AGENDA
BOARD OF DIRECTORS
WEDNESDAY, SEPTEMBER 19, 2018
6:30 – 8:45 p.m.
1001 17TH STREET
ASPEN-BIRCH CONFERENCE ROOM

1. 6:30 Call to Order
2. Pledge of Allegiance
3. Roll Call and Introduction of New Members and Alternates
4. Move to Approve Agenda
5. 6:35 Report of the Chair
   • Report on Regional Transportation Committee
   • Report on Performance and Engagement Committee
   • Report on Finance and Budget Committee
6. 6:45 Report of the Executive Director
7. 6:55 Public Comment
   Up to 45 minutes is allocated now for public comment and each speaker will be limited to 3 minutes. If there are additional requests from the public to address the Board, time will be allocated at the end of the meeting to complete public comment. The chair requests that there be no public comment on issues for which a prior public hearing has been held before this Board. Consent and action items will begin immediately after the last speaker.

CONSENT AGENDA

8. 7:15 Move to Approve Consent Agenda
   • Minutes of July 18, 2018
     (Attachment A)

TIMES LISTED WITH EACH AGENDA ITEM ARE APPROXIMATE
IT IS REQUESTED THAT ALL CELL PHONES BE SILENCED
DURING THE BOARD OF DIRECTORS MEETING. THANK YOU

Persons in need of auxiliary aids or services, such as interpretation services or assisted listening devices, are asked to contact DRCOG at least 48 hours in advance of the meeting by calling (303) 480-6701.
**ACTION ITEMS**

9.  7:20  Discussion of designating TIP Regional Share Review Panel  
(Attachment B) Ron Papsdorf, Director Transportation Planning & Operations

10. 7:40  Discussion of ballot initiatives  
(Attachment C) Rich Mauro, Senior Policy and Legislative Analyst

**INFORMATIONAL BRIEFINGS**

11. 8:05  Presentation on Smart Region Initiative  
(Attachment D) Flo Raitano, Director, Partnership Development and Innovation

12. 8:20  Update on Mobility Choice Blueprint  
(Attachment E) Jacob Riger, Long Range Transportation Planning Manager, Transportation Planning & Operations

13. 8:35  Committee Reports  
The Chair requests these reports be brief, reflect decisions made and information germane to the business of DRCOG  
A. Report on State Transportation Advisory Committee – Elise Jones  
B. Report from Metro Mayors Caucus – Herb Atchison  
C. Report from Metro Area County Commissioners– Roger Partridge  
D. Report from Advisory Committee on Aging – Jayla Sanchez-Warren  
E. Report from Regional Air Quality Council – Doug Rex  
F. Report on E-470 Authority – Ron Rakowsky  
G. Report on FastTracks – Bill Van Meter

**INFORMATIONAL ITEMS**

14.  Executive Policies report  
(Attachment F) Jerry Stigall, Director, Organizational Development

15.  Board Collaboration Assessment results  
(Attachment G) Jerry Stigall, Director, Organizational Development

16.  **2018-2021 Transportation Improvement Program Administrative Modifications**  
(Attachment H) Todd Cottrell, Senior Transportation Planner, Transportation Planning & Operations

17.  Relevant clippings and other communications of interest  
(Attachment I)  
Included in this section of the agenda packet are news clippings which specifically mention DRCOG. Also included are selected communications that have been received about DRCOG staff members.
ADMINISTRATIVE ITEMS

18. **Next Meeting – October 17, 2018**

19. **Other Matters by Members**

20. 8:45 **Adjourn**
**CALENDAR OF FUTURE MEETINGS**

Bud Starker  City of Wheat Ridge
Debra Perkins-Smith  Colorado Department of Transportation

Others Present: Douglas W Rex, Executive Director, Connie Garcia, Executive Assistant/Board Coordinator, DRCOG; Brian Staley, Adams County; Bryan Weimer, Arapahoe County; Brad Boland, Castle Rock; Jamie Hartig, Douglas County; Kevin Forgett,
Thornton; David Krutsinger, Jeff Sanders, Danny Herrmann, CDOT; Ed Bowditch, Bowditch & Cassell; Holly Buck, Cody Dawson, FHY; Geoff Horsfall, Randle Loeb, citizens; and DRCOG staff.

Chair Herb Atchison called the meeting to order at 6:31 p.m. with a quorum present.

Move to approve agenda

Director Vittum moved to approve the agenda. The motion was seconded and passed unanimously.

Report of the Chair

• The Regional Transportation Committee met and approved items on the Board agenda.
• Director Diak reported the Performance and Engagement Committee continued the Executive Director evaluation process. He noted the Board Collaborative Assessment responses are due July 20.
• Director Stolzmann reported the Finance and Budget Committee did not meet.

Report of the Executive Director

• Mr. Rex reported a new member survey will be distributed shortly.
• The Citizens’ Academy will begin a session in September. This event was previously hosted by Transit Alliance. Information will be sent to the Board soon.
• The Board Workshop is fast approaching. The deadline for reserving rooms at the discounted rate is July 20.
• DRCOG is hosting an Iraqi Youth Delegation on Monday, July 23 at 10:30 a.m. Board Directors were encouraged to participate if they are available. Lunch will be served.

Chair Atchison recognized Nicholas Williams, a new Board Director from Denver.

Public comment
Randle Loeb provided comment on creating safe places for homeless children.

Move to approve consent agenda

Director Rakowsky moved to approve the consent agenda. The motion was seconded and passed unanimously.

Items on the consent agenda included:
• Minutes of the June 27, 2018 meeting

Discussion of amendments to the 2018-2021 Transportation Improvement Program (TIP)
Todd Cottrell, DRCOG staff, described the proposed TIP amendments.
Director Rakowsky moved to approve amendments to the 2018-2021 Transportation Improvement Program (TIP) as proposed. The motion was seconded and passed unanimously.

Discussion of amendments to the FY 2018-2019 Unified Planning Work Program
Todd Cottrell, Senior Transportation Planner, described the proposed amendments to the FY 2018-2019 Unified Planning Work Program.

Director Rakowsky moved to approve amendments to the FY 2018-2019 Unified Planning Work Program as proposed. The motion was seconded and passed unanimously.

Discussion of SB 18-001 Multimodal Options Fund
Ron Papsdorf, Transportation Planning & Operations Director, discussed various ways for handling funds anticipated from the SB 18-001 Multimodal Options Fund. Members discussed the various options at length.

Director Rakowsky moved to stop debate. The motion to stop debate was seconded and failed on a vote of 13 in favor and 18 opposed.

Director Brockett moved Option 1: include all anticipated Local Multimodal Projects funding (less 1% for the non-MPO area of DRCOG) in the upcoming calls for projects in the FY 2020-2023 TIP, split 20% to the regional share and 80% to the subregional share. The motion was seconded and passed with 30 in favor and 4 opposed.

Discussion of adopting the draft Policy on Transportation Improvement Program (TIP) Preparation, Procedures for Preparing the 2020-2023 TIP
Todd Cottrell, Senior Transportation Planner, provided a brief overview of the draft TIP Policy Document. A revised Table 3 was distributed to members to reflect the addition of the SB 18-001 Multimodal Options Fund dollars (see previous action).

Director Flynn moved to adopt the draft Policy on Transportation Improvement Program (TIP) Preparation, Procedures for Preparing the 2020-2023 TIP. The motion was seconded and passed unanimously.

Presentation on Citizens’ Academy Initiative
Brad Calvert, Regional Planning & Development Director, provided information on the upcoming DRCOG Citizens’ Academy. He noted this program was previously conducted by Transit Alliance. A request was made for Board Directors to encourage citizens in their areas to apply to the Academy. Additional information on applying for the Academy will be provided via email.

Presentation on Active Transportation Plan
Emily Lindsey, Transportation Planner, presented information on DRCOG’s Active Transportation Plan, which is currently in development. The Plan will support access to
active transportation facilities (i.e., shared use paths, bike lanes, sidewalks); enhance active transportation options for rural, suburban and urban communities; encourage active transportation facilities that connect the network and region efficiently; and support the Denver region’s vision to improve safety, reduce vehicle miles traveled, decrease single-occupancy vehicle trips, and improve air quality.

Presentation on RTD’s Regional Bus Rapid Transit (BRT) Study
Holly Buck, Felsburg, Holt, Ullevig (FHU), provided an overview of the BRT study. RTD is exploring opportunities for BRT implementation, based on existing and anticipated travel demands. BRT offers the potential for mobility and access improvements at relatively modest capital and operating costs.

Committee Reports
State Transportation Advisory Committee – Ron Papsdorf reported the STAC and Commission will host a joint meeting, information was provided to Board Directors via email.
Metro Mayors Caucus – No report was provided.
Metro Area County Commissioners – No report was provided.
Advisory Committee on Aging – the Advisory Committee on Aging did not meet.
Regional Air Quality Council – Doug Rex reported the council continued work on the Executive Director recruitment.
E-470 Authority – No report was provided
Report on FasTracks – No report was provided.

Next meeting – August 15, 2018

Other matters by members
No other matters were discussed.

Adjournment
The meeting adjourned at 9:12 p.m.

Herb Atchison, Chair
Board of Directors
Denver Regional Council of Governments

Meeting Date | Agenda Category | Agenda Item #
-------------|----------------|-------------
September 19, 2018 | Action | 9

SUBJECT
2020-2023 Transportation Improvement Program (TIP) Regional Share Project Review Panel.

PROPOSED ACTION/RECOMMENDATIONS
DRCOG staff recommends approval of the representatives to the Regional Share Project Review Panel to review and recommend Regional Share applications for funding in the Regional Share Call for Projects to the 2020-2023 TIP.

ACTION BY OTHERS
August 27, 2018 – TAC recommended approval.
September 18, 2018 – RTC will act on recommendation.

SUMMARY
The adopted 2020-2023 TIP Policy states that a Project Review Panel will be formed to discuss and prioritize all eligible Regional Share project submittals after all projects have been evaluated by DRCOG staff. The panel will consist of one technical staff representative from each of the eight subregions, one CDOT representative, one RTD representative, and up to five regional subject matter experts.

As the subregional forums have met over the past several months, each has indicated or made a recommendation for their review panel representative (and alternate in some cases). These representatives include:

</tbody>
</table>
Subject Matter Experts
In addition to a representative from each of the eight subregional forums, CDOT, and RTD, the Project Review Panel will include up to five subject matter experts. DRCOG staff is recommending the panel include three subject matter experts to keep the panel at a reasonable size. These experts are to be considered a leader in the Denver region in their field and are not specific to any geographic area or local jurisdiction of the metro region.

Meeting Date | Agenda Category | Agenda Item #
--- | --- | ---
September 19, 2018 | Action Item | 10

SUBJECT
This item presents information regarding four initiatives that will be on the November 6, 2018 ballot.

PROPOSED ACTION/RECOMMENDATIONS
Motion to support, oppose or take no position on the initiatives.

ACTION BY OTHERS
N/A

SUMMARY
The ballot for the 2018 statewide election will contain thirteen proposals. Six of the proposals were referred by the General Assembly; seven were initiated by petition. Nine are constitutional amendments and four are state statutory amendments. At the September Board Work Session, directors in attendance chose four initiatives – Amendments #73 and #74, and Propositions #109 and #110 – for consideration of positions by the Board. Staff also provided a summary of the remaining proposals certified for the November 2018 ballot.

Under the state Fair Campaign Practices Act, a public entity is permitted to pass a resolution or take an advocacy position on a ballot issue and may direct staff to report that action to the public in the entity’s usual manner. An elected official or other public employee also may express a personal opinion on any ballot issue, including answering questions about the issue.

In accordance with the DRCOG Articles of Association, an affirmative vote of a majority of member representatives shall be required to adopt a resolution taking a position on any ballot measure.

PREVIOUS DISCUSSIONS/ACTIONS
November 2018 ballot initiatives and referenda were discussed at the Board Work Session on September 5, 2018.

PROPOSED MOTION
Motion to support, oppose or take no position on the presented initiatives.

ATTACHMENTS
- Summary of Amendments 73 and 74, and Propositions 109 and 110
- Propositions 109 and 110 Project Lists, DRCOG region
- CDOT Summary of Transportation Propositions 109 and 110
- Draft resolutions in support of/opposition to ballot initiatives
ADDITIONAL INFORMATION

If you need additional information, please contact Douglas W. Rex, Executive Director, at 303-480-6701 or drex@drcog.org; or Rich Mauro, Senior Policy and Legislative Analyst, at 303-480-6778 or rmauro@drcog.org.
Select Referenda and Initiatives for November 6, 2018 Colorado Ballot

**Amendment 73** (Initiative #93) – Funding for Public Schools

Proposes amending the Colorado Constitution and Colorado statutes to:
- increase funding for preschool through twelfth grade (P-12) public education;
- raise the state individual income tax rate for taxpayers with taxable income over $150,000, and increase the state corporate income tax rate to provide additional funding for education; and
- for property taxes levied by school districts, set the assessment rate at 7.0 percent for residential properties and decrease the assessment rate to 24.0 percent for most nonresidential properties. The amendment does not change the assessment rates for other taxing jurisdictions.

The proposal would increase the corporate income tax rate from 4.63 percent to 6 percent and the individual income tax rate on a sliding scale between 5 percent and 8.25 percent for people earning more than $150,000. People who earn $500,000 or more would pay the highest. The measure would use the money raised to “increase base per-student funding, to pay for full-day kindergarten, and to put more money toward students with special needs, such as those learning English, those with disabilities, and those who are gifted and talented.”

**Amendment 74** (Initiative #108) Just Compensation for Reduction in Fair Market Value by Government Law or Regulation (Takings)

Proposes amending the Colorado Constitution to:
- require the state or a local government to compensate a property owner if a law or regulation reduces the fair market value of his or her property.

The measure would expand the ways in which governments would have to pay back property owners under a “regulatory taking” (for example, if a government prohibits someone from building on a property thereby reducing its value or government putting limits on oil-and-gas development and limiting a property owner from selling their mineral rights because of it.)

**Proposition 109** (Initiative #167) Authorize Bonds for Transportation Projects

Proposes amending the Colorado statutes to:
- require the state to borrow up to $3.5 billion in 2019 to fund up to 66 specific highway projects;
- direct the state to identify a source of funds to repay the borrowed amount without raising taxes or fees; and
- limit the total repayment amount, including principal and interest, to $5.2 billion over 20 years.
The proposition requires the Colorado Department of Transportation (CDOT) to issue transportation revenue anticipation notes (TRANs) and requires the General Assembly to identify funds to repay the bonds without raising taxes or fees. It includes a list of federal aid transportation projects for the exclusive use of the bond proceeds.

**Proposition 110 (Proposed Initiative #153) Transportation Funding**

Proposes amending the Colorado statutes to:
- increase the state’s sales and use tax rate from 2.9 percent to 3.52 percent for 20 years;
- distribute the new tax revenue for transportation as follows: 45 percent to the state; 40 percent to local governments 20 percent to counties and 20 percent to cities and towns); and 15 percent for multimodal transportation projects; and
- permit the state to borrow up to $6.0 billion for transportation projects and limit the total repayment amount, including principal and interest, to $9.4 billion over 20 years.

Under the measure, according to a Legislative Council Staff analysis, the average amount of sales tax paid by a Colorado family with an average income of $74,374 is estimated to increase by $131. The state’s share of the additional tax revenue will be spent by CDOT on state transportation projects that address safety, maintenance, and congestion, and to repay the bonds. The Transportation Commission will determine the use of the funds. The local share of the additional revenue will be distributed to every municipality and county for transportation projects based on an existing formula in state law. The additional revenue identified for multimodal transportation projects – options include bike paths, sidewalks, and public transit, such as buses, rail, and rides for the elderly and disabled – will mostly be spent by local governments.

| Total | $2,787,344,000 | 42% | $1,296,800,000 | 37% |

Thursday, September 6, 2018
PROPOSITION CONSIDERATIONS | PROPOSITION 110 *(formerly Initiative 153)* | PROPOSITION 109 *(formerly Initiative 167)*
--- | --- | ---
What does it do? | Raises the sales tax by 0.62 cents to increase transportation investment (sunsets in 20 years). | Dedicates existing general funds to increase transportation investment.
What does it raise? | Would raise up to $767 million in the first year; allows the state to bond up to $6 billion (over 20 years). | One time up to $3.5 billion in bonding authority paid back over 20 years.
How are the funds allocated? | 45% to state highways
20% to city transportation needs
20% to county transportation needs
15% to transit/bicycle/pedestrian | 100% to state highways

How much money is generated? *(Based on estimated projections)*
$7 billion for state highways *(net of debt service)*
$8 billion for city/county projects
$3 billion for transit/bicycle/pedestrian projects

How much money is generated? *(Based on estimated projections)*
$3.5 billion for state highways *(net of debt service)*

Project selection for CDOT funds
Transportation Commission has adopted a fiscally constrained $7 billion list of projects which would utilize the funds.

Project selection for CDOT funds
Proposition lists the projects, totaling about $5.6 billion. Transportation Commission will narrow the list/project scope to $3.5 billion.

Are there other funding implications for CDOT? Preserves $1.5 billion in existing state funding for CDOT, resulting in a $7 billion net increase over current law (SB17-267).

Are there other funding implications for CDOT? Replaces $1.5 billion in existing state funding for CDOT resulting in a $2 billion net increase over current law (SB17-267).

**PROPOSITION 110** *(formerly Initiative 153 or “Let’s Go Colorado”)* proposes to raise the sales tax by 0.62 percent to increase transportation investment. This sales tax increase, which would sunset in 20 years, would raise up to $767 million in the first year and allow the state to bond up to $6 billion to pay for transportation projects around the state. The funds raised would be divided between state highways, cities, counties and a dedicated multi-modal fund.

**PRO/CON:** Funds $7 billion in highway projects around the state, as well as providing funding for city, county and transit/bicycle/pedestrian needs, but raises taxes for twenty years to pay for bonds and projects.

**CDOT** has identified approximately $1 billion/year funding shortfall to meet transportation needs around the state. The gas tax, CDOT's primary funding source, has not changed since 1991 and 40% goes to cities/counties for local roads. CDOT receives 36% of vehicle registration fees. In total, average drivers in CO pay $211/year to fund transportation. CDOT does not receive taxes designated to build RTD light rail/transit and does not receive marijuana tax revenue.

**PROPOSITION 109** *(formerly Initiative 167 or “Fix Our Damn Roads”)* proposes to use existing general funds to increase transportation investment. These funds would be used to allow the state to bond $3.5 billion to pay for state highway projects around the state. The funds may not be used for transit or other projects.

**PRO/CON:** Funds $3.5 billion in highway projects around the state (no transit or local) with no new taxes but existing revenue must be diverted from state budget over twenty years to pay for bonds.

A RESOLUTION IN SUPPORT OF PROPOSITION #XX

WHEREAS, the Denver Regional Council of Governments is an association of nine counties and 49 municipalities representing the Denver metropolitan area; and

WHEREAS, the Denver Regional Council of Governments is the regional planning agency for the Denver metropolitan area with responsibilities in the areas of growth and development, transportation, air quality, and services to older adults; and

WHEREAS, the Denver Regional Council of Governments has a long-standing tradition of taking positions on ballot initiatives affecting the growth and development of the Denver region.

NOW, THEREFORE, BE IT RESOLVED, that the Denver Regional Council of Governments does hereby declare its full support of and urges a “Yes” vote for Proposition #XX, which is proposed for the November 6, 2018 General Election ballot.

RESOLVED, PASSED AND ADOPTED this _______ day of ____________, 2018 at Denver, Colorado.

SUBJECT
DRCOG Smart Region Initiative overview.

PROPOSED ACTION/RECOMMENDATIONS
N/A

ACTION BY OTHERS
N/A

SUMMARY
DRCOG’s Smart Region Initiative is an extension of the work we have been doing with Mobility Choice and CDOT’s Smart Mobility efforts. The concept of a Smart Region is inherently broad, encompassing more than mobility, it includes many aspects of daily life such as safety (personal and cyber), connectivity (accessibility and broadband) and resiliency (reliable utilities, economic vitality and preparedness for natural and/or manmade disasters), as well as mobility. This initiative is targeted specifically at working to help develop smart policies and establish technical guidelines (interoperability, for example) which will help drive the acquisition and deployment of smart technologies for the DRCOG region. Staff will work to ensure that all DRCOG members have the opportunity to benefit from those smart technologies and smart policies, regardless of size or capacity.

PREVIOUS DISCUSSIONS/ACTIONS
At the April 4, 2018 Performance and Engagement Committee meeting staff discussed the Smart Region Initiative as a possible workshop topic and provided a very brief introduction to the concept of the Smart Region Initiative. The initiative was also mentioned at the August 25 Board Workshop as part of an overview of new initiatives for 2019.

ADDITIONAL INFORMATION
If you need additional information, please contact Douglas W. Rex, Executive Director, at 303-480-6701 or drex@drcog.org or Dr. Flo Raitano, Director, Partnership Development and Innovation, at 303-480-6789 or fraitano@drcog.org.
WHAT MAKES A REGION SMART?
A region is “smart” when investments are made in human and social capital and in digitalization in order to ensure sustainable economic growth and an improvement in the quality of life.

- Focus on citizens – not on technology
- Provide better service
- Digital Transformation is an ongoing process with no specific goal

Cost Reduction

Quality of Life

Attractiveness
MEETING THE NEEDS OF THE UNDERSERVED POPULATION
BRIDGING FIRST & FINAL MILE

The Last Mile
ADDRESSING ENERGY OPTIONS
Future-Proofing Existing Infrastructure
ENABLING NEW AND EMERGING TECHNOLOGIES
This Isn’t About Re-Inventing the Wheel
CONNECTIVITY

- Investments in infrastructure and amenities allow people and businesses to thrive and prosper.
- Connected urban centers and multimodal corridors throughout the region accommodate a growing share of the region's housing and employment.
- The regional transportation system is well-connected and serves all modes of travel.
- The region's residents have expanded connections to health services.
- The region values, protects and connects people to its diverse natural resource areas, open space, parks and trails.
The region values, protects and connects people to its diverse natural resource areas, open space, parks and trails.

The region has clean water and air, and lower greenhouse gas emissions.

The region’s working agricultural lands and activities contribute to a strong regional food system.

The risks and effects of natural and human-created hazards are reduced.

The built and natural environment supports healthy and active choices.

The region’s residents have expanded connections to health services.

Diverse housing options meet the needs of residents of all ages, incomes and abilities.
SAFETY

- The transportation system is safe, reliable and well-maintained.

- The region values, protects and connects people to its diverse natural resource areas, open space, parks and trails.

- The risks and effects of natural and human-created hazards are reduced.
MOBILITY

- The regional transportation system is well-connected and serves all modes of travel.
- The transportation system is safe, reliable and well-maintained.
- All residents have access to a range of transportation, employment, commerce, housing, educational, cultural and recreational opportunities.
- Connected urban centers and multimodal corridors throughout the region accommodate a growing share of the region's housing and employment.
- Investments in infrastructure and amenities allow people and businesses to thrive and prosper.
Strategic Partnerships (Local)

- Mobility Choice
- Denver South EDP
- Smart Cities Alliance
- City and County of Denver
- CDOT
- RTD
- UC Denver
- Arrow
- Panasonic
Strategic Partnerships (National)

- Transportation for America
- Regional Smart Cities Initiative (RSCI)

SUBJECT
Briefing on the Mobility Choice Blueprint project.

PROPOSED ACTION/RECOMMENDATIONS
N/A

ACTION BY OTHERS
N/A

SUMMARY
The Mobility Choice Blueprint is a collaborative strategy to help the metro Denver region identify how to best prepare for the rapidly changing technology that is revolutionizing transportation mobility. As a reminder, Mobility Choice is a unique planning and funding partnership of CDOT, DRCOG, RTD, and the Denver Metro Chamber. The 2030 Blueprint will analyze travel trends and technologies in the region, explore and evaluate various technologies and their implications for mobility, align transportation investments of multiple public agencies, and create new planning and implementation partnerships.

Since the last Mobility Choice Blueprint briefing to the Board in April, project stakeholders and the consultant team have held several workshops to define 2030 scenarios for testing and analysis, conducted extensive public outreach, hosted global thought leaders and other subject matter experts, and begun to prepare initial content for the 2030 Blueprint plan document. The project also now has a dedicated website: http://www.mobilitychoiceblueprintstudy.com/.

At the September Board meeting, staff from HDR, the project’s lead consultant, will provide an update on the Mobility Choice Blueprint project, process, and schedule. Mobility Choice briefings will continue to be provided at regular intervals throughout the planning process to DRCOG’s committees and Board.

UNIFIED VISION

A partnership of public and private organizations focused on changing how we move – and making the Denver metro area a better place to work and live.
Collaboration of CDOT, RTD, and DRCOG policies, programs, and transportation investments

Pilot projects with private sector partners and continued participation of the business community

Identifying potential for efficient technology-leveraged investments

MCB PROCESS OVERVIEW

Spring | Summer | Fall
EMERGING MOBILITY SYSTEMS

On-Demand Mobility
- Ridehailing
- Microtransit
- Car Sharing
- Bike sharing
- Mobility as a Service

Traveler Information and Payment
- Mobile Transit App
- Intermodal Trip Planner App
- Mobile Travel Incentives App

Transportation Systems Optimization
- V2X
- Active Travel Demand Management
- Integrated Corridor Management
- Smart Parking

Freight and Delivery
- Courier Services
- Driverless Delivery
- Drone Delivery
- 3D Printing

Vehicle Technology
- Autonomous Vehicles Levels 1-5
- Electric Drive-train
- Battery Technology

MOBILITY CHOICE BLUEPRINT VISION

Our metropolitan region employs a full array of flexible technology and services to maximize access to mobility choices connecting people of all ages, incomes and abilities to jobs, recreation, healthcare, amenities and other daily activities, enhancing and protecting our quality of life now and in the future.
MOBILITY CHOICE BLUEPRINT MISSION

The metropolitan agencies will collaborate, in partnership with community, nonprofit, and private sector leaders, to carefully consider a range of effective and efficient solutions to the challenges and opportunities presented by emerging mobility technologies. We will provide recommendations to encourage the most effective technologies and approaches, maximizing mobility to meet our long-term goals of enhanced quality of life and increased economic vitality across the metropolitan region.

THEMES

• Safety
• Sustainable Mobility
• Funding and Finance
• Human Experience
• Infrastructure
• Governance
• Data
• System Efficiency
### THEMES, PROBLEMS & OUTCOMES

<table>
<thead>
<tr>
<th>Theme</th>
<th>Problem Statement</th>
<th>Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td>Safety</td>
<td>Sanctity of life and safety from personal injury and property damage must remain the primary force for new technology operational designs.</td>
<td>Connected, autonomous, shared and electric mobility operate safely.</td>
</tr>
<tr>
<td>Sustainable</td>
<td>Technology enables a much more diverse set of mobility options for consumers resulting in different kinds of pressures for private-sector and public-sector services, facilities and infrastructure.</td>
<td>Emerging technology transportation options sustain the system long-term.</td>
</tr>
<tr>
<td>Mobility</td>
<td>New approaches and designs are needed to flexibly and proactively integrate technologies into transportation infrastructure.</td>
<td>New mobility systems integrate with existing and future infrastructure. New mobility systems cost no more than anticipated.</td>
</tr>
<tr>
<td>Infrastructure</td>
<td>A disconnect could result between the human experience and transportation technology applications that left unchecked, could further disenfranchise mobility challenged populations and could disrupt our livable spaces.</td>
<td>Mobility systems improve community livability and quality of life.</td>
</tr>
<tr>
<td>Governance</td>
<td>A forum is lacking to plan for and implement regional infrastructure that supports technology advances.</td>
<td>Regional transportation agencies, the private sector, and nongovernmental organizations develop policies, programs, and pilot projects to deliver a preferred mobility future for the metropolitan region.</td>
</tr>
</tbody>
</table>
### System Efficiency

**Problem Statement:** The regional network of transportation services and facilities is based on the travel demands and trip-making decisions of a different economic environment that began more than 50 years ago. The existing system must be made more efficient through reasonable and coordinated integration of appropriate technologies.

**Outcome:** Technology integration improves reliability, lowers costs and reduces travel times.

### Funding and Finance

**Problem Statement:** Travel options enabled by technology will further increase the gap between needs and available funds.

**Outcome:** New funding and financing of mobility systems improves equity and use of public resources.

### Data

**Problem Statement:** Definition of the “right data” that can be utilized to optimize system operations and performance is important to all public sector and private sector entities. Management and security of that data, and the ability to share information among suppliers of facilities and services to enhance and optimize transportation system performance is a critical need.

**Outcome:** Sources and uses of data that enable, monitor, manage and modify mobility systems are protected, shared and preserved across all modes of travel and throughout all parts of the region and state.

### PROCESS FLOW FOR THE DEVELOPMENT OF SCENARIOS

1. **Scenario 1:** Existing Planning Assumptions
2. **Scenario 2:** Technological Overrun
3. **Scenario 3:** Reactive
4. **Scenario 4:** Proactive

- **Existing Planning Assumptions**
  - Technology Trends
    - Themes
      - Strategies
        - 1
        - 2
        - ... 27
      - Tactical Actions
EXAMPLE: TACTICAL ACTION #3

• Create PPPs to establish transit service in underserved areas to reduce service gaps and partner with:
  o Transportation Network Companies (TNCs)
  o Micro-transit services
  o Mobility-as-a-Service providers

• Consider connections to senior housing, mobility-disadvantaged neighborhoods, healthcare facilities and similar locations

EXAMPLE: TACTICAL ACTION #21

• Establish a Mobility Technology Clearinghouse:
  o Coordinate Pilot Projects throughout the Region
  o Pool funding
  o Coordinate Agency staff
  o Provide single point of contact
  o Coordinate technology in CIP projects
  o Employ process to prioritize corridors
  o Facilitate partnerships
  o Monitor performance and cost tracking

- Type: Program
- Difficulty: Easy
- Investment: < $0.5 M
- Transects: All/Region
- Time to Implement: < 1 Year
EXAMPLE: TACTICAL ACTION #22

- Establish a Regional Data Platform that will:
  - Consolidate multiagency data into single repository with joint access
  - Establish policy standards for data sharing for interoperability and security
  - Create policy(s) to ensure inter-operability of infrastructure and software
  - Promote open and well-documented APIs

<table>
<thead>
<tr>
<th>Type</th>
<th>Program</th>
</tr>
</thead>
<tbody>
<tr>
<td>Difficulty</td>
<td>Medium</td>
</tr>
<tr>
<td>Investment</td>
<td>$2 - 5 M</td>
</tr>
<tr>
<td>Transects</td>
<td>All/Region</td>
</tr>
<tr>
<td>Time to Implement</td>
<td>&lt; 1 Year</td>
</tr>
</tbody>
</table>

EXAMPLE: TACTICAL ACTION #27

- Fund and engage in Pre-development activities with affected cities to begin implementation of an Integrated Corridor Management (ICM) Pilot Project in a key metro corridor.
  - ICM combines two primary concepts:
    - Active Management
    - Modal Integration of Institutional, Operational and Technical elements

<table>

**SUBJECT**
The 2017 DRCOG Executive Policies report.

**PROPOSED ACTION/RECOMMENDATIONS**
N/A

**ACTION BY OTHERS**
In 2015, the Board Governance group developed Executive Policies for DRCOG’s executive director and staff.

**SUMMARY**
Executive Policies are a component of DRCOG Governance principles. They are designed to ensure the executive director and staff actions and decisions related to advancing Board goals and priorities are done in a legal, ethical and prudent manner. Executive Policies 1-7 are reported to the Board annually by staff and scored as; 1 = noncompliance, 2 = partial compliance, 3 = full compliance. Executive Policy 8, Communications with and Support of the Board, which is evaluated by Board Directors through the executive director’s annual evaluation was not administered for 2016-2017. Executive Policy 8 is reported in the annual Executive Policy report and the executive director’s annual evaluation. Our software application (QuickScore) assigns a 0-10 score for each executive policy which is calculated based on the actual score for each policy.

**PREVIOUS DISCUSSIONS/ACTIONS**
The full Board voted to approve the Executive Policies and staff has implemented them within DRCOG.

**PROPOSED MOTION**
N/A

The DRCOG Governance Model describes the role of Board Directors as the decision-making body that establishes the intended organizational results for DRCOG staff to pursue.
ENSURE POLICY COMPLIANCE
EXECUTIVE POLICIES SCORECARD
2017

Description
Executive Policies state the conditions that must be in place to successfully accomplish or further Board priorities.

Executive policies provide the necessary guidance for the Executive Director to effectively lead the organization toward progressing the goals and priorities of DRCOG. Executive Policies state conditions that must exist in order to achieve organizational strategic initiatives. Executive Policies prevent the goals from being achieved through means that create liabilities for the organization. For purposes of this document, the term “Board” refers to the entire DRCOG Board of Directors and their alternates acting as such.

Scoring for Executive Policies 1-6 is based on the following legend:

3 = Full compliance
2 = Partial Compliance
1 = Noncompliance

Note: Executive Policy 8 is included in the Executive Director's Annual Evaluation. The scoring for this policy is completed by Board Directors. The answer options for Executive Policy 8.0 are; Exceeds Expectations, Meets Expectations, Needs Improvement.

For 2017, Executive Policies 1.0 through 7.0 were in full compliance. Executive Policy 8.0, assessed in the Executive Director annual evaluation, exceeded the target set for that measure. The last measure included in this report, Successful Audit, show the outcome of DRCOG’s annual audit.
Description
This is the Executive Policies Scorecard and reports performance data on DRCOG staff's compliance with these policies.

The following Executive Policies are contained in this section:

1. GENERAL EXECUTIVE DIRECTOR CONSTRAINT
2. TREATMENT OF CITIZENS, TAXPAYERS, STAFF AND VOLUNTEERS
3. COMPENSATION, BENEFITS, EMPLOYMENT
4. FINANCIAL PLANNING AND BUDGET
5. FISCAL MANAGEMENT AND CONTROLS
6. PROTECTION OF ASSETS
7. IMMEDIATE SUCCESSION
8. COMMUNICATIONS WITH AND SUPPORT OF THE BOARD
9. SUCCESSFUL AUDIT

</tbody>
</table>

Note: The scoring in the right column for each policy is based on a QuickScore rating of 0-10, depending on the actual score of the measure. Executive Policy 8.0 is assessed by Board Directors during the annual evaluation of the Executive Director. The 'Successful Audit' measure is included in this report that relates to the outcome of DRCOG's annual financial audit.

Yes
Executive Policies were adopted by the Board in 2015. However, there was an immediate successor to the Executive Director so Executive Policy 7.0 could be scored for 2014.
1.0 GENERAL EXECUTIVE DIRECTOR CONSTRAINT

2017

Description
1.1 Within the scope of authority delegated to him/her by the Board, the Executive Director shall ensure that any practice, activity, decision or organizational circumstance is lawful and prudent and adheres to commonly accepted business and professional ethics. The Executive Director shall ensure that conditions are safe, fair, honest, respectful and dignified.

2.0 TREATMENT OF CITIZENS, TAXPAYERS, STAFF, INTERNS AND VOLUNTEERS

2017

Description
The success of DRCOG depends upon the partnership between the Board, agencies, jurisdictions, citizens, taxpayers, elected officials and DRCOG employees.

The Executive Director shall ensure:

2.1 Community opinion/input on relevant issues is obtained when decisions materially affect a community.
2.2 Communities are informed on a timely basis about relevant decision-making processes and decisions.
2.3 Interactions with the community are organized and clear.
2.4 Relevant problems raised by the community are addressed in a timely manner.
2.5 Staff is competent, respectful and effective in interactions with the Board, public, etc.
2.6 Confidential information is protected from unauthorized disclosure.

Accordingly, pertaining to paid staff, interns and volunteers within the scope of his/her authority, the Executive Director shall ensure:

2.7 Written personnel policies and/or procedures, approved by legal counsel, which clarify personnel rules for staff, provide for effective handling of grievances, and protect against wrongful conditions are in effect.
2.8 Staff, interns and volunteers are acquainted with their rights upon entering and during their work/time with DRCOG.
2.9 Avenues are available for non-disruptive internal expressions of dissent, and protected activities are not subject to retaliation.
2.10 Established grievance procedures are readily available and accessible to staff. The Board is appropriately apprised of violations of Board policies and of matters affecting the Board.

3.0 COMPENSATION, BENEFITS, EMPLOYMENT

2017

Description
3.1 The fiscal integrity of DRCOG is maintained.

Accordingly, the Executive Director shall ensure:

3.2 His/her own compensation is approved by the Performance and Engagement Committee according to adopted procedures.
3.3 Compensation and benefits are consistent with wage data compiled in DRCOG’s regular independent salary survey and approved in the annual budget.
3.4 Adherence to appropriate employment law practices.
3.5 Deferred or long-term compensation and benefits are not established.

Description
With respect to strategic planning for projects, services and activities with a fiscal impact, the Executive Director shall ensure:

4.1 The programmatic and fiscal integrity of DRCOG is maintained.

Accordingly, the Executive Director shall ensure:

4.2 Budgets and financial planning are aligned to Board-adopted strategic initiatives.
4.3 Financial solvency is maintained by projecting in two- to five-year increments, in addition to annual budgeting.
4.4 Financial practices are consistent with any applicable constitutional and statutory requirements.
4.5 Adherence to Board-adopted strategic initiatives in its allocation among competing budgetary needs.
4.6 Adequate information is available to enable: Credible projections of revenues and expenses; separation of capital and operational items; cash flow projections; audit trails; identification of reserves, designations and undesignated fund balances; and disclosure of planning assumptions.
4.7 During any fiscal year, plans for expenditures match plans for revenues.
4.8 Maintain at a minimum 3 months of operating expenses, excluding amounts for in-kind and pass-through expense or as recommended by the independent auditor.
4.9 A budget Contingency Plan is capable of responding to significant shortfalls with the DRCOG budget.
4.10 No risks are present based on situations described in the Fiscal Management Control Policy.
4.11 Board activities during the year have been adequately funded.

5.0 FISCAL MANAGEMENT AND CONTROLS

2017

Description
5.1 Board-adopted strategic initiatives are adhered to and financial controls prevent fiscal jeopardy.
5.2 Funds for expenditures are available during each fiscal year.
5.3 DRCOG obligations are paid in a timely manner and within the ordinary course of business.
5.4 Prudent protection is given against conflicts of interest in purchasing and other financial practices, consistent with the law and established in DRCOG Fiscal Management Control Policy.
5.5 Funds are used for their intended purpose.
5.6 Competitive purchasing policies and procedures are in effect to ensure openness and accessibility to contract opportunities.
5.7 Purchases, contracts and obligations which may be authorized by the Executive Director do not exceed the financial authority approved by the Finance and Budget Committee. Purchases, contracts and obligations exceeding the Executive Director’s authority are approved by the Finance and Budget Committee.
5.8 In the absence of the Executive Director, the Director of Transportation Planning and Operations signs on behalf of the Executive Director. If the Executive Director and Director of Transportation Planning and Operations are unavailable for a signature, the Administrative Officer provides authorizing signatures.
5.9 Adequate internal controls over receipts and disbursements prevent the material dissipation of assets.
5.10 DRCOG’s audit is independent and external monitoring or advice is readily accepted and available.
5.11 Revenue sources are consistent with the Board-adopted strategic initiatives and operations are financed without incurring debt that exceeds the Executive Director’s authority unless approved by the Finance and Budget Committee.
5.12 Reserved, designated and undesignated fund balances are at adequate levels to mitigate the risk of current and future revenue shortfalls or unanticipated expenditures.
5.13 Creditworthiness and financial position are maintained from unforeseen emergencies.

6.0 PROTECTION OF ASSETS
2017

Description
Within the scope of his/her authority in the Executive Director and given available resources, the Executive Director shall ensure:

6.1 Assets are protected and adequately maintained against unnecessary risk.
6.2 An insurance program exists to protect DRCOG in the event of a property and/or liability loss, including coverage insuring the Board, officers, employees, authorized volunteers and DRCOG against liabilities relating to the performance of their duties and DRCOG’s activities in an amount equal to or greater than the average for comparable organizations and, for tort liabilities, in an amount equal to or greater than statutory limits on amounts DRCOG may be legally obligated to pay.
6.3 A policy exists to insure against employee dishonesty and theft.
6.4 Facilities and/or equipment are used properly and maintained (except normal deterioration and financial conditions beyond the Executive Director’s control.)
6.5 Practices and policies are in place for DRCOG, Board and staff to minimize or prevent liability claims.
6.6 A policy exists to ensure protection from loss or significant damage of intellectual property (including intellectual property developed using DRCOG resources), information, files.
6.7 Internal control standards for the receipt, processing and disbursements of funds are at adequate levels to satisfy generally accepted accounting/auditing standards and costs for internal controls shall be consistent with the benefits expected.
6.8 DRCOG’s public image, credibility, and its ability to accomplish Board-adopted strategic initiatives goals are upheld.
6.9 Adequate planning is done for short and long-term capital or facility needs.
6.10 Board auditors or other external monitors or advisors are independent from internal influence.

The Transportation and Operations Director is the immediate successor to the Executive Director should the services of the Executive Director be unavailable.
8.0 COMMUNICATIONS WITH AND SUPPORT OF THE BOARD

2017

Description
Executive Policy 8 pertains to the Executive Director ensuring the communication to Board members is complete, accurate, and timely. This policy is assessed annually as part of the Executive Director’s performance evaluation.

The Following are sub-policies of 8.0:

8.1 The Board is informed and supported in its work.
8.2 The Board is provided complete, clear information for the accomplishment of its job.
8.3 The Board is informed in a timely manner about relevant events and issues regardless of reporting/monitoring schedule.
8.4 Required reports to the Board are submitted in a timely, accurate, and understandable fashion.
8.5 The Board is aware of actual or anticipated non-compliance with Board goals or Executive Policies.
8.6 The Board is provided decision information it requests.
8.7 The Board is aware of incidental information it requires.
8.8 In consultation with legal counsel, that the Executive Committee is appropriately apprised of pending or threatened litigation.
8.9 The Board is informed when the Board is not in compliance with its own policies.
8.10 Information provided to the Board is not overly complex or lengthy.

SUBJECT
DRCOG Board Director Collaboration Assessment Results - 2018

PROPOSED ACTION/RECOMMENDATIONS
N/A

ACTION BY OTHERS
In May 2015, the first DRCOG Board Collaboration Assessment was completed. Numeric scores, comments and an analysis by the assessment developer, Dr. Carl E. Larson, were provided to Board Directors. The results of the first assessment in part led to the creation of two new Board committees: Finance and Budget, and Performance and Engagement. The Performance and Engagement Committee has reviewed the 2018 assessment results, which were presented to attendees of the DRCOG 2018 Board Workshop in Keystone, CO.

SUMMARY
The DRCOG Board Collaboration Assessment is a feedback mechanism to allow Board Directors to voice their opinions about their experience at DRCOG as it relates to Board Director collaboration and the achievement of desired results.

This is one of the best assessments I’ve seen in several years, especially in light of the general state of public discourse the US has experienced lately. Let me highlight three observations.

1) The strengths present in last year’s assessment remain strong. Last year’s assessment showed an unusually dramatic change: 45 of 51 items exhibited positive change. This overall change was rare, especially for large mandated collaboratives. This year’s ratings are still overwhelmingly positive.

One emerging strength in DCOG is worth emphasizing. Over the last 30 years of studying collaborative efforts, my colleagues and I have noticed a subtle but strong indicator of success. Unusually successful collaboratives tend to alter the norms present in the communities they serve. That is, successful collaboratives tend to improve the collaborative energies of the community at large. They “spill over” into other problem areas and generate more spontaneous collaborative efforts among community members, even those not involved in the original collaboration.

Your data has evidence of this effect. The ratings in the section labeled “Community Involvement and Collaboration” are:

- Our collaborative has led to broader and more meaningful engagement of diverse partners...3.57
- Our collaborative has resulted in the emergence of new leaders committed to collaboration...3.61
- Our collaborative had helped improve the way our participation jurisdictions work together...3.39
- Our collaborative has increased my knowledge of resources outside of my agency/organization...3.56
- Our collaborative has increased my access to resources outside of my agency/organization for my community...3.40

These are unusually high scores. This is especially noteworthy because we are encountering more collaboratives, at both national and community levels, that are suffering from the divisiveness and hostility that now characterizes our national public discourse. You are a clear exception to that trend.

2) You seem to be correcting the one potential problem that emerged in last year’s assessment. Recall that there was a pattern in your data wherein five items showed negative change from 2016 to 2017:

- The process responds fairly to the needs of its members (3.21 to 3.18, negative change last year, now 3.42)
• The allocation of resources is decided fairly (2.97 to 2.91, negative change last year, now 3.19)
• The criteria for allocations are fairly applied (3.27 to 3.06, negative change last year, now 3.29)
• The process gives some people more than they deserve while shortchanging others (3.0 to 2.85 negative change last year, now 2.88)

These four items moved in a positive direction this year. There is still room for improvement, but you have them moving in the right direction contrary to last year’s assessment. The fifth item is:

Members are effective liaisons between their home organization and our group (3.38 to 3.32 negative change last year, now 3.27)

In 2018, you improved your scores on the first four items. This is important! This pattern is called “the fair process effect”, or procedural justice. It is one of the most important qualities of both collaborative and legal processes. The fact that you have reversed the direction of change means that you are addressing one of the most serious threats to collaboration, especially legislated collaboration.

Now consider the fifth item (members are effective liaisons between their home organization and our group). Unfortunately, this is a constant tension that collaboration always experiences. Thousands of studies, including doctoral dissertations I have directed, have explored the tensions between “distributive” and “integrative” processes. Simply stated, moving toward distributive processes means that you devote more time and energy to “who gets what.” If you move toward integrative processes you devote more time and energy to the problems you confront together. That’s why the process has to be credible, fair, and transparent, because if it is not, the participants will move naturally and inevitably toward self-interest at the expense of collective problem-solving. You are doing an excellent job of surfacing and addressing this tension, but you may be the rare group in which this issue disappears completely.

3) Your data describe a healthy collaborative climate with great potential for success. There does not appear to be any major warning signals that urgently need to be recognized and acted upon. In fact, recognizing the progress that you have made may be the more urgent need.

Successful collaboratives tend to recognize and celebrate smaller steps toward larger goals. They recognize progress earlier and celebrate it more frequently. They actually try to build and sustain energy that is optimistic and action-oriented. The more oppressive the problem, the more they celebrate small inroads toward its solution.
**Overall Observations in the Data**

There is a phenomenon in the data where the change from 2016 to 2017 is relatively rare in a good way. Almost 90 percent (44) of the items in the assessment moved in a positive direction from 2016 to 2017. The general tone of the assessment reflects incredible positive change.

In 2018 all the scores changed as we would expect over time. The question is: Are they changing more or less “randomly?” Thirty of the 50 item scores increased during that period. Seventeen item scores decreased but remained above 3.0. There seems to be a continuation of positive change, less this year than last, but understandably since 2017 scores were overwhelmingly positive. The change in 2018 from 2017 scores would primarily be due to random variation of data and not necessarily a signal that problems are developing within the collaborative climate. Eight item scores were in the 2.0+ range in 2017 but all were above the 2.5 midpoint and in positive territory. For 2018, all these eight item scores increased.

The lowest scored item in the assessment for 2018, “the process gives some people more than they deserve, while shortchanging others” was 2.88, still in positive territory. Forty-nine out of 50 items are all above 3.0 for 2018. These are very high scores for collaboratives like DRCOG. Again, variance in most of the scores can be associated with random variation of data and not a substantive change in the collaborative climate. The **Total Process Quality** score, calculated by averaging the scores of Structural Integrity and Authenticity, have continued to improve since the first assessment in 2015; 2.72, 2.99, 3.09, 3.19 respectively for years 2015-2018. This is an important measure of success for your collaboration.

In reviewing the results overall, you may have reached a plateau where you are about as good as you can get considering the positive energy that seems evident in the assessment results and comments. The issue of ‘energy drain’ is worth contemplating given the positive energy of the collaborative at this point. What happens if energy starts to drain from the group and gets directed at issues that are not relevant to the group’s purpose? If higher levels of relationship tension emerge between members, the energy normally directed at solving regional problems gets ‘drained’ from the goal focus and is exerted in the direction of the relationship issue or dysfunction.

The Performance & Engagement Committee can serve a ‘vigilant’ function for the full Board in monitoring and addressing the potential for energy drain and other issues that may negate past successes. Given the members in the collaborative report overall high scores in virtually every area, it would be good to recognize the potential for losing optimism and momentum if either complacency surfaces due to the good results or if the perception of the score variances means something is not going well.

Those are typical reactions people can have so it’s important to keep in mind that a positive/optimistic climate helps maintain momentum and, data varies by its own natural tendencies. When you look at the largest variance in the assessment, it’s 0.2 of a point for two items. That does not say however; things have risen to perfection so periodic improvements and adjustments can help sustain your momentum.
As a supportive observer of DRCOG, I applaud your progress in dealing with important but difficult problems. Perhaps you deserve some form of celebration.... how about we at least order pizza!

Carl E. Larson, Ph.D.
Please indicate the length of time you have been a DRCOG Board Director.

I. Structural Integrity refers to how Board Directors perceive the fairness of the collaborative process. A process that has high structural integrity applies criteria for making decisions and allocating resources in a fair and consistent manner, treats all members equitably, and allows sufficient opportunity for members to challenge and revise decisions.

The people involved in the process usually are focused on broader goals (outcomes) of the region, rather than individual agendas. 23.08% TRUE, 61.54% MORE TRUE THAN FALSE, 11.54% MORE FALSE THAN TRUE, 3.85% FALSE, 0.00% DON'T KNOW, TOTAL 26, WEIGHTED AVERAGE 3.04

The process is free of favoritism. 26.92% TRUE, 57.69% MORE TRUE THAN FALSE, 3.85% MORE FALSE THAN TRUE, 0.00% FALSE, 11.54% DON'T KNOW, TOTAL 26, WEIGHTED AVERAGE 3.26

In the process, everyone has an equal opportunity to influence decisions. 60.00% TRUE, 24.00% MORE TRUE THAN FALSE, 16.00% MORE FALSE THAN TRUE, 0.00% FALSE, 0.00% DON'T KNOW, TOTAL 25, WEIGHTED AVERAGE 3.44

The process responds fairly to the needs of its members. 42.31% TRUE, 46.15% MORE TRUE THAN FALSE, 3.85% MORE FALSE THAN TRUE, 0.00% FALSE, 7.69% DON'T KNOW, TOTAL 26, WEIGHTED AVERAGE 3.42

<tbody>
<tr>
<td>1</td>
<td>The process seems more prescriptive than iterative.</td>
</tr>
<tr>
<td>2</td>
<td>My view is that the process appears fair and open. Some minor pressure and opinion may come from individuals and subgroups but they appear to be using discussion not pressure to move toward their point.</td>
</tr>
<tr>
<td>3</td>
<td>I believe that decisions are based on accurate information and the intent to be fair in allocation of resources is prevalent, however, there is still the feel that the &quot;big&quot; players (Denver, Aurora, Commerce City and Parker) have an advantage over smaller communities. This perception I believe keeps members from the smaller communities from speaking up, voicing their views, or challenging decisions.</td>
</tr>
<tr>
<td>4</td>
<td>New to board so lots of ‘don’t knows’</td>
</tr>
<tr>
<td>5</td>
<td>&quot;Individual agendas&quot; as referenced in question 1 may also be Directors advocating for their home jurisdiction's best interest. The DRCOG Board of Directors uses a consistent process of making decisions that allows for equal participation in discussing the criteria presented (&quot;fair&quot; or not is for the individual Director to decide in each case.)</td>
</tr>
<tr>
<td>6</td>
<td>DRCOG has come a long way in a short period of time. By essentially rebuilding the entity, the Board Members were able to achieve structural integrity by addressing any concerns and resolving region wide issues within the organization.</td>
</tr>
<tr>
<td>7</td>
<td>The majority of decisions are fair but as humans, there is some jostling at times. Our community views frequently cloud ability to embrace the regional needs.</td>
</tr>
<tr>
<td>8</td>
<td>All members are allowed to feel as those they are heard and part of the group.</td>
</tr>
<tr>
<td>9</td>
<td>There is favoritism in favor of the large cities and northwestern county</td>
</tr>
<tr>
<td>10</td>
<td>As a new member - it is challenging to figure out the specific committees and groups and how to engage and with which ones to engage. I believe all the information and opportunities to engage are out there - just sorting through all the committees/initiatives/groups is challenging as a newcomer. One suggestion would be that after a board members two meetings - following up with a brief (less than 30 minute) orientation session with someone from DRCOG staff. I wouldn't have known what I didn't know before I started - but now I have some basic questions - that will work themselves out naturally as I continue to participate, but having an orientation set up would be great.</td>
</tr>
</tbody>
</table>
II. Authenticity refers to the extent Board Directors perceive the collaborative process is free from undue outside influence. An authentic process is one where members are confident the group has the power to make independent judgments and evaluations of the issues, and can make decisions on how to respond to those issues that will be respected by all members as well as those in positions of authority.

### # Please provide comments for the Authenticity section in the space below.

1. I do not see a problem in this area. Yes, smaller jurisdictions may not have the same weight in a discussion or presentation but this appears to be reality of money and population not a orchestrated process. Attendance has an impact on this also.

2. I don't believe that any organization or jurisdiction is discounted or their opinions not heard but, I do believe that there is a sense that smaller communities feel intimidated by the "big" communities and that keeps them from participating fully in conversations and decisions.

#  PLEASE PROVIDE COMMENTS FOR THE MEMBERS SECTION IN THE SPACE BELOW.

1 Directors are faced with two pressures, the first is their home jurisdiction (not always in agreement on an issue themselves) and the second, the greater good that also is very good for most if not all our jurisdictions. I have not interacted with any Board member that is not seeking the greater good of the region, their path to achieve it may differ.
<p>| | |</p>
<table>

**# PLEASE PROVIDE COMMENTS FOR THE STRUCTURE SECTION IN THE SPACE BELOW.**

1. There are written and unwritten rules and norms. These are generally very effective. Since this is a journey we have not reach a point where True is the correct answer for any of these. We are moving towards True.

2. The committees report to the larger Board of Directors at every meeting. The Finance and Budget Committee has a great working relationship and our leadership runs the meetings very efficiently. We take care of business and discuss issues or concerns an appropriate length of time before motions, seconds and votes. Motions are usually unanimous.

3. The meetings are held and effective format that moves the meeting forward.
VI. General Success reflects the perceived level of success achieved by the collaborative and assesses the extent to which members accomplished the objectives set out for the most recent performance period. The term objectives in this section refers to for example; Reduce VMT, Improve Air Quality, Reduce GHG, etc. as opposed to 'outcomes' that describe an end state or destination point. # PLEASE PROVIDE COMMENTS FOR THE COMMUNITY INVOLVEMENT & COLLABORATION SECTION IN THE SPACE BELOW.

1. This area has been and continues to be a learning experience for me. Where we are today is vastly different than the world of DRCOG I have watched or been part of for over four decades. I like how and where we are headed. Lots to do yet.

2. A specific example of this is the efforts to create the new sub-region transportation forums. This process will bring each of the cities and towns in the eight counties into a mini-DRCOG process that will require meaningful engagement of the partners. The leaders of these eight sub-region forums are being given an opportunity to demonstrate leadership and increase the level of collaboration.

# PLEASE PROVIDE COMMENTS FOR THE OUTCOMES SECTION IN THE SPACE BELOW.

1. There are no easy answers nor usually any single answer to the targeted outcomes comes we seek. DRCOG isn’t stuck in “we have always done it this way” but is seeking “how can we do this better”. That is the true road to achieving the desired outcome.

2. The role of DRCOG as the Area Agency on Aging is one example of the improved outcomes for the populations being served. This is very well organized and contracts with providers are productive or changed if needed.

3. It’s still too early to tell on if Outcomes are being achieved. Adding the awareness by having the outcomes regularly reviewed from staff to Board on status would be a good practice when enough information is available to create a trend on the performance measures of the underlying outcomes.

4. I am proud to have been privileged to be part of the journey!

5. The outcomes have been successful for all groups involved.
IX. Quality of Services assesses members’ perceptions about the level of improvement in the quality of services for the population served, in areas such as access to needed services, navigating the system of services, time to obtain services, etc. Our Collaborative...

# PLEASE PROVIDE COMMENTS FOR THE COSTS SECTION IN THE SPACE BELOW.

1. While we are in the DRCOG region and do seek collaborative efforts to lessen cost we also are in a political world that pulls in many directions and often does not see the “better” path to take. Again, we are first and foremost people dealing with people. We are not objects interacting with other objects.

2. There is no question that the AAA services provided through DRCOG to each of our home communities allows us to combine resources and “buy in bulk” for reduced costs of services. I think that we can always improve in sharing costs among jurisdictions.

3. The fee for service push to define other streams of revenue outside of the traditional funding sources - is refreshing and welcome. I don’t want quality of service on existing programs or collaboration with DRCOG and municipalities harmed in this process.

4. The group has worked to bring the process to a better process and reduce costs.

-------------|-------------------------|---------------|
September 19, 2018 | Informational Item | 16 |

SUBJECT
September administrative modifications to the 2018-2021 Transportation Improvement Program.

PROPOSED ACTION/RECOMMENDATIONS
No action requested. This item is for information.

ACTION BY OTHERS
N/A

SUMMARY
Per the DRCOG Board-adopted Policy on Transportation Improvement Program (TIP) Preparation, administrative modifications to the 2018-2021 TIP are reviewed and processed by staff. Administrative modifications represent revisions to TIP projects that do not require formal action by the DRCOG Board.

Once processed, the projects are posted on the DRCOG 2018-2021 TIP web page and emailed to the TIP Notification List, which includes members of the Regional Transportation Committee, the Transportation Advisory Committee, TIP project sponsors, staff of various federal and state agencies, and other interested parties.

The September 2018 administrative modifications are listed and described in the attachment. Highlighted items in the attachment depict project revisions.

1. 2018-2021 TIP Administrative Modifications (September 2018)

ADDITIONAL INFORMATION
If you need additional information, please contact Douglas W. Rex, Executive Director, at (303) 480-6701 or drex@drcog.org; or Todd Cottrell, Senior Transportation Planner, at (303) 480-6737 or tcottrell@drcog.org.
To: TIP Notification List
From: Douglas W. Rex, Executive Director
Subject: September 2018 Administrative Modifications to the 2018-2021 Transportation Improvement Program
Date: September 19, 2018

SUMMARY

- Per the Policy on Transportation Improvement Program (TIP) Preparation covering the 2018-2021 TIP, administrative modifications are reviewed and processed by staff. They are emailed to the TIP Notification List, and posted on the DRCOG 2018-2021 TIP web page.
- The TIP Notification List includes the members of the DRCOG Regional Transportation Committee and Transportation Advisory Committee, TIP project sponsors, staffs of various federal and state agencies, and other interested parties. The notification via email is sent when Administrative Modifications have been made to the 2018-2021 TIP. If you wish to be removed from the TIP Notification List, please contact Mark Northrop at (303) 480-6771 or via e-mail at mnorthrop@drcog.org.
- Administrative Modifications represent minor changes to TIP projects not defined as “regionally significant changes” for air quality conformity findings, or per CDOT definition.
- The projects included through this set of Administrative Modifications are listed below. The attached describes these modifications.

PROJECTS TO BE MODIFIED

- **2008-076**: Region 1 FASTER Pool
  - Add pool projects and remove funding
- **2012-121**: Region 4 Non-Regionally Significant RPP Pool
  - Add pool project and funding
- **2018-011**: Region 1 Permanent Water Quality Pool
  - Add pool project and funding
2008-076: Add seven new pool projects using unallocated pool funds. Remove funding in FY 2019 and transfer to TIP ID 2016-055, I-25: 120th Ave to SH-7 Managed Lanes (one part of a future amendment to that project beginning with September 24 TAC)

**Existing**

**Title:** Region 1 FASTER Pool  
**TIP-ID:** 2008-076  
**STIP-ID:** SR17002  
**Open to Public:***  
**Project Type:** Safety  
**Sponsor:** CDOT Region 1

**Pool Scope**

Pool contains safety-related improvements and upgrades based on the new FASTER-Safety funding program (Colorado Senate Bill 108) in CDOT Region 1.

**Affected County(ies):**
- Adams
- Arapahoe
- Broomfield
- Denver
- Douglas
- Jefferson

All pool project funding depicts federal and/or state funding only.

The Denver Regional Council of Governments (DRCOG) Area Agency on Aging is the place to be for help for older adults, people with disabilities, caregivers and their families. We’re dedicated to making sure you get connected to the resources you need to age well and independently. Network of Care is a free, comprehensive online resource to help you find assistance with a wide variety of topics and to access providers in your community - everything from transportation, housing, meals, health care and more.

The Network of Care library features:
- More than 30,000 health articles
- A comprehensive list of medications, with a photo library to help you identify medications
- Medical tests, with explanations of what to expect and how to prepare
- Information on support groups for different illnesses and diagnoses for individuals and their families
- Interactive tools to help you make smart decisions about your health
- A symptom checker by area of the body to learn possible causes of conditions

The Network of Care website can be translated into 54 different languages with a simple click. Use the “Large Print” function to make the site easier to read, or access the site with screen readers for low vision. You can also email or print health articles and provider listings directly from the site.

Sign up for the online Personal Health Record to keep health and advance directive information at no cost to you. This information is kept in a secure file that only you and your designees can access. The Personal Health Record feature proves especially helpful to families living long distances from each other who need to stay in touch about a loved one.
Free Carpool Program Helps Parents & Students Get Extra Sleep

ANDREA FLORES  I  CBS4
August 28

Parents are coming together to get their kids to school and cut down on traffic thanks to a free carpool program through Way to Go.

It’s the start of a new school year for Laura, a student at Denver School of the Arts. Her mom has to get her out the door on time.

Instead of catching the bus at 6:30 a.m., Laura and her mom, Wendy Folger, have opted to use Schoolpool.

“I don’t want to have to get up that early and spend most of my morning on a bus because of the extra routes we have to take,” Laura said.

Schoolpool is a carpool program through Way to Go, a division of the Denver Regional Council of Governments, that pairs up parents and students.

“Schoolpool shows you exactly where the other parents are so you don’t need to contact any parent that’s out of your way, you contact parents that are already on your route, and that live in your area,” Folger said.

Celeste Stragand with DRCOG says Schoolpool builds community and offers alternatives for busy families.

“It allows them to save money, share the responsibility, as well as reduces congestion,” Stragand said.

“It increases safety at drop off and pick up, and you’ve got less cars on the road.”

When it’s Wendy’s turn to take the wheel each week, she picks up three teenagers along her route. They buckle up, hit the road and share stories from summer vacation along the way.

“I know some of the carpool students from previous schools because they live in the neighborhood so it was a reconnection for us,” Laura said.

The teens usually pile out at their final stop. Laura says even though they go their separate ways, her tiny carpool community is better than the bus.

“It’s easier than being with strangers on a bus who you don’t know at all,” said Laura.

Way to Go organizers say last year Schoolpool reduced 10 million miles of travel. Folger says setting it up was simple, and she only has to drive carpool once a week.
As the University of Colorado prepares for the start of fall classes later this month, construction work continues across campus.

Construction is ongoing for a slate of big-ticket projects, and design work is ongoing for another slate of planned projects. Some of the ongoing and planned projects address CU's deferred maintenance backlog, which now totals $452.1 million for general-fund buildings. Other projects include entirely new buildings and large additions to existing buildings.

In the coming weeks, too, a CU department will launch a yearlong "visioning" process to set 30-year goals for campus facilities. Each college, school and program will be asked to provide their strategic plans to the planning, design and construction department, which will aggregate those plans and set a vision for the campus by next summer. The process also will be used to inform the next campus master plan, which will be completed in 2021.

"We're engaging with constituents across campus to understand their strategic plans, their vision for the next 15, 20, 30 years — 30 years at the outermost — and to really understand where we're going and be better prepared to meet those needs of the future," said Chris Ewing, the department's assistant vice chancellor, "so every decision we make today is in position to support the future."

19th Street bridge construction: Work is expected to start, tentatively, in 2019. The new bridge will cost an estimated $6 million — with 80 percent covered by the Denver Regional Council of Governments — and is expected to be completed some time in 2020. The bridge will provide another ADA accessible connection between the area north of Boulder Creek and the main campus. It will replace the old 19th Street bridge that was destroyed in the 2013 flood.
CAR-LESS in COLORADO

Ditching your auto in the metroplex is possible, and a wheel pain

STAFF  I  Aurora Sentinel

August 26

Hi. I’m Kara. And I’m a car-a-holic. I said it. I feel better. But you and your car know, I’m hardly alone here in the metro area. There are 1,035 buses, 172 light rail vehicles and 142 public transportation routes in metro Denver — according to the Denver Metro District — and yet each morning and afternoon the region’s major roadways fill with cars, many occupied by just a single person making the commute from their 9-to-5. Like me, you’re probably one of them.

In preparing for a week of being carless — which lasted about 2.75 days for me — I was confident living so close wouldn’t make things bad at all. Just under two miles from door to door. It takes me about five minutes on an average day. But firing up Google Maps proved that is not the case, and also I’m far more impatient than even I thought. Eighteen minutes by bus and 34 minutes if I would have walked. Neither of those commutes are terribly long, but they also don’t land me anywhere close to a coffee shop, which has embarrassingly become part of my morning routine.

I Uber’d my way home those two days for one major reason: I’m a bag lady. I often carry three bags — my work bag, my lunch bag and my handbag.

When I did consolidate, I’d forget something, like my press badge or business cards. I’m sure after that initial reorganizing things would become easier.

Winna MacLaren, a public relations coordinator for the Denver Regional Council of Governments, confirmed that for me. She said sometimes it just takes a little persuasion to get people to switch over from driving to taking public transportation. Like me, they don’t think they can do it until they do. I ended up enjoying walking to events close to my house that I wouldn’t have even considered were within walking distance even a week prior.

DRCOG, which partners with more than 50 regional government bodies in the nine counties in the metro Denver region, encourages people to eliminate driving alone as much as possible through its Way To Go program. The program’s website features tips and help for people looking to eliminate driving — such as a tracker that compares modes of transportation and connect with other people who are traveling the same route to make carpooling a better option.

For the month of October, companies big and small across the region compete with each other to not drive their work commute.

DRCOG’s main reason for getting people out of cars is to reduce traffic congestion in an effort to help the environment. As a major metro region government council, DRCOG is required to work to reduce carbon emissions — Go-Tober and Way To Go are part of that.
