CASOA
Community Assessment Survey for Older Adults ${ }^{\text {™ }}$

## NRC <br> National Research Center Inc

## Acknowledgement

The 2018 Community Assessment Survey for Older Adults ${ }^{\text {TM }}$ (CASOA) in Colorado was sponsored by the Colorado Association of Area Agencies on Aging (C4A) and funded by NextFifty Initiative.

The Colorado Association of Area Agencies on Aging (C4A) advocates for programs and services for older adults on behalf of the state's 16 Area Agencies on Aging (AAAs). The AAAs coordinate programs and services for the aging and disabled populations, ensuring those in need maintain a high quality of life.

NextFifty Initiative is an independent, Colorado-based, nonprofit organization, dedicated to funding mission-driven initiatives that improve community services for the elderly population and caregivers.

## Introduction

The Community Assessment Survey for Older Adults ( CASOA $^{\mathrm{TM}}$ ), administered by National Research Center, Inc., provides a statistically valid survey of the strengths and needs of older adults as reported by older adults themselves in communities across America. Used in conjunction with the CASOA Strategies and Resources Handbook (provided under separate cover), this report is intended to enable local governments, community-based organizations, the private sector and other community members to understand more thoroughly and predict more accurately the services and resources required to serve an aging population. With this report, Denver Regional Council of Governments Area Agency on Aging (DRCOG) stakeholders can shape public policy, educate the public and assist communities and organizations in their efforts to sustain a high quality of life for older adults. The objectives of the CASOA are to:

- Identify community strengths in serving older adults
- Articulate the specific needs of older adults in the community
- Estimate contributions made by older adults to the community
- Determine the connection of older adults to the community

The results of this exploration will provide useful information for planning and resource development as well as strengthen advocacy efforts and stakeholder engagement. The ultimate goal of the assessment is to create empowered communities that support vibrant older adult populations.
The CASOA questionnaire contains many questions related to the life of older residents in the counties served by DRCOG (Adams, Arapahoe, Clear Creek, Douglas, Gilpin, and Jefferson Counties, as well as the City and County of Broomfield and the City and County of Denver). Survey participants were asked to rate their overall quality of life, as well as aspects of quality of life in Denver Metro Region. They also evaluated characteristics of the community and gave their perceptions of safety. The questionnaire was used to assess the individual needs of older residents and involvement by respondents in the civic and economic life of the Denver Metro Region. This report provides the results for Gilpin County.

## Study Methods

The CASOA survey and its administration are standardized to assure high quality survey methods and comparable results across communities. Participating households with residents 60 years or older were selected at random and the household member who responded was selected without bias. Multiple mailings gave each household more than one prompt to participate with a self-addressed and postage-paid envelope to return the survey. Results were statistically weighted to reflect the proper demographic composition of older adults in the entire community.

The survey was mailed on May 7, 2018 to a random selection of 10,400 older adult households in DRCOG's service area. Older adult households were contacted three times about participation in the survey. A total of 1,246 completed surveys was obtained, providing an overall response rate of $12 \%$ and a margin of error of plus or minus $3 \%$ around any given percent and two points around any given average rating for the entire sample. A total of 178 completed surveys was received for Gilpin County for a response rate of $16 \%$ and a margin of error of plus or minus $7 \%$ around any given percent and four points around any given average rating for all Gilpin County respondents.
Since this was the third CASOA of Gilpin County older adults, the 2018 results are presented along with the prior results, when available. Differences between 2015 and 2018 can be considered "statistically significant" if they are 12 percentage points or greater than any given percent and seven points or greater than any given average rating. Trend data represent important comparisons and should be examined for improvements or declines.
For additional methodological information, refer to Appendix B: Survey Methodology.

Figure I: CASOA Methods and Goals

## Assessment Objectives

## Assessment Methods

- Identify community strengths and weaknesses
- Articulate the specific needs of older adults in the community
- Develop estimates and projections of resident need in the future
- Multi-contact mailed survey
- Random sample of households of residents aged 60+
- Data statistically weighted to reflect population

## Assessment Goals

## Immediate

- Useful information for:
- Planning
- Resource allocation and development
- Advocacy
- Engagement

## Intermediate

- Improved program mix
- Better quality programs
- More effective policies

In time, a community of

## elders that is

- More engaged
- More supportive
- More empowered
- More independent
- More vibrant

## Structure of CASOA Report

This report is based around six community dimensions (Figure 2):

- Overall Community Quality
- Community and Belonging
- Community Information
- Productive Activities
- Health and Wellness
- Community Design and Land Use

Each section discusses older adult ratings of the community, participation in activities and potential problems faced by older adults as related to each of the six dimensions. The final section of the report, Community Readiness, summarizes these dimensions as index scores and provides an overall picture of Gilpin County as a livable community for older adults.

CASOA ${ }^{\text {TM }}$ Report of Results

Figure 2: Community Dimensions Assessed through CASOA

"Don't Know" Responses and Rounding
On many of the questions in the survey, respondents could provide an answer of "don't know." The proportion of respondents giving this reply is shown in the full set of responses included in Appendix A: Complete Set of Survey Responses. However, these responses have been removed from the analyses presented in the body of the report, unless otherwise indicated. In other words, the majority of the tables and graphs in the body of the report display the responses from respondents who had an opinion about a specific item.
For some questions, respondents were permitted to select multiple responses. When the total exceeds $100 \%$ in a table for a multiple response question, it is because some respondents are counted in multiple categories. When a table for a question that only permitted a single response does not total to exactly $100 \%$, it is due to the customary practice of rounding percentages to the nearest whole number.

## Benchmark Comparison Data

NRC has developed a database that collates responses to CASOA and related surveys administered in other communities, which allows the results from DRCOG to be compared against a set of national benchmarks. This benchmarking database includes responses from more than 35,000 older adults (age 55 and over) in over 175 communities across the nation. The demographics of NRC's database match the demographics in the nation, based on the U.S. Census estimates.
Ratings are compared when similar questions are included in NRC's database, and there are at least five other communities in which the question was asked. Where comparisons for ratings were available, DRCOG's results are generally discussed in the report as being "higher" than the benchmark, "lower" than the benchmark or "similar" to the benchmark. In instances where ratings are considerably higher or lower than the benchmark, these ratings have been further demarcated by the attribute of "much," (for example, "much higher" or "much lower"). Detailed benchmark information can be found in Appendix C: Benchmark Comparisons.

## Key Findings

Not all older adults complain, nor does every community leave older adults raving about the quality of community life or the services available for active living and aging in place. Communities that assist older adults to remain or become active community participants provide the requisite opportunities for recreation, transportation, culture, education, communication, social connection, spiritual enrichment and health care.
Further, older adults, more than others, face difficulties with aspects of everyday life. For many older adults these difficulties vastly exceed the minor physical pains or small losses of function that characterize almost everyone's circumstances after a certain age. When individual problems are added together, a group picture emerges that provides a useful description of the entire community.

The results of this survey describe Gilpin County as a livable community for older adults within six community dimensions of Overall Community Quality, Community and Belonging, Community Information, Productive Activities, Health and Wellness and Community Design and Land Use. The extent to which older adults experience difficulties and problems within these dimensions is also described.

## Overall Community Quality

Overall Community Quality explores how older residents view the community overall, how connected they feel to the community and how well they can access information and services offered by DRCOG, as well as how likely residents are to recommend and remain in the community.

- Most of DRCOG's older residents gave high ratings to the community as a place to live.
- About two-thirds of older adults would recommend Gilpin County to others.
- Half of respondents had lived in the community for more than 20 years and almost $64 \%$ planned to stay in the community throughout their retirement. However, fewer older adults in 2018 compared to 2015 were likely to remain in the County throughout retirement.
- When compared to other communities across the nation, Gilpin County older residents tended to rate aspects of Overall Community similar or lower.

## Community and Belonging

A "community" is often greater than the sum of its parts, and having a sense of community entails not only a sense of membership and belonging, but also feelings of emotional and physical safety, trust in the other members of the community and a shared history. ${ }^{1}$ Older residents rated several aspects of Community and Belonging, including their sense of community and overall feelings of safety, as well as the extent to which they felt accepted and valued by others.

- Three-quarters of respondents reported "excellent" or "good" overall feelings of safety and between $4 \%$ and $23 \%$ had experienced safety problems related to being a victim of crime, abuse, fraud or discrimination.
- About 6 in 10 older residents rated the sense of community as "excellent" or "good"; similar ratings were provided for the Gilpin County's neighborliness and valuing of older residents.
- When compared to other communities in the U.S., older residents in Gilpin County provided similar ratings for aspects of Community and Belonging.

## Community Information

The education of a large community of older adults is not simple, but when more residents are made aware of attractive, useful and well-designed programs, more residents will benefit from becoming participants.

- About 6 in 10 survey respondents reported being "somewhat" or "very" informed about services and activities available to older adults, which was similar to reports from other communities in the U.S.
- About one-third or fewer older adults gave "excellent" or "good" ratings to the availability of information about older adult resources and financial or legal planning services.
- About half of respondents had problems knowing what services were available and feeling like their voice was heard in the community.
- About one-third reported having problems with finding meaningful volunteer work, a rate that was similar in Gilpin County than in other communities.
- The proportion of older adults having problems finding productive or meaningful activities and feeling like their voices are heard in the community has been trending down since 2010.

## Productive Activities

Productive activities such as traditional and non-traditional forms of work and maintenance of social ties combine with health and personal characteristics to promote quality of life in later life and contribute to active aging. ${ }^{2}$ Productive Activities examined the extent of older adults' engagement participation in social and leisure programs and their time spent attending or viewing civic meetings, volunteering or providing help to others.

- About three-quarters of elders felt they had "excellent" or "good" opportunities to volunteer, but only about $45 \%$ participated in some kind of volunteer work, a volunteer rate similar to other communities in the U.S.
- About one-quarter of respondents had used a senior center in the community, which was similar when compared to senior center use in other communities.
- About 5 in 10 seniors said that they had at least "minor" problems having interesting social events or activities to attend.
- The majority of older residents (77\%) rated the recreation opportunities in Gilpin County as "excellent" or "good"; participation in recreational and personal enrichment activities tended to be similar or lower in Gilpin County than in other communities. Use of a recreation center and public library has declined since 2010.
- About one-third of older residents in Gilpin County said they were caregivers; respondents averaged between 6 and 14 hours per week providing care for children, adults and older adults.
- About one in five older adults in Gilpin County felt physically, emotionally or financially burdened by their caregiving.
- About half of respondents were fully retired and close to half experienced at least minor problems with having enough money to meet daily expenses.
- The value of paid (part- and full-time work) and unpaid (volunteering, providing care) contributions by older adults in Gilpin County totaled about $\$ 40$ million in a 12 -month period.

## Health and Wellness

Of all the attributes of aging, health poses the greatest risk and the biggest opportunity for communities to ensure the independence and contributions of their aging populations. Health and wellness, for the purposes of this study, included not only physical and mental health, but issues of independent living and health care.

- Overall, the older adults in Gilpin County rated aspects of physical health similar to other communities in the U.S. including ratings of fitness opportunities and their own overall physical health. The availability of affordable physical health care was much lower than elsewhere.
- The portions of older residents reporting problems with doing heavy or intense housework (52\%) and maintaining their yards (38\%) was similar in Gilpin County than elsewhere in the country while staying physically fit (45\%) was lower.
- Only $6 \%$ of older residents felt there was "excellent" or "good" availability of mental health care in Gilpin County, but 9 in 10 rated their overall mental health/emotional well-being as "excellent" or "good."
- The most commonly cited mental health issues included feeling depressed (38\%) and dealing with loss ( $35 \%$ ), while the least cited issue was figuring out which medications to take and when (10\%); these mental health problems experienced by older adults tended to be similar to the problems experienced by older adults in other communities.
- Preventive health services were rated much lower than the services provided by Gilpin County's peers.
- Half of older adults reported at least minor problems finding affordable health insurance and having adequate information or dealing with public programs such as Social Security, Medicare and Medicaid. Older residents reported more problems with affording needed medications care in 2018 compared to 2015.
- One-quarter of respondents reported spending time in a hospital, and one-third had fallen and injured themselves in the 12 months prior to the survey. Falls and hospitalizations occurred at similar rates in Gilpin County than in other communities.
- Very few older residents rated the availability of long-term care ( $2 \%$ ) and daytime care ( $4 \%$ ) options as "excellent" or "good."
- About 3 in 10 of older adults reported at least minor problems with aspects of independent living, including $28 \%$ who reported having problems with performing regular activities, including walking, eating and preparing meals.

## Community Design and Land Use

The movement in America towards designing more "livable" communities - those with mixed-use neighborhoods, higher-density development, increased connections, shared community spaces and more human-scale design - will become a necessity for communities to age successfully. Communities that have planned for older adults tend to emphasize access - a community design that facilitates movement and participation.

- Respondents rated the ease of getting to the places they usually have to visit, ease of car travel and ease of walking most positively with at least 5 in 10 rating each as "excellent" or "good."
- Only $5 \%$ of respondents felt Gilpin County had "excellent" or "good" availability of affordable quality housing and variety of housing options.
- Some older adults experienced problems with having safe and affordable transportation available ( $41 \%$ ) while others experienced problems with having housing to suit their needs ( $24 \%$ ) or having enough food to eat ( $20 \%$ ). Generally, these problems tended to be more of an issue in 2018 compared to 2015. Daily living problems tended to be similar in Gilpin County when compared to other communities across the nation.
- Nine in 10 older residents rated their overall quality of life as "excellent" or "good", though Gilpin County's quality of life was rated similar to other communities in the U.S.

## CASOASurvey Results

## Overall Community Quality

The CASOA survey contained a number of questions related to the life of older residents in the community. This section of the report explores aspects of the overall quality of the community by examining how older residents view the community overall, how connected they feel to the community and how well they can access information and services offered by DRCOG. Survey participants rated the community as a place to live and to retire as well as the overall quality of services provided to older adults. As further testament to the quality of a community respondents indicated how likely they would be to not only recommend the community to other older adults but also how likely they would be to remain in the community throughout their retirement.
Most of Gilpin County's older residents gave high ratings to the community as a place to live. Services offered to older adults were considered "excellent" or "good" by half of older residents. Overall, about half of older adults said they would recommend the community to others and half of residents had lived in the area more than 20 years. Two-thirds of seniors planned to remain in the area throughout their retirement, though this was lower than what was reported in 2015. Generally, residents were less likely to rate these aspects of the community as "excellent" or "good" as other older adults across the nation (see Appendix C: Benchmark Comparisons for details).

Figure 3: Gilpin County as a Place for Older Residents

Percent rating positively (e.g. excellent or good, very or somewhat likely)

## Community and Belonging

A "community" is often greater than the sum of its parts, and having a sense of community entails not only a sense of membership and belonging, but also feelings of emotional and physical safety, trust in the other members of the community and a shared history. ${ }^{1}$ Older residents rated several aspects of Community and Belonging, including their sense of community and overall feelings of safety, as well as the extent to which they felt accepted and valued by others.
Overall, older residents rated Community and Belonging in Gilpin County positively. About 6 in 10 felt the community valued older residents and was open and accepting of diverse older residents. A small proportion of seniors reported problems with crime or abuse in the 12 months prior to the survey. When compared to other communities in the U.S., older residents in DRCOG's service area provided similar ratings for aspects of Community and Belonging (see Appendix C: Benchmark Comparisons for details).

Figure 4: Older Adult Ratings of Community and Belonging in Gilpin County

Percent rating positively (e.g. excellent or good, very or somewhat likely)
*Percent rating as at least a minor problem

## Community Information

Sometimes residents of any age fail to take advantage of services offered by a community just because they are not aware of the opportunities. The education of a large community of older adults is not simple, but when more residents are made aware of attractive, useful and well-designed programs, increasing numbers of residents will benefit from becoming participants. In Gilpin County, $64 \%$ of survey respondents reported being "somewhat" or "very" informed about services and activities available to older adults.

Older residents who may not know how to access services may have trouble finding ways to contribute to the community. In Gilpin County, about half had problems knowing what services were available. The proportion of older adults who had problems in these areas was generally lower than other communities across the country (see Appendix C: Benchmark Comparisons for details). The proportion of older adults having problems finding productive or meaningful activities and feeling like their voices are heard in the community has been trending down since 2010.

Figure 5: Community Information in Gilpin County

Percent rating positively (e.g. excellent or good, very or somewhat informed)
*Percent rating as at least a minor problem

## Productive Activities

Productivity is the touchstone of a thriving old age. Productive activities such as traditional and nontraditional forms of work and maintenance of social ties combine with health and personal characteristics to promote quality in later life and contribute to active aging. ${ }^{2}$ This section of the report examines the extent of older adults' engagement in Gilpin County as determined by their participation in social and leisure programs and their time spent attending or viewing civic meetings, volunteering and/or providing help to others. The economic value of these contributions to the community is explored as well.

## Civic Engagement

In communities where residents care about local politics and social conditions, where they feel engaged and effective, there is greater social, economic and cultural prosperity. Civic activity, whether volunteering, participating in religious or political groups or being active in community decision-making, not only provides benefit to communities but also serves seniors themselves, namely, civically engaged seniors are less likely to become injured or to die prematurely. ${ }^{3}$
In Gilpin County, a majority older residents rated the opportunities to volunteer favorably and about 45\% participated in some kind of volunteer work, a volunteer rate similar to other communities in the U.S.

Figure 6: Civic Engagement in Gilpin County

Percent rating positively (e.g. excellent or good)
*Percent at least once, ever or always or usually

## Social Engagement

Communities are the foundation for social life. Sociologist Eric Klinenberg describes communities as "the soil out of which social networks grow and develop or, alternatively, wither and devolve." ${ }^{4}$ DRCOG has a great potential to strengthen the community by fostering increased social engagement of its older residents.

About 6 in 10 older residents rated opportunities to attend social activities as "excellent" or "good" and a higher proportion rated opportunities to attend religious or spiritual activities this way. About 5 in 10 seniors said that they had at least "minor" problems having interesting social events or activities to attend. About 3 in 10 older residents engaged in religious or spiritual activities while 2 in 10 participated in clubs. Use of a senior center ( $26 \%$ of respondents), which can often serve as a social hub for many seniors was similar compared to senior center use in other communities (see Appendix C: Benchmark Comparisons).

Figure 7: Social Engagement in Gilpin County

Percent rating positively (e.g. excellent or good)
*Percent rating as at least a minor problem
**Percent at least once or ever

## Recreation

Once work becomes a part-time endeavor or thing of the past, residents have the time for and require the health benefits from regular leisure activities, including the stimulation derived from personal enrichment. Ample opportunities for these activities make a community more attractive to its residents. Most older residents in Gilpin County viewed recreation opportunities favorably, but fewer had positive ratings for opportunities to enroll in skill-building or personal enrichment classes.

Older residents were most likely have visited a neighborhood park and or recreation center and least likely to have participated in a recreation program or group activity. About 4 in 10 seniors said that they had at least "minor" problems with having interesting recreational or cultural activities to attend. Respondents tended to rate aspects of recreation as lower than or similar to other communities across the country (see Appendix C: Benchmark Comparisons for details). Use of a recreation center and public library has declined since 2010.

Figure 8: Recreational and Personal Enrichment in Gilpin County

Percent rating positively (e.g. excellent or good)
*Percent rating as at least a minor problem
**Percent at least once or ever

## Caregiving

More than 10 million people nationwide have disabling conditions that affect their ability to live independently ${ }^{5}$ and almost $80 \%$ of these residents are seniors. Those who provide care to a loved one or friend with such a condition often feel a sense of contribution and personal worth despite the physical, emotional and financial burden such care can produce. While care is most often provided by family members and is unpaid, its value has been estimated at $\$ 350$ billion annually. ${ }^{6}$

Overall, $35 \%$ older residents in Gilpin County said they were providing care for others (a decrease from prior years) and $18 \%$ were the recipients of care. Survey participants rated the extent to which they experienced physical strain, emotional stress or financial hardship as a result of being a caregiver. Generally, about one in five felt burdened by their caregiving responsibilities, providing about 6 to 14 hours of care each week on average.

Figure 9: Caregiving in Gilpin County

## Economic Contribution

Recent studies have estimated that $70-80 \%$ of those 45 and older plan to continue working in their "retirement" years for a number of reasons including financial stability, the enjoyment of work and the desire to try something new. ${ }^{7}$ About $48 \%$ of older residents were still working full- or part-time. For those respondents who had not retired, the average age of expected retirement was 73 years old.

Regardless of residents' work status, half experienced at least "minor" problems with having enough money to meet daily expenses. Further, about 4 in 10 had problems with finding work in retirement and slightly fewer had problems with building skills for paid or unpaid work. The proportions of older adults that had financial problems (paying daily expenses or property taxes) were similar or higher in Gilpin County than in other communities (see Appendix C: Benchmark Comparisons for details).

Figure 10: Employment in Gilpin County

Percent of respondents
Percent rating positively (e.g. excellent or good)
*Percent rating as at least a minor problem

Productive behavior is "any activity, paid or unpaid, that generates goods or services of economic value." ${ }^{2}$ Productive activities include both paid and unpaid work of many kinds as well as services to friends, family or neighbors. Older adults provide significant contributions (paid and unpaid) to the communities in which they live. In addition to their paid work, older adults contributed to Gilpin County's economy through volunteering, providing informal help to family and friends and caregiving. The value of these paid and unpaid contributions totaled nearly $\$ 40$ million in a $12-$ month period (see Appendix B: Survey Methodology for additional detail).

Figure I I: Economic Contribution of Older Adults in Gilpin County

## Health and Wellness

A growing senior population needs community supports to maintain the health and independence of its members. Health and wellness for the purposes of this study included not only physical and mental health, but issues of independent living and health care.

## Physical Health

Across Gilpin County, about 8 in 10 older residents felt they had good fitness opportunities (including exercise classes and paths or trails, etc.) but only $11 \%$ felt they had good access to quality physical health care (see Figure 12). Most older residents rated their overall physical health as "excellent" or "good" with many participating in some healthy activities such as eating fruits and vegetables (34\%) and exercising regularly (63\%).
Respondents reported the extent to which they had experienced problems with various physical healthrelated issues in the 12 months prior to the survey. The most commonly cited problems included physical health and doing heavy or intense housework. The proportions of older residents reporting physical health problems tended to be similar in Gilpin County than elsewhere (see Appendix C: Benchmark Comparisons).

Figure I2: Physical Health in Gilpin County

Percent rating positively (e.g. excellent or good)
*Percent rating as at least a minor problem
**Percent at least always or usually

## Mental Health

In addition to rating aspects of physical health, older residents provided insight into their mental health. Only $6 \%$ older residents felt there was "excellent" or "good" availability of mental health care in Gilpin County while 9 in 10 rated their overall mental health/emotional well-being as "excellent" or "good."

While few older adults reported poor emotional well-being, they still reported at least "minor" problems with some aspects of their mental health. The most commonly cited mental health issues included dealing with the loss of someone close and feeling depressed, while the least cited issue was figuring out which medications to take and when. The proportion of people experiencing these aspects of mental health in Gilpin County tended to be similar to other communities across the nation (see Appendix C: Benchmark Comparisons for details).

Figure 13: Mental Health in Gilpin County

Percent rating positively (e.g. excellent or good)
*Percent rating as at least a minor problem

## Health Care

About one-third of Gilpin County's older residents rated the availability of preventive health services favorably. Compared to other communities across the nation, elders rated the availability of preventive health services in Gilpin County much lower than the availability of these services found elsewhere (see Appendix C: Benchmark Comparisons for details).

The most commonly cited health care issues included finding affordable health insurance, getting needed health care and having adequate information or dealing with public programs such as Social Security, Medicare and Medicaid. About 4 in 10 Gilpin County older residents reported issues with getting needed care (i.e., health, oral and vision). Older residents reported more problems with affording needed medications care in 2018 compared to 2015.

Figure 14: Health Care in Gilpin County

Percent rating positively (e.g. excellent or good)
*Percent rating as at least a minor problem

## Independent Living

For those unable to live independently (either temporarily or permanently), having care options available could mean the difference between remaining in or leaving the community. Very few of Gilpin County's older residents rated the availability of long-term care and daytime care options favorably. About onequarter respondents reported spending time in a hospital, although $32 \%$ had fallen and injured themselves in the 12 months prior to the survey.

Overall, only about one-quarter of older adults reported at least "minor" problems with aspects of independent living. Notably, $28 \%$ reported having problems with performing regular activities, including walking, eating and preparing meals. Aspects of independent living tended to be similar in Gilpin County than in peer communities (see Appendix C: Benchmark Comparisons for details).

Figure 15: Independent Living in Gilpin County

Percent rating positively (e.g. excellent or good)
*Percent rating as at least a minor problem

## Community Design and Land Use

The movement in America towards designing more "livable" communities - those with mixed-use neighborhoods, higher-density development, increased connections, shared community spaces and more human-scale design - will become a necessity for communities to age successfully. Generally, communities that have planned for older adults tend to emphasize access and to facilitate movement and participation by locating services in or close to residences, providing convenient transportation alternatives and making walking routes attractive.
Ultimately, communities that have planned well by promoting mobility, independence and meaningful engagement of its older residents provide a high quality of life for their residents of all ages. In Gilpin County, most older residents (89\%) rated their overall quality of life as "excellent" or "good" (see Figure 16). Gilpin County's elders' quality of life was rated similar to other communities in the U.S. (see Appendix C: Benchmark Comparisons for details).

About $5 \%$ of older residents felt they had good access to affordable quality housing and $31 \%$ to affordable food; only $34 \%$ felt positively about the cost of living in the community. Generally, aspects of motorized transportation (ease of bus, car and public transportation) in Gilpin County received ratings lower than or similar to communities across the U.S., while aspects of housing (affordable quality and variety) were less favorable (see Appendix C: Benchmark Comparisons for details). About 1 in 10 survey respondents reported having used bus, rail, subway or other public transportation instead of driving.

Less than half of older adults experienced problems related to basic necessities of daily living including having safe and affordable transportation (41\%), having housing to suit their needs (24\%) or having enough food to eat ( $20 \%$ ). More respondents in 2018 compared to 2015 cited problems with having housing to suit their needs and having enough food to eat. Daily living problems tended to be similar in Gilpin County when compared to other communities across the nation (see Appendix C: Benchmark Comparisons for details).

Figure 16: Community Design and Land Use in Gilpin County

## Community Readiness

Communities that assist older adults to remain or become active community participants provide the requisite opportunities for recreation, transportation, culture, education, communication, social connection, spiritual enrichment and health care. It is not a package mix, so each community must identify what its older adults seek and what the community provides. The judgments of the residents for whom community planning takes place provide the elements of an equation that describes overall community quality in Gilpin County (Figure 17).
The following section of this report summarizes how older residents view Gilpin County as a community that creates a thriving environment for its older adults within the six community dimensions of Overall Community Quality, Community and Belonging, Community Information, Productive Activities, Health and Wellness and Community Design and Land Use.

Further, older adults, more than others, face difficulties with aspects of everyday life. For many older adults these difficulties vastly exceed the minor physical pains or small losses of function that characterize almost everyone's circumstances after a certain age. When individual problems are added together, a group picture emerges that provides a useful description of the entire community. Nationally, areas where older adults face the largest share of life's challenges include caregiving, health and mental health, in-home support, nutrition and food security and transportation. This study also explored specific problems or stressors encountered by older adults in DRCOG's service area, such as physical and emotional difficulties and injuries that have compromised their independence. Within the five community dimensions of Community and Belonging, Community Information, Productive Activities, Health and Wellness and Community Design and Land Use, the magnitude of these individual-level needs is presented (Figure 20), culminating in an exploration of high-risk populations (Figure 21).

## Opportunities and Challenges

Survey respondents were asked to rate a number of aspects of the community which were converted to an average scale of 0 (the lowest rating, e.g., "poor") to 100 (the highest rating, e.g., "excellent") and then combined to provide one overall rating (index ${ }^{1}$ ) for each of the six dimensions of Community Readiness. (For more information on how the summary scores were calculated see Appendix B: Survey Methodology.)
Summary scores provide a broad picture of the perceived fit between what DRCOG offered to older adults in Gilpin County and what older residents needed:

- Older residents felt their needs were best met in the areas of Community and Belonging, Overall Community Quality and Productive Activities
- Health and Wellness and Design and Land Use were rated least favorably
- Ratings of each of the dimensions of Community Readiness remained stable between 2015 and 2018 (see Figure 18)

Figure 17: Gilpin County Community Readiness Chart

Scale: $0=$ Lowest $/$ most negative, $100=$ Highest/most positive

[^0]Figure I8: Gilpin County Community Readiness by Year

Scale: $0=$ Lowest $/$ most negative, $100=$ Highest $/$ most positive

## Older Resident Needs in Gilpin County

Over 40 individual survey questions about specific problems faced by older community members, as well as participation levels and community engagement were summarized into 12 larger areas to provide a broad picture of older resident needs in Gilpin County. (Appendix B: Survey Methodology provides detailed information on the criteria used to identify respondents as having a need in a specific area.) These 12 areas have been organized into the five community dimensions of Community and Belonging, Community Information, Productive Activities, Health and Wellness and Community Design and Land Use (no needs areas have been defined for the community dimension of Overall Community Quality).
Typically, it is understood that the self-reported needs of older adults represent a minimum level, a conservative estimate attenuated by respondents' strong desire to feel and appear self-reliant and further reduced by the silent voice of some older adults who, no matter how sensitive the attempt, are too frail to participate in any survey enterprise. Nonetheless, clear patterns of needs and strengths emerged from this assessment:

- Older residents had the largest needs in the areas of civic engagement and physical health
- Very few reported needs related to caregiver burden
- Compared to 2015, needs were statistically similar in 2018 (see Figure 19)

Figure 19: Older Adult Needs in Gilpin County by Community Dimension by Year

While older residents reported the lowest prevalence of need in the areas of safety and caregiver burden, needs can be quite serious for those affected. Some needs, however rare, can have a particularly devastating impact on residents' quality of life (e.g., needing help transferring from bed to wheelchair or feeling unsafe), so it is important to consider both the prevalence of the need and its centrality to residents' sustained independence.

Figure 20: Older Resident Needs in Gilpin County

|  | Percent with need | Number affected in 2018 ( $\mathrm{N}=1,600)^{*}$ |
| :---: | :---: | :---: |
| COMMUNITY AND BELONGING |  |  |
| Safety | 24\% | 392 |
| PRODUCTIVE ACTIVITIES |  |  |
| Civic engagement | 65\% | 1,042 |
| Social engagement | 57\% | 913 |
| Recreation | 34\% | 552 |
| Caregiver burden | 6\% | 92 |
| Financial and legal | 43\% | 684 |
| COMMUNITY INFORMATION |  |  |
| Meaningful activities | 43\% | 691 |
| HEALTH AND WELLNESS |  |  |
| Physical health | 63\% | 1,002 |
| Mental health | 34\% | 545 |
| Health care | 44\% | 711 |
| Institutionalization risk | 28\% | 451 |
| COMMUNITY DESIGN AND LAND USE |  |  |
| Basic necessities | 31\% | 496 |

## Populations at High Risk

As people age, many learn to take better care of themselves, to plan for retirement and, generally, to move more deliberately. Aging builds wisdom but can sap resources - physical, emotional and financial. Even those blessed by good luck or those prescient enough to plan comprehensively for the best future may find themselves with unanticipated needs or with physical, emotional or financial strengths that could endure only with help. Some people age better than others and aging well requires certain strengths that are inherent and others that can be supported by assistance from the private sector and government. For older adults in Gilpin County, although needs were spread across the board, residents reporting the largest percent of unresolved needs were more likely to be age 60 to 74 , not white, report a lower income, rent their homes or live alone.

Figure 21: Needs of Older Population by Sociodemographic Characteristics, Percent and Number affected in 2018 ( $\mathrm{N}=1,600$ )*

|  | Community and Belonging |  | Productive Activities |  | Community Information |  | Health and Wellness |  | Community Design and Land Use |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

Responses to Custom Questions
```

In addition to the uniform questions on CASOA, DRCOG included its own unique questions on the survey to aid in planning, resource allocation and policy analysis. "Don't know" responses have been removed from the analysis for the following questions, when applicable.

Table I: Question 2 Custom Items

| Please rate each of the following characteristics as they relate to adults age 60 or older in <br> your community | Percent rating as excellent or <br> good |
| :--- | :---: |
| Availability of services at the senior center | $57 \%$ |
| Quality of senior nutrition programs | $48 \%$ |
| Accessibility of long term care options that are open and accepting toward people of <br> diverse backgrounds | $5 \%$ |
| Accessibility of daytime care options that are open and accepting toward people of <br> diverse backgrounds | $6 \%$ |

Table 2: Question 4 Custom Items

| In general, how informed or uninformed do you feel about the following? | Percent rating as very or somewhat informed |
| :--- | ---: |
| Long term care options (i.e. nursing homes, home care) | $29 \%$ |
| Information on planning for the future | $34 \%$ |

Table 3: Question 6 Custom Items

| Please rate each of the following characteristics as they relate to adults age 60 or <br> older in your community | Percent rating as at least a minor <br> problem |
| :--- | :---: |
| Having tooth or mouth problems | $37 \%$ |
| Feeling overwhelmed and/or exhausted when caring for another person | $19 \%$ |

Table 4: Question 15

| How frequently, if ever, do you do each of the following things on the Internet (using a <br> computer, tablet, cell phone, etc.)? | Percent rating as at <br> least monthly |
| :--- | :---: |
| Use email, texting or video to communicate | $88 \%$ |
| Research or study a topic of interest | $87 \%$ |
| Get the news or weather | $85 \%$ |
| If you have a question, use Internet to the find the answer | $85 \%$ |
| Shop, search for products and services | $81 \%$ |
| Banking online (paying bills, investing, etc.) | $72 \%$ |
| Find directions or look up a map | $69 \%$ |
| Look up health and medical information | $57 \%$ |
| Use social media (Facebook, Twitter, Linkedln) | $53 \%$ |
| Find info on community resources and events | $53 \%$ |
| Share opinions, post to a blog, review a product or service | $35 \%$ |
| Work from home | $25 \%$ |
| Engage in civic activities (participate in a discussion about community and government issues; | $24 \%$ |
| research information about an issue or a candidate) | $13 \%$ |
| Communicate with government (seek services, get a license, discuss a problem) | $12 \%$ |
| Attend an online class or training | $11 \%$ |
| Sell goods and services online, advertise |  |

Table 5: Question 16

| How comfortable, if at all, are you at each of the following? | Percent rating as very or somewhat comfortable |
| :--- | :---: |
| Using a computer laptop/desktop | $96 \%$ |
| Accessing the Internet | $95 \%$ |
| Using email | $95 \%$ |
| Locating information online (bus schedules, weather, news, etc.) | $95 \%$ |
| Using smartphone or tablet computer | $93 \%$ |
| Using social networking sites (Facebook, Twitter, etc.) | $82 \%$ |

Table 6: Question DI5

| Are you a grandparent raising a grandchild? | Percent of respondents |
| :--- | :---: |
| Yes | $9 \%$ |
| No | $91 \%$ |
| Total | $100 \%$ |

## Appendix A: Complete Set of Survey Responses

The following pages contain a complete set of responses to each question on the survey. The percent of respondents giving a particular response is shown followed by the number of respondents (denoted with " $\mathrm{N}=$ "). When respondents had the option to select "don't know" on a question, two tables are presented. The first shows the frequency of responses excluding "don't know" and the second shows the frequency including "don't know."

Table 7: Question I (excluding "don't know")

| Please circle the number that comes closest to your opinion for each of the following questions. | Excellent |  | Good |  | Fair |  | Poor |  | Total |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| How do you rate your community as a place to live? | 34\% | $N=57$ | 49\% | $N=82$ | 13\% | $N=21$ | 4\% | $\mathrm{N}=7$ | 100\% | $N=167$ |
| How do you rate your community as a place to retire? | 16\% | $N=26$ | 38\% | $N=62$ | 30\% | $N=48$ | 16\% | $N=27$ | 100\% | $N=163$ |

Table 8: Question I (including "don't know")

| Please circle the number that comes closest to your opinion for each of the following questions. | Excellent |  | Good |  | Fair |  | Poor |  | Don't know |  | Total |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| How do you rate your community as a place to live? | 34\% | $N=57$ | 49\% | $\mathrm{N}=82$ | 13\% | $N=21$ | 4\% | $\mathrm{N}=7$ | 0\% | $\mathrm{N}=0$ | 100\% | $N=167$ |
| How do you rate your community as a place to retire? | 16\% | $N=26$ | 37\% | $N=62$ | 29\% | $N=48$ | 16\% | $N=27$ | 2\% | $\mathrm{N}=4$ | 100\% | $N=167$ |

Table 9: Question 2 (excluding "don't know")

| Please rate each of the following characteristics as they relate to adults age 60 or older in your community: | Excellent |  | Good |  | Fair |  | Poor |  | Total |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

| Accessibility of daytime care options that are open and accepting toward people of diverse backgrounds | 0\% | $\mathrm{N}=1$ | 3\% | $N=5$ | 19\% | $N=32$ | 29\% | $N=49$ | 48\% | $\mathrm{N}=8 \mathrm{l}$ | 100\% | $N=167$ |

Table I I: Question 3 (excluding "don't know")

| How would you rate the overall services provided to adults age 60 and older in your community? | Percent | Number |
| :--- | :---: | :---: | :---: |
| Excellent | $\mathrm{N}=8$ |  |
| Good | $6 \%$ |  |
| Fair | $\mathrm{N}=57$ |  |
| Poor | $\mathrm{N}=42$ |  |
| Total | $\mathrm{N}=29$ |  |

Table I2: Question 3 (including "don't know")

| How would you rate the overall services provided to adults age 60 and older in your community? | Percent | Number |
| :---: | :---: | :---: |
| Excellent | 5\% | $\mathrm{N}=8$ |
| Good | 36\% | $N=57$ |
| Fair | 27\% | N=42 |
| Poor | 18\% | $\mathrm{N}=29$ |
| Don't know | 14\% | N=21 |
| Total | 100\% | $N=156$ |

Table I3: Question 4

| In general, how informed or uninformed do you feel about the following? | Very informed |  | Somewhat informed |  | Somewhat uninformed |  | Very uninformed |  | Total |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Services and activities available to adults age 60 and older in your community? | 21\% | $N=36$ | 43\% | $\mathrm{N}=72$ | 19\% | $\mathrm{N}=31$ | 17\% | $\mathrm{N}=29$ | 100\% | $N=168$ |
| Long term care options (i.e. nursing homes, home care) | 13\% | $N=23$ | 15\% | $N=26$ | 28\% | $N=48$ | 43\% | $N=72$ | 100\% | $N=168$ |
| Information on planning for the future | 14\% | $\mathrm{N}=23$ | 21\% | $\mathrm{N}=35$ | 32\% | $N=54$ | 33\% | $N=56$ | 100\% | $N=167$ |

Table 14: Question 5 (excluding "don't know")

| Please circle the number that comes closest to your opinion for each of the following questions. | Excellent |  | Good |  | Fair |  | Poor |  | Total |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| How do you rate your overall physical health? | 22\% | $N=37$ | 49\% | $N=82$ | 25\% | $N=43$ | 4\% | $\mathrm{N}=7$ | 100\% | $N=168$ |
| How do you rate your overall mental health/emotional well-being? | 34\% | $N=57$ | 57\% | $N=97$ | 8\% | $N=14$ | 0\% | $N=1$ | 100\% | $N=169$ |
| How do you rate your overall quality of life? | 34\% | $N=58$ | 54\% | $N=92$ | 8\% | $N=13$ | 4\% | $\mathrm{N}=6$ | 100\% | $N=169$ |

Table I5: Question 5 (including "don't know")

| Please circle the number that comes closest to your opinion for each of the following questions. | Excellent |  | Good |  | Fair |  | Poor |  | Don't know |  | Total |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| How do you rate your overall physical health? | 22\% | $\mathrm{N}=37$ | 49\% | $N=82$ | 25\% | $N=43$ | 4\% | $\mathrm{N}=7$ | 0\% | N=0 | 100\% | $N=168$ |
| How do you rate your overall mental health/emotional well-being? | 34\% | $N=57$ | 57\% | $N=97$ | 8\% | $N=14$ | 0\% | $N=1$ | 0\% | $\mathrm{N}=0$ | 100\% | $N=169$ |
| How do you rate your overall quality of life? | 34\% | $N=58$ | 54\% | $N=92$ | 8\% | $N=13$ | 4\% | $\mathrm{N}=6$ | 0\% | $\mathrm{N}=0$ | 100\% | $N=169$ |

Table 16: Question 6 (excluding "don't know")

| The following questions list a number of problems that older adults may or may not face. Thinking back over the last 12 months, how much of a problem, if at all, has each of the following been for you? | Not a problem |  | Minor problem |  | Moderate problem |  | Major problem |  | Total |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Having housing to suit your needs | 76\% | $N=127$ | 13\% | $N=21$ | 7\% | $N=12$ | 4\% | $\mathrm{N}=6$ | 100\% | $N=167$ |
| Your physical health | 39\% | $\mathrm{N}=65$ | 30\% | $N=50$ | 25\% | $\mathrm{N}=42$ | 6\% | $N=10$ | 100\% | $N=167$ |
| Performing regular activities, including walking, eating and preparing meals | 72\% | $N=121$ | 12\% | $\mathrm{N}=2 \mathrm{l}$ | 13\% | $\mathrm{N}=22$ | 3\% | $\mathrm{N}=5$ | 100\% | $N=168$ |

| The following questions list a number of problems that older adults may or may not face. Thinking back over the last 12 months, how much of a problem, if at all, has each of the following been for you? | Not a problem |  | Minor problem |  | Moderate problem |  | Major problem |  | Total |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Having enough food to eat | 80\% | $N=134$ | 10\% | $N=16$ | 8\% | $N=14$ | 2\% | $\mathrm{N}=3$ | 100\% | $N=166$ |
| Doing heavy or intense housework | 48\% | $\mathrm{N}=8 \mathrm{l}$ | 28\% | $N=47$ | 17\% | $N=28$ | 7\% | $N=11$ | 100\% | $N=168$ |
| Having safe and affordable transportation available | 59\% | $\mathrm{N}=96$ | 16\% | $N=27$ | 7\% | $\mathrm{N}=12$ | 17\% | $N=28$ | 100\% | $N=163$ |
| No longer being able to drive | 89\% | $N=140$ | 1\% | $\mathrm{N}=2$ | 3\% | $\mathrm{N}=4$ | 7\% | $\mathrm{N}=1 \mathrm{l}$ | 100\% | $N=157$ |
| Feeling depressed | 62\% | $N=103$ | 28\% | $N=46$ | 7\% | $N=11$ | 4\% | $\mathrm{N}=7$ | 100\% | $N=167$ |
| Experiencing confusion or forgetfulness | 75\% | $N=126$ | 21\% | $N=35$ | 4\% | $\mathrm{N}=6$ | 1\% | $\mathrm{N}=2$ | 100\% | $N=169$ |
| Maintaining your home | 60\% | $N=101$ | 31\% | $\mathrm{N}=5 \mathrm{l}$ | 7\% | $\mathrm{N}=1 \mathrm{l}$ | 3\% | $\mathrm{N}=5$ | 100\% | $N=168$ |

Table 18: Question 7

| Thinking back over the past 12 months, how many days did you spend in... | No days (zero) |  | One to two days |  | Three to five days |  | Six or more days |  | Total |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| A hospital | 75\% | $N=122$ | 8\% | $N=14$ | 13\% | $N=21$ | 4\% | $N=7$ | 100\% | $N=164$ |
| In a long-term care facility (including nursing home or in-patient rehabilitation) | 100\% | $N=161$ | 0\% | $\mathrm{N}=0$ | 0\% | $\mathrm{N}=0$ | 0\% | $\mathrm{N}=0$ | 100\% | $N=161$ |

Table 19: Question 8 (excluding "don't know")

| Thinking back over the past 12 months, how many times have you fallen and injured yourself? Was it... | Number |
| :--- | ---: | ---: | ---: | ---: |
| Never | $\mathrm{N}=\mathrm{II} 3$ |
| Once or twice | $\mathrm{N}=46$ |
| $3-5$ times | $\mathrm{N}=5$ |
| More than 5 times | $\mathrm{N}=2$ |
| Total | $\mathrm{N}=165$ |

Table 20: Question 8 (including "don't know")

| Thinking back over the past 12 months, how many times have you fallen and injured yourself? Was it... | Percent | Number |
| :---: | :---: | :---: |
| Never | 68\% | $\mathrm{N}=113$ |
| Once or twice | 27\% | $\mathrm{N}=46$ |
| 3-5 times | 3\% | $\mathrm{N}=5$ |
| More than 5 times | 1\% | $\mathrm{N}=2$ |
| Don't know | 0\% | $N=1$ |
| Total | 100\% | $N=166$ |

Table 2 I: Question 9 (excluding "don't know")

| How likely or unlikely are you to recommend living in your community to adults age 60 and older? | Percent | Number |
| :---: | :---: | :---: |
| Very likely | 12\% | $\mathrm{N}=14$ |
| Somewhat likely | 36\% | $N=40$ |
| Somewhat unlikely | 28\% | $N=31$ |
| Very unlikely | 23\% | $\mathrm{N}=25$ |
| Total | 100\% | $\mathrm{N}=1 \mathrm{ll}$ |

Table 22: Question 9 (including "don't know")

| How likely or unlikely are you to recommend living in your community to adults age 60 and older? | Percent | Number |
| :---: | :---: | :---: |
| Very likely | 11\% | $\mathrm{N}=14$ |
| Somewhat likely | 34\% | $\mathrm{N}=40$ |
| Somewhat unlikely | 26\% | $\mathrm{N}=3 \mathrm{l}$ |
| Very unlikely | 21\% | $\mathrm{N}=25$ |
| Don't know | 7\% | $\mathrm{N}=8$ |
| Total | 100\% | $\mathrm{N}=119$ |

Table 23: Question 10 (excluding "don't know")

| How likely or unlikely are you to remain in your community throughout your retirement? | Percent | Number |
| :--- | :---: | :---: |
| Very likely | $38 \%$ | $\mathrm{~N}=43$ |
| Somewhat likely | $26 \%$ | $\mathrm{~N}=30$ |
| Somewhat unlikely | $11 \%$ | $\mathrm{~N}=12$ |
| Very unlikely | $\mathrm{N}=30$ |  |
| Total | $10 \%$ | $\mathrm{~N}=116$ |

Table 24: Question 10 (including "don't know")

| How likely or unlikely are you to remain in your community throughout your retirement? | Percent | Number |
| :---: | :---: | :---: |
| Very likely | 36\% | $N=43$ |
| Somewhat likely | 25\% | $N=30$ |
| Somewhat unlikely | 10\% | $\mathrm{N}=12$ |
| Very unlikely | 25\% | $\mathrm{N}=30$ |
| Don't know | 4\% | $\mathrm{N}=5$ |
| Total | 100\% | $N=121$ |

Table 25: Question II

| In the last 12 month, about how many times, if ever, have you participated in or done each of the following? | 2 times a week or more |  | 2-4 times a month |  | Once a month or less |  | Not at all |  | Total |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Used a senior center in your community | 8\% | $N=13$ | 3\% | $\mathrm{N}=5$ | 15\% | $\mathrm{N}=25$ | 74\% | $\mathrm{N}=123$ | 100\% | $N=166$ |
| Used a recreation center in your community | 17\% | $\mathrm{N}=28$ | 9\% | $N=16$ | 24\% | $\mathrm{N}=39$ | 50\% | N=83 | 100\% | $N=166$ |
| Used a public library in your community | 8\% | $N=13$ | 12\% | $N=19$ | 24\% | $N=39$ | 56\% | N=92 | 100\% | $N=164$ |
| Used bus, rail, subway or other public transportation instead of driving | 1\% | $\mathrm{N}=2$ | 1\% | $\mathrm{N}=2$ | 8\% | $N=13$ | 89\% | $N=148$ | 100\% | $N=165$ |
| Visited a neighborhood park | 7\% | $N=11$ | 9\% | $N=14$ | 36\% | $N=58$ | 49\% | N=80 | 100\% | $N=163$ |
| Attended a local public meeting | 1\% | $\mathrm{N}=2$ | 14\% | $\mathrm{N}=23$ | 35\% | $N=58$ | 50\% | N=84 | 100\% | $N=166$ |
| Watched (online or on television) a local public meeting | 0\% | $\mathrm{N}=1$ | 1\% | $\mathrm{N}=2$ | 6\% | $N=10$ | 92\% | $N=152$ | 100\% | $N=165$ |

Table 26: Question 12 (excluding "don't know")

| During a typical week, how many hours do you spend providing care for one or more individuals with whom you have a significant relationship (such as spouse, other relative, partner, friend, neighbor or child), whether or not they live with you? | Never (no hours) |  | 1 to 3 hours |  | 4 to 5 hours |  | 6 to 10 hours |  | II to 20 hours |  | 20 or more hours |  | Total |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| One or more individuals age 60 or older | 78\% | $N=127$ | 10\% | $\mathrm{N}=17$ | 3\% | $\mathrm{N}=5$ | 1\% | $\mathrm{N}=2$ | 2\% | $\mathrm{N}=4$ | 5\% | $\mathrm{N}=8$ | 100\% | $N=162$ |
| One or more individuals age 18 to 59 | 85\% | $N=134$ | 9\% | $N=14$ | 2\% | $\mathrm{N}=3$ | 3\% | $N=5$ | 0\% | $\mathrm{N}=0$ | 1\% | $\mathrm{N}=2$ | 100\% | $N=158$ |
| One or more individuals under age 18 | 89\% | $N=142$ | 5\% | $\mathrm{N}=7$ | 0\% | $\mathrm{N}=1$ | $1 \%$ | $\mathrm{N}=2$ | 0\% | $\mathrm{N}=1$ | 4\% | $\mathrm{N}=6$ | 100\% | $N=159$ |

Table 27: Question 12 (including "don't know")

| During a typical week, how many hours do you spend providing care for one or more individuals with whom you have a significant relationship (such as spouse, other relative, partner, friend, neighbor or child), whether or not they live with you? | Never (no hours) |  | 1 to 3 hours |  | 4 to 5 hours |  | 6 to 10 hours |  | II to 20 hours |  | 20 or more hours |  | Don't know |  | Total |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| One or more individuals age 60 or older | 77\% | $N=127$ | 10\% | $\mathrm{N}=17$ | 3\% | $\mathrm{N}=5$ | 1\% | $\mathrm{N}=2$ | 2\% | $\mathrm{N}=4$ | 5\% | N=8 | 1\% | $\mathrm{N}=2$ | 100\% | $N=164$ |
| One or more individuals age 18 to 59 | 83\% | $N=134$ | 8\% | $N=14$ | 2\% | $\mathrm{N}=3$ | 3\% | $\mathrm{N}=5$ | 0\% | $\mathrm{N}=0$ | 1\% | $N=2$ | 2\% | $\mathrm{N}=3$ | 100\% | $N=161$ |
| One or more individuals under age 18 | 88\% | $N=142$ | 5\% | N=7 | 0\% | $\mathrm{N}=1$ | 1\% | $\mathrm{N}=2$ | 0\% | $\mathrm{N}=1$ | 4\% | $N=6$ | 2\% | $\mathrm{N}=3$ | 100\% | $N=161$ |

Table 28: Question I3 (excluding "don't know")

| During a typical week, how many hours, if any, do you spend doing the following? | Never (no hours) |  | 1 to 3 hours |  | 4 to 5 hours |  | 6 to 10 hours |  | II or more hours |  | Total |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Participating in a club (including book, dance, game and other social) | 77\% | $N=125$ | 12\% | $N=19$ | 4\% | $\mathrm{N}=7$ | 3\% | $\mathrm{N}=5$ | 4\% | $N=6$ | 100\% | $N=162$ |
| Participating in a civic group (including Elks, Kiwanis, Masons, etc.) | 86\% | $N=141$ | 12\% | $N=20$ | 1\% | $\mathrm{N}=2$ | 1\% | $\mathrm{N}=1$ | 0\% | $N=1$ | 100\% | $N=164$ |
| Communicating/visiting with friends and/or family | 3\% | $\mathrm{N}=5$ | 42\% | $N=69$ | 23\% | $N=37$ | 15\% | $N=24$ | 17\% | $\mathrm{N}=28$ | 100\% | $N=164$ |
| Participating in religious or spiritual activities with others | 73\% | $N=119$ | 15\% | $N=24$ | 5\% | $\mathrm{N}=8$ | 6\% | $N=10$ | 0\% | $N=1$ | 100\% | $N=162$ |
| Participating in a recreation program or group activity | 63\% | $N=103$ | 19\% | $N=31$ | 10\% | $N=16$ | 3\% | $\mathrm{N}=5$ | 6\% | $\mathrm{N}=9$ | 100\% | $N=164$ |
| Providing help to friends or relatives | 14\% | $N=22$ | 47\% | $N=76$ | 21\% | $\mathrm{N}=34$ | 8\% | $N=13$ | 10\% | $\mathrm{N}=15$ | 100\% | $N=160$ |
| Volunteering your time to some group/activity in your community | 55\% | $N=90$ | 23\% | $N=38$ | 11\% | $N=18$ | 8\% | $N=12$ | 3\% | $N=5$ | 100\% | $N=164$ |

Table 29: Question 13 (including "don't know")

| During a typical week, how many hours, if any, do you spend doing the following? | Never (no hours) |  | 1 to 3 hours |  | 4 to 5 hours |  | 6 to 10 hours |  | II or more hours |  | Don't know |  | Total |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Participating in a club (including book, dance, game and other social) | 76\% | $N=125$ | II\% | $N=19$ | 4\% | $\mathrm{N}=7$ | 3\% | $N=5$ | 4\% | $N=6$ | 2\% | $N=3$ | 100\% | $N=164$ |
| Participating in a civic group (including Elks, Kiwanis, Masons, etc.) | 85\% | $N=141$ | 12\% | $N=20$ | 1\% | $\mathrm{N}=2$ | 1\% | $N=1$ | 0\% | $\mathrm{N}=1$ | 1\% | $N=2$ | 100\% | $N=166$ |
| Communicating/visiting with friends and/or family | 3\% | $N=5$ | 42\% | $N=69$ | 23\% | $N=37$ | 15\% | $N=24$ | 17\% | $N=28$ | 1\% | $N=1$ | 100\% | $N=166$ |
| Participating in religious or spiritual activities with others | 72\% | $N=119$ | 15\% | $N=24$ | 5\% | $\mathrm{N}=8$ | 6\% | $N=10$ | 0\% | $\mathrm{N}=1$ | 2\% | $N=3$ | 100\% | $N=165$ |
| Participating in a recreation program or group activity | 62\% | $N=103$ | 18\% | $\mathrm{N}=31$ | 10\% | $N=16$ | 3\% | $\mathrm{N}=5$ | 6\% | $\mathrm{N}=9$ | 2\% | $\mathrm{N}=3$ | 100\% | $N=166$ |
| Providing help to friends or relatives | 13\% | $\mathrm{N}=22$ | 46\% | $N=76$ | 21\% | $N=34$ | 8\% | $N=13$ | 9\% | $N=15$ | 3\% | $N=5$ | 100\% | $N=165$ |
| Volunteering your time to some group/activity in your community | 54\% | $N=90$ | 23\% | $N=38$ | II\% | $N=18$ | 7\% | $N=12$ | 3\% | $\mathrm{N}=5$ | 2\% | $N=3$ | 100\% | $N=167$ |

Table 30: Question 14

| How often, if at all, do you do each of the following, considering all of the times you could? | Never |  | Rarely |  | Sometimes |  | Usually |  | Always |  | Total |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Eat at least 5 portions of fruits and vegetables a day | II\% | $\mathrm{N}=17$ | 33\% | $N=54$ | 23\% | $\mathrm{N}=38$ | 23\% | $\mathrm{N}=38$ | 11\% | $\mathrm{N}=17$ | 100\% | $N=165$ |
| Participate in moderate or vigorous physical activity | 1\% | $\mathrm{N}=2$ | 10\% | $N=16$ | 26\% | $N=43$ | 48\% | $N=79$ | 15\% | $\mathrm{N}=25$ | 100\% | $N=166$ |
| Receive assistance from someone almost every day | 82\% | $N=137$ | 14\% | $N=23$ | 2\% | $\mathrm{N}=3$ | 1\% | $\mathrm{N}=1$ | 1\% | $\mathrm{N}=2$ | 100\% | $N=166$ |
| Vote in local elections | 1\% | $\mathrm{N}=2$ | 3\% | $\mathrm{N}=5$ | 1\% | $\mathrm{N}=1$ | 18\% | $\mathrm{N}=29$ | 78\% | $\mathrm{N}=129$ | 100\% | $N=166$ |

| Total | 100\% | $N=166$ |

## Data Collection Methods

The Community Assessment Survey for Older Adults (CASOA) ${ }^{\mathrm{TM}}$, conducted by National Research Center, Inc., was developed to provide an accurate, affordable and easy way to assess and interpret the experience of older adults in the community. The CASOA ${ }^{\mathrm{TM}}$ survey instrument and its administration are standardized to assure high quality survey methods and comparable results across CASOA ${ }^{\text {TM }}$
communities. The $\mathrm{CASOA}^{\mathrm{TM}}$ was customized for Denver Regional Council of Governments Area Agency on Aging (DRCOG) to reflect the correct local age definition of older adults and so that the mailing materials used official DRCOG graphics, contact information and signatures. DRCOG, in association with the Colorado Association of Area Agencies on Aging (C4A) and with funding from NextFifty Initiative, sponsored this research. Please contact Jayla Sanchez-Warren of Denver Regional Council of Governments Area Agency on Aging at 303-445-1000 if you have any questions about the survey.

## Survey Development

The CASOA ${ }^{\mathrm{TM}}$ questionnaire contains many questions related to the life of older residents in the community. The instrument includes questions related to overall quality of life, characteristics of the community, perceptions of safety in the community and of 40 different needs common to older adults.
The questionnaire grew from a synthesis of a number of data collection processes including a national search of needs assessments conducted by communities across the United States, a review of the literature on aging and the conduct of numerous surveys and large scale needs assessments by NRC. A blue-ribbon panel of national experts contributed to the concept and content of CASOA ${ }^{\mathrm{TM}}$.
The items in the questionnaire were pilot tested on senior residents using a "think-aloud" method in which older adults were asked to complete the survey and describe their thought processes related to specific questions and question sets. The results of the pilot test were used to alter the questionnaire for better understanding by senior participants. The final questionnaire was tested in a set of diverse U.S. communities and modifications again were made as necessary. A copy of the survey materials can be found in Appendix E: Survey Materials.

## Selecting Survey Recipients

One of the first steps taken to ensure survey results are representative of the target population is to use a source from which you select survey recipients that provides adequate to good "coverage" of the target population. This source is referred to as the "sampling frame" in survey research lingo.
The target population for this survey was residents in households age 60 years or older within DRCOG's service area. Since it is cost prohibitive to survey every person age 60 years or older in Gilpin County, a random selection of records from the sampling frame was made. An example that may be familiar from a math or statistics class is the jar or bowl of marbles of various colors. If the jar has two-thirds red marbles and one-third blue marbles, a random selection of marbles from that jars should result in a similar proportion (although perhaps not identical) of red and blue marbles as in the original jar.

The sampling frame used for this survey was a list of households with a high likelihood of having a resident age 60 years or older within DRCOG's service area from Go-Dog Direct. These lists to do not provide complete coverage of all members of the target population, but do provide a fairly complete coverage. The lists provided by Go-Dog Direct cannot be mapped directly to political boundaries such as municipalities or counties, but to United States Postal Service (USPS) boundaries such as zip codes or carrier routes. To ensure all eligible households are included, they randomly selected households from their entire list for the target population for all the zip codes that contain even a part of the study
boundaries. They provided a greater number of households than needed so that a process referred to as "geocoding" could be used to eliminate addresses from the list that were outside the study boundaries. Geocoding is a computerized process in which addresses are compared to electronically mapped boundaries and coded as inside or outside desired boundaries. All addresses determined to be outside the study boundaries were eliminated from the list. A stratified, systematic sampling method was used with the remaining addresses to create a mailing list of older adult households with a surveys being sent to each county within the agency's service area (see Figure 22 and Table 49). Systematic sampling is a procedure whereby a complete list of all possible households is culled, selecting every Nth one, giving each eligible household a known probability of selection, until the appropriate number of households is selected.

Although the purchased list of known senior households contained names of the residents 60 years and older, no name was printed on the survey envelope; instead, the survey was addressed to "Resident." In order to select a random individual 60 years of age and older within the household, the cover letter requested that the questionnaire be given to the person 60 years of age and older who most recently celebrated their birthday (regardless of year of birth) to complete. The underlying assumption in this method is that day of birth has no relationship to the way people respond to surveys. This instruction was contained in the cover letter accompanying the questionnaire.

Figure 22: Location of Survey Recipients

## Survey Administration and Response

Each sampled household received three mailings, about one week apart, beginning May 7, 2018. The first mailing was a prenotification postcard announcing the upcoming survey. The next mailing contained a letter from the AAA director inviting the household to participate, a questionnaire and a postage-paid return envelope. The final mailing contained a reminder letter, another survey and a postage-paid return envelope. The second cover letter asked those who had not completed the survey to do so and those who had already done so to refrain from turning in another survey. The cover letter included URL, which allowed respondents to complete the survey online if they preferred. The survey was available in English and Spanish (online only). Completed surveys were collected over the following six weeks.

About $3 \%$ of the 10,400 surveys mailed were returned because the housing unit was vacant or the postal service was unable to deliver the survey as addressed. Of the remaining households that received the survey, 1,246 completed the survey, providing an overall response rate of $12 \%$. Of the 1,246 completed surveys, 65 were completed online and none were completed in Spanish. Additionally, responses were tracked by county and are displayed in the table below. For Gilpin County, $6 \%$ of the 1,200 surveys mailed were returned because the housing unit was vacant or the postal service was unable to deliver the survey as addressed. Of the remaining households that received the survey, 178 completed the survey, providing an overall response rate of $16 \%$. Of the 178 completed surveys, eight were completed online and zero were completed in Spanish.
The response rates were calculated using AAPOR's response rate $\# 2^{2}$ for mailed surveys of unnamed persons.

Table 49: Survey Response Rate

|  |  |  |  |  |  | $\begin{aligned} & \text { d } \\ & \vdots \\ & 0 \\ & 0 \\ & 0 \\ & \frac{0}{00} \\ & \stackrel{0}{0} \end{aligned}$ |  |  |  |

[^2]
## Confidence Intervals

It is customary to describe the precision of estimates made from surveys by a "level of confidence" and accompanying "confidence interval" (or margin of error). A traditional level of confidence, and the one used here, is $95 \%$. The $95 \%$ confidence interval can be any size and quantifies the sampling error or imprecision of the survey results because some residents' opinions are relied on to estimate all residents' opinions. ${ }^{3}$

The margin of error for the DRCOG survey report is no greater than plus or minus $3 \%$ around any given percent and two points around any given average rating reported for all respondents ( 1,246 completed surveys). The a margin of error for this survey report for Gilpin County is no greater than plus or minus $7 \%$ around any given percent and four points around any given average rating for all respondents (178 completed surveys).
For subgroups of responses, the margin of error increases because the number of respondents for the subgroup is smaller. For subgroups of approximately 100 respondents, the margin of error is plus or minus 10 percentage points.

## Survey Processing (Data Entry)

Upon receipt, completed surveys were assigned a unique identification number. Additionally, each survey was reviewed and "cleaned" as necessary. For example, a question may have asked a respondent to pick two items out of a list of five, but the respondent checked three; in this case, NRC would use protocols to randomly choose two of the three selected items for inclusion in the dataset.
All surveys then were entered twice into an electronic dataset; any discrepancies were resolved in comparison to the original survey form. Range checks as well as other forms of quality control were also performed.
NRC used Qualtrics, a web-based survey and analytics platform, to collect the online survey data. Use of an online system means all collected data are entered into the dataset when the respondents submit the surveys. Skip patterns are programmed into system so respondents are automatically "skipped" to the appropriate question based on the individual responses being given. Online programming also allows for more rigid control of the data format, making extensive data cleaning unnecessary.
A series of quality control checks were also performed in order to ensure the integrity of the web data. Steps may include and not be limited to reviewing the data for clusters of repeat IP addresses and time stamps (indicating duplicate responses) and removing empty submissions (questionnaires submitted with no questions answered).

## Survey Data Weighting

The primary objective of weighting survey data is to make the survey sample reflective of the larger population of the study area. This is done by: 1) reviewing the sample demographics and comparing them to the population norms from the most recent Census or other sources and 2) comparing the responses to different questions for demographic subgroups. The demographic characteristics that are least similar to the Census and yield the most different results are the best candidates for data weighting. Several different weighting "schemes" are tested to ensure the best fit for the data. The characteristics used for

[^3]weighting were tenure, housing unit, race, ethnicity, sex and age. No adjustments were made for design effects. The results of the weighting scheme are presented in the following table.

Table 53: Weighting Scheme

|  | Population norm* | Unweighted | Weighted |
| :---: | :---: | :---: | :---: |
| Housing** |  |  |  |
| Own | 80\% | 83\% | 81\% |
| Rent | 20\% | 17\% | 19\% |
| Attached | II\% | 12\% | 12\% |
| Detached | 89\% | 88\% | 88\% |
| Race and ethnicity** |  |  |  |
| White | 92\% | 89\% | 91\% |
| Not white | 8\% | 11\% | 9\% |
| Hispanic | 16\% | 11\% | 11\% |
| Not Hispanic | 84\% | 89\% | 89\% |
| Sex and Age |  |  |  |
| Female | 48\% | 48\% | 47\% |
| Male | 52\% | 52\% | 53\% |
| 60 to 64 years | 50\% | 45\% | 47\% |
| 65 to 74 years | 41\% | 45\% | 44\% |
| 75 or over | 9\% | 10\% | 10\% |
| Female 60 to 64 | 22\% | 18\% | 25\% |
| Female 65 to 74 | 20\% | 22\% | 19\% |
| Female 75+ | 6\% | 7\% | 2\% |
| Male 60 to 64 years | 28\% | 27\% | 22\% |
| Male 65 to 74 years | 21\% | 23\% | 25\% |
| Male 75+ | 3\% | 3\% | 7\% |

## Survey Data Analysis and Reporting

The survey dataset was analyzed using the Statistical Package for the Social Sciences (SPSS). For the most part, the percentages presented in the reports represent the "percent positive." The percent positive is the combination of the top two most positive response options (i.e., "excellent" and "good," "very safe" and "somewhat safe," "essential" and "very important," etc.), or, in the case of resident behaviors/participation, the percent positive represents the proportion of respondents indicating "yes" or participating in an activity at least once a month.
On many of the questions in the survey respondents may answer "don't know." The proportion of respondents giving this reply is shown in the full set of responses included in Appendix B: Complete Set of Survey Frequencies. However, these responses have been removed from the analyses presented in the reports. In other words, the tables and graphs display the responses from respondents who had an opinion about a specific item.
A variety of analyses were presented in the body of the report. The following sections summarize how these analyses were conducted or scores calculated.

## Estimates of the Contribution of Older Adults to the Economy

The calculations of the economic contributions of older adults in DRCOG's service area were rough estimates using data from the U.S. Department of Labor Bureau of Labor Statistics (Metropolitan and Nonmetropolitan Area Occupational Employment and Wage Estimates).

Table 50: Contribution of Older Adults to the Economy

|  | Percent of <br> older adults | Number of <br> older adults | Average number <br> of hours* | Average <br> hourly rate** | Annual total |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
| Providing care to older adult(s) | $22 \%$ | 345 | 10.2 | $\$ 12.26$ | $\$ 2, I 24,714$ |  |
| Providing care to adult(s) | $15 \%$ | 243 | 6.3 | $\$ 12.26$ | $\$ 906, I 70$ |  |
| Providing care to child(ren) | $11 \%$ | 171 | 13.5 | $\$ 13.43$ | $\$ 1,497,290$ |  |
| Providing help to family and friends | $86 \%$ | 1,378 | 4.5 | $\$ 14.10$ | $\$ 4,253,186$ |  |
| Volunteering | $45 \%$ | 718 |  | 4.5 | $\$ 19.71$ | $\$ 3,157,537$ |
| Subtotal unpaid |  |  |  |  |  | $\$ 11,938,898$ |
| Working part time | $18 \%$ | 295 |  | 15.0 | $\$ 27.60$ | $\$ 6,130,908$ |
| Working full time | $30 \%$ | 481 |  | 32.0 | $\$ 27.60$ | $\$ 21,349,717$ |
| Subtotal paid |  |  |  |  |  | $\$ 27,480,625$ |
| Total contribution |  |  |  |  |  | $\$ 39,419,523$ |

${ }^{11}$ Based on Colorado State Demography Office, Single Year of Age Data 1990-2050.

* Respondents were asked to select a range of hours. The average number of hours was calculated from the mid-point of the response scale. For example, a response of "I to 3 hours" equated to 2 hours and a response of "never" was assumed to be zero hours. In cases where the respondent chose a response that indicated "II or more hours" or "20 or more hours", the number of hours was calculated as $125 \%$ of II and I25\% of 20 (i.e., 13.75 and 25 respectively). Working full time was assumed to be 32 hours per week and working part time was assumed to be 15 hours per week.
**The economic value of an hour worked was assumed to be the same as the average hourly wage as calculated by the Bureau of Labor statistics for similar types of work in the Denver-Aurora-Lakewood, CO MSA. Providing care for older adults and adults was assumed to be the equivalent of "Personal and Home Care Aides." Providing care for children was assumed to be the equivalent of "Child Care Workers." Providing help to family and friends was assumed to be the equivalent of "Personal Care and Service Occupations." Volunteering was assumed to be the equivalent of "Office Clerks, General." Working full time and part time was assumed to be the equivalent of "All Occupations."

The proportion of older adults who work was estimated by examining the responses to question D7 from the survey ("What is your employment status?"). Those working full-time were assumed to work 32 hours per week and those working part-time were assumed to work 15 hours per week. The proportion of survey respondents was multiplied by the number of adults 60 and over in the community to ascertain the number of employed older adults. To determine the average paid wage, information from the Bureau of Labor Statistics for the Denver-Aurora-Lakewood, CO MSA was examined. Working full-time and parttime was assumed to be the equivalent of "All Occupations" (occupation code 00-0000).
The proportion of older adults doing volunteer work and providing help to friends and neighbors was determined by looking at the responses to question 12 ("During a typical week, how many hours, if any, do you spend doing the following?"), items f ("providing help to family and friends") and g ("volunteering your time to some group/activity"). Those responding " 1 to 3 hours" were assumed to spend two hours, " 4 to 5 hours" were assumed to spend 4.5 hours, those responding " 6 to 10 hours" were assumed to spend eight hours, and those responding " 11 or more hours" were assumed to spend 13.75 hours ( $125 \%$ of 11 ). To determine the average hourly wage, "providing help to family and friends" was assumed to be the equivalent of "Personal Care and Service Workers, All Other" (occupation code 39-9099) and volunteering was assumed to be the equivalent of "Office Clerks, General" (occupation code 43-9061).
The proportion of older adults providing care to family and friends was determined by examining the responses to question 12. Those responding " 1 to 3 hours" were assumed to spend two hours, " 4 to 5 hours" were assumed to spend 4.5 hours, those responding " 6 to 10 hours" were assumed to spend eight
hours, and those responding " 11 to 19 hours" were assumed to spend 15 hours and those responding " 20 or more hours" were assumed to spend 25 hours ( $125 \%$ of 20 ). To determine the average hourly wage, "providing care for older adults and adults" (items a and b) were assumed to be the equivalent of "Personal and Home Care Aides" (occupation code 39-9021) and "providing care for children" (item c) was assumed to be the equivalent of "Child Care Workers" (occupation code 39-9011).

## Community Summary Scores

The community score presented in the body of the report represents the average of the questions included in the index. Although the evaluative or frequency questions were made on 4 - or 5 - point scales with 1 representing the best rating, the scales had different labels (e.g., "excellent," "not a problem," "very likely"). To calculate these average scores, the questions used in the index were converted to a common scale where 0 is the worst possible rating and 100 is the best possible rating. If everyone reported "excellent," then the result would be 100 on the $0-100$ scale. If the average rating for quality of life was right in the middle of the scale (half way between "good" and "fair"), then the result would be 50. The new scale can be thought of like the thermometer used to represent total giving to United Way. The higher the thermometer reading, the closer to the goal of 100 - in this case, the most positive response possible. The table below shows the individual questions comprising each summary score.

| Index | Individual Variables Used in Index |
| :---: | :---: |
| Quality of Community | How do you rate your community as a place to live? |
|  | How do you rate your community as a place to retire? |
|  | How would you rate the overall services provided to older adults in your community? |
|  | Recommend living in your community to older adults |
|  | Remain in your community throughout your retirement |
| Community and Belonging | Sense of community |
|  | Openness and acceptance of the community towards older residents of diverse backgrounds |
|  | Overall feeling of safety in your community |
|  | Valuing older residents in your community |
|  | Neighborliness of your community |
| Community Information | Availability of information about resources for older adults |
|  | Availability of financial and legal planning services |
|  | In general, how informed or uninformed do you feel about services and activities available to older adults in your community? |
| Opportunities for Productive Activities | Opportunities to volunteer |
|  | Employment opportunities |
|  | Opportunities to enroll in skill-building or personal enrichment classes |
|  | Recreation opportunities (including games, arts and library services, etc.) |
|  | Opportunities to attend social events or activities |
|  | Opportunities to attend religious or spiritual activities |
|  | Opportunities to attend or participate in meetings about local government or community matters |
| Health and Wellness Opportunities | Fitness opportunities (including exercise classes and paths or trails, etc.) |
|  | Availability of long-term care options |
|  | Availability of daytime care options for older adults |
|  | Availability of affordable quality physical health care |
|  | Availability of affordable quality mental health care |
|  | Availability of preventive health services (e.g., health screenings, flu shots, educational workshops) |

| Index | Individual Variables Used in Index |
| :--- | :--- |
| Community Design and Land <br> Use | Availability of affordable quality housing |
|  | Variety of housing options |
|  | Availability of affordable quality food |
|  | Ease of travel by public transportation in your community |
|  | Ease of car travel in your community |
|  | Ease of walking in your community |
|  | Ease of getting to the places you usually have to visit |
|  | Cost of living in your community |

## Needs Summary Scores

The needs summary scores (indices) are based on the response patterns of older adults in the community. The table below contains each question included in the index and the required response to that question. So, for example, if a respondent indicated that her overall physical health (q5a) was "fair," she would be counted as having a physical health issue along with other respondents who may have noted that they had a moderate or major problem with falling or maintaining a healthy diet, etc. Respondents with many physical health problems are counted only once in this category so that the total percent shown in the report graph represents the percent of older adults with at least one physical problem.

| Index | Individual Variables Used in Index | Required Rating |
| :---: | :---: | :---: |
| Safety | Must have at least one of the following: |  |
|  | - Being a victim of crime | Moderate or major problem |
|  | - Being a victim of fraud or a scam | Moderate or major problem |
|  | - Being physically or emotionally abused | Moderate or major problem |
|  | - Being treated unfairly or discriminated against because of your age | Moderate or major problem |
| Civic engagement | Must |  |
|  | - Vote in local elections | Never or rarely |
|  | Or |  |
|  | - Participating in a civic group (including Elks, Kiwanis, Masons, etc.) and Volunteering your time to some group/activity in your community | Never (no hours) |
|  | Or |  |
|  | - Attended local public meeting and Watched (online or on television) a local public meeting | Not at all |
| Social engagement | Must have: |  |
|  | - Having interesting social events or activities to attend | Moderate or major problem |
|  | Or all of the following: |  |
|  | - Used a senior center in your community | Not at all |
|  | - Participating in a club (including book, dance, game and other social) | Never (no hours) |
|  | - Participating in religious or spiritual activities with others | Never (no hours) |
| Recreation | Must have q6(b)c: |  |
|  | - Having interesting recreational or cultural activities to attend | Moderate or major problem |
|  | Or all of the following: |  |
|  | - Used a recreation center in your community | Not at all |
|  | - Used a public library in your community | Not at all |
|  | - Visited a neighborhood park | Not at all |

| Index | Individual Variables Used in Index | Required Rating |
| :---: | :---: | :---: |
|  | - Participating in a recreation program or group activity | Never (no hours) |
| Caregiver burden | Must have: |  |
|  | - Feeling physically burdened by providing care for another person | Moderate or major problem |
|  | - Feeling emotionally burdened by providing care for another person | Moderate or major problem |
|  | - Feeling financially burdened by providing care for another person | Moderate or major problem |
| Financial and legal | Must have at least one of the following: |  |
|  | - [Ratio] How much do you anticipate your household's total income before taxes will be for the current year? (Please include in your total income money from all sources for all persons living in your household.) / How many people, including yourself, live in your household? | Income was at or below the income limits set by HUD for Section 8 programs |
|  | - Having enough money to meet daily expenses | Moderate or major problem |
|  | - Having enough money to pay your property taxes | Moderate or major problem |
|  | - Dealing with legal issues | Moderate or major problem |
|  | - Finding work in retirement | Moderate or major problem |
|  | - Building skills for paid or unpaid work | Moderate or major problem |
|  | - Dealing with financial planning issues | Moderate or major problem |
| Meaningful activities | Must have at least one of the following: |  |
|  | - Finding productive or meaningful activities to do | Moderate or major problem |
|  | - Feeling like your voice is heard in the community | Moderate or major problem |
|  | - Finding meaningful volunteer work | Moderate or major problem |
|  | - Not knowing what services are available to older adults in your community | Moderate or major problem |
| Physical health | Must have at least one of the following: |  |
|  | - How do you rate your overall physical health? | Fair or poor |
|  | - Your physical health | Moderate or major problem |
|  | - Doing heavy or intense housework | Moderate or major problem |
|  | - Maintaining your home | Moderate or major problem |
|  | - Maintaining your yard | Moderate or major problem |
|  | - Staying physically fit | Moderate or major problem |
|  | - Maintaining a healthy diet | Moderate or major problem |
|  | - Eat at least 5 portions of fruits and vegetables a day | Never or rarely |
|  | - Participate in moderate or vigorous physical activity | Never or rarely |
| Mental health | Must have at least one of the following: |  |
|  | - How do you rate your overall mental health/emotional wellbeing? | Fair or poor |
|  | - Feeling depressed | Moderate or major problem |
|  | - Experiencing confusion or forgetfulness | Moderate or major problem |
|  | - Having friends or family you can rely on | Moderate or major problem |
|  | - Figuring out which medications to take and when | Moderate or major problem |
|  | - Feeling bored | Moderate or major problem |
|  | - Feeling lonely or isolated | Moderate or major problem |
|  | - Dealing with the loss of a close family member or friend | Moderate or major problem |
| Health care | Must have at least one of the following: |  |
|  | - Finding affordable health insurance | Moderate or major problem |
|  | - Getting the health care you need | Moderate or major problem |

| Index | Individual Variables Used in Index | Required Rating |
| :---: | :---: | :---: |
|  | - Affording the medications you need | Moderate or major problem |
|  | - Getting the oral health care you need | Moderate or major problem |
|  | - Getting the vision care you need | Moderate or major problem |
|  | - Having adequate information or dealing with public programs such as Social Security, Medicare and Medicaid | Moderate or major problem |
| Institutionalization risk | Must have at least one of the following: |  |
|  | - Performing regular activities, including walking, eating and preparing meals | Moderate or major problem |
|  | - No longer being able to drive | Moderate or major problem |
|  | - Falling or injuring yourself in your home | Moderate or major problem |
|  | - A hospital | Spent 3 or more days in past 12 months |
|  | - In a long-term care facility (including nursing home or in-patient rehabilitation) | Spent 3 or more days in past 12 months |
|  | - Thinking back over the past 12 months, how many times have you fallen and injured yourself? Was it... | Fell 3 or more times in past 12 months |
|  | - Receive assistance from someone almost every day | Sometimes, usually or always |
| Basic necessities | Must have at least one of the following: |  |
|  | - How do you rate your overall quality of life? | Fair or poor |
|  | - Having housing to suit your needs | Moderate or major problem |
|  | - Having enough food to eat | Moderate or major problem |
|  | - Having safe and affordable transportation available | Moderate or major problem |

## Appendix C: Benchmark Comparisons

NRC has developed a database that collates responses to CASOA and related surveys administered in other communities, which allows the results from Gilpin County to be compared against a set of national benchmarks. This benchmarking database includes responses from more than 35,000 older adults (age 55 and over) in 175+ communities across the nation. The demographics of NRC's database match the demographics in the nation, based on the U.S. Census 2010 estimates.

## Interpreting the Results

Ratings are compared when similar questions are included in NRC's database and there are at least five communities in which the question was asked. Where comparisons are available, three numbers are provided in the table. The first column is Gilpin County's proportion of the population responding in a particular way (e.g., percent "likely" to recommend living in the community). The second column is the rank assigned to this rating among communities where a similar question was asked. The third column is the number of communities that asked a similar question. The fourth column shows the comparison of Gilpin County's rating (column one) to the benchmark.
Where comparisons for ratings were available, Gilpin County's results were generally noted as being "higher" than the benchmark, "lower" than the benchmark or "similar" to the benchmark. In instances where ratings are considerably higher or lower than the benchmark, these ratings have been further demarcated by the attribute of "much," (for example, "much higher" or "much lower"). These labels come from a statistical comparison of the Gilpin County's rating to the benchmark where a rating is considered "similar" if it is within than the margin of error; "higher" or "lower" if the difference between your community's rating and the benchmark is greater the margin of error; and "much higher" or "much lower" if the difference between your community's rating and the benchmark is more than twice the margin of error.

Table 5 I: Community as a Place for Older Residents Benchmarks

|  | Gilpin County <br> percent | Rank | Number of Jurisdictions for <br> Comparison | Comparison to <br> benchmark |
| :--- | ---: | ---: | ---: | ---: | :---: |
| Community as an excellent or good <br> place to live | $83 \%$ | 261 | 393 | Similar |
| Community as an excellent or good <br> place to retire | $54 \%$ | 352 | 391 | Lower |
| Excellent or good overall services <br> provided to older adults | $48 \%$ | 42 | 69 | Similar |

Table 52: Recommendation of Community to Others Benchmarks

|  | Gilpin County <br> percent | Rank | Number of Jurisdictions for <br> Comparison | Comparison to <br> benchmark |
| :--- | ---: | ---: | ---: | :---: |
| Likely to recommend living to <br> older adults | $49 \%$ | 314 |  | 315 |

Table 53: Remaining in Community Throughout Retirement Benchmarks

|  | Gilpin County <br> percent | Rank | Number of Jurisdictions for <br> Comparison | Comparison to <br> benchmark |  |
| :--- | ---: | :---: | :---: | :---: | :---: |
| Likely to remain throughout <br> retirement | $64 \%$ | 69 |  | 69 | Lower |

Table 54: Older Adult Community and Belonging Benchmarks

|  | Gilpin <br> County <br> percent | Rank | Number of <br> Jurisdictions for <br> Comparison | Comparison to <br> benchmark |  |
| :--- | ---: | ---: | ---: | ---: | ---: |
| Excellent or good sense of community | $59 \%$ | 249 |  | 392 | Similar |
| Excellent or good openness and acceptance of the <br> community towards older residents of diverse <br> backgrounds | $64 \%$ | 166 |  | 376 | Similar |
| Excellent or good overall feeling of safety | $76 \%$ | 122 | 202 | Similar |  |
| Excellent or good valuing of older residents | $59 \%$ | 25 | 68 | Similar |  |
| Excellent or good neighborliness | $56 \%$ | 128 |  | 199 | Similar |

Table 55: Safety Problems Benchmarks

|  | Gilpin County <br> percent | Rank | Number of Jurisdictions <br> for Comparison | Comparison to <br> benchmark |
| :--- | ---: | ---: | ---: | ---: | ---: |
| Problems with being a victim of crime | $14 \%$ | 23 | 69 | Similar |
| Problems with being a victim of fraud or a <br> scam | $19 \%$ | 31 | 68 | Similar |
| Problems with being physically or <br> emotionally abused | $4 \%$ | 61 | 68 | Similar |
| Problems with being treated unfairly or <br> discriminated against because of age | $23 \%$ | 36 | 61 | Similar |

Table 56: Awareness of Older Adult Services and Activities Benchmarks

Appendix E: Survey Materials

It won't take much of your time to make a big difference!

Your household has been randomly selected to participate in a survey about your community. Your survey will arrive in a few days.

Thank you for helping us with this important study!

Sincerely,
¡No le tomará mucho de su tiempo para marcar una gran diferencia!

Su hogar ha sido elegido al
azar para participar en una encuesta sobre su comunidad. Su encuesta le llegará dentro de pocos días.
¡Gracias por ayudarnos con este importante estudio!

Atentamente,

Jayla Sanchez-Warren Director/Directora

Dear Resident,

Denver, CO 80203-5606

May 2018
Dear Resident:
The Denver Regional Council of Governments, in association with the Colorado Association of Area Agencies on Aging (C4A) and with funding from NextFifty Initiative, is conducting a survey to learn about the current and future needs of older adults living in Adams, Arapahoes, Clear Creek, Douglas, Gilpin, and Jefferson Counties, as well as the City and County of Broomfield and the City and County of Denver.

El Consejo Regional de Denver de la Agencia de Área de Gobiernos Locales sobre el Envejecimiento está llevando a cabo una encuesta en cu comunidad para enterarse de rus necesidades actuales y futuras. Usted ha dido elegido al azar para participar en la encuesta. Si usted prefiere completar la encuesta en Español, puede hacerlo en el sitio de red escrito abajo. Bor favor escriba el vínculo exactamente como aparece. ¡Gracias jor participar!

Please take a few minutes to complete the enclosed survey. Your participation in this survey is very important - especially since your household is one of only a small number of households being surveyed. Your feedback will help us to better understand and plan for the needs of older adults in our community.

## A few things to remember:

- Your responses are completely anonymous.
- In order to hear from a diverse group of older residents, the adult 60 years or older in your household who most recently had a birthday should complete this survey.
- Please return the survey by mail in the enclosed postage-paid envelope, or you can complete the survey online at:

If you have any questions or need assistance with this survey, please call Mindy Patton at 303-480-6723.
Thank you for your time and participation.
Respectfully,

Jayla Sanchez-Warren
Director, Area Agency on Aging

May 2018
Dear Resident:

Here's a second chance if you haven't already responded to our 2018 community survey! (If you completed it and sent it back, we thank you for your time and ask you to recycle this survey. Please do not respond twice.)

The Denver Regional Council of Governments, in association with the Colorado Association of Area Agencies on Aging (C4A) and with funding from NextFifty Initiative, is conducting a survey to learn about the current and future needs of older adults living in Adams, Arapahoes, Clear Creek, Douglas, Gilpin, and Jefferson Counties, as well as the City and County of Broomfield and the City and County of Denver.

Director, Area Agency on Aging

Please complete this questionnaire if you are the adult (age 60 or older) in the household who most recently had a birthday. The adult's year of birth does not matter. Please circle the response that most closely represents your opinion for each question. Your responses are anonymous and will be reported in group form only.

1. Please circle the number that comes closest to your opinion for each of the following questions:
Excellent Good Fair Poor Don't know
How do you rate your community as a place to live? ........................................................................................................................................... 5
2. Please rate each of the following characteristics as they relate to adults age $\mathbf{6 0}$ or older in your
community: Excellent Good Fair Poor Don't know
Opportunities to volunteer............................................................................... 1 ............. 2 .......... 3 .......... 4 ............ 5
Employment opportunities................................................................................ 1 ............. 2 .......... 3 .......... 4 ............. 5

Opportunities to enroll in skill-building or personal enrichment classes............. 1 ............. 2 .......... 3 .......... 4 ............ 5
Recreation opportunities (including games, arts, and library services, etc.)......... 1 ............. 2 .......... 3 .......... 4 ............. 5
Fitness opportunities (including exercise classes and paths or trails, etc.) ............ 1 ............. 2 .......... 3 .......... 4 ............. 5
Opportunities to attend social events or activities............................................. 1 ............. 2 .......... 3 .......... 4 ............ 5
Opportunities to attend religious or spiritual activities ....................................... 1 ............. 2 .......... 3 .......... 4 ............. 5
Opportunities to attend or participate in meetings about local government or community matters ............................................................. 1 ............. 2 .......... 3 .......... 4 ............. 5
Availability of affordable quality housing........................................................... 1 ............. 2 .......... 3 .......... 4 ............ 5
Variety of housing options ............................................................................... 1 ............. 2 .......... 3 .......... 4 ............ 5
Availability of long-term care options ............................................................... 1 ............. 2 .......... 3 .......... 4 ............ 5
Availability of daytime care options for older adults.......................................... 1 ............. 2 .......... 3 .......... 4 ............ 5
Availability of information about resources for older adults ............................... 1 ............. 2 .......... 3 .......... 4 ............. 5

3. How would you rate the overall services provided to adults age $\mathbf{6 0}$ or older in your community?
$\square$ Excellent
$\square$ Good
Fair
$\square$ Poor
Don't know
4. In general, how informed or uninformed do you feel about the following?
Very

informed \begin{tabular}{c}
Somewhat <br>
informed

 

Somewhat <br>
uninformed

 

Very <br>
uninformed
\end{tabular}

5. Please circle the number that comes closest to your opinion for each of the following questions:

|  | Excellent | Good | Fair | Poor | Don't know |
| :---: | :---: | :---: | :---: | :---: | :---: |
| How do you rate your overall physical health? |  |  |  |  |  |
| How do you rate your overall mental health/emotional well being? |  |  | 3 | 4 |  |
| How do you rate your overall quality of life? |  |  | . 3 | 4 |  |

6a. The following questions list a number of problems that older adults may or may not face. Thinking back over the last 12 months, how much of a problem, if at all, has each of the following been for you?

7. Thinking back over the past 12 months, how many days did you spend...
As a patient in a hospital? $\qquad$ number of days

In a long-term care facility (including nursing home or in-patient rehabilitation)? $\qquad$ number of days
8. Thinking back over the past 12 months, how many times have you fallen and injured yourself? Was it...
$\square$ Never
$\square$ Once or twice
$\square$ 3-5 times
$\square$ More than 5 times
$\square$ Don't know
9. How likely or unlikely are you to recommend living in your community to older adults?
$\square$ Very likely
Somewhat likely
$\square$ Somewhat unlikely
$\square$ Very unlikely
$\square$ Don't know
10. How likely or unlikely are you to remain in your community throughout your retirement?
$\square$ Very likely
$\square$ Somewhat likely
$\square$ Somewhat unlikely
$\square$ Very unlikely
$\square$ Don't know

| . In the last 12 months, about how many times, if ever, have you participated in or done each of the following? | 2 times a week or more | 2-4 times a month | Once a month or less | Not <br> at all |
| :---: | :---: | :---: | :---: | :---: |
| Used a senior center in your community | ........ 1 ........ | 2 |  | . 4 |
| Used a recreation center in your community | 1 | 2 | 3 |  |
| Used a public library in your community |  |  | 3 |  |
| Used bus, rail, subway or other public transportation instead of |  | 2 | 3 . |  |
| Visited a neighborhood park |  | 2 | 3 |  |
| Attended a local public meetin |  | 2 | 3. |  |
| Watched (online or on television) a local public meeting |  | 2 |  |  |

12. During a typical week, how many hours do you spend providing care for one or more individuals with whom you have a significant personal relationship (such as a spouse, other relative, partner, friend, neighbor or child), whether or not they live with you?

| Never | 1 to 3 | 4 to 5 | 6 to 10 | 11 to 19 | 20 or more | Don't |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| (no hours) | hours | hours | hours | hours | hours | know |
| One or more individuals age 60 or older ..... 1 | 2 | 3 | . 4 | 5 | . 6 | . 7 |

| One or more individuals under age 18 ....... $1 . .$. | . 2 | 3 | . 4 | .. 5. | .... 6 ... |  |

## Community Survey 2018

## 13. During a typical week, how many hours, if any, do you spend doing the following?

## 14. How often, if at all, do you do each of the following, considering all of the times you could?

## 15. How frequently, if ever, do you do each of the following things on the Internet (using a computer,

 tablet, cell phone, etc.)?| Daily | Weekly | Monthly | Less than once per month | Never/Not applicable |
| :---: | :---: | :---: | :---: | :---: |
| Use email, texting or video to communicate..................................... | 2 | 3 | ........ 4 ........ | 5 |
| Use social media (Facebook, Twitter, LinkedIn) | 2 | 3 | ...... $4 . .$. | ..... 5 |
| Get the news or weather ............................................................... 1 | 2 | 3 | 4. | .... 5 |
| Shop, search for products and services | 2 | 3 | ..... $4 . .$. | .... 5 |
| Research or study a topic of interest ............................................... 1 | 2 | 3 . | .. $4 . . .$. | .... 5 |
| Share opinions, post to a blog, review a product or service ..... | 2 | 3 | ..... $4 . .$. | .... 5 |
| Attend an online class or training.................................................... 1 | . 2 | . 3 . | ..... 4 ...... | .... 5 |
| Work from home | 2 | 3 | 4.... | .... 5 |
| Banking online (paying bills, investing, etc.) | 2 | 3. | .. 4 ...... | .... 5 |
| Find info on community resources and events.................................. 1 | . 2 | . 3 . | ...... $4 . .$. | .... 5 |
| If you have a question, use Internet to the find the answer................. 1 | . 2 | .. 3 .. | ...... $4 . . .$. | .... 5 |
| Engage in civic activities (participate in a discussion about community and government issues; research information about an issue or a candidate) $\qquad$ 1 | .. 2 | $\text { ... } 3 \text {.. }$ | $4 .$ | $.5$ |
| Look up health and medical information........................................ 1 | . 2 | . 3 . | ...... $4 . . .$. | .... 5 |
| Communicate with government (seek services, get a license, discuss a problem) $\qquad$ | $\text { .. } 2$ | $\text { ... } 3 \text {.. }$ | 4...... | $\text { ..... } 5$ |
| Sell goods and services online, advertise .......................................... 1 | . 2 . | ... 3 ... | ....... $4 . . . . .$. | ...... 5 |
| Find directions or look up a map .................................................. 1 | . 2 | . 3 .. | ... $4 . .$. | .. 5 |

## 16. How comfortable, if at all, are you at each of the following?

|  | Very comfortable | Somewhat comfortable | Not at all comfortable | Don't <br> know | Not applicable |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Using a computer laptop/desktop ........................................... 1............. 2................. 3 ............ $4 . . . . . . . . . . . ~ 5 ~$ |  |  |  |  |  |
| Using a smartphone or tablet computer | 1............. 2................. 3 ............. 4 ........... 5 |  |  |  |  |
| Accessing the Internet | 1............. 2................. 3 .............. $4 . . . . . . . . . . . ~ 5$ |  |  |  |  |
| Using email | 1............. 2................. 3 ............. 4 ............ 5 |  |  |  |  |
| Locating information online (bus schedules, weather, news, etc.) | 1............. 2................. 3 .............. 4 ............ 5 |  |  |  |  |
| Using social networking sites (Facebook, Twitter, etc.) | 1............. 2................. 3 ............. $4 . . . \ldots \ldots . . . . .5$ |  |  |  |  |

Our last questions are about you and your household. Again, all of your responses to this survey are completely anonymous and will be reported in group form only.

D1. How many years have you lived in your community?
Less than 1 year
1-5 years
6-10 years
11-20 years
More than 20 years
D2. Which best describes the building you live in?
$\square$ Single family home
Townhouse, condominium, duplex or apartmentMobile home
Assisted living residence
Nursing home
Other
D3. Do you currently rent or own your home?
Rent
Own (with a mortgage payment)
Own (free and clear; no mortgage)
D4. About how much is your monthly housing cost for the place you live (including rent, mortgage payment, property tax, property insurance and homeowners' association (HOA) fees)?
Less than $\$ 300$ per month

- $\$ 300$ to $\$ 599$ per month
- $\$ 600$ to $\$ 999$ per month
- $\$ 1,000$ to $\$ 1,499$ per month
- $\$ 1,500$ to $\$ 2,499$ per month
- \$2,500 or more per month

D5. How many people, including yourself, live in your household? $\qquad$ members

D6. How many of these people, including yourself, are...

60 or older. $\qquad$ members

17 or younger. $\qquad$ members
18-59 years old. $\qquad$ members

D7. What is your employment status?
$\square$ Fully retired $\rightarrow$ Go to Question D9
Working full time for pay
Working part time for pay
Unemployed, looking for paid work
D8. [IF NOT YET FULLY RETIRED]
At what age do you expect to retire completely and not work for pay at all? $\qquad$ years old

D9. How much do you anticipate your household's total income before taxes will be for the current year? (Please include in your total income money from all sources for all persons living in your household.)
Less than $\$ 15,000$

- $\$ 15,000$ to $\$ 24,999$
- $\$ 25,000$ to $\$ 49,999$
- \$50,000 to $\$ 74,999$
- $\$ 75,000$ to $\$ 99,999$
[ $\$ 100,000$ or more

## Please respond to both questions D10 and D11.

D10. Are you Spanish/Hispanic/Latino?
$\square$ Yes
$\square$ No
D11. What is your race? (Mark one or more races to indicate what race you consider yourself to be.)
American Indian or Alaskan native
Asian or Pacific Islander
Black, African American

- White/Caucasian
$\square$ Other
D12. In which category is your age?

| $\square 60-64$ years | $\square 80-84$ years |
| :--- | :--- |
| $\square 65-69$ years | $\square 90-89$ years |
| $\square 70-74$ years | $\square 95$ years |
| $\square 75-79$ years | $\square 95$ years or older |

D13. What is your sex?
$\square$ Female
$\square$ Male
O Other/non-conforming
D14. What is your sexual orientation?
$\square$ Heterosexual
Lesbian
Gay
Bi-sexual

D15. Are you a grandparent raising a grandchild? $\square$ Yes $\square$ No

Thank you for completing this survey. Please return the completed survey in the postagepaid envelope to:
National Research Center, Inc. Data Entry P.O. Box 549, Belle Mead NJ 08502-9922

[^0]:    ${ }^{1}$ These ratings are not to be understood like ratings from school tests. Because they are summaries of several questions that range from 0 as "poor," 33 as "fair," 66 as "good" and 100 as "excellent", a score of 58 , as one example, should be interpreted as closer to "good" than "fair" (with the midpoint of the scale, 50, representing equidistance between "good" and "fair").

[^1]:    * Estimated, based on Colorado State Demography Office, Single Year of Age Data 1990-2050

[^2]:    ${ }^{2}$ See AAPOR's Standard Definitions here: http://www.aapor.org/Standards-Ethics/Standard-Definitions-(I).aspx for more information

[^3]:    ${ }^{3} \mathrm{~A} 95 \%$ confidence interval indicates that for every 100 random samples of this many residents, 95 of the confidence intervals created will include the "true" population response. This theory is applied in practice to mean that the "true" perspective of the target population lies within the confidence interval created for a single survey. For example, if $75 \%$ of residents rate a service as "excellent" or "good," then the $4 \%$ margin of error (for the $95 \%$ confidence interval) indicates that the range of likely responses for the entire community is between $71 \%$ and $79 \%$. This source of uncertainty is called sampling error. In addition to sampling error, other sources of error may affect any survey, including the non-response of residents with opinions different from survey responders. Though standardized on CASOA, on other surveys, differences in question wording, order, translation and data entry, as examples, can lead to somewhat varying results.
