

A banner image showing a modern multi-story apartment building on the left, a paved walkway with a black metal fence in the middle, and a person walking. The background is a mix of green and blue with abstract patterns.

Denver Region Sustainable Communities Initiative

Northwest Corridor Proposed Vision (As of 12/12/13)

The Northwest Corridor is a national example of how multiple modes of transportation can connect a region and support the development of transit-oriented communities. The multimodal corridor not only links Denver and Boulder, but more so, connects all the communities in between to major employment, education, recreation and housing choices by a variety of transportation options. The corridor strives to be a model of innovation and creativity while promoting sustainable practices focused on economic development, environmental conservation and social equity. With stunning views of the Flatirons, a strong local economy and a diverse mix of housing choices for a broad demographic, the Northwest Corridor is truly unique.
