

# Denver Regional Aerial Photography Project 2014

## Meeting Minutes

Thursday, April 24, 2014 - 10:00am to 11:30

DRCOG~1290 Broadway~Denver 80203

1st floor Independence Pass Conference Room (West Side)

### Attendees:

1. Ashley Summers	DRCOG	
2. Josh Pendleton	DRCOG	
3. Jenny Todd	DRCOG	
4. Matt Simmons	MWRD	
5. Windy Fischer	MWRD	
6. Nick Mesenbrink	CDOT	
7. Jeff Caldwell	Castle Rock	
8. Scott Snyders	Denver Water	
9. Robert Stansauk	Denver Water	
10. Doug Genzer	Denver	
11. Larry Rector	Aurora	
12. Dave Murray	Westminster	
13. Bill Keever	Aurora	Call-in
14. Derek Stertz	Centennial	Call-in
15. Barbara Morey	Jefferson County	Call-in
16. John Voboril	Englewood	Call-in
17. Debbie Jenkins	Erie	Call-in
18. Greg Baca	Adams County	Call-in
19. Sheila Pelczarski	Denver Water	Call-in
20. Kirk Hayer	Commerce City	Call-in
21. Matt Taylor	Clear Creek County	Call-in
22. Mark Mullane	Boulder County	Call-in
23. Phillip Patterson	Lafayette	Call-in
24. Jacob Mundt	Weld County	Call-in
25. Jim Clark		Call-in
26. Deborah Wilson	Thornton

APR 2014 Presentation.pdf

### Meeting Objective:

DRAPP 2014 Status Update Meeting

## Discussion Points:

- During a discussion of the DRAPP License Agreement, the Colorado Open Records Act (CORA) was brought up. The question was asked as to whether the current imagery is subject to CORA considering it is purchased with tax-payer money. CORA allows for the cost of the request to be recovered and many of our partners have fee schedules to handle data requests. To date, DRCOG has not received an open records request for imagery and therefore has not addressed it. Currently, DRCOG responds to imagery inquiries by routing the requestor to IntraSearch/MapMart so that they can buy the tiles they need. DRCOG suggests that if any partners receive a request for the current imagery (open records or otherwise) they contact DRCOG. DRCOG will determine the appropriate response.
- Also in reference to the DRAPP License Agreement, a clarification of "tiles" was requested. Part of the license agreement says that a partner cannot distribute the tiles from the most current imagery product beyond their organization. This applies to any derivation of the tiles, including a clipped or mosaicked product.
- When discussing LIDAR software, two other software packages were offered as potential products for DRCOG to review. We will look into Virtual Geomatics and LP360. The fact that Global Mapper offers free webinars was also mentioned in case partners want to seek training on their own. If partners would like DRCOG to coordinate a group training in the fall, we will be happy to do that.
- In terms of Regional Planimetrics, there appears to be several jurisdictions that are interested in pursuing a joint project. In addition to building footprints and edge of pavement, parking and hydro were also mentioned as important features to collect. Since many partners are in budget talks right now for 2015, DRCOG is going to pursue a quote from Kucera so we can determine how to proceed.

## Questions?

If you have any questions or comments about DRAPP, please contact DRCOG GIS Manager Ashley Summers at [asummers@drcog.org](mailto:asummers@drcog.org) or 303-480-6746.
