

AGENDA

DRCOG REGIONAL TRANSPORTATION OPERATIONS WORKING GROUP

Tuesday, March 24, 2021
1:30 PM to 3:30 PM
[Teams Meeting](#)

1. Welcome/Introductions
2. MUTCD Revisions Discussion

At the February meeting, two specific issues regarding the MUTCD revisions were raised by meeting participants:

Section 4F.17 Yellow Change and Red Clearance Intervals – reference to recent ITE publication and uncertainty with application

Chapter 4C. Traffic Control Signal Needs Studies – changing signal warrant “standards” to “guidance”

The working group agreed to continue discussing these items further at this meeting.

3. Transportation Technology Inventory

DRCOG is wrapping up the inventory effort for this year. The working group will review items that may need to be addressed before the next inventory. In the meantime, based both on the condition of the data and no specific use case specified for sharing the data publicly, DRCOG will postpone the additional work required to publish the data to the DRCOG Data Catalog.

4. Regional Transportation Operations Plan

The working group will review and discuss the multiple existing inputs and definitions for regional transportation operations vision and associated goals and objectives. The purpose will be to begin the process to reconcile this information while revisiting priorities and frame the discussion for the operations plan.

5. Project Updates/Other Items/Announcements

- Next regularly-scheduled RTO working group meeting date: **April 28, 2020**

REGIONAL TRANSPORTATION OPERATIONS WORKING GROUP
