Roles and Responsibilities

DRCOG functions as a **Regional Planning Commission** per Colorado state statute and prepares the plan for the physical development of the region, known as Metro Vision. This long-range plan to manage growth within the region fully recognizes the importance of each community's local vision and aspirations and that its implementation depends on local action. Each DRCOG member government implements Metro Vision in ways that complement its local vision and plans.

DRCOG serves as the **Metropolitan Planning Organization** for the region. A metropolitan planning organization is a federally mandated and funded transportation policy-making organization. As such, it ensures existing and future expenditures of funds for transportation projects are based on a collaborative planning process involving local governments and major planning partners, such as the Colorado Department of Transportation and the Regional Transportation District.

DRCOG is the federally designated **Area Agency on Aging**. The Area Agency on Aging carries out programs pursuant to the Older Americans Act and Older Coloradans Act. In doing so, the Area Agency on Aging advocates for the rights of seniors in long-term care facilities and distributes funding for programs serving seniors, from transportation to meals.
