Subject: Conformity Determination for the DRCOG 2050 RTP and 2022-2025 TIP  

Dear Mr. Rex:

In accordance with the Clean Air Act of 1990, as amended, and 23 CFR 450, the U.S. Department of Transportation (U.S. DOT) is required to make air quality conformity determinations of Regional Transportation Plans (RTP) and Transportation Improvement Programs (TIP) in non-attainment and maintenance areas. In Colorado, the Federal Highway Administration (FHWA) issues the conformity determination on behalf of the Federal Transit Administration (FTA) Region 8 office per the current Memorandum of Agreement for Transportation Planning Oversight (FHWA/FTA Transportation Planning MOA).

On April 21, 2021, the Denver Regional Council of Governments (DRCOG) adopted an air quality conformity determination for the Denver, Boulder, and Longmont urbanized areas for the 2050 Metro Vision Regional Transportation Plan (2050 RTP) and the 2022-2025 Transportation Improvement Program (TIP) in its capacity as the Metropolitan Planning Organization. The conformity determination also included the southern section of the Upper Front Range Transportation Planning Region (Upper Front Range TPR) 2045 RTP and the portion of the 2022-2025 State Transportation Improvement Program (STIP) within the southern portion of the Upper Front Range TPR. The 2050 RTP and 2022-2025 TIP are the fiscally constrained RTP and TIP for the DRCOG region.

Based on our evaluation of the DRCOG 2050 RTP and 2022-2025 TIP conformity determination, in coordination with the Environmental Protection Agency, the DRCOG, the North Front Range Metropolitan Planning Organization, the Colorado Air Quality Control Commission, the Regional Air Quality Council, and the Colorado Department of Transportation, we have determined the Denver, Boulder, and Longmont urbanized areas have met the requirements of 40 CFR 51 and 93, 23 CFR 450, and 49 CFR 613 along with FHWA/FTA policies and guidance. Furthermore, the DRCOG correctly followed the procedures of the 2008 DRCOG/NFRMPO 8-Hour Ozone MOA and the 2015 MOA for Transportation Conformity Evaluations.

A conformity determination for the DRCOG 2050 RTP and the DRCOG 2022-2025 TIP is hereby made. We are also making a conformity determination for the southern section of the Upper Front Range TPR 2045 RTP and projects included in the 2022-2025 STIP within the southern portion of the Upper Front Range TPR. The date of this letter is the effective date of
the conformity determination for the DRCOG 2050 RTP as well as the southern section of the Upper Front Range TPR 2045 RTP. The effective date for the DRCOG 2022-2025 TIP and the Upper Front Range portion of the 2022-2025 STIP is July 1, 2021. Our action is consistent with the FHWA/FTA Transportation Planning MOA.

Sincerely yours,

JOHN M CATER
