BOARD RECEIVES PRESENTATION ON URBAN LAND INSTITUTE TECHNICAL ASSISTANCE PANEL

In 2016, the Denver Regional Council of Governments provided \$10,000 in matching funds to the Urban Land Institute to facilitate technical advisory panels in Englewood and Superior. The panels convene Urban Land Institute members for two days who volunteer their time and expertise to address a specific problem identified by a jurisdiction. Marilee Utter, president of Citiventure; Brad Power, director of the City of Englewood's community development department; and Jordan Block, urban designer/planner at RNL Design provided information about the projects. In Englewood, the panel addressed connecting transit-oriented development with the Broadway corridor, redeveloping commercial strips and responding to hospital leadership's request to explore attracting hotels with meeting space to the area. In Superior, the panel examined Superior Town Center from a market and design perspective, and evaluated the opportunity for development, including residential and office space while retaining anchor retailers.

BOARD APPROVES AMENDMENT TO THE 2016-2021 TRANSPORTATION IMPROVEMENT PROGRAM

The board adopted a resolution approving an amendment to the 2016-2021 Transportation Improvement Program related to Central Interstate 70 to add Senate Bill 09-228 transfers from the state general fund to the Colorado Department of Transportation; bonds/loans funding categories and reduce Colorado Bridge Enterprise funding. Overall funding remains unchanged. BOARD ADOPTS THE 2018-2021 TRANSPORTATION IMPROVEMENT PROGRAM AND ASSOCIATED AIR QUALITY CONFORMITY DOCUMENTS

To better align with the timing of the Colorado Department of Transportation's Statewide Transportation Improvement Program, the Board adopted a four-year, short-term document that outlines how federal, state and local transportation funding is allocated to projects in the Denver metro area. The 2018-2021 Transportation Improvement Program includes projects selected by DRCOG, CDOT, and the Regional Transportation District, each with its own selection processes and funding sources. Per federal transportation planning requirements, all pollutant emission

tests were passed, as shown in associated carbon dioxide, particulate matter and Denver southern subarea eight-hour ozone air quality conformity determinations.
