transportation Block Grant (STBG) Regional Share Call for Projects** will open on XXXX, with applications due no later than 3 p.m. on XXXX. Submit applications online at [Dropbox link](#).

- To be eligible to submit an application, at least one person from your agency must have attended one of the two mandatory TIP training workshops (add dates here; anticipated for February 2022).
- If required, CDOT and/or RTD concurrence must be provided with the application submittal. The CDOT/RTD concurrence request is due to CDOT/RTD no later than XXXX, with CDOT/RTD providing a response no later than XXXX.
- Each Subregional Forum may submit up to three applications from eligible project sponsors. Both CDOT and RTD may submit up to two applications.
- Data to help the sponsor fill out the application, can be found [here \(to be updated\)](#).
- Requests for additional data or calculations from DRCOG staff should be submitted to tcottrell@drcog.org no later than XXXX.
- The application must be affirmed by either the applicant's City or County Manager, Chief Elected Official (Mayor or County Commission Chair) for local governments, or agency director or equivalent for other applicants.
- Submittal instructions:
 1. Submit a **single** PDF document containing 1) this application form, 2) the CDOT-supplied cost estimate form ([located here](#)), 3) one location map or graphic, 4) any required documentation (i.e., FHWA calculators) 5) CDOT/RTD concurrence response (if applicable), and 6) project support letters. Please **DO NOT** attach additional cover pages, embed graphics in the application, or otherwise change the format of the application form.
 2. OPTIONAL: Submit **one additional** PDF document containing any supplemental materials, if applicable.
- Further details on project eligibility, evaluation criteria, and the selection process are defined in the *Policies for TIP Program Development*, which can be found online [here \(to be updated\)](#).

EVALUATION PROCESS

DRCOG staff will review submitted applications for eligibility and provide an initial score to a Project Review Panel. The panel will review and rank eligible applications that request funding. Sponsors may be invited to make presentations to the Project Review Panel to assist in the final recommendation to the TAC, RTC, and DRCOG Board.

APPLICATION FORMAT

The STBG Regional Share application contains two parts: *project information* and *evaluation questions*.

Project Information

Applicants enter **foundational** information for the *project/program/study* (hereafter referred to as *project*), including a problem statement, project description, and concurrence documentation from CDOT and/or RTD, if applicable. This section is not scored.

Evaluation Questions

This part includes four sections (A-D) for the **applicant to provide qualitative and quantitative responses** to use for scoring projects. The checkboxes and data entry fields should guide the applicant's responses. They are not directly scored but provide context as reviewers consider the full response to each question. Applicants may access an online mapping tool [here](#) to assist them in gathering data for several of the quantitative fields. Datasets are also available for download from DRCOG's website [here](#).

Scoring Methodology: Each section will be scored on a scale of 0 to 5, relative to other applications received. All questions will be factored into the final score, with any questions left blank receiving 0 points. The four sections are weighted and scored as follows:

Section A. Regional Impact of Proposed Projects 30%

Projects will be evaluated on the degree to which they address a significant regional problem or benefit people throughout the Denver region. Relevant quantitative data should be included within narrative responses.

5	The project benefits will substantially address a major regional problem and benefit people and businesses in multiple subregions.
4	The project benefits will significantly address a major regional problem primarily benefiting people and businesses in one subregion.
3	The project benefits will either moderately address a major regional problem or significantly address a moderate -level regional problem.
2	The project benefits will moderately address a moderate -level regional problem.
1	The project benefits will address a minor regional problem.
0	The project does not address a regional problem.

Section B. Metro Vision Regional Transportation Plan Priorities50%

The TIP's investments should implement the 2050 Metro Vision Regional Transportation Plan (2050 MVRTP) regional project and program investment priorities, which contribute to addressing the Board-adopted Metro Vision objectives and the federal performance-based planning framework required by the Federal Highway Administration and Federal Transit Administration as outlined in current federal transportation legislation and regulations. Therefore, projects will be evaluated on the degree to which they address the six priorities identified in the 2050 MVRTP: safety, active transportation, air quality, multimodal mobility, freight, and regional transit. It is anticipated that projects may not be able to address all six priorities, but it's in the applicant's interest to address as many priority areas as possible. Relevant quantitative data should be included within narrative responses. The table below demonstrates how each priority area will be scored.

5	The project provides demonstrable substantial benefits in the 2050 MVRTP priority area and is determined to be in the top fifth of applications based on the magnitude of benefits in that priority area.
4	The project provides demonstrable significant benefits in the 2050 MVRTP priority area.
3	The project provides demonstrable moderate benefits in the 2050 MVRTP priority area and is determined to be in the middle fifth of applications based on the magnitude of benefits in that priority area.
2	The project provides demonstrable modest benefits in the 2050 MVRTP priority area.
1	The project provides demonstrable slight benefits in the 2050 MVRTP priority area and is determined to be in the bottom fifth of applications based on the magnitude of benefits in that priority area.

0	The project does not provide demonstrable benefits in the 2050 MVRTP priority area.
----------	---

Section C. Project Leveraging (“overmatch”) 10%

Scores are assigned based on the percent of other funding sources (non-Regional Share funds).

Score	% non-Regional Share funds
5	60% and above
4	50-59.9%
3	40-49.9%
2	30-39.9%
1	20.1-29.9%
0	20%

Section D. Project Readiness 10%

Be sure to answer ALL questions. While “Yes” answers will generally reflect greater readiness, opportunities are given to provide additional details to assist reviewers in fully evaluating the readiness of your project.

5	Substantial readiness is demonstrated and all known obstacles that are likely to result in project delays have been mitigated.
4	Significant readiness is demonstrated and several known obstacles that are likely to result in project delays have been mitigated.
3	Moderate readiness is demonstrated and some known obstacles that are likely to result in project delays have been mitigated.
2	Slight readiness is demonstrated and some known obstacles that are likely to result in project delays have been mitigated.
1	Few mitigation or readiness activities have been demonstrated.
0	No mitigation or readiness activities have been demonstrated.

Project Information

1. Project Title			
2. Project Location <i>Provide a map, as appropriate (see Page 1)</i>		Start point: End point: OR Geographic Area:	
3. Project Sponsor <i>(entity that will be financially responsible for the project)</i>			
4. Project Contact Person:			
Name		Title	
Phone		Email	
5. Required CDOT and/or RTD Concurrence: Does this project touch CDOT Right-of-Way, involve a CDOT roadway, access RTD property, or request RTD involvement to operate service?		<input type="checkbox"/> Yes <input type="checkbox"/> No <i>If yes, provide applicable concurrence documentation</i>	
6. What planning document(s) identifies this project?	<input type="checkbox"/> DRCOG 2050 Metro Vision Regional Transportation Plan (2050 MVRTP) Provide MVRTP staging period, if applicable capital project:		
	<input type="checkbox"/> Local/Regional plan:	Planning Document Title: Adopting agency (local agency Council, CDOT, RTD, etc.): Provide date of adoption by council/board/commission, if applicable:	
	Please describe public review/engagement to date:		
	Other pertinent details:		
	<i>Provide link to document/s and referenced page number if possible, or provide documentation in the supplement</i>		
7. Identify the project's key phases and the anticipated schedule of phase milestones. (phases and dates should correspond with the Funding Breakdown table below)			
Phases to be included:	Major phase milestones:	Anticipated completion date (based on xxx approval date): (MM/YYYY)	
<u>FOR ALL PHASES</u>	Intergovernmental Agreement (IGA) executed (with CDOT/ RTD; assumed process is 4-9 months)		
<input type="checkbox"/> Design	Design contract Notice to Proceed (NTP) issued (if using a consultant):		
	Design scoping meeting held with CDOT (if no consultant):		
<input type="checkbox"/> Environmental	Environmental contract Notice to Proceed (NTP) issued (if using a consultant):		
	Design scoping meeting held with CDOT (if no consultant):		
<input type="checkbox"/> Right-of-Way	Initial set of ROW plans submitted to CDOT:		

	ROW acquisition completed: Estimated number of parcels to acquire:	
<input type="checkbox"/> Construction	FIR (Field Inspection Review):	
	FOR (Final Office Review):	
	Required clearances:	
	Project publicly advertised:	
<input type="checkbox"/> Study	Kick-off meeting held after consultant NTP (or internal if no consultant):	
<input type="checkbox"/> Bus Service	Service begins:	
<input type="checkbox"/> Equipment Purchase (Procurement)	RFP/RFQ/RFB (bids) issued:	
<input type="checkbox"/> Other:	First invoice submitted to CDOT/RTD:	

8. **Problem Statement:** What specific regional problem/issue will the transportation project address?

9. Identify the project's **key elements**. A single project may have multiple project elements.

|---|--|

¹For any project with transit elements, the sponsor must coordinate with RTD to ensure RTD agrees to the scope and cost. Be sure to include RTD's concurrence in your application submittal.

10. Define the **scope** and **specific elements** of the project (including any elements checked in #9 above). *Note that the merits and benefits of the project are addressed later. Please keep the response to this question tailored to details of the scope only and no more than five sentences.*

11. What is the current status of the proposed scope as defined in Question 10 above? *Note that overall project readiness is addressed in more detail in Section D below.*

12. Would a smaller DRCOG-allocation than requested be acceptable, while maintaining the original intent of the project?

☐ Yes ☐ No

*If yes, smaller meaningful limits, size, service level, phases, or scopes, along with the cost, **MUST** be defined.*

Smaller DRCOG funding request:

Outline the differences between the scope outlined above and the reduced scope:

Project Financial Information and Funding Request (all funding amounts in \$1,000s)

Total Project Cost		\$
Total amount of Regional Share Funding Request (No greater than \$20 million and not to exceed 80% of the total project cost)	\$	% of total project cost

Phase to be Initiated Choose from Design, ENV, ROW, CON, Study, Service, Equip. Purchase, Other	Choose an item	Choose an item	Choose an item	Choose an item	
Notes:	<ol style="list-style-type: none"> 1. Program years are October 1 through September 30 (e.g., FY 2024 is October 1, 2023 through September 30, 2024). The proposed funding plan is not guaranteed if the project is selected for funding. While DRCOG will do everything it can to accommodate the applicants' request, final funding will be assigned at DRCOG's discretion within fiscal constraint. Funding amounts must be provided in year of expenditure dollars using an 3% inflation factor. 2. Only enter funding in this line if CDOT and/or RTD specifically give permission via concurrence letters or other written source. 				

Evaluation Questions

A. Regional Impact of Proposed Project

WEIGHT

30%

Provide **qualitative and quantitative** responses to the following questions on the regional impact of the proposed project. Be sure to provide all required information for each question. Quantitative data from DRCOG is available [here](#).

1. Why is this project regionally important? Relevant quantitative data in your response is required.
2. How will the proposed project address the specific transportation problem described in the **Problem Statement** (as submitted in Project Information, #8)? Relevant quantitative data in your response is required.
3. Does the proposed project benefit multiple municipalities and/or subregions? If yes, which ones and how? Also describe any funding partnerships (other subregions, regional agencies, municipalities, private, etc.) established in association with this project.
4. Describe how the project will improve access and mobility for each of the applicable disproportionately impacted and environmental justice population groups identified in the table below. Completing the below table and referencing relevant quantitative data in your response is required.

Use 2015-2019 American Community Survey Data	Disproportionately Impacted and EJ Population Groups	Population within ½ mile
	a. Individuals of color	0
	b. Low-Income households	0
	c. Individuals with limited English proficiency	0
	d. Adults age 65 and over	0
	e. Children age 5-17	0
	f. Individuals with a disability	0
	g. Households without a motor vehicle	0
	h. Households that are housing cost-burdened	0

For Lines a. – g. use definitions in the [DRCOG Title VI Implementation Plan](#). For Line h., as defined in C.R.S. 24-38.5-302(3)(b)(I): “‘cost-burdened’ means a household that spends more than thirty percent of its income on housing.”

Describe, including the required quantitative analysis:

5. How will this project move the region toward achieving the shared [regional transportation outcomes](#) established in [Metro Vision](#)?

6. Describe how the project will improve access to and/or connectivity between DRCOG-defined urban centers, multimodal corridors, mixed-use areas, Transit Oriented Development (transit near high-density development), or locally defined priority growth areas.

- Is there a DRCOG designated urban center within ½ mile of the project limits?
☐ Yes ☐ No If yes, please provide the name:
- Does the project connect two or more urban centers?
☐ Yes ☐ No If yes, please provide the names:
- Is there a transit stop or station within ½ mile of the project limits?
☐ Yes ☐ No
- Is the project in a locally-defined priority growth and development area?
☐ Yes ☐ No
 If yes, provide a link to the relevant planning document:
 If yes, provide how the area is defined in the relevant planning document:
- Is the project in an area with zoning that supports compact, mixed-use development patterns and a variety of housing options?
☐ Yes ☐ No If yes, please provide the zoning district designation(s):

Provide households and employment data	2020	2050
Households within ½ mile	0	0
Jobs within ½ mile	0	0
Household density (per acre) within ½ mile	0	0
Job density (per acre) within ½ mile	0	0

Describe, including the required quantitative analysis:

7. Describe how this project will improve **access** and **connections** to key employment centers or regional destinations, including health services; commerce, educational, cultural, and recreational opportunities; or other important community resources. In your answer, define the key destination(s) and clearly explain how the project improves **access** and/or **connectivity**.

B. MVRTP Priorities

WEIGHT

50%

- **Qualitative and quantitative** responses are **REQUIRED** for the following items on how the proposed project contributes to the project and program investment priorities in the adopted 2050 Metro Vision Regional Transportation Plan. To be considered for full points, you must fully answer all parts of the question, including incorporating quantitative data into your answer. (see scoring section for details)
- Checkboxes and data tables help to provide context and guide responses, but do not account for the full range of potential improvements and are not directly scored, but are required to be completed.
- Not all proposed projects will necessarily be able to answer all questions, however it is in the applicant's interest to address as many priority areas as possible.

Safety

Increase the safety for all users of the transportation system.

(drawn from [2050 MVRTP priorities](#), [Taking Action on Regional Vision Zero](#), [CDOT Strategic Transportation Safety Plan](#), & [federal safety performance measures](#))

Examples of Project Elements: bike/pedestrian crossing improvements, vehicle crash countermeasures, traffic calming, etc.

How does this project implement safety improvements (roadway, active transportation facility, etc.), particularly improvements in line with the recommendations in [Taking Action on Regional Vision Zero](#)?

- Does this project address a location on the [High-Injury Network or Critical Corridors](#)?
☐ Yes ☐ No
- Does this project implement a safety countermeasure listed in the [countermeasure glossary](#)?
☐ Yes ☐ No

Provide the current number of crashes involving motor vehicles, bicyclists, and pedestrians
(using the 2015-2019 period)

Fatal crashes	0
Serious Injury crashes	0
Other Injury crashes	0
Property Damage Only crashes	0

Sponsor must use industry accepted crash reduction factors (CRF) or accident modification factor (AMF) practices (e.g., *NCHRP Project 17-25*, *NCHRP Report 617*, or *DiExSys methodology*).

Estimated reduction in crashes applicable to the project scope
(per the five-year period used above)

Fatal crashes reduced	0
Serious Injury crashes reduced	0
Other Injury crashes reduced	0
Property Damage Only crashes reduced	0

Provide the methodology below:

Describe, include quantitative information, including any items referenced above, in your response:

Active

Transportation

Expand and enhance active transportation travel options.

(drawn from [2050 MVRTP priorities](#); [Denver Regional Active Transportation Plan](#); & [Metro Vision objectives 10 & 13](#))

Examples of Project Elements: shared use paths, sidewalks, regional trails, grade separations, etc.

How does this project help expand the active transportation network, close gaps, improve comfort, and/or improve connections to key destinations, particularly improvements in line with the recommendations in the [Denver Regional Active Transportation Plan](#)?

- Does this project close a gap or extend a facility on a [Regional Active Transportation Corridor](#)?
☐ Yes ☐ No
- Does this project improve pedestrian accessibility and connectivity in a [pedestrian focus area](#)?
☐ Yes ☐ No
- Does this project improve active transportation choices in a [short trip opportunity zone](#)?
☐ Yes ☐ No
- Does this project include a high-comfort bikeway (like a sidepath, shared-use path, separated bike lane, bicycle boulevard)?
☐ Yes ☐ No If yes, please describe:

Bicycle Use		
1. Current Weekday Bicyclists:	0	
Bicycle Use Calculations	Year of Opening	2050 Weekday Estimate
2. Enter estimated additional weekday one-way bicycle trips on the facility after project is completed.	0	0
3. Enter number of the bicycle trips (in #2 above) that will be diverting from a different bicycling route. (Example: {#2 X 50%} or other percent, if justified on line 10 below)	0	0
4. = Initial number of new bicycle trips from project (#2 – #3)	0	0
5. Enter number of the new trips produced (from #5 above) that are replacing an SOV trip. (Example: {#4 X 30%} or other percent, if justified on line 10 below)	0	0
6. = Number of SOV trips reduced per day (#4 - #5)	0	0
7. Enter the value of {#6 x 2 miles} . (= the VMT reduced per day) (Values other than 2 miles must be justified by sponsor on line 10 below)	0	0
8. = Number of pounds GHG emissions reduced (#7 x 0.95 lbs.)	0	0
9. If values would be distinctly greater for weekends, describe the magnitude of difference:		
10. If different values other than the suggested are used, please explain here:		
Pedestrian Use		
1. Current Weekday Pedestrians (including users of non-pedaled devices such as scooters and wheelchairs):	0	
Pedestrian Use Calculations	Year of Opening	2050 Weekday Estimate
2. Enter estimated additional weekday pedestrian one-way trips on the facility after project is completed	0	0
3. Enter number of the new pedestrian trips (in #2 above) that will be diverting from a different walking route (Example: {#2 X 50%} or other percent, if justified on line 10 below)	0	0
4. = Number of new trips from project (#2 – #3)	0	0
5. Enter number of the new trips produced (from #5 above) that are replacing an SOV trip. (Example: {#4 X 30%} or other percent, if justified on line 10 below)	0	0
6. = Number of SOV trips reduced per day (#4 - #5)	0	0
7. Enter the value of {#6 x .4 miles} . (= the VMT reduced per day) (Values other than .4 miles must be justified by sponsor on line 10 below)	0	0
8. = Number of pounds GHG emissions reduced (#7 x 0.95 lbs.)	0	0
9. If values would be distinctly greater for weekends, describe the magnitude of difference:		
10. If different values other than the suggested are used, please explain here:		

Describe, include quantitative information, including any items referenced above, in your response:

Air Quality	Improve air quality and reduce greenhouse gas emissions. (drawn from 2050 MVRTP priorities ; state greenhouse gas rulemaking; federal congestion & emissions reduction performance measures ; Metro Vision objectives 2, 3, & 6a) Examples of Project Elements: active transportation, transit, or TDM elements; vehicle operational improvements; electric vehicle supportive infrastructure; etc.										
<p>How does this project help reduce congestion and air pollutants, including but not limited to, carbon monoxide, ground-level ozone precursors, particulate matter, and greenhouse gas emissions?</p> <ul style="list-style-type: none"> Does this project reduce congestion? <input type="checkbox"/> Yes <input type="checkbox"/> No Does this project reduce vehicle miles traveled (VMT)? <input type="checkbox"/> Yes <input type="checkbox"/> No Does this project reduce single-occupant vehicle (SOV) travel? <input type="checkbox"/> Yes <input type="checkbox"/> No <table border="1" data-bbox="110 598 1523 667"> <thead> <tr> <th>Emissions Reduced (kg/day)</th> <th>CO</th> <th>NOx</th> <th>VOC</th> <th>PM 10</th> </tr> </thead> <tbody> <tr> <td></td> <td>0</td> <td>0</td> <td>0</td> <td>0</td> </tr> </tbody> </table> <p>Use FHWA CMAQ Calculators to determine emissions reduced. Please attach a screenshot of the calculator showing the inputs and outputs as part of your submittal packet. Note: for project types not covered by the FHWA Calculators, such as education and outreach, please note your methodology in your narrative below.</p> <p>Describe, include quantitative information, including any items referenced above, in your response:</p>		Emissions Reduced (kg/day)	CO	NOx	VOC	PM 10		0	0	0	0
Emissions Reduced (kg/day)	CO	NOx	VOC	PM 10							
	0	0	0	0							
Multimodal Mobility	Provide improved travel options for all modes. (drawn from 2050 MVRTP priorities ; federal travel time reliability, infrastructure condition, & transit asset management performance measures ; & Metro Vision objective 4) Examples of Project Elements: combinations of improvements that support options for a broad range of users, such as complete streets improvements, or a roadway capacity project that incorporates transit and freight improvements, etc.										
<p>How does this project help increase mobility choices for people, goods, and/or services?</p> <ul style="list-style-type: none"> What modes will project improvements directly address? <input type="checkbox"/> Walking <input type="checkbox"/> Bicycling <input type="checkbox"/> Transit <input type="checkbox"/> SOV <input type="checkbox"/> Freight <input type="checkbox"/> Other: List the elements of this project which will address the above modes (i.e., sidewalk, shared use path, bus stop improvements, new general purpose or managed lanes, etc.): Will the completed project be a complete street as described in the Regional Complete Streets Toolkit? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, describe how it implements the Toolkit's strategies in your response. Does this project improve travel time reliability? <input type="checkbox"/> Yes <input type="checkbox"/> No Does this project improve asset management of roadway infrastructure, active transportation facilities, and/or transit facilities or vehicle fleets? <input type="checkbox"/> Yes <input type="checkbox"/> No Does this project implement resilient infrastructure that helps the region mitigate natural and/or human-made hazards? <input type="checkbox"/> Yes <input type="checkbox"/> No <p>Describe, include quantitative information, including any items referenced above, in your response:</p>											

Freight	Maintain efficient movement of goods within and beyond the region. (drawn from 2050 MVRTP priorities ; Regional Multimodal Freight Plan ; Colorado Freight Plan , federal freight reliability performance measure ; Metro Vision objective 14) Examples of Project Elements: bridge improvements, improved turning radii, increased roadway capacity, etc.
<p>How does this project improve the efficient movement of goods, specifically improvements identified in the Regional Multimodal Freight Plan?</p> <ul style="list-style-type: none"> Is this project located in a Freight Focus Area? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, please provide the name: Is the project located on the Tier 1 or Tier 2 Regional Highway Freight Vision Network? <input type="checkbox"/> Yes <input type="checkbox"/> No If this project is located in a Freight Focus Area does it address the relevant Needs and Issues identified in the Plan (see text located within each Focus Area)? <input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A If yes, please describe in your response. Check any items from the Inventory of Current Needs which this project will address: <input type="checkbox"/> Truck Crash Location <input type="checkbox"/> Rail Crossing Safety <input type="checkbox"/> Truck Delay <input type="checkbox"/> Truck Reliability <input type="checkbox"/> Highway Bottleneck <input type="checkbox"/> Low-Clearance or Weight-Restricted Bridge Please provide the location(s) being addressed: Does this project include any innovative or non-traditional freight supportive elements (i.e., curb management strategies, cargo bike supportive infrastructure, etc.)? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, please describe: <p>Describe, include quantitative information, including any items referenced above, in your response:</p>	
Regional Transit	Expand and improve the region's transit network. (drawn from 2050 MVRTP priorities , Coordinated Transit Plan , RTD's Regional Bus Rapid Transit Feasibility Study) Examples of Project Elements: transit lanes, station improvements, new/expanded service, etc. Note: For any project with transit elements, the sponsor must coordinate with RTD to ensure RTD agrees to the scope and cost. Be sure to include RTD's concurrence in your application submittal.
<p>How does this project improve connections to or expand the region's transit system, as outlined in the 2050 Metro Vision Regional Transportation Plan?</p> <ul style="list-style-type: none"> Does this project implement a portion of the regional bus rapid transit (BRT) network? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, which specific corridor will this project focus on? Does this project involve a regional transit planning corridor? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, which specific corridor will this project focus on? Does this project implement a mobility hub as defined in the 2050 MVRTP? <input type="checkbox"/> Yes <input type="checkbox"/> No Does this project improve connections between transit and other modes? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, please describe in your response. Is this project adding new or expanded transit service? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, who will operate the service? Does this project add and/or improve transit service to or within a DRCOG-defined urban center? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, provide the name of the urban center: <p>Describe, include quantitative information, including any items referenced above, in your response:</p>	

C. Project Leveraging		WEIGHT	10%
What percent of outside funding sources (non-Regional Share funding) does this project have?	%	60%+ outside funding sources 5 pts 50-59.9% 4 pts 40-49.9% 3 pts 30-39.9% 2 pts 20.1-29.9% 1 pt 20%..... 0 pts	
D. Project Readiness		WEIGHT	10%
<i>Provide responses to the following items to demonstrate the readiness of the project. DRCOG is prioritizing those projects that have a higher likelihood to move forward in a timely manner and are less likely to experience a delay.</i>			
Section 1. Avoiding Pitfalls and Roadblocks			
<p>a. Has a licensed engineer (CDOT, consultant, local agency, etc.) reviewed the impact the proposed project will have on utilities, railroads, ROW, historic and environmental resources, etc. and have those impacts and pitfalls been mitigated as much as possible within the project submittal?</p> <p><input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A (for projects which do not require engineering services)</p> <p>If yes, please type in the engineer's name below which certifies their review and that impacts have been evaluated and mitigated as much as possible before your application is submitted:</p> <p>Please describe the anticipated specific pitfalls/roadblocks and the mitigation activities taken to date:</p>			
<p>b. Is this application for a single project phase only (i.e., design, environmental, ROW acquisition, construction only, study, bus service, equipment purchase, etc.)?</p> <p><input type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If yes, are the other prerequisite phases complete? <input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A</p> <p>If this project is for construction, please note the NEPA status:</p>			
<p>c. Has all required ROW been identified? <input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A</p> <p>Has all required ROW already been acquired and cleared by CDOT? <input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A</p>			
<p>d. Based on the current status provided in Project Information, question 11, do you foresee any reason why your IGA will not be executed by Oct 1 of your first year of funding, so you can begin your project on time?</p> <p><input type="checkbox"/> Yes <input type="checkbox"/> No</p>			
<p>e. Have other stakeholders in your project been identified and involved in project development?</p> <p><input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A</p> <p>If yes, who are the stakeholders?</p>			
<p>Please provide any additional details on any of the items in Section 1, if applicable.</p>			

Section 2. Local Match

- a. Is all the local match identified in your application currently available, and if a partnering agency is also committing match, do you have a commitment letter?

☐ Yes ☐ No

Please describe:

- b. Is all funding for this project currently identified in the sponsor agency's Capital Improvement Plan (CIP)?

☐ Yes ☐ No

Please describe:

Section 3. Public Support

- a. Has the proposed project previously been through a public review process (public comment period, public hearing, etc.)?

☐ Yes ☐ No

- b. Has the public had access to translated project materials in relevant languages for the local community?

☐ Yes ☐ No

Please describe:

- c. Have any adjacent property owners to the proposed project been contacted and provided with the initial project concept?

☐ Yes ☐ No ☐ N/A

Please provide any additional details on the items in Section 3, if applicable.

ATTACH F

To: Chair and Members of the Board of Directors

From: Douglas W. Rex, Executive Director
(303) 480-6701 or drex@drcog.org

Meeting Date	Agenda Category	Agenda Item #
December 15, 2021	Informational Item	12

SUBJECT

December administrative modifications to the *2022-2025 Transportation Improvement Program*.

PROPOSED ACTION/RECOMMENDATIONS

No action requested. This item is for information.

ACTION BY OTHERS

SUMMARY

Per the DRCOG Board-adopted [2020-2023 TIP Policy](#), administrative modifications to the [2022-2025 TIP](#) are reviewed and processed by staff. Administrative modifications represent revisions to TIP projects that do not require formal action by the DRCOG Board.

After the Board is informed of the administrative modifications, the TIP adjustments are processed and posted on the [DRCOG 2022-2025 TIP web page](#). Then they are emailed to the TIP Notification List, which includes members of the Transportation Advisory Committee, the Regional Transportation Committee, TIP project sponsors, staff of various federal and state agencies, and other interested parties.

The December 2021 administrative modifications are listed and described in the attachment. Highlighted items in the attachment depict project revisions.

2022-2025 Transportation Improvement Program

New Project: Remove the I-70 Escape Ramp project from the CDOT Region 1 Misc/Design Pool (see previous amendment), create a new project, and add \$500,000 in federal Freight funding

New Project

Title: **I-70 Escape Ramp**

Project Type: **Safety**

TIP-ID: **Request**

STIP-ID:

Open to Public:

Sponsor: **CDOT Region 1**

Project Scope

Design an emergency runaway truck ramp to improve motor vehicle safety for eastbound I-70 between Floyd Hill and Denver West. This segment of I-70 is comprised of steep, mountainous terrain with winding curves and varying shoulder widths between MP 256.71 and 264.32.

SUBJECT

Advanced Mobility Partnership (AMP) annual update

PROPOSED ACTION/RECOMMENDATIONS

N/A

ACTION BY OTHERS

N/A

SUMMARY

The Advanced Mobility Partnership (AMP) was established in late 2019.¹ This partnership was formalized to support the implementation of the Mobility Choice Blueprint.² Staff from the partner agencies at DRCOG, CDOT, RTD and the Denver Metro Chamber of Commerce have been working alongside stakeholders to begin work on priority tactical actions.³

For information on AMP work over the past year, including an update from the latest collaboration between AMP partner agency staff and the Harvard Kennedy School to conduct a three-part mobility data workshop series, please see the attached deck.

ADVANCED
MOBILITY
PARTNERSHIP

AMP Annual Update

COLORADO
Department of Transportation

Purpose of AMP

AMP was established for **partner agencies** and **stakeholders** to **coordinate, collaborate** and **advance transportation technology** in the Denver region in support of the **Mobility Choice Blueprint** (2019).

Supportive of the AMP, there are two groups to support this mission:

- Executive Committee
- Working Group

Mobility Choice Blueprint

1

Collaborative

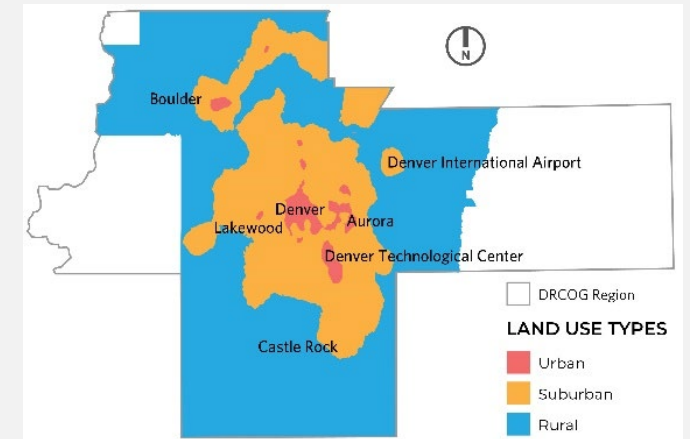

2

Integrated

3

Regional

Regional Collaboration

System Optimization

Shared Mobility

Data Security and Sharing

Mobility Electrification

Driverless Vehicle Preparation

New Transportation Funding

Shared Mobility

- Develop a universal mobility app for trip planning and payment.
- Implement curbside management standards.
- Pilot neighborhood-scale mobility hubs.

System Operations

- Implement transit priority on all major bus corridors.
- Implement smart traffic signal control technology on all major regional arterial corridors.
- Pilot integrated corridor management on ten arterial corridors.
- Coordinate traffic management center systems and operations.

Data and Data Sharing

- Establish a regional mobility data platform.
- Establish data sharing requirements for private sector roadway users.

Mobility data collaboration

Can help us understand how our programs, projects and services relate to **shared goals/outcomes** like:

- Safety
- Equity
- Sustainability
- Access

Can inform and help us collaboratively address some of our **shared challenges** like:

- Data access/availability
- Privacy
- Analysis
- Decision-making

Release Discovery Docs for Data and Data Sharing

In Spring 2021, staff released three data and data sharing **discovery reports** in support of regional transportation and mobility related data and data sharing:

1. Discovery Report
2. Case Study Report
3. Stakeholder Survey Report

Available on the **AMP website**
www.advancedmobilitypartnership.org

Data and Data Sharing Workshop Series

AMP Workshop Series

October – November 2021

HARVARD Kennedy School

Build on previous work by stakeholders in this area

Leverage stakeholder knowledge to better understand challenges

Create consensus around the impact of addressing these challenges

Challenges and Use Cases

Understand how people move throughout the region

- Volumes, travel times, delays, O/D
- Trip behavior and mode choice

Ensure safe mobility and situational awareness

- Crash data improvements
- Real-time operations information

Preparation for new modes

- Partnerships, standards and systems for integration
- Measuring benefits/costs of pilots and new modes

Other items:

- Working Group continues to serve as a **monthly forum for coordination, briefings and discussion** on transportation technology-related efforts in and around the Denver region and has covered topics like:
 - CDOT Statewide Electrification Efforts
 - Xcel Energy Transportation Electrification Plan
 - CDOT Transit Emissions Dashboard
 - RTD AIM Grant
 - Connected Colorado
 - CSU Mobility and Energy Project
 - Transit Priority at RTD
 - CDOT Open GIS
 - RTD Mobility Hub Guidelines
 - City of Aspen Smart Zone Pilot
 - Colorado CarShare
 - CSU Drone Center
