1	The AAA first session was great. The session was attended by members that knew some or more about AAA so the presentation evolved into a great discussion and learning experience. The second Trans session was also great and it to became a discussion that enhanced the conversation.	8/30/2018 10:26 AM
2	Regrettably, I missed them. Did not arrive in time.	8/28/2018 3:52 PM
3	I've been to these in the past so didn't attend them this year	8/28/2018 3:24 PM

The Friday evening events were beneficial. (DRCOG year in review, Chair's opening remarks, Social time, networking with other Directors and staff.)

2	The social time worked better than last year. As usual, too many people too little time but flowed well.	8/30/2018 10:26 AM
3	Enjoyed socializing!	8/29/2018 1:19 PM
4	I really like how we've made the focal point of Friday night a time for mingling with board members and staff. It's the best opportunity we have all year for informal learning from one another and to build closer relationships, which is critical for all of the DRCOG board's work. I appreciate that the remarks were succinct, and thought it was nice for Doug to focus on past accomplishments for the year. While not hugely impacting, the Chair's comments regarding ballot initiatives was a bit inappropriate or premature since the DRCOG board has yet to weigh in on them and I thought his depiction of the two transportation initiatives working well together was inaccurate.	8/28/2018 3:24 PM

1	It's helpful to get out of town. Mountain locations like Keystone are preferred.	9/4/2018 9:32 PM
2	It is so important to meet out of town away from distractions. It definitely allows greater focus.	8/29/2018 10:22 AM
3	Out of town venues are desirable when the Board has to communicate/discuss strategic items and come to a consensus...it seemed like the discussion in Brad's session was cut short - we didn't get a chance to discuss the information each Board Member wrote on the paper...it would have been nice to hear from each Board Member and build toward a consensus of ideas/themes so staff could move forward...if there are sessions that are educational/informational, consider a work session or informational presentation at the Board Meeting	8/28/2018 4:00 PM
4	Still believe we could have an effective work shop in or around Denver.	8/28/2018 2:40 PM

1	I like where we are going, each year is better handled by DRCOG.	8/30/2018 10:26 AM
2	My biggest problem with this retreat is that it was all powerpoint and talking at us. Other than social time there was really no opportunity for engagement or interaction. I felt like this was just a lot of information directed at us without any opportunity for us to dig in and provide any real value back. This kind of agenda could have been done in a conference room in Denver. It was informative, but not engaging or interactive. I did not feel like this was worth my time to participate and would not participate in the future unless the format was dramatically changed to be more interactive, focused on getting some work done for the board, not just educating the board as to what is going on and what is on the horizon.	8/29/2018 11:08 AM
