

Board update

Special meeting: Sept. 7, 2022

Public hearing

[2050 Metro Vision Regional Transportation Plan update and associated air quality conformity and greenhouse gas documents](#)

Presenters:

- Jacob Riger, long-range transportation planning manager, Transportation Planning and Operations
- Alvan-Bidal Sanchez, senior planner, Transportation Planning and Operations
- Kellsie Forfar-Jones, public engagement planner, Communications and Marketing

Background: DRCOG staff is updating the 2050 Metro Vision Regional Transportation Plan to demonstrate compliance with the state's new Greenhouse Gas Planning Standard, with which compliance is required by Oct. 1.

DRCOG staff presented on the draft updated plan during the public hearing, where 11 members of the public provided comment ahead of Board action.

Informational briefing

[Update on fiscal years 2022-2025 Transportation Improvement Program Air Quality/Multimodal Subregional Share forum recommendations](#)

Presenter: Todd Cottrell, manager, Transportation Planning and Operations

Summary: On May 2, DRCOG issued the second of four calls for projects (call No. 2, or the subregional share for the current fiscal years 2022-2025 TIP) to allocate \$463 million in available funds from federal fiscal years 2022-2027.

DRCOG staff and representatives from each subregion provided an update on the proposed funding decisions for TIP projects, which the Board will likely consider at the Sept. 21 meeting.
