SCI Gold Corridor Working Group – Meeting #5

October 1, 2013, 1:30 pm – 4:00 pm

Anne Campbell Room, Arvada City Hall, 8101 Ralston Road, Arvada.

Meeting Purpose: *Discuss the purpose and format of the public meeting, refine the Draft Corridor Vision and Goals, and discuss next steps for the Corridor-Wide Technical Assistance and Catalytic Site.*

Welcome, Introductions and Agenda Overview

Goal: Provide a recap of the last meeting, review the meeting summary, and review and modify the agenda as needed.

Overview of East Corridor Public Meeting

Goal: Ashley Kaade, DRCOG, and Jocelyn Hittle, PlaceMatters, will provide an overview of the purpose of the October 30th Gold Corridor public meeting, type of input to be solicited and any support needed from the CWG members.

Refine the Draft Vision and Goals

Goal: The group will refine the Draft Gold Corridor Vision and Goals. Questions may include:

- Do these goals reflect what you believe to be the priorities for the corridor?
- Are you missing any key components? Are there any components that are not as high of a priority and should be deleted?
- If progress is made on these goals in the next five years, do you feel like the Gold CWG would have done what you think it should be doing? Is this a realistic mandate?

Review Next Steps for Identifying a Catalytic Site and Corridor-Wide Technical Assistance

Goal: The group will share any initial priority opportunities and challenges for Corridor-Wide Technical Assistance to help Reconnecting America provide initial ideas at the November meeting. They will also review the template and schedule for providing Catalytic Site ideas. Resources are available to:

1. Develop baseline information to identify recommended implementation strategies or refine them; and
2. Conduct pre-development planning at the specific transformative “Catalytic Site”.

Review Action Items/ Next Steps
