| 13. Barb Morey | JeffCo |
| 14. Doug Genzer | Denver |
| 15. Annabel Montoya | Wheatridge |
| 16. Larry Rector | Aurora |
| 17. Kevin Brown | Glendale |
| 18. Pam Fromhertz | NOAA/NGS |

Meeting Materials for Reference:

NOV 2013 Agenda.docx
NOV 2013 Presentation.pdf

Objective: Official Kick-off of the 2014 Project

Discussion Points:

- Announcement of 2014 vendors: Kucera International and IntraSearch/MapMart
- In response to which datum adjustment should we specify, Pam suggested NAD83 (2011) and all attendees concurred. The group asked what the FEMA/USGS LiDAR project specified and I've posed that question to the feds.

Questions?

If you have any questions or comments about DRAPP, please contact DRCOG GIS Manager Ashley Summers at asummers@drcog.org or 303-480-6746.

- The group was asked to submit areas of concern (shapefiles) and examples of "good" and "bad" color balance and tone (tiles). Those files can be added to the DRCOG FTP site and will be passed on to the vendor. All files are due by March 1. Credentials are as follows:
 - ftp.drcog.org/GIS/DRAPP/Examples_2014
 - User: ftp_readyonly
 - Password: Denver2011
- The group asked for the shapefile delineating lidar quality levels. That was sent out after the meeting.
- The group decided that it would be helpful to have a technical LiDAR session at some point in the future. Ashley will work on finding vendors that would do a workshop with us to help us use our LiDAR data.
- The group worked on redrawing the 3in extent to benefit more partners. We decided collectively to remove some area on the west and southwest edge in favor of adding area in the north and east. A new shapefile will go out to potential 3in partners on Friday 11/22.

Questions?

If you have any questions or comments about DRAPP, please contact DRCOG GIS Manager Ashley Summers at asummers@drcog.org or 303-480-6746.
